1898-99 ..	77,48,115	1,20,38,421	1,97,86,536	36,30,827	79,21,490	1,15,52,317	65·8	58·4	11,68,448	70,65,771

Comparing, however, total collections with the current demand (which, as stated in the Resolution of last year, is on the whole the best comparison) the results are as follows:—

Year.		Per cent.
1894-95	... ...	98·5
1895-96	... ...	95·3
1896-97	... ...	95·5
1897-98	... ...	100·3
1898-99	... ...	95·9

The increase in the arrear and current demands is chiefly attributable to the assumption of charge of the Lachmipur Estate in Bhagalpur. The total collections on the aggregate of these estates fell short of a year's rent, and, having regard to the generally favourable circumstances of the year, the Lieutenant-Governor is constrained to say, were not altogether satisfactory. The percentage of current collections on the current demand for all estates was 65·8, and for estates in charge throughout the year 66·0. The success in rent collection varied. In the Presidency Division the results were excellent. The collections were worst in the Rajshahi Division, where only 51·9 per cent. of the current demand was realised in estates under management for the entire year, and only 13·7 per cent. in estates under management for a part of the year. The collections in Rangpur were particularly bad. The Collector says that the selling price of grain was low, and consequently the raiyats had little ready money; the Commissioner says that the management was bad. The Lieutenant Governor has been much struck. The due collection of the rents is the very first duty of the District Officer and his manager. If these things happen in the green tree, what shall happen in the dry? If a manager fails in a good year, what will he do in a bad one? Unless there is reason to suspect that rents are too high, the punctual payment of rents must be firmly insisted upon in seasons of average harvest. Weakness in this matter only leads to the gravest injury of the tenants themselves. Accumulated claims for arrears come upon them in seasons when they cannot pay, and they are embarrassed or ruined, or the estate loses those just dues, which the Court of Wards have it in trust to realise. The Lieutenant-Governor regrets to find that the Commissioners are not furnished in all cases with those periodical returns which enable them to discover when collections are behind-hand, to ascertain the reasons, and to correct looseness and weakness of work. It is not till after the agricultural year is over that they know how collections have gone on in the estates. Failures it is then too late to remedy. A closer supervision is plainly necessary, and the Board will be separately addressed about the introduction of returns which will enable that supervision by the Commissioner to be prompt and effective.

The total remissions were Rs. 11,68,448, or nearly 10 per cent. of the current demand, a sum very much in excess of any previous year's total. This result followed from the orders which were issued in the Government Resolution

for 1895-96, and re-affirmed in that for 1897-98, directing the classification of the arrear balances with a view to the separation of amounts which are really due and realisable from sums in reality fictitious and hopelessly irrecoverable, and requesting that the accounts might be cleared of outstanding demands of the latter description The Board obtained quarterly reports from the Commissioners showing the action taken to give effect to these orders in 1898-99; and though the Lieutenant-Governor finds that the progress made is still in some cases unsatisfactory, and desires that such reports may continue to be submitted to the Board, yet he is gratified to find that substantial improvement has been effected. The differentiation of the estate claims for arrears of rent is, of course, a difficult process; but it is a matter which must be patiently persevered in, year after year. Every year claims get barred, or tenants fail, and the rent-roll has to be purged of items, which it is useless to retain; and there is no part of the manager's duty, which gives him such light on the actual condition of the tenantry and the conduct of his subordinate staff. In the Burdwan Estate the unrealised balance due from the *khas* villages at the close of the year amounted to Rs. 8,49,593, including Rs. 25,935 barred by limitation. The corresponding figures last year were Rs. 8,98,832, and Rs. 80,062, and the Board do not consider the progress made in reducing the balances to be entirely satisfactory. In the Sridharpur Estate, in which large arrears were discovered for the first time during the year under report, the causes of which are stated by the Board, Rs. 3,99,469 were barred by limitation, and Rs. 66,579 are said to be under valid objection on the part of the tenants. It is desired that suitable steps be taken for the disposal of these arrears before the end of this year.

At the close of the year a total amount of Rs. 70,65,771 in all was due to the estates under management as compared with Rs. 72,79,564 in the previous year, the reduction being entirely due to the great increase in the amount remitted.

5. *Debts due by Estates* – The estates which were under the Board's management for the entire year were indebted to a total amount at the commencement of the year of Rs. 1,18,50,502, while additional liabilities to the extent of Rs. 16,27,720 were ascertained to be due, or were newly incurred, during the year, making a total of Rs. 1,34,78,222. After deduction of the payments made amounting to Rs. 13,69,464, and allowing for reduction of Rs. 9,122 by compromise, a balance of Rs. 1,20,99,636 remained outstanding at the close of the year. The increase in comparison with the amount due at the close of 1897-98 (Rs. 1,17,40,672) was mainly due to the inclusion of the figures for the first time of the debts due by the estates of Lachmipur in Bhagalpur (Rs. 5,26,096) and Pandra (1st and 3rd kismuts) in Manbhum (Rs. 2,53,140), and to the non-payment of debts during the year by the Hardi Estate in Patna, and the Patkum and Barabhum Estates in Manbhum.

The most notable failures to reduce debt occurred in Bettiah, Nawada, Patkum, Barabhum, Katras, Biru, and Sridharpur, and the Lieutenant-Governor must confess his disappointment that in so many and in such important estates there was no progress whatever in the extrication from embarrassment. To the management of these properties he knows that the Board will give their special attention in the current year. The refusal of lessees to pay the rents due from them embarrassed the management of Patkum and Barabhum. In Bettiah 2½ lakhs of fresh debts were discovered during the year, and Rs. 1,60,525 were borrowed from the Bank of Bengal to pay the interest and reduction charges of the sterling loan. Consequently the balance of debts due increased by Rs. 85,000. The death of the manager of the Nawada Estate threw the office into confusion, and additional loans had to be taken. In Sridharpur Rs. 50,000 had to be borrowed, and the sale of out-lying property has been decided on in order to relieve the strain.

6. *Management charges and rates* —During the year under report the management charges generally showed little variations from those in the previous year In explanation of several cases of increase, it is reported that arrears of salary due in the previous year were paid in the one under report. It is desired that if possible arrangements may be made to obviate the necessity of such an explanation in future; for the prompt payment of salaries is a

necessary condition of good work. The cost of management in the estates under the charge of the Board as a whole, excluding the cost of construction and repairs of office buildings, amounted to 7 per cent. of the total current demand for rent and cesses as against 6·9 per cent. in 1897-98.

The expenditure to be covered by the management rate, levied under Act X of 1892, was Rs. 1,53,422, in addition to which there was a deficit of Rs. 33,934 at the close of 1897-98. The gross income of the estates under management was estimated at Rs. 1,20,12,520, and the demand on account of the general rate levied under Act X of 1892 at Rs. 1,67,378. The actual demand, however, amounted to Rs. 1,67,315, which was less than the expenditure to be met by Rs. 20,041. In addition to the current demand of Rs. 1,67,315 as above, the year opened with an arrear demand of Rs. 60,240. Of the total of Rs. 2,27,555 thus recoverable, Rs. 2,04,987 were realised and Rs. 2,626 paid in advance, leaving a balance of Rs. 19,942, the greater portion of which has been recovered since the close of the year.

The rate for the professional audit of accounts of estates with annual rent and cess demands of Rs. 50,000 and upwards was fixed for the year under report at one anna per Rs 100 of the gross income of the Burdwan Raj, two annas for the Bettiah Estate, three annas for the Hatwa Estate, four annas for the Tikari Estate, and seven annas for the 18 other estates concerned. The estimated income and expenditure were Rs. 19,547 and Rs. 21,550, respectively, but the actuals were Rs. 19,720 and Rs. 17,664, and as there was a balance of Rs. 1,550 from the previous year, there remained a surplus of Rs. 3,606. The decrease in expenditure was due presumably to the audit of four estates not having been undertaken during the year.

With regard to collections, the amount to be recovered was Rs. 22,955, and Rs. 15,113 were actually collected. No explanation has been given of the cause of the arrears.

7. During the last five years the following amounts have been spent on the various descriptions of improvements :—

YEAR.	Subscriptions and donations to schools	Subscriptions and donations to dispensaries.	Maintenance in efficient condition of estates, buildings, and other immoveable property.	Improvement of land and property and benefit of ward.	Surveys and settlements.	Total.
		3	4		6	
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1898-99	71,028	61,463	2,98,774	2,05,662	1,52,325	7,89,252
1897-98	72,918	64,515	3,64,778	2,18,905	2,25,591	9,46,737
1896-97	52,941	44,790	3,89,093	1,78,152	1,13,114	7,7[illegible]
1895-96	52,306	38,699	4,11,228	1,85,850	1,69,240	8,5[illegible]
1894-95	60,217	58,564	1,68,808	[illegible],13,208	1,64,70[illegible]	[illegible]

Reasons have been given by the Board to account for most of the fluctuations in this as compared with the past year.

The following statement illustrates by Divisions the effect given during the year to the orders of Government, directing that (1) solvent estates under the charge of the Court of Wards should contribute 1 per cent. of the annual demand to education, and (2) at least 3 per cent. of the rental or such larger percentage on the surplus that remains after payment of Government revenue

and cost of management, &c., as the Board may determine, should be set aside for agricultural and sanitary improvements:—

Division.	One per cent of the rental.	Three per cent. of the rental.	Expenditure on schools.	Expenditure on works of improvement.
	2	3	4	
	Rs.	Rs.	Rs.	Rs.
Burdwan ...	47,830	1,43,490	27,130	28,112
Presidency	1,923	5,769	2,397	2,928
Rajshahi ...	1,909	5,727	1,529	9,412
Dacca ...	1,565	4,695	545	4,718
Chittagong	2,812	8,436	746	4,523
Patna ...	21,925	65,775	20,716	85,711
Bhagalpur	3,493	10,479	3,060	11,654
Orissa ...	2,540	7,620	3,834	25,269
Chota Nagpur	927	2,781	1,030	9,629
Total	84,924	2,54,772	60,987	1,81,956

It is understood that in all the cases referred to the estates in question were not deterred by want of funds from incurring the full expenditure, and though there may probably be valid reasons in every instance to account for the full amount not having been spent on works of improvement, yet the Lieutenant-Governor is not satisfied that the same can be said with regard to the short-coming, over 18 per cent. in the case of schools, and he trusts that the directions of Government will be more fully complied with in future.

8. *Survey and Settlement.*—The final reports on the survey and settlement of (1) the Burdwan Raj khas mahals, (2) the Monghyr portion of the Narhan Estate, and (3) the Tikari Estate and the Belkhara Mahal, which is partly owned by the Tikari Raj, have been received, and the orders of Government have been passed on the first two. Excluding the estates included in the general operations in Chittagong, Orissa, and North Bihar, there were four other estates under survey and settlement subject to the supervision of the Board.

In the Burdwan Raj the registers prescribed for the maintenance of records were opened, and a special establishment has been entertained to keep these records correct up to date. The number of mutations effected during the year was 951, covering an area of about 2,820 acres transferred. In the Sujamutha portion of the Burdwan Raj Estate, to which the Land Records Maintenance Act, III (B.C) of 1895, was extended in January 1897, the Manager has, in view of the records being defective in many particulars, been permitted to revise and maintain them by means of his local agency, pending the decision of the question of the maintenance of records in North Bihar and the amendment of the Act in connection therewith. In Maldwar mutations were not largely recorded on account of unwillingness on the part of the tenants to pay the fees. In the Dakhin Shahbazpur Estate, where the rules in regard to the maintenance of records were brought into operation in 1897-98, nothing was done during the year under report with regard to field-to-field enquiries, but they have since been commenced. Steps are being taken for the maintenance of records and maps in the Kanika and the Kujang Estates; and arrangements for the maintenance of records and maps in the Madhupur Estate in Cuttack are under the consideration of the Collector. This subject (which is now occupying the attention of Government) has been more fully treated in a previous Resolution on the report of the Director of Land Records and Agriculture.

9. *Certificates.*—There was a large increase in the number of certificates filed during 1898-99 as compared with the previous year (7,246 and 4,914, respectively), the increase being chiefly in the Chittagong and Patna Divisions. In Noakhali and Chittagong coercive measures were necessary in a large number of cases in consequence of the withholding of payments by tenants on the excuse of low prices of food-grains. In the Patna Division the increase was chiefly in the Tikari, Mobarak Hossain's, Bettiah, and Sheohar Estates, but the

cause of this increase is not explained. In the last named estate, with a rent-roll of less than Rs. 50,000, as many as 949 certificates were filed. This is a very large number, and the explanation promised by the Commissioner should be submitted to Government. At the same time it is observed that the total collections in that estate were more than 100 per cent., and that the manager has considerably reduced the balances. In the Orissa Division no certificates were filed during the year. The number of cases disposed of was greater than in the previous year (6,530 as compared with 6,194); out of the total demand covered by the certificates filed, only 37·5 per cent. was realised as compared with 39·7 per cent. during the previous year.

10. *Civil Suits.*—Although the number of civil suits filed during the year decreased (from 3,903 to 3,535), there was an increase in the number of cases left undisposed of at the close of the year. The Board have drawn the special attention of the Commissioners to the remarks made by Government in the Resolution of last year regarding the prompt execution of decrees by managers of estates; but the results attained, though better than those of the previous year, are not satisfactory, as out of Rs. 3,25,212 decreed, a sum of only Rs. 1,91,061 was recovered. In Chittagong, decrees were obtained in 72 cases for an aggregate of Rs. 13,632, but only Rs. 733 were realised, a result ascribed by the Collector to the insolvency of the debtors. But if the debtors were really insolvent, the manager presumably should have known the fact before he sued them, and it should be impressed on the Collector that more discretion in future should be exercised.

11. *Condition of the tenantry.*—The estates under the Court of Wards' are scattered throughout the province, and the Lieutenant-Governor observes with pleasure that, generally speaking, the measure of prosperity enjoyed by the province as a whole was shared by the tenantry on those estates, and that the relations between the managing agency and the tenants were satisfactory. He congratulates the Board and the tenantry of the estates in their charge on the excellent prospects of the current year.

12. *Estates with a rent-roll of Rs. 50,000 and upwards.*—As usual, a short account is given of the affairs of each estate with a rent-roll of half a lakh or upwards. The Burdwan Raj Estate continues to be successfully managed by Raja Ban Bihari Kapur The settlement of police service lands with the estate by Government continued, lands in 515 villages being settled with *patnidars* or others. The progress made in the settlement of holdings in the five *ghats* of the jungle mahals was not satisfactory, the total enhancement obtained up to the year of report being Rs. 1,166 only The settlement of the ghatwali lands in Bankura still continues. As in the previous year, the progress made in the recovery of debts due to the estate was not rapid, and a balance of Rs. 89,131 remains unrealised out of a total demand of Rs. 1,28,819. As compared with the previous year, both receipts and disbursements show a decrease. The sum of Rs. 25,812 was spent on improvements as against Rs. 41,234 in the preceding year. The litigation on behalf of the estate was on the whole successful, but only 40·9 per cent. of the amount covered by civil and certificate decrees in favour of the estate was realised or remitted.

During the year under report the High Court have decreed both of the Sheohar appeals in favour of Maharani Janki Koer of Bettiah. The collections, and the management generally, were greatly hampered by the uncertainty engendered by the law-suits, and by the rumours of compromises which were current; and in order to meet the interest on the sterling loan, it was necessary to borrow Rs 1,60,525 from the Bank of Bengal. Still, with the advantages of a well-attested rent-roll and some cessation of litigation, it should be fairly easy to restore a balance in the accounts of the estate, especially when the realisation of the Bhopatpur loan begins.

In the Hatwa Estate the collections were 96·5 of the current demand, a result inferior to that of the previous year, of which no satisfactory explanation has been given. The closing balance to the credit of the estate amounted to Rs. 9,41,299, and Rs. 10,02,531 were invested during the year in Government securities, of which and municipal debentures the estate now holds Rs. 38,75,485 in value. The cost of management (Rs. 79,737), excluding the commissions paid on collections in villages which are in lease, amounted to 7·2 per cent. on the current demand

In the Tikari Estate 95·8 per cent. on the current demand was realised, in comparison with 95·5 per cent. in the previous year. The closing balance

of income over expenditure increased satisfactorily. The cost of management, which is 15·8 per cent. on the current demand, is high; though in explanation of this it appears that the greater part of the rent is derived from *khas* collections. An expenditure of Rs. 70,374 was incurred on works of improvement, including construction of wells, repairs to breaches in embankments, *gilandazi* or irrigation works, and an experimental home farm; but a large portion of that sum was really spent in the preceding year, the nominal expenditure of which was Rs. 20,604 only. Thus the nominal expenditure in the last three years has been Rs. 1,10,198, or an average of Rs. 36,733. It is desired that in future delays in obtaining the necessary sanction to this kind of expenditure may not arise to require explanation

Kumar Hari Narayan Sing Deo succeeded to the Pachete Encumbered Estate in Manbhum on the death of his father Raja Nilmoni Sing Deo on 24th August 1898. The debts due by the estate at the close of the year amounted to Rs. 7,80,302, the amount reported last year being Rs 5 80,963. Presumably new debts have been brought to light. In the Khagra Estate where the cost of management is under 9 per cent. the collections were fair, being 99·7 on the current demand, and much progress has been made in writing off irrecoverable demands, while nearly 4 per cent. on the current demand was spent on works of improvement. In the Narhan Estate in Darbhanga the cost of management increased from the already high rate of 15 per cent. (which was commented on last year) to 16·1 per cent. In spite of this collections deteriorated, little was spent on improvements, and arrears of rents increased. The only explanation advanced is that the attention of the staff was diverted during the year to the survey operations in progress; and this the Lieutenant-Governor does not consider entirely satisfactory. The attention of the Board is again desired to the management costs in this Estate. In the Syudpur Estate in Khulna the collections were 113·3 per cent. on the current demand as against 97·2 per cent. in 1897-98. The realisations on the Kanika Estate in Cuttack were satisfactory, amounting to 105·8 per cent. on the current demand; and Rs. 21,631, or 12 per cent., on the total collections was expended on works of improvement. The collections in the Maldwar Estate aggregated 101·1 per cent. on the current demand as against 95·1 per cent. in the preceding year; and the expenditure on works of improvement was Rs. 8,511, against Rs. 2,615 in the previous year. There are still, however, heavy arrears outstanding; and the same is true of the Satkhira Estate, in which the collections were good, amounting to 128·8 per cent. on the current demand. The debts due by this estate at the close of the year amounted to Rs. 1,82,610, only a very slight reduction having been made in the year.

The condition of the Sridharpur Estate was thoroughly unsound, and it has been decided to sell portions of the property. Its management will require the very careful attention of the Collector and Commissioner for some time to come. The collections in the Chittagong Estate of Rajkrishna Banerjea were very poor, owing to the results of the cyclone; and they were not good in the Shahabad Estate of Chandrakumar. Collections fell off in the Malighati Estate in Midnapore. The Lieutenant-Governor observes with satisfaction the great improvement already made in the affairs of the Paigambarpur Estate, consequent on the alteration in the staff and system of management.

13. The most important of the eight estates which came under the control of the Court of Wards during the year was Lachmipur in Bhagalpur, charge of which was assumed on 12th October 1898, the proprietress of the estate, Rani Makum Kumari, the eldest widow of the late Thakur Lalit Narayan Deo, being declared under section 6 (*a*) of Act IX (B.C.) of 1879 to be incompetent to manage her property, and her adopted son, Protap Narain Deo, being also declared under section 6 (*b*) to be a minor. The estate consists of properties in the districts of Bhagalpur and the Sonthal Parganas, the bulk of the property lying in the former district, the Collector of which has been appointed the Managing Collector. The rent and cess demands due to the estate are estimated at Rs 2,19,218 and Rs. 4,417, respectively, The debts due by the estate are stated to amount to Rs. 4,69,96[illegible], for the liquidation of which it is proposed to pay Rs 82,180 a year from the surplus profits of the estate. The late Mr. F. Braidwood was Manager of the estate from 1892 until his death since the close of the year. Babu Umacharan Bose, the ex-Manager of the Banaili Raj and a retired Deputy Collector, has

been appointed tutor and guardian to the minor on a salary of Rs. 200 per mensem.

The charge of the Deo Estate in Gaya was assumed by the Court of Wards on the 21st December 1898 on behalf of the minor Jagarnath Proshad Singh, who is seven years of age. It has an annual income of Rs. 79,959, and Mr. A. C. Wright, a Circle Officer of the Tikari Raj, has been appointed its Manager on a salary of Rs. 300 per mensem.

Of the estates released during the year, the largest was that of the Courjon property in Noakhali, which was restored to the proprietress on 1st April 1898, after being managed for a period of 13½ years. The rent-roll which stood at Rs. 59,841 at the time of the assumption of charge had risen to Rs. 62,894 by the date of the release of the property. Of the total demand of Rs. 16,75,437 during the management of the Court, 98·8 per cent. was collected and Rs. 61,063 were remitted on account of diluvion and the consequences of the stormwave of 1876. Debts to the extent of Rs. 1,37,741 were liquidated, and Rs. 20,000 were left outstanding at the date of release. The results were on the whole satisfactory.

14. *Encumbered Estates in Chota Nagpur.*—There were 59 estates managed under Act VI of 1876 during the year in comparison with 60 during 1897-98. The collections of rent and cesses due to them are shown below:—

District.	Arrear demand.	Current demand.	Collections.	Percentage of collections on current demand.	Remissions.	Balances.	Advance collections on account of the ensuing year.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Although the payments of the debts due by the estates fell short of the provisions made in the sanctioned schemes, the relative proportion rose from 69 per cent. in 1897-98 to 91 per cent. in the year of report. Explanations of the deficiencies have been furnished by the Commissioner, and, so far, are good; but the Board's report does not explain how $5\frac{1}{2}$ lakhs of fresh debt were ascertained or incurred during the year. In the three estates which came under the operation of the Act during the year the debts amounted to less than three lakhs, and the Lieutenant-Governor would be glad to have some further information as to the growth of the debt in the estates previously in the charge of the Court of Wards.

15. The Lieutenant-Governor is indebted to the Board and their subordinates for much excellent work in the Court of Wards. There are points in it which are open to criticism. The District Officers have given such prompt and gratifying attention to suggestions he made last year that he is confident that the further remarks he has now made will receive their practical consideration. There is no duty of all the many they have to discharge so full of interest and of lessons, or in which qualities equally of good sense and of good feeling can be more conspicuous or more useful.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secy. to the Govt. of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 11th December 1899.

Burdwan.—No rain. Harvesting of *aman* going on. Sugarcane and *rabi* crops doing well. No cattle-disease. Fodder and water sufficient. Common rice selling as follows:—

	Srs.	
Sadar	14½	per rupee.
Kalna	14	
Katwa	16	
Raniganj	14	

Birbhum.—No rain. Weather seasonable. *Rabi* cultivation in progress. *Aman* being harvested. Price of common rice at Sadar and Rampur Hat 15 seers per rupee. Fodder sufficient.

Bankura.—No rain. Weather occasionally cloudy and seasonably cold at the latter part of the week. Harvesting of *aman* in full swing. Sugarcane doing well. Sporadic cases of cow-pox reported. Fodder and water sufficient. Price of common rice 16 seers per rupee both at Bankura and Vishnupur.

Midnapore.—No rain. Weather seasonable. Prospects of winter rice and *rabi* crops very good. Harvesting of winter rice is progressing. Cattle-disease reported from Binpur and Garhbeta. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	16	per rupee.
Contai	20	
Tamluk	14½	
Ghatal	16	

Hooghly.—No rain. Weather seasonable. Harvesting of *aman* is going on. *Rabi* doing well. Common rice sells at 14 seers 6 chitaks per rupee.

Howrah.—No rain. Weather seasonable. Harvesting of *aman* crop going on. *Rabi* crop progressing. Fodder and water sufficient. Common rice sells at 13¼ seers per rupee.

24-Parganas.—Rainfall nil. Weather seasonable. Prospects good. Harvesting of *aman* paddy and sowing of *rabi* crops proceeding. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	per rupee.
Barasat	17	8	
Basirhat	16	0	
Diamond Harbour	16	0	

Nadia.—No rain. Weather seasonable. Harvesting of *aman* and *kalai* continues. Prospects of standing crops good. Fodder and water sufficient. Price of common rice stationary.

Murshidabad.—No rain. Weather seasonable. Harvesting of *aman* and sowing of *rabi* continue. *Kalai* and mulberry doing well. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	15	per rupee.
Jangipur	15½	
Kandi	17½	

Jessore.—No rain. Weather seasonable. Harvesting of early *aman* nearly finished and sowing of *rabi* crops over. Prospects good. No cattle-disease reported. Fodder and water sufficient. Prices of common rice are as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Jhenida	18	0	
Magura	17	0	
Narail	18	13	
Bangaon	17	0	

Khulna.—Rainfall nil. Weather seasonable. Harvesting of early *aman* going on. Sowing of *rabi* crops almost over. Fodder and water sufficient. Common rice sells as follows:—

		Srs.	
Sadar	... ...	17¾	per rupee.
Bagerhat	... ...	16	
Satkhira	... ...	15	

Rajshahi.—No rain. Weather seasonable. Prospects of crops good. Harvesting of *aman* continues. No cattle-disease reported. Fodder and water plentiful. Common rice sells at 18 seers per rupee.

Dinajpur.—Rainfall nil. Weather seasonable. Standing crops good. No cattle-disease. Fodder and water plentiful. Rice selling at 16 seers per rupee.

Jalpaiguri.—Rainfall at Sadar nil, Alipur Duars ·77. Weather seasonable but cloudy. Harvesting of *haimanti* paddy commenced. Transplantation of tobacco going on. Fodder and water ample. Common rice sells at 15 seers per rupee.

Darjeeling.—Rainfall at Darjeeling ·02. Weather seasonable. *Hills—Haimanti* paddy, *bara marua*, and *kalai* are being harvested; wheat, barley, *phaphar*, *tori*, and potatoes are progressing. *Terai—Haimanti* paddy being harvested; sugarcane, mustard and potatoes are doing well. Coarse rice sells as follows:—

		Srs.	
Hills ...	... ...	12	per rupee.
Terai ...	... ...	16	

Bhutta sells at Darjeeling 20 seers and at Kalimpong 24 seers per rupee.

Rangpur.—Rainfall at Kurigram ·09. Harvesting of winter rice and sowing of *rabi* crops in full swing. Prospects of crops good. Common rice sells at 17 seers per rupee. Fodder and water sufficient.

Bogra.—No rain. Cutting of paddy and sowing of *rabi* going on. Prospects good. Common rice selling at 19½ seers per rupee. Fodder and water sufficient.

Pabna.—No rain. Weather fine and cool. Prospects good. Prices unchanged.

Dacca.—Rainfall at Naraingunj ·19. Weather seasonable. Prospects of standing crops good. Harvesting of paddy going on. Fodder available. No cattle-disease. Common rice 16 seers per rupee.

Mymensingh.—Rainfall at Sadar ·04, Kishorganj ·02. Weather cold. Prospects of crops excellent. Health of cattle good. Fodder and water sufficient. Common rice selling at 17 to 20 seers per rupee.

Faridpur.—No rain. Weather cold. State and prospects of crops good. Common rice sells at 16 seers per rupee.

Backergunge.—Rainfall nil. Weather fine. Prospects of crops good. Common rice sells at 14½ seers (old) and 16 seers (new) per rupee.

Tippera.—Rainfall at Brahmanbaria ·30. Weather fine and seasonable. *Aman* harvest in progress. *Rabi* and *boro* paddy being sown. Average price of common rice 17 seers per rupee.

Noakhali.—No rain Prospects of crops good. Harvesting of *aman* continues. Cattle-disease at Companiganj and Sandip continues. Fodder and water sufficient. Price of rice 16 seers per rupee.

Chittagong.—No rain. Prospects of crops good. Water and fodder sufficient. Sowing of *rabi* and reaping of *aman* continue. Common rice 16 seers per rupee.

Patna.—Rainfall nil. Harvesting of paddy in full progress. Poppy sowing nearly finished and crops coming up nicely. Mustard and gram are flowering Condition of cattle fair. Water for cattle sufficient. Common rice in Patna sells at 19 seers per rupee.

Gaya.—No rain. Harvesting of paddy going on. Poppy germinating. *Rabi* continues good. Common rice selling at 15½ seers per rupee.

Shahabad.—No rain. *Rabi* prospering. Paddy being reaped. Fodder and water abundant. Fifty-two cases of cattle-disease in Sasaram. Price of rice at Sadar 12 seers per rupee.

Saran.—No rain. Weather seasonable. Paddy cutting almost finished. *Rabi* and poppy doing well. Prices continue to fall. Common rice sells at 14 seers 14 chitaks and *makai* 15 seers 10 chitaks per rupee.

Champaran.—No rain. *Rabi* and Poppy sowings nearly completed and germinating well. Prospects favourable. *Aghani* harvest well advanced. Prices unchanged.

Muzaffarpur.—Rainfall nil. Winter rice being harvested. *Rabi* crops promising well. Prices are—Common rice 14½ seers, wheat 14 seers, barley 17 seers, *makai* 16¼ seers, gram 16½ seers, *rahar* 16¼ seers, and *marua* 20 seers per rupee.

Darbhanga.—No rain. Weather seasonable. Paddy harvesting in progress. *Rabi* doing well. Fodder and water sufficient. Cattle-disease reported from Madhubani and Sadar. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	4	per rupee.
Samastipur	15	0	
Madhubani	18	5	

Monghyr.—No rain. Weather cool. Winter rice being harvested. Sugarcane pressing continues. Prospects of all crops favourable. Poppy sowings finished. Plants will remain stunted without rain. Common rice sells as follows:—

	Srs.	ch.	
Monghyr	13	8	per rupee.
Begusarai	15	3	
Jamui	17	0	

Bhagalpur.—No rain. Weather seasonable. Harvesting of *aghani* paddy, *kalai* and *kurthi* going on. Pressing of sugarcane continues. Fodder and water plentiful. No cattle-disease reported. Prices stationary.

Purnea.—Rainfall nil. Weather seasonable. Harvesting of *aghani* rice and transplantation of tobacco continue. *Rabi* sowings completed. Pressing of surgarcane begun. Cattle-disease reported from thana Raniganj. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	20	per rupee.
Kishanganj	16	
Araria	18	

Malda.—No rain. Weather seasonable. Harvesting of winter paddy going on. *Rabi* crops growing well. Coarse rice selling at 16 seers per rupee. Fodder and water sufficient.

Sonthal Parganas.—No rain. Rice harvest and pressing of sugarcane going on. Average price of rice 16 seers and of maize 20½ seers per rupee. Cattle-disease still in Rajmahal. Fodder and water sufficient.

Cuttack.—Rainfall nil. Weather seasonable. *Guru sarad* being harvested. *Arhar* and sugarcane growing. Condition of cattle generally good. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Cuttack	15	12	per rupee.
Jajpur	18	6	
Kendrapara	18	6	
Banki	17	9	

Balasore.—Rainfall nil. *Sarad* harvesting and sugarcane pressing continue. *Rabi* crops in flower. Rice sells at 17⅞, 14 and 18 seers per rupee in the interior, Balasore and Bhadrak respectively. Cattle-disease reported from Basudevpur Circle. Fodder and water sufficient.

Angul.—No rain. Harvesting of winter rice, pressing of sugarcane, and gathering of *rasi* and *birhi* in progress. Prospects of *rabi* sown after the rain in middle of October not good. Rain wanted. Rice selling at 18 seers per rupee in Angul and 9 seers in the Khondmals. Cattle-disease reported from the interior.

Puri.—Rainfall nil. Weather seasonable. *Laghu* being harvested. *Bara sarad* ripening. *Kulthi*, winter *mandia*, *arhar*, and other miscellaneous crops doing well. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	15	per rupee.
Khurda	15¾	
Interior of district	15¼	

Hazaribagh.—Rainfall nil Weather seasonable. Harvesting of rice nearly completed. Sugarcane-pressing going on. Prospects of poppy in kotties Barhi and Bagodar good. Common rice sells at 12½ seers per rupee.

Ranchi.—Rainfall nil. Weather seasonable. Harvesting of winter rice nearly completed. Rain badly wanted for *rabi* crops. Rice sells at Ranchi 11 seers and in the interior 15 seers per rupee. Cattle-disease reported from Ranchi and Toto thanas. Fodder and water sufficient.

Palamau.—No rain. Weather seasonable. Paddy harvesting and sugarcane-pressing still going on. *Rabi* wants rain. Prices at Sadar are—Rice 12 seers 15 chitacks, gram 16 seers 14 chitaks, *makai* 15 seers 12 chitaks, barley 18 seers, and wheat 13 seers 8 chitaks. per rupee. Fodder and water sufficient. Cattle-disease reported from some villages.

Manbhum.—No rain. Weather seasonable. Winter rice an average crop. *Rabi* crops promise well. Cattle-disease reported from thanas Purulia, Raghunathpur, Manbazar, and Topchanchi. Fodder and water sufficient. Average price of common rice at Sadar 15¼ seers and at Gobindpur 13 seers per rupee. Supply sufficient.

Singhbhum.—Rainfall nil. *Rabi* crops need rain. Common rice sells at 15 seers 2 chitacks per rupee.

General Summary.—There was slight rain in places in North and East Bengal during the week. The harvesting of the winter rice is proceeding rapidly throughout the Province. The *rabi* crops are generally doing well except in parts of the Chota Nagpur Division and in Angul. Poppy sowings are nearly completed and are germinating well, though rain is said to be needed in Monghyr. The pressing of sugarcane is going on in some parts of the Bhagalpur, Orissa, and Chota Nagpur Divisions. The price of common rice has fallen in 12 districts and risen in 5; it is stationary in the remainder. Cattle are generally in good condition. Fodder is generally sufficient.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secretary to the Govt. of Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF NOVEMBER 1899.

Fine settled weather of the usual cold season type prevailed in Bengal and the north of the Bay throughout November with skies almost free from cloud and a complete absence of rainfall, except at a few stations in East Bengal, where moderate to light showers occurred at the beginning of the month. No storm visited the north of the Bay, and there was less disturbed weather than usual in the south, where the north-east monsoon is in ordinary years affecting weather conditions.

Only one well-defined storm developed, probably in the east of the Bay. Moving westward it crossed the Madras coast on the 12th near Negapatam, which was the only station that experienced the stormy weather. The disturbance was exceptional because of the limited area of the depression, 10 to 20 miles in diameter probably, the depth of the depression, and the hurricane winds which were upwards of 80 miles an hour on an average for three hours. The only change in the south-west of the Bay outside the area of hurricane winds was an increase of cloud with light rain as far north as Madras and some increase of wind, the barometer being only slightly affected at Cuddalore, the nearest observing station to Negapatam.

Later in the month the pressure gradient became steeper in the south of the Bay, and there were the usual indications that a depression was moving westward in the extreme south and beyond the range of land observations. Strong northerly winds blew at the Madras stations between the 20th and 24th and again at the end of the month, and the days on which the strongest winds were recorded at Colombo were the 20th, the 27th and 28th.

Besides the dry cloudless skies which obtained in Bengal, the only other features of importance were the relatively high pressure and low night temperatures. The area of low temperature was first in East Bengal, but towards the end of the month it was displaced south-eastward, and unusually cool weather prevailed in the south of Burma and Arakan, the mean defect on the 30th being 5° at Bassein, 7° at Rangoon, and 9° at Akyab.

At the beginning of the month weather was still slightly unsettled from the after-effects of a disturbance which in the last few days of October had been moving northwards over the Bay and had become diffused before reaching the Bengal coast. Heavy rainfall continued longer than usual after such a disturbance in East Bengal, and there was still a slight depression in Bihar and southerly winds over the province on the 1st November. A rapid rise of pressure set in on the 2nd, and barometric readings became high over the whole area, including the province and the Bay. A steep gradient obtained, and northerly or north-easterly winds were reported from all inland stations. Temperature was 2° to 3° below the normal in Bengal Proper and 4° above in Chota Nagpur.

No change of any importance occurred till the 7th, when a general moderate fall of pressure began. It continued on the 8th in the south-east of the Bay and a diffused depression formed in that area. It was probably about that time that the cyclonic storm which passed over Negapatam began to develop, and it is not unlikely that it affected weather near the Andamans, but there was no appreciable increase of wind force at Diamond Island. As the depression moved westward, all trace of it faded on the east coast, and ordinary weather appeared to prevail till the morning of the 12th, when the disturbance was close to Negapatam.

Pressure had been steadily falling after 8 A.M. on the 11th, and at the same hour on the 12th the change was about a quarter of an inch. It continued to fall till 11 A.M., when the reduced pressure was about 29·2 inches, giving a total fall of nearly an inch. Weather became squally on the evening of the 11th, but it was not till the following morning that the wind rose to the strength of a gale, and then it was with little or no warning. Between the hours of 9 and 12 the average velocity was 82 miles an hour. After pressure began to rise the strong winds moderated very quickly. By the 13th the disturbance had disappeared, having affected to only a very small extent any of the other observatories in Southern India.

During the week following fine weather prevailed with the usual pressure oscillations, but with a steadily increasing excess. On the 20th it had risen to ·17 inch in the south of the Circars and North Bengal; and as it was considerably smaller in the south-east of the Bay, a steep gradient was shown over the Bay. The area of lowest pressure was in the extreme south, and its westward motion was shown by the form of the isobars in the south and the steady slow rise of pressure in Burma. Squally weather extended northwards as far as the centre of the Bay, and there was a considerable increase in wind velocity both on the Burma and Circars coast. Very little change occurred in these conditions during the last week of the month, as velocity remained considerably above the normal at all the southern stations The highest average in Burma was 17 miles an hour at Diamond Island on the 28th, and in Madras 28 miles an hour at Negapatam on the 30th.

Meanwhile ordinary cold weather prevailed over the province with cloudless skies, but with temperature above the normal in the western districts.

Pressure has been above the normal by small to moderate amounts during the greater part of the month. The excess was somewhat larger in Bengal Proper and Orissa than in Bihar and Chota Nagpur, the average excess for the month varying from ·01 inch in the north-west of the province to ·04 inch in Orissa and East Bengal.

Temperature during the day was generally above the average in the western districts and at times by rather large amounts, but in Bengal Proper the variation from the normal was usually small. Average maximum temperature was 4° above the normal in Chota Nagpur, 2° in Orissa and the west of Bihar, and about 1° over the greater part of South-West Bengal. In East and North Bengal and the east of Bihar there was a small defect. Minimum readings were low for the season over the whole province by amounts varying from 1° in Bihar to 4° in East Bengal.

The average defect in East Bengal was 2° in Assam, South-West Bengal and Orissa about 1°, and in North Bengal half a degree, while in Chota Nagpur there was an excess of 1°·5.

Rainfall.—Occasional very light showers fell in the Darjeeling Hills, the only amount above one inch for the whole month being 1·33 inches at Baxa.

With one noticeable exception in the case of the Chittagong Division on the 4th, no rain fell in other parts of the province. The cause of the general and rather heavy rainfall in Chittagong on the 4th was probably a slight depression from the Bay, which caused no change in the northerly wind circulation. There were, however, slightly lower barometric readings on that date in East Bengal. Chittagong received 2·25 inches, and Cox's Bazar, Kutubdia, Satkania, and Rangamati between 1 and 2 inches.

The following table gives in a condensed form the rainfall information for each of the six large meteorological divisions of Bengal for the present year up to the close of November. The numbers there given, as in the case of the former months of the year, are the actual average rainfalls in each division, expressed as a percentage of the normal fall for the period, and the last column also gives the total rainfall up to the close of November, expressed in the same way :—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	Actual rainfall of first eleven months of 1899 expressed as a percentage of the normal fall for the period.

The maximum possible number of hours of sunshine	75·4
	°
The mean temperature of the seven days	68·8
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	69·4
The extreme variation of temperature	27·2
The maximum temperature	84·1
	Miles.
The highest velocity of the wind in one hour	10
	%
The mean relative humidity	78
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	71
	Inches.
The total fall of rain from 3rd to 9th December 1899	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·03
The total fall from 1st January to 9th December 1899	71·95
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65·19

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

⌓, dew; ≡, fog.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Calcutta, the 11th December 1899.

N. 236, N.E. 20, E. 16, S.E. 4, S. 3, S.W. 10, W. 37, N.W. 119, Calm 275.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1·6 lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew Standard thermometer, which is the standard of reference at the present Observatory.

G. W. KÜCHLER,

Total for corresponding 21¾ weeks of previous year ..	6,350,915	66,46,282 3 10	8,41,65,545 20	1,55,42,346 9 6	4,40,044 12 6	2,26,28,673 9 10	1,949,691	3,282,248	5,231,939

(*a*) The decrease is due to the running of 4 special trains from Foreign lines in the corresponding period of 1898 and to a decline in outward passenger traffic from stations in D districts.

(*b*) The heavy increase is chiefly in upward despatch of food-grains from almost all the principal stations on the line and in coal traffic both upwards and downwards and in hides and skins traffic from Cawnpore City to Howrah.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 6112A.

GENERAL.—*No. 5978A.—The 13th December 1899.*—Mr. J. H. Temple, I.C.S., reported his departure from India, on furlough, on the 2nd December 1899.

No. 5982A.—The 14th December 1899.—Babu Atal Behary Maitra, Deputy Magistrate and Deputy Collector, on leave, is posted to the head-quarters station of the Tippera district.

No. 5987A.—The 14th December 1899.—Babu Radha Kant Banerjee, Deputy Magistrate and Deputy Collector, Darjeeling, is allowed furlough for two years, under article 371 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

No. 5989A.—The 14th December 1899.—Babu Bhupati Chakravarti, Deputy Magistrate and Deputy Collector, on leave, is posted to the head-quarters station of the Darjeeling district.

No. 5991A.—The 15th December 1899.—Mr. H. F. Samman, substantive *pro tempore* Joint-Magistrate and Deputy Collector, is posted to the head-quarters station of the Backergunge district, on being relieved of his appointment as Officiating Magistrate and Collector, Nadia.

This cancels the order of the 12th December 1899 posting Mr. Samman to Midnapore.

No. 6001A.—The 15th December 1899.—Babu Okhoy Coomar Bose, Deputy Magistrate and Deputy Collector, Midnapore, is allowed leave, under article 369 of the Civil Service Regulations, for three months, with effect from the date on which he availed himself of it.

No. 6009A.—The 15th December 1899.—Mr. P. Nolan, I.C.S., reported his departure from India, on furlough, on the 5th December 1899.

No. 6010A.—The 15th December 1899.—Mr. L. T. R. Lucas, Deputy Magistrate and Deputy Collector, Cox's Bazar, Chittagong, is allowed leave for one month, under article 291 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

No. 6012A.—The 15th December 1899.—Mr. J. J. Barniville, Assistant Magistrate and Collector, Chittagong, is appointed to have charge of the Cox's Bazar subdivision of that district, during the absence, on leave, of Mr. L. T. R. Lucas, or until further orders.

No. 6024A.—The 18th December 1899.—Mr. J. L. Herald, I.C.S., has been granted by Her Majesty's Secretary of State for India an extension of furlough for six days.

No. 6034A.—The 18th December 1899.—Babu Prasanna Kumar Das Gupta, Deputy Magistrate and Deputy Collector, Manbhum, is transferred to the head-quarters station of the Chittagong district.

No. 6036A.—The 18th December 1899.—Babu Bepin Behary Banerji, Officiating Deputy Magistrate and Deputy Collector, on leave, is posted to the Brahmanbaria subdivision of the Tippera district.

This cancels the order of the 15th September 1899 posting him to Chittagong.

No. 6038A.—The 18th December 1899.—Babu Nogendra Nath Dutt, substantive *pro tempore* Deputy Magistrate and Deputy Collector, on leave, is posted to the head-quarters station of the Midnapore district.

No. 6045A.—The 18th December 1899.—Babu Juggut Durlabh Bysack, Deputy Magistrate and Deputy Collector, Birbhum, is allowed leave for one month, under articles 291 of the Civil Service Regulations, with effect from the 9th January 1900, or any subsequent date from which he avails himself of it.

No. 6062A.—The 19th December 1899.—Mr. J. L. Herald, Magistrate and Collector, on furlough, is appointed to act as Magistrate and Collector, Cuttack, during the absence, on furlough, of Mr. E. F. Growse, or until further orders.

No. 6064A.—The 19th December 1899.—Mr. H. D. deM. Carey, Joint-Magistrate and Deputy Collector, is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, and is posted to the head-quarters station of the district of Cuttack, on being relieved of his present appointment as Officiating Magistrate and Collector of that district.

No. 6066A.—The 19th December 1899.—In modification of the order of the 7th December 1899, Mr. Manmatha Krishna Deb, who has recently been appointed to be a member of the Indian Civil Service, is appointed to be an Assistant Magistrate and Collector in the Rajshahi Division, and is posted to the head-quarters station of the Rajshahi district.

No. 6068A.—The 19th December 1899.—In modification of the order of the 12th December 1899, Mr. Byramjee Rustomjee Mehta, who has recently been appointed to be a member of the Indian Civil Service, is appointed to be an Assistant Magistrate and Collector in the Presidency Division, and is posted to the head-quarters station of the 24-Parganas district.

No. 6070A.—The 19th December 1899.—Mr. John Graham Dunlop, who has recently been appointed to be a member of the Indian Civil Service, is appointed to be an Assistant Magistrate and Collector in the Dacca Division, and is posted to the head-quarters station of the Dacca district.

No. 6073A.—The 19th December 1899.—Lieutenant F. A. Shillingford, Northern Bengal Mounted Rifles, is allowed leave of absence for one year, in extension of the leave granted to him under the order of the 21st April 1898.

No. 6092A.—The 19th December 1899.—Mr. J. G. Cumming, Joint-Magistrate and Deputy Collector, is posted to Bhagalpur on being relieved of his appointment as Officiating Magistrate and Collector of that district.

No. 6094A.—The 19th December 1899.—Babu Nava Kumar Chakravarti, Deputy Magistrate and Deputy Collector, Dacca, is appointed temporarily to have charge of the Munshiganj subdivision of that district, with effect from the date on which he joined there.

No. 6098A.—The 19th December 1899.—Babu Kedar Nath Mukherji, Special Sub-Registrar, Chittagong, is allowed furlough for six months, under articles 264 and 371 of the Civil Service Regulations, with effect from the 8th September 1899.

LEGISLATIVE.—*No. 5984A.—The 14th December 1899.*—In exercise of the powers conferred by section 45 of the Indian Councils Act, 1861 (24 and 25 Vict., c 67), and section 1 of the Indian Councils Act, 1892 (55 and 56 Vict., c. 14), and the orders issued thereunder, and with the previous sanction of His Excellency the Viceroy and Governor-General, the Lieutenant-Governor is pleased to nominate Mr. James Pratt, Officiating Superintendent and Remembrancer of Legal Affairs, to be a Member of the Council of the Lieutenant-Governor of Bengal.

POLICE.—*No. 6047A.—The 18th December 1899.*—Maulvi Jannat Hossain, Khan Bahadur, Assistant Superintendent of Police, on leave, is posted to the head-quarters station of the Muzaffarpur district.

ECCLESIASTICAL.—*No. 5994A.—The 15th December 1899.*—The Revd. C. J. Palmer, Chaplain of Darjeeling, is allowed furlough for two years, under article 647 (*a*) of the Civil Service Regulations, with effect from the 22nd December 1899, or such subsequent date as he may avail himself of it.

No. 6054A.—The 19th December 1899.—The Revd. R. W. H. Stuart, Second Chaplain of Darjeeling, is allowed leave for fourteen days, under article 656 of the Civil Service Regulations, with effect from the 7th December 1899, or from such subsequent date as he may avail himself of the same.

The following orders are republished from the *Assam Gazette*:—

No. 9335G.—The 5th December 1899.—Mr. E. G. Hart, Assistant Superintendent of Police, on being relieved of the charge of the Civil Police of the Nowgong district by Mr. H. C. Gordon, is transferred to Dibrugarh, and attached temporarily to the Lakhimpur district as Assistant to the District Superintendent of Police.

No. 9336G.—The 5th December 1899.—Mr. E. G. Hart, Assistant Superintendent of Police, Lakhimpur, is appointed temporarily to have charge of the Civil Police of that district, with effect from the date of taking over charge from Mr. E. Muspratt.

No. 9337G.—The 5th December 1899.—Mr. E. Muspratt, District Superintendent of Police, Lakhimpur, on being relieved by Mr. E. G. Hart, is placed temporarily on special duty at Sadiya.

No. 9379G.—The 6th December 1899.—The Chief Commissioner invests Mr. T. M. Browne, Assistant Superintendent of Police and Commandant of the Garo Hills Military Police Battalion, with powers equivalent to those of a Magistrate of the second class, as described in the Code of Criminal Procedure (Act V of 1898), and with the powers of an Assistant Commissioner, under the Rules for the Administration of the Garo Hills district, prescribed under section 6 of the Scheduled Districts Act, XIV of 1874, to be exercised within the Garo Hills district.

No. 9380G.—The 6th December 1899.—The Chief Commissioner invests Mr. T. M. Browne, Assistant Superintendent of Police and Commandant of the Garo Hills Military Police Battalion, with powers equivalent to those of a Munsif, as described in Act XII of 1887 (The Civil Courts Act), for the trial of suits arising within the Garo Hills district.

No. 4944J.—The 5th December 1899.—Under the provisions of section 185A (1) of the Code of Civil Procedure, Act XIV of 1882, the Chief Commissioner directs that Babu Raj Krishna Bandopadhyaya, Munsif of Habiganj, shall take down evidence with his own hand in the English language in civil cases in which an appeal is allowed.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No 6055A.

The 19th December 1899.—The following notification regarding an examination for admission to the Executive Branch of the Provincial Civil Service and to the Subordinate Civil Service to be held in 1900 is published for general information:—

1. An examination of candidates for appointment as Deputy Collectors and Magistrates and as Sub-Deputy Collectors will be held in Calcutta in April 1900 on dates to be notified hereafter.

2. All candidates for examination shall apply in writing to the Under-Secretary in the Appointment Department not later than the 1st of March 1900. The application shall be accompanied by a fee of Rs 20 and by certificates to the following effect:—

(1) That on the 1st April 1900 the candidate's age will not exceed 25 years. This certificate should be supported by the candidate's horoscope, or if the horoscope cannot, for sufficient reason, be produced, by other sufficient evidence, such as the sworn affidavit of a near relation. This condition of age may be relaxed on sufficient grounds being shown in favour of persons already in the Government service who may be considered suitable candidates for these appointments.

(2) That he is of good moral character.

(3) That he has passed the B.A. examination of the Calcutta University, or that he has received an education not below the standard of such examination.

(4) That he is of active habits and able to ride. The certificate must be signed by a District Officer (or, in his absence from head-quarters, by the Joint-Magistrate in charge), or by the Commissioner or Deputy Commissioner of Police, Calcutta.

The certificates (2) and (4) of the preceding year will in no case be accepted, and fresh certificates must be produced.

Each candidate shall also submit a statement showing the landed property owned by him, or in which he may have any interest, or which may be held by and managed by his wife or by any other member of his family, living with or in any way dependent on him.

The Lieutenant-Governor may at his discretion call for such additional proof as he may think fit in reference to any of the above points.

3. No candidate who is already serving under another Government will be allowed to compete unless he obtains the previous permission of that Government.

4. The subjects of examination and the marks to be awarded will be as follows:—

(a) *English.*—The examination will be so arranged as to test a candidate's ability to write correct and idiomatic English, and will include précis-writing and letter-drafting. In awarding marks in these papers, great weight will be attached to good and legible hand-writing.

(*b*) *Vernacular.*—Candidates will be examined in one of the following languages at their option:—Bengali, Urdu, Hindi and Uriya. The examination will include—

(1) Translation into English of proceedings, petitions, reports, &c., written in manuscript.

(2) Translation from English into the vernacular selected.

(*c*) *Law*—

(1) Regulation I of 1793 and Field's Introduction to the Regulations, Act VIII of 1885; Regulation VII of 1822; Act I of 1894.

(2) The Penal Code; the Code of Criminal Procedure; the Code of Civil Procedure; the Evidence Act.

(*d*) *Surveying.*—Survey and mensuration.

The marks will be given on the following scale:—

English	...	...	... 300
Vernacular	...	...	... 100
Law	...	...	... 300
Surveying	...	...	... 100
		Total	... 8 0

5. A medical certificate in the form annexed will be required from each selected candidate after the examination and before he joins service as a probationer. The certificate will be granted by a Presidency Surgeon, viz., the Professor of Midwifery, Medical College, Calcutta, on the requisition of the Under Secretary to Government, to whom applications should be made. In the event of the opinion of the medical officer being unfavourable to the candidate, an appeal will lie to the Medical Board, and the decision of the Board will be final.

6. It is at present proposed to select two candidates for Deputy Collectorships and two for Sub-Deputy Collectorships. These will at first be appointed as probationers on a subsistence allowance of Rs. 50 and Rs. 30 a month, respectively. The first candidate on the list in order of merit will be appointed one of the probationers for Deputy Collectorships, and one will be selected by the Lieutenant-Governor from among those who have obtained a minimum of one-third of the total marks. From the remainder of those qualified by obtaining one-third of the marks, the Lieutenant-Governor will select two more candidates as probationers for Sub-Deputy Collectorships.

7. No probationer will be appointed to officiate as a Deputy Collector and Magistrate or as a Sub-Deputy Collector unless he has given satisfactory proof, during his period of probation, of physical and mental capacity and of general good conduct. He must, before appointment, afford such further evidence of his ability to ride as may be required.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

FORM OF CERTIFICATE.

NOTIFICATION—No. 4607L.R.

The 19th December 1899.—Babu Shiva Shanker Singha, Deputy Collector, is vested with the powers of a Collector, under Regulations VII of 1822, IX of 1825, and IX of 1833, for the settlement of Land Revenue in the case of proprietory estates in the district of Shahabad, *vice* Deputy Collector Maulvi Abdul Majid, transferred to Saran.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4610L R.

The 19th December 1899.—Whereas a settlement of land revenue is about to be made in respect of the Government estate No. 6436 surplus accretion to Patka in the district of Backergunge:

Under the powers conferred upon him by section 101 (2) (*d*) of the Bengal Tenancy Act VIII of 1885, as amended by the Bengal Tenancy (Amendment) Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to order that survey shall be made and a record of rights prepared in respect of all lands included within the boundaries of the said estate. The particulars to be recorded in the said survey and record of rights shall be the following, namely:—

(*a*) The name of each tenant or occupant.

(*b*) The class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

(*c*) The situation and quantity and one or more of the boundaries of the land held by each tenant or occupier.

(*d*) The name of each tenant's landlord.

(*e*) The rent payable at the time the record of rights is being prepared.

(*f*) The mode in which that rent has been fixed, whether by contract, by order of a court, or otherwise.
(*g*) If the rent is a gradually increasing rent, the time at which and the steps by which it increases.
(*h*) The special conditions and incidents, if any, of the tenancy.
(*i*) If the land is claimed to be held rent free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and if so entitled, under what authority.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

GENERAL DEPARTMENT—(MISCELLANEOUS)

NOTIFICATION—No. 4089.

The 19th December 1899.—The following Resolution, issued by the Government of India, Home Department, for the grant of certificates of identity to native students and other persons proceeding to England, is published for general information.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

No. 2831—42.

Extract from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899.

RESOLUTION.

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be.

3. The District or Political Officer or head of the school or college will not refuse an applicant a certificate if his means do not appear to be sufficient to enable him to effect his object, but will merely attempt to dissuade him from undertaking the journey, pointing out the difficulties in which the applicant would be placed were he to find himself in a foreign country without sufficient means. The possession of a certificate of identity will especially be very useful to young men of good family, as it will enable the Secretary of State to obtain for them social and other attentions which may prove of great value.

4. The District or Political Officer will endorse on the certificate of identity his opinion whether the person is a British subject "by birth" or "by naturalization" (or a subject of a Native State) or not. Quarterly returns of the certificates granted will be submitted to the Local Governments and Administrations, who will forward them to the Government of India for transmission to the Secretary of State. But as it is necessary that no delay should occur, the District or Political Officer, when granting or countersigning a certificate, will

at the same time send a copy of the certificate to the Under-Secretary of State for India direct.

5. Local Governments and Administrations are requested to take steps to secure that all reasonable facilities are given for obtaining certificates of identity, and that wide publicity is given to these orders.

ORDER.—Ordered that this Resolution be communicated to all Local Governments and Administrations for information and guidance.

Ordered also that a copy be sent to the Foreign Department for information and communication to Political Officers.

Ordered also that the Resolution be published in the *Gazette of India* for general information.

[True Extract.]

J. P. HEWETT,

Secy. to the Govt. of India.

HIGH COURT,
The 16th December 1899.

By order,
E. P. CHAPMAN, *Registrar.*

SMALL CAUSE COURT NOTICE.

NOTIFICATION.

NOTICE is hereby given, under section 7 of Act IX of 1887, that the Judge of the Small Cause Courts of Dacca and Munshiganj will, in the month of January 1900, sit in those Courts on the undermentioned dates, Sundays and holidays excepted:—

Dacca Small Cause Court ... 4th, 8th, 11th, 15th, 17th and 30th of January 1900.

Munshiganj Small Cause Court ... From the 22nd to the 27th of January 1900.

GRISH CHUNDER CHATTERJEE, *Judge, Small Cause Court.*

DACCA SMALL CAUSE COURT, *the 13th December 1899.*

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 9th December 1899.—The orders of the 19th November 1899, granting Babu Divya Sinha Misra, B.A., Second Master of the Puri Zilla School (class VI), leave of absence for one month and-a-half, with effect from the 2nd idem, or any subsequent date, are cancelled.

The 13th December 1899.—Babu Gopal Chandra Sen, M.A., Second Assistant in the Chemical Laboratory of the Presidency College, and Temporary Science Teacher in the Dacca Training School, is confirmed in the latter appointment and in class VIII, with retrospective effect from the date on which he joined his appointment in the Training School, *vice* Babu Kiran Chandra Mitra, promoted.

Babu Kiran Chandra Mitra, M.A., Temporary Lecturer on Chemistry in the Dacca College, is confirmed in that appointment and in class V, with retrospective effect from the 19th July 1899.

The 15th December 1899.—Babu Jogeshar Mookerjea, Deputy Inspector of Schools, Malda (class IV), is allowed leave of absence for a year, under article 371 of the Civil Service Regulations, with effect from the 15th December 1899, or such subsequent date as he may avail himself of it.

The following arrangements are sanctioned for the performance of the absentee's duties:—

(1) Babu Tarini Kisor Bardhan, Deputy Inspector of Schools, Jalpaiguri (class IV), to act as Deputy Inspector of Schools, Malda, *vice* Babu Jogeshar Mookerjea.

(2) Babu Annada Prasad Mitra, B.A., Deputy Inspector of Schools, Palamau (class IV), to act as Deputy Inspector of Schools, Jalpaiguri, *vice* Babu Tarini Kisor Bardhan.

(3) Babu Nalini Mohan Sanyal, M.A., Head Master of the Gaya Zilla School (class II), to act as Deputy Inspector of Schools, Palamau, *vice* Babu Annada Prasad Mitra.

(4) Babu Rajani Nath Gangopadhyaya, B.A., Head Master of the Matihari Zilla School (class VI), to act as Head Master of the Gaya Zilla School, *vice* Babu Nalini Mohan Sanyal.

(5) Babu Kali Pada Sarkar, M.A., Head Master of the Barrackpore Government School (class IV), to act as Head Master of the Matihari Zilla School, *vice* Babu Rajani Nath Gangopadhyaya.

(6) Babu Iswar Prasad Pain, B.A., Second Master of the Barrackpore Government School (substantive *pro tempore* in class IV), to act as Head Master of the same institution, *vice* Babu Kali Pada Sarkar.

(7) Babu Suraj Mohan Ray, B.A., Second Master of the Jalpaiguri Zilla School (class VIII), to act as Second Master of the Barrackpore Government School, *vice* Babu Iswar Prasad Pain.

(8) Babu Hari Ballav Mandal, Additional Master of the Jalpaiguri Zilla School, to act as Second Master of the same institution, and in class VIII, *vice* Babu Suraj Mohan Ray.

The following officers of the Subordinate Educational Service are confirmed in the appointments mentioned opposite their names:—

(1) Pandit Ambika Datta Vyasa, S.A., as Lecturer on Sanskrit in the Patna College.

(2) Pandit Behari Lal Chaube as Third Master of the Patna Training School.

(3) Maulvi Abdul Hai as Third Master (Head Maulvi) of the Patna Collegiate School.

(4) Babu Satis Chandra Ray, M.A., as Fourth Master of the Patna Collegiate School.

(5) Babu Baijnath Singh, B.A. B.L., as Fifth Master of the Patna Collegiate School.

Consequent on the retirement on the 16th January 1900, of Maulvi Tamizuddin Ahmed, Tenth Master of the Hooghly Collegiate School, the following arrangements are sanctioned, with effect from that date:—

(1) Babu Atul Chandra Ganguli, B A., Fourth Master of the Rajshahi Collegiate School (class VII), to be Eighth Master of the Hooghly Collegiate School, *vice* Maulvi Abdul Karim, transferred.

(2) Maulvi Abdul Karim, Eighth Master (First Persian Teacher) of the Hooghly Collegiate School (class VIII), to be Eighth Master (Persian Teacher) of the Krishnagar Collegiate School, on the pay of his own grade, *vice* Maulvi Abdul Quayam, transferred.

Babu Jadub Chandra Chuckerbutty, Advanced Cast Drawing Teacher of the Government School of Art (class V), is allowed leave of absence for a month, under article 369 of the Civil Service Regulations, with effect from the 1st December 1899.

The following arrangements are sanctioned for the performance of the absentee's duties:—

(1) Babu Hurry Narayan Bose, Elementary Cast Drawing Teacher (class VIII), to act as Advanced Cast Drawing Teacher, *vice* Babu Jadub Chandra Chuckerbutty.

(2) Babu Barada Kanta Datta, Teacher of Advanced Freehand (class VI), to act as Elementary Cast Drawing Teacher, *vice* Babu Hurry Narayan Bose.

(3) Babu Gajendra Nath Malakar is appointed to act as Teacher of Advanced Freehand and in class VIII, *vice* Babu Barada Kanta Datta.

Babu Harabans Sahai, Deputy Inspector of Schools, Monghyr (substantively *pro tempore* in class III), is allowed leave of absence for one month and fourteen days, under article 291 of the Civil Service Regulations, in extension of that granted to him under the orders of the 7th October 1899

The following arrangements are made in the Krishnagar Collegiate School consequent on the appointment of Babu Janaki Nath Bhattacharjea, Sixth Master (Additional Pandit) of that institution, and now Temporary Lecturer on Sanskrit in the Krishnagar College (class VI), to be Lecturer on Sanskrit in the Chittagong College:—

(1) Babu Mohendra Nath Lahiri, Eighth Master and now Temporary Seventh Master (class VII), to be Sixth Master, on the pay of his own grade.

(2) Babu Lal Behari Goswami, Seventh Master (Head Pandit) and now Temporary Sixth Master (Additional Pandit) (class VIII), to be Seventh Master (Additional Pandit), on the pay of his own grade.

The 16th December 1899.—Babu Pramatha Nath Bhattacharjea, B.A., Third Master of the Purnea Zilla School, is appointed to be Third Master of the Hazaribagh Zilla School and substantively *pro tempore* to class VIII, *vice* Maulvi Syed Abdul Goffur, resigned.

The 18th December 1899.—Maulvi Hurmutullah, Officiating Second Master of the Murshidabad Nawab's Madrasah (class VIII), was absent on leave for four days, under article 306 (*b*) of the Civil Service Regulations, with effect from the 4th December 1899.

Babu Syam Lal Datta, B.A., Head Master of the Palamau Zilla School (class II), is allowed leave of absence for four months, under article 369 of the Civil Service Regulations, with effect from the 15th December 1899.

The following arrangements are sanctioned for the performance of the absentee's duties:—

(1) Babu Joges Chandra Das, B A., Second Master of the Purulia Zilla School (class V), to act as Head Master of the Palamau Zilla School, *vice* Babu Syam Lal Datta, on leave.

(2) Babu Mati Lal Datta, B.A., Third Master of the Ranchi Zilla School (class VII), to act as Second Master of the Purulia Zilla School, *vice* Babu Joges Chandra Das.

(3) Babu Syama Kanta Bhattacharjea, Fourth Master (Head Pandit) of the Ranchi Zilla School, to act as Third Master (Head Pandit) of the same institution, and in class VIII of the Subordinate Educational Service, *vice* Babu Mati Lal Datta

The 19th December 1899.—Babu Upendra Nath Mitra, Head Laboratory Assistant in the Civil Engineering College, Sibpur (substantively *pro tempore* in class VII), was absent on leave for a month, under article 309 of the Civil Service Regulations, with effect from the 10th November 1899.

CALCUTTA;
The 16th December 1899.

A. PEDLER,
Director of Public Instruction, Bengal.

ORDERS BY THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

VOLUME I only of the edition of "DeQuincy's Writings" by David Masson, published by Messrs. A. and C. Black, has been prescribed as one of the text-books in English for the M.A. Examination of 1900.

The above volume very nearly corresponds to volume XIV of the edition by Messrs. A. and C. Black published in 1863.

A. C. EDWARDS,
Registrar.

SENATE HOUSE,
The 15th December 1899.

CALCUTTA UNIVERSITY.

NOTICE.

MAHAMOHOPADHYA CHANDRA KANTA TARKALANKAR, Sreegopal Basu Mallik Fellow for 1897-98, will deliver his third lecture of the third year on the general principles of Hindu Philosophy, with special reference to the Vedanta and Upanishads, at the Senate House, College Square, on Saturday, the 23rd December, at 3 P.M. The above lecture, as well as all subsequent lectures to be delivered by the Fellow on the subject, will be open to the public.

SENATE HOUSE,
The 18th December 1899.

A. C. EDWARDS,
Registrar.

NOTIFICATIONS OF THE BOARD OF REVENUE.

NOTICE.

No. 3295B.

THE HON'BLE MR. W. B. OLDHAM, C.I.E.

APPLICATIONS for tickets of admission to the Opium sale-rooms for the year 1900 should be made at the office of the Board of Revenue, Lower Provinces, on or after the 20th December 1899.

Tickets for the year 1899, which have not already been surrendered, should be returned at the same time.

By order of the Board of Revenue, L. P.,

CALCUTTA, *The 30th November 1899.*

N. BONHAM-CARTER,
Offg. Secretary.

No. 3274B.

OPIUM.
The HON'BLE MR. W. B. OLDHAM, C.I.E.

NOTICE is hereby given that the Provision Opium to be brought forward for sale by public auction in the year 1900 will consist of about 20,400 chests prepared at the Patna Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, and about 24,000 chests prepared at the Ghazipur Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, being of the seasons 1897-98 and 1898-99, in the proportion marginally noted.

Opium manufactured at the Patna Factory.

	Chests.
Supply from 1897-98	5,583
Ditto 1898-99	14,817
Total ...	20,400

Opium manufactured at the Ghazipur Factory.

	Chests.
Supply from 1897-98	4,513
Ditto 1898-99	19,487
Total ...	24,000

2. The dates on or about which the sales will be held, and the total quantity of opium, as well as the respective quantities manufactured at the Patna and Ghazipur Factories, which will be brought forward for sale every month, are specified below. The Board of Revenue reserve to themselves the right of altering the dates should circumstances render it expedient to do so. In accordance with the notification of the Government of India, No. 2874A., dated 23rd June 1899, 1,700 chests of

Patna and 2,000 chests of Benares opium will be sold monthly from January to December 1900:—

On or about Monday, 3rd December ,,	...	1,700	2,000	3,700
Total	...	20,400	24,000	44,400

The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2 The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of morey shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10 Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, Certificate of the opium advertised for sale; No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1898-99, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed

quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

CALCUTTA, N. BONHAM-CARTER,

The 27th November 1899. *Offg. Secretary.*

No. 3279B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1897-98, will be held at the Government Opium Sale-Room, No. 2, Bankshall Street, on Wednesday, the 3rd January 1900, at 11 A.M., and will comprise 3,700 chests, viz.—

		Chests.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

No. 5477L.S.-G.—The 12th December 1899.—It is hereby notified that the members of the Rampur Hât Local Board, in the district of Birbhum, having at a meeting, under section 25 of the Bengal Local Self-Government Act, III of 1885, requested the Lieutenant-Governor to appoint a Chairman, the Lieutenant-Governor is pleased under the said section to appoint Mr. W. H. Thomson, Subdivisional Officer of Rampur Hât, to be the Chairman of that Local Board, *vice* Mr. J. T. Jarbo, resigned.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5483M.—The 13th December 1899.—In continuation of the Notification No. 652T.—M., dated the 10th November 1899, regarding the subdivision of the South Barrackpore Municipality into two municipalities, which will be called the "South Barrackpore Municipality" and the "Panihati Municipality," it is hereby notified for general information that, under the provisions of clause (*e*) of section 9 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, and on the recommendation of the Commissioners of the South Barrackpore Municipality, made at a meeting, the Lieutenant-Governor intends to reduce the number of Commissioners of the South Barrackpore Municipality from 21 to 9, unless good reasons are shown to the contrary within six weeks from the date of the publication of this notification within the Municipality.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5489M.—The 13th December 1899.—It is hereby notified that, under section 59 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor approves the election by the Commissioners of the Debhatta Municipality, in the district of Khulna, of Babu Mon Mohan Rai Chaudhury to be their Chairman, *vice* Babu Sashi Bhusan Rai Chaudhury, resigned.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 6537L.S.-G.—The 14th December 1899.—It is hereby notified for general information that, under section 6, clause (*c*) of the Bengal Ferries Act, I of 1885, the Lieutenant-Governor is pleased to establish a new public ferry, to be called the Kamra ferry, across the river Dwarka in thana Mouressar which is situated in the district of Birbhum.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5538L.S.-G.—The 14th December 1899.—It is hereby notified that the Lieutenant-Governor is pleased, in the exercise of the powers conferred on him by section 35 of the Bengal Ferries Act, I of 1885, to direct that the ferry named in the margin, which is situated in the district of Birbhum, shall be managed by the District Board of Birbhum, and that all the proceeds of the ferry, and all the fines levied and compensation received under the said Act in respect thereof, shall be credited to the District Fund, with effect from the date of this notification.

Kamra ferry across the river Dwarka in thanna Mouressar.

E. N BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5546M.—The 15th December 1899.—It is hereby notified that, under section 16 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to appoint Maulvi Elahi Buksh to be a Commissioner of the Bhagalpur Municipality, *vice* Maulvi Mufooz Hossein, deceased.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 5548M.—The 18th December 1899.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Bhabhua Municipality for a public purpose, viz., for the construction of a Municipal Office building in 5¾ annas Takhta, pargana Chainpore, zilla Shahabad, it is hereby declared that for the above purpose a piece of land measuring, more or less, 8 cottahs 10¼ dhurs of standard measurement, is required. The land is bounded on the north by the field of Jhumak Tewari, on the east by the house of Babu Harbans Narayan Singh, minor of Chand, and by a public path, on the south by Municipal tank and road and Municipal market, and on the west by the compound of the District Road Cess godown.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Municipal Commissioners at Bhabhua.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

The Calcutta Gazette.

WEDNESDAY, DECEMBER 20, 1899.

PART II.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Faridpur, will be put up to sale at the Faridpur Collectorate on the 22nd December 1899, corresponding with 8th Pous 1306 (B.S.)

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.	REMARKS.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned plot of land situate in the district of Mymensingh will be put up to sale at the Mymensingh Collectorate on the 5th January 1900, corresponding with 22nd Poush 1306 B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The land to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this land will be considered as the proprietor of the land, and the entire proprietary right of Government in that land will be transferred to him free of revenue in perpetuity.

2nd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the land to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.	REMARKS.
	The old Bagunbari post office land in pargana Alapsingh. Boundary on the north by the road leading to the Bagunbari Bazar, on the east by the main road leading to Jamalpur, on the south by the waste land, and on the west by the boundary of Ram Chandra Deb's garden in the village of Bagunbari. A. H. VERNEDE, Covenanted Deputy Collector in charge, for Collector.

Mymensingh Collectorate, the 25th November 1899.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Murshidabad, will be put up to sale at the Murshidabad Collectorate on Friday, the 12th January 1900, corresponding with 29th Pous 1306.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and the purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Monghyr Collectorate, the 17th November 1899.

ASHUTOSH BANERJEE for Offg Collector, on tour.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plot of land, no longer required by Government, situated along the Sini-Midnapore-Calcutta-Cuttack Extension of the Bengal-Nagpur Railway, in the district of Singhbhum, will be put to sale at 12 o'clock on the 1st day of January 1900, corresponding to the 15th Pous Fasli 1307 at Chaibassa, in the Office of the Deputy Commissioner of Singhbhum.

The purchaser of the plot of land will be subject to the following conditions:—

1st.—The purchaser will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plot of land will be sold revenue-free to the highest bidder.

5th.—The purchasers shall be put in possession on receipt by the Deputy Commissioner of the orders of the Board confirming the sale.

Consecutive lot number.	Name of district.	Pargana and mauza.	Number of mile on which land is situated.	Situated on which side of the railway.	Approximate area of lot in bighas and acres.		Land excluded from sale from each plot and reasons for exclusion.	Commencement and termination of lot.	Boundary of lot.

Gaya Collectorate, the 16th December 1899. A. W. COOK, for Collector.

NOTICE is hereby given that the Mica Mines mentioned below, will be put up to auction on the 1st February 1900, in the Deputy Commissioner's Office at Hazaribagh.

A mining lease for five years on the conditions published at page 231, Part I of the *Calcutta Gazette*, dated 2nd March 1898, will be given to the highest bidder, subject to the approval of the Divisional Commissioner. In addition to the rent a royalty at the rate of $2\frac{1}{2}$ per cent. will be levied on the sale value of the mica at the pit's mouth.

These mines had been sold by auction on 3rd July 1899, for Rs. 10,000 per annum, but the auction purchaser having failed to deposit Rs. 5,000 by way of security, the settlement was cancelled.

Names of mines.	Situation.	Area in square feet.
1. Choolo ... 2. Kaira ... 3. Pira ... 4. Teria ...	In the Kodorma Reserved Forest, district Hazaribagh.	The present aggregate area of the mines is 20,000 square feet. In addition to this area the lessee will be allowed to work all land intervening between the mines and lying within a distance of 200 feet from any of these four mines, but exclusive of any land that may be included in or that lie within a distance of 20 feet from any other mine already settled.

Hazaribagh, the 4th December 1899. A. H. WARDE JONES, *for* Deputy Commissioner.

Percentage 39·2.

(931—1)

Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

FROM 1st April 1898 the price of this quinine will be as follows:—

1 Pound tin Rs. 17, or, post free, Rs. 17-12.
½ ,, ,, ,, 8-8 ,, ,, ,, ,, 9.
¼ ,, ,, ,, 4-4 ,, ,, ,, ,, 4-12.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, cinchonine and cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ সল্‌ফেট অফ কুইনাইন।

১৮৯৮ সালের ১লা এপ্রিল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন ১৭, বা ডাক মাশুল সমেত ১৭৸৹
॥ আধ ,, ,, ৮॥৹ ,, ,, ,, ,, ৯,
। শিকি ,, ,, ৪।৹ ,, ,, ,, ,, ৪৸৹

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছাপূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।

Cinchona Febrifuge.

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, *Rs. 2, ans. 8*; per eight-ounce tin, *Rs. 5*; per pound tin, *Rs. 10*. The general public can be supplied by the Superintendent, Botanic Garden, *for Cash only* at the undernoted rates—per four-ounce tin, *Rs. 3*; per eight-ounce tin. *Rs. 6*; per pound tin, *Rs. 12*. This medicine is also sold by the principal European and native druggists in Calcutta. Postage four annas per *4oz.* tin, eight annas per *8oz.* tin, and twelve annas per pound tin, in addition to the foregoing rates.

Ditto, brown, 17″×27″, 25 lbs....	20

General Conditions.

Tenders should be superscribed "Tender for paper," and should be accompanied by a deposit of one per cent. on the value of the tender. This deposit should be paid into the Bank of Madras and its receipt attached to the tender. In cases where tenderers may deposit Government promissory notes, they should endorse the same payable to the "Collector and Superintendent of Stationery, Madras."

2. Tenderers should send six sheets of each description of paper tendered as a sample, marking clearly thereon the manufacturer's name and the description, size and weight; they should be flat, not folded.

3. The papers should be delivered at the Stationery Office, Beach, Madras, at the cost and risk of the contractor.

4. The successful tenderer or tenderers will be required to pay a security of 10 per cent. on the value of the paper for which the tender is accepted and to sign a contract bond (a form of which will be furnished by this office for inspection) within twenty days from the date of his being informed of the acceptance of his tender; and, in case of failure, his deposit delivered with the tender will be forfeited and credited to Government and his tender considered as cancelled.

5. The necessary stamp duty on the contract bonds must be paid by the contractors.

6. The quantities specified in the above schedule are only probable requirements; actual demands will be mentioned in the orders given from time to time, agreeably to which contractors will be required to supply the articles.

7. Blotting paper should be packed and supplied in tin-lined dealwood cases. Other papers should be well packed in strong canvas with bale planks and iron hoops. They should be packed quite flat, and each quire in a ream packet should be distinctly marked or separated by a slip of paper. All bales of each description and size of paper should contain a uniform number of reams and their contents should be distinctly marked on them.

8. In cases of necessity, the contractors must undertake to store the consignments in their own godowns for a period not exceeding three months at their risk and free of charge.

9. In the event of a consignment being rejected, the contractors will be required to replace it within a month from the date of intimation of rejection.

10. Considerations of the quality of the paper tendered and of its price will alone guide the Superintendent in his decisions, but he reserves to himself the right, without assigning any reason, of rejecting any tender in whole or in part, and in respect of articles, rates, quantities or other particulars, &c.

11. Forms of tender and any further information can be obtained on application to the Superintendent of Stationery.

H. BRADLEY, Acting Superintendent of Stationery.

Stationery Office, Madras, the 20th November 1899.

Parts I, II and III of a Descriptive Catalogue of the Sanskrit Manuscripts in the Library of the Calcutta Sanskrit College, prepared by Pandit Hrishikesa Sastri and Babu Siva Chandra Gui, M.A., B.L., of that College are offered to the public for sale. The Catalogue is to be completed in 23 parts, the price of each part being 12 annas a copy, exclusive of postage. Copies can be obtained, from the Principal of the Sanskrit College, Calcutta.

Annual Statement of the Sea-borne Trade and Navigation of the Bengal Presidency and of its Chief Port (Calcutta), and each of its Subordinate Ports (Chittagong, Balasore, Cuttack, Pooree, and Naraingunge), Volumes I and II. Price Rs. 20 for 1897-98. Published at the Calcutta Custom House. Previous years volumes can also be obtained at the same price

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and *Indian Law Reports* are hereby informed that unless the amount of their subscription for 1900 is received before the 31st December 1899, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1900.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-orders. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should also be stated. Omission to note these particulars will involve considerable delay.

R. SHEEPSHANKS,

Under-Secy. to the Govt. of Bengal.

The 1st December 1899.

Notice.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed :—

1st.—Bay of Bengal Daily Weather Report, giving meteorological observations taken at 28 stations in Bengal and on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after midday. Price to subscribers in Calcutta Rs. 2 per mensem, payable in advance for six months.

This report will be issued every year from 1st November to 30th April. From 1st May again the Bay of Bengal and Bengal Report containing observations taken at 65 stations will be issued up to 30th November.

2nd.—A Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 327 subdivisional and other stations, together with summaries of the more important features of the meteorology of the past month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Monthly Summary Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 4, Camac Street, Calcutta, for the Bay of Bengal and Bengal Daily Weather Report, and to the Accountant and Treasurer, Bengal Secretariat, for the Monthly Report.

C. LITTLE,

Meteorological Reporter to the Govt. of Bengal.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Book Depôt except *for* Government offices or offices under the control of Government Officers are strictly cash, and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes.

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer. Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at the Bengal Secretariat Book Depôt.

Notice.

The 29th March 1886.—The subscription to and postage for the *Calcutta Gazette* will henceforth be at the following rates, payable in advance :—

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage* (Inland rate) Rs. 22-8
Ditto ditto (Overland rate) Rs. 28.

	Without postage. Rs.	A.	P.	With postage. Rs.	A.	P.

,, each of the Madras, Bombay, and Allahabad Series	6	0	0	7	0	0
,, a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	......			2	0	0
,, a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*) .	..			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town. Rs.	A.	P.	For mufassal. Rs.	A.	P.
For the Calcutta Series, per copy ...	0	8	9	0	10	8
,, each of the Madras, Bombay, and Allahbad Series, per copy ..	0	5	3	0	5	9
,, the Calcutta Series. For the year	7	2	6	8	6	3
,, each of the Madras, Bombay and Allahabad Series. For the year	4	4	6	4	11	3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
,, Curator of Government Books, North-Western Provinces and Oudh.
,, Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1899 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

ADVERTISEMENTS will be received for publication on the papers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page.	Half page.	Quarter page.
For one issue ...	Rs. 20	Rs. 14	Rs. 9
,, three issues ...	,, 55	,, 36	,, 24
,, six ,, ...	,, 100	,, 68	,, 45
,, nine ,, ...	,, 145	,, 96	,, 64
,, twelve ,, ...	,, 180	,, 120	,, 80

SEVERAL volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS Parts I and II, are available at the following rates:—

	Without postage. Rs.	A.	P.	With postage. Rs.	A.	P.
Bengal Law Reports for one year ...	20	0	0	22	8	0
Single copies, Rs. 2 per copy.						
Full Bench Rulings, Parts I and II ...	20	0	0	22	8	0

Obtainable at the Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

The complete series of the INDIAN LAW REPORTS of the following years having now been reprinted, are available, and may be purchased for all the years, or any particular year, on application to the Officer in charge, Bengal Secretariat Book Depot.

The wanting parts of the Reports for the remaining years are being reprinted, and complete Reports from the beginning to date will be available shortly. The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat:—

Years.	Years	Years.	Years.

AUSTRALIA—MARY RIVER.

Additional lights and leading beacons.

THE Port Master, Brisbane, has given notice (No. 18 of 1899) that on and after 18th November 1899, the following new pair of leading lights and triangular beacons will be exhibited in the Mary River, viz.:—

Two white triangular beacons with a black vertical stripe in centre carrying lights at night situated on the right bank of the Mary River, about 8½ cables above the Leslie Rock, which in line bear about S. 29° E. and lead up the Dundathu Reach, intersecting the Dundathu Cutting lead.

Directions.—After passing through No. 2 or Leslie Rock Cutting, with the leading lights and beacons astern in line, continue keeping clear to the south or right bank until the leading beacons named above come in line astern, when continue with them in that position until the leading beacons for Dundathu Cutting come in line astern (or the leading lights in line ahead), when continue as before.

The new front light will be red. The least depth on this line at low-water springs is 10 feet.

Chart affected, No. 649; Australia Directory, Vol. II.

BAY OF BENGAL—BURMA COAST.

Rangoon river—Alteration in Da Silva shoal.

THE following Notice to Mariners (No. 104 of 1899) issued by the Bombay Govern- nt is republished:—

A plan made by Commander St. L. S. Warden, R.I.M.S. *Dalhousie*, October 1899, shows Da Silva Shoal to extend one cable further east than shown on Admiralty Chart No. 833. Its eastern edge now lies S. 3° W. 10½ cables from North Beacon. From the eastern edge of the shoal Keikmalong Clump bears N. 68° E., Da Silva Point N. 38° W., and South Beacon S. 2° W. The Syriam Pagoda transit North Beacon now leads over the shoal in 6 feet least water.

The south end of Da Silva Shoal and the channel west of it have deepened. There is now a depth of 21 feet 12½ cables S. 8° W. from North Beacon and 13 to 17 feet between the shoal and Da Silva Point.

Approximate position—**Lat. 16° 38′ 00″ N., Long. 96° 15′ 45″ E.**

All bearings are true.

This Notice affects the following Admiralty Chart:—Rangoon River and approaches, No. 833, and Bay of Bengal Pilot, 1892, page 329.

"INDIA—WEST COAST.

Kārwār—Buoy removed for painting.

Information has been received from the Commissioner of Customs, Salt, Opium and Abkari, dated 24th November, that the Kārwār north-west buoy has been removed for painting."

[Second Publication.]

AUSTRALIA, NORTH-WEST COAST—MONTALIVET ISLANDS.

Reef westward of these islands.

THE British Admiralty has given notice (No. 713 of 1899) that information has been received through the Board of Trade that the Master of the S.S. *Tangier* reports that his vessel, drawing 17 feet water, when to the westward of the Montalivet islands, struck on an uncharted reef at 2-20 A.M. on August 28, 1899.

The exact position of the shoal is doubtful, but "Reef reported hereabouts" has been marked on the Admiralty Chart in approximately lat. 14° 14' S., long. 125° 2' E.

Variation 2° Easterly in 1899.

This Notice affects the following Admiralty Charts:—Australia, north-west coast, No. 475; cape Ford to Buccaneer archipelago, No. 1047: Also, Australia Directory, vol. III, 1895, page 196.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 243.

[Second Publication.]

NEW ZEALAND—NORTH AND SOUTH ISLANDS.

Storm signals at certain light-houses.

THE British Admiralty has given notice (No. 721 of 1899) that on and after the 18th October 1899, the following weather forecast signals will be exhibited from the undermentioned light-houses, viz.:—

NORTH ISLAND.

Cape Maria van Diemen, in lat. 34° 28' S., long. 172° 39' E.
Tiri Tiri „ 36° 36' S., „ 174° 55' E.

SOUTH ISLAND.

Cape Campbell, in lat. 41° 43' S., long. 174° 18' E.
Cape Foulwind „ 41° 45' S., „ 171° 29' E.
Fairwell Spit „ 40° 33' S., „ 173° 1' E.

The weather signals consist of two symbols, a black cone and a black drum. The cone is 3 ft. high and 3 ft. wide at the base, and the drum is 3 ft. high and 3 ft. wide at either end.

These symbols will be used either with or without a red pennant; they will be shown to all vessels passing within signal distance, and between the hours of 8 A.M. and 6 P.M., unless the wind at the station is too strong.

Mariners are cautioned that weather forecast signals for the day are not to be considered as covering a distance greater than a radius of 200 miles from the place at which they are hoisted, and those made with the red pennant under as covering only a radius of 50 miles from the place at which they are hoisted.

If the symbols are not displayed, mariners desirous of obtaining information as to probable changes of weather are requested to use the International Code signal for that purpose.

The weather forecast for the day will be forwarded from Wellington as soon as possible after 10 A.M., except on the following days:—All Sundays, Christmas Day, Boxing Day, New Year's Day, Good Friday, Easter Monday, and the Sovereign's and Prince of Wales's Birthdays. Such messages ought to reach their destination, at latest, about noon on the day they are issued.

The red pennant hoisted below any weather signal made between the hours of 8 A.M. and noon will always indicate that such signal belongs to the forecast of the previous day.

Weather signals without the red pennant will always indicate that the forecast belongs to the day upon which they are hoisted.

The red pennant, when hoisted alone, will indicate that the forecast for the day has not been received from Wellington.

Whenever the wind at any of the signal stations has changed in such manner that the orecast for the previous day will not apply, no symbol will be displayed until the forecast or the day has been received at the station.

EXPLANATION OF SIGNALS.

Moderate Weather.

This will be indicated by the International Code signal.

CAUTIONARY SIGNALS.

Northerly Gales.

The cone hoisted point upwards will denote that strong winds or gales are probable from the northward—that is, from about north-east, changing by the north towards west.

N.B.—This change of wind is usually followed by strong winds or gales from the southward.

Westerly Gales.

The cone hoisted point downwards will denote that strong winds or gales are probable from the westward—that is, from about west, changing by the south-west towards south.

N.B.—After these gales have moderated the wind generally backs to the north-west or to the north; but should the southerly gale continue for a longer time than usual, the wind may be expected to work round as far as south-east.

Easterly Gales.

The cone hoisted point upwards with the drum below will denote that strong winds or gales are probable from the eastward—that is, from about north, changing towards the east and south-east.

N.B.—This change of wind denotes a black north-easter and an approaching cyclone.

P. J. FALLE, *Comdr.*, R.I.M.,
Port Officer of Calcutta.

NOTICE TO MARINERS—No. 230.

[Third Publication.]

EASTERN ARCHIPELAGO—PHILIPPINE ISLANDS—LUZON.

Reef extending from cape Bojeador.

THE British Admirality has given notice (No. 684 of 1899) that on 19th June 1899, the S.S. *Centennial*, when about 2 miles west of cape Bojeador lighthouse, Luzon, struck on a reef, the depth obtained forward being 16 feet and aft 23 feet. At 20 yards westward of the vessel there was a depth of 5 fathoms, and between the ship and the shore 3 to 4 fathoms.

As cape Bojeador is reported to be surrounded by a reef, the above reef has been extended on the Charts for about 2 miles to the northward and southward of the cape.

Approximate position, lat. 18° 30′ N., long. 120° 33′ E.

(*Variation Nil in 1899.*)

This Notice affects the following Admiralty Chart:—The island of Luzon, No. 2454: Also China Sea Directory, 1899, vol. II, page 326; and Eastern Archipelago, part I, 1890, pages 39, 333.

[Third Publication.]

JAPAN, SOUTH COAST.

No sima saki—Shoal water to the eastward.

THE British Admiralty has given notice (No. 690 of 1899) of the existence of the following shoal patches east of No sima saki:—

(*a*) Kiukono reef has a depth of 3½ fathoms over it at low water, and is situated with No sima saki lighthouse bearing N. 68° W., distant 1¾ miles, and Takatsuka yama (759 feet), N. 22° E.

Approximate position, lat. 34° 53′ 35″ N., long. 139° 55′ 0″ E.

(*b*) Hirone has a least depth of 8 fathoms over it, and is situated with No sima saki lighthouse bearing No. 58° W., distant 2$\frac{1}{10}$ miles, and Takatsuka yama N. 16° E.

(*2*) *Kats'ura—Reefs.*

Also, of the following reefs in Kats'ura:—

(*a*) Kajikakeno is a pinnacle with a depth of one fathom over it at low water, and 5 to 9 fathoms on all sides of it: it is situated with the extreme of Kura ga hana bearing S. 88° W., distant 1⅝ cables, and the rock, 43 feet high (called Suzume jima), N. 4° E.

Approximate position, lat. 35° 8′ 10″ N., long. 140° 17′ 15″ E.

(*b*) Komone, half a cable in extent S. by W. and N. by E., has a depth of 1½ fathoms over it at low water, and 4 to 7 fathoms around it: it is situated with Hachiman saki bearing N. 14° E., distant 3 cables, and Kura ga hana N. 55° W.

(*c*) Dojimashi has a depth of 3¾ fathoms over it, surrounded by depths of from 7 to 8 fathoms: it is situated with the islet off Hachiman saki (called Fukushima) S. 59° E., distant 2⅓ cables, and the rock, 6 feet high (called Michiyoga), N. 11° E. There is a depth of 4 fathoms, at quarter of a cable, N.N.W. of the above.

Variation 4° Westerly in 1899.

AUSTRALIA, NORTH-WEST COAST—ASHBURTON ROAD.

Reefs in approach.

THE British Admiralty has given notice (No. 691 of 1899) that the following information, dated 9th September 1899, respecting the reefs in the approach to Ashburton road, has been received from Commander J. W. Combe, H. M. Surveying Vessel *Penguin* :—

(*a*) The small coral reef, marked P.D. on the Chart, south-west of Airlie island, was found to be 2 cables in extent, with a depth of 6 feet at low-water springs. It is situated in approximately lat. 21° 24′ 15″ S., long. 115° 6′ 0″ E.

(*b*) A patch 3 cables long, east and west, and one cable broad, composed of sand and coral, with the least depth of 2 fathoms over it, is situated in approximately lat. 21° 33′ 30″ S., long. 115° 2′ 30″ E.

(*c*) A patch composed of sand and coral, 1½ cables in extent, with a least depth over it of 2 fathoms, is situated in approximately lat. 21° 34′ 0″ S., long. 115° 1′ 30″ E.

(*d*) A patch composed of sand and coral, 2 cables in extent, with a least depth over it of 2 fathoms, is situated with the summit of Ashburtom island bearing S. 41° W., distant 2 2/10 miles, and north peak of Saddle hill S. 10° E.

(*e*) A patch composed of sand and coral, 4 cables long N. by E. and S. by W., and one cable broad, and having depths over it of from 11 to 14 feet, at low-water springs; the north end is situated with summit of Ashburton island bearing N. 59° E., distant 1 8/10 miles, and entrance point beacon S. 36° E.

Approximate position, lat. 21° 37′ 5″ S., long. 114° 53′ 20″ E.

AUSTRALIA—FITZROY RIVER.

Middle channel into Broadmount harbour.

THE Port Master, Brisbane, has given notice (Amended No. 16 of 1899) that, on and after the 25th October next, the Middle Channel into Broadmount Harbour, Fitzroy River, will be available for navigation.

The entrance is marked by an Occulting Gas Buoy, painted black, and moored in 21 feet at low water, with Sea Hill Lighthouse bearing E. by S. ¾ S., distant 2¾ miles.

Between the Gas Buoy and Broadmount there are seven leads marked as follows:—

No. 1 Lead—By two Dolphin Structures, surmounted by lantern houses painted white, used as Beacons by day, and from which two white lights are shown at night.

No. 2 Lead—By two Dolphin Structures, surmounted by lantern houses painted white, used as Beacons by day, and from which two lights, red and white, are shown at night.

No. 3 Lead—By two Dolphin Structures, surmounted by lantern houses painted white, used as Beacons by day, and from which two lights, red and white, are shown at night.

No. 4 Lead—By two Dolphin Structures, surmounted by lantern houses painted white, and also two Triangular Beacons. Two white lights are shown from the lantern houses at night.

No. 5 Lead—By four Triangular Beacons, two at each end, the Shore Beacons carrying red and white lights at night.

No. 6 Lead—By two Triangular Beacons, carrying green lights at night.

No. 7 Lead—By two Triangular Beacons, carrying red and white lights at night.

In the Bi-coloured Leads, the red is the front light in each case.

DIRECTIONS.

By Day.—After passing the Timandra Gas Buoy, steer S.W. ¼ S., 4¼ miles for the Middle Channel Gas Buoy, and pass it at a cable's distance on the Port hand, bringing the first pair of Dolphins, bearing S. 25° W., into line.

Continue on this Lead (No. 1) for a distance of 4 miles, passing a Black Buoy to Port, until the next pair of Dolphins, bearing S. 53° W., come into line ahead, passing a Red Buoy to Starboard.

Proceed on this course (No. 2 Lead) until the next pair of Dolphins come into line astern, bearing N. 84° E., and passing a second Red Buoy to Starboard.

Continue on this line (No. 3 Lead) until another pair of Dolphins come into line astern, bearing S. 71° E., and a pair of White Triangular Beacons come into line ahead, passing a third Red Buoy to Starboard.

Continue on this line (No. 4 Lead) until nearly abreast of the south-west point of Mackenzie Island, when a pair of White Triangular Beacons are to be brought into line astern, and another pair ahead, the lastnamed bearing N. 32° W.

Continue on this line (No. 5 Lead) and pass between a Red and a Black Buoy, bringing a pair of White Beacons near the Quarantine Station into line astern, bearing S. 76° E.

Continue on this line (No. 6 Lead) until another pair of Beacons on Mackenzie Island come into line astern, bearing N. 84° E.

Keep this line (No. 7 Lead), passing a Red Buoy on the Starboard hand and two Black Buoys on the Port hand, until abreast of the Broadmount Wharf, when a vessel may anchor in 6 fathoms of water, or proceed to Rockhampton by following the directions already given.

By Night.—Follow the directions given for navigating this Channel by day, using the Leading Lights already described in lieu of Beacons.

The available depth throughout the Middle Channel is 15 feet at Low Water Springs.

It is High Water F. and C. at the Entrance Buoy at 9h. 15m.

Spring Tides rise from 13 to 15 feet, and Neap Tides from 8 to 10 feet.

Charts affected: Nos. 345 and 363, and Australia Directory, Vol. II.

AUSTRALIA—Torres Strait, Inner Route.

Shoal patches south of Aya reef.

The Port Master, Brisbane, has given notice (No. 17 of 1899) that Commander Parry, of H. M. surveying ship *Dart*, reports the existence of a group of coral and mud patches, with a minimum depth at low water of 28 feet, in the following position, viz.—

Burkett Island, south extreme	...	N. 47° 50′ W. $6\frac{6}{10}$ miles.
Aya Reef Beacon	... ...	N. 3° 15′ E. $2\frac{8}{10}$ "
Eff Reef Beacon	... ...	S. 35° 20′ E. $3\frac{1}{10}$ "
Latitude	... ...	14° 00′ 56″ S.
Longitude	... ...	143° 49′ 10″ E., approximate.

The patches carry from $4\frac{1}{2}$ to 7 fathoms, and extend over an area $1\frac{1}{2}$ miles in a N. W. and S. E. direction by 9 cables in a N. E. and S. W. direction.

Note.—The beacon on Aya Reef is 1 cable from the south extreme of the reef instead of as shown on chart.

Charts affected, Nos. 2921 and 2922; Australia Directory, vol. 2.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE ORISSA DIVISION FOR THE YEAR 1898-99.

GENERAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 19th December 1899.

RESOLUTION—No. 4047.

READ—

The Annual General Administration Report of the Orissa Division for the year 1898-99.

The Division was in the charge of Mr. Stevenson for nearly the whole of the year.

2. *Tours and Inspections.*—All the district and subdivisional offices were inspected by the Commissioner as well as other public offices.

The tours of the District Officers were complete and each inspected his office, with the exception of the Magistrate of Puri. It is not stated in the report whether the Subdivisional Officers made inspections at their head-quarters.

3. *Weather and Crops: Health and Material Condition.*—The rainfall was slightly below the normal and somewhat irregularly distributed, but the crops in Cuttack were up to the average, and those in Puri and Balasore but little below it.

The year was conspicuous for the comparative absence of cholera and the general low death-rate. It is, therefore, the more to be regretted that the mortality from the practically avoidable disease of small-pox should have been so great. The opposition to vaccination is greater here than in any other part of the province.

With the good crops, those whose income proceeds directly from the land enjoyed a fair measure of prosperity. It is reported, however, by the Collector of Balasore that the petty landlords on fixed incomes and the clerical class were scarcely better off than before.

4. *Manufactures: Trade and Commerce.*—The manufactures are not of much importance, and the trade in salt made at the Chilka Lake has lost ground with the advent of the railway which enables salt to be brought from Madras. Progress was made in clearing off the surplus stock of salt accumulated in the previous years by reducing the price. Extensive quarrying was done in connection with the construction of the bridges on the Bengal-Nagpur Railway.

The *sea-borne trade* passes mainly through Balasore; and though the aggregate value was almost the same as last year, yet the imports increased by 19½ lakhs, and the exports decreased by 20 lakhs. The Commissioner attributes the former to the bountiful harvest of 1898-99 and the consequent increased expenditure on cotton goods, and the latter to the unremunerative price of rice elsewhere in India; but this would appear to contradict the explanation given with reference to imports more especially when it is seen that there was a marked falling off in the amount of rice and paddy exported as compared with the previous year. The imports by *rail* almost doubled, and those by *canal* showed a considerable increase, the two together amounting to 9 lakhs as compared with 6 lakhs in the previous year; but exports fell by nearly 50 per cent. in each case from a total of 15 to 8 lakhs.

5. *Civil Justice.*—The total number of original civil cases disposed of during the year was 20,374, and the number left pending was 2,967. The Deputy Collectors in the non-regulation districts disposed of 5,548 rent cases, this number being somewhat less than that of last year, a falling off which is attributed to the settlement proceedings.

6. *Crime, Police and Criminal Justice.*—There was an increase in the number of both cognisable and non-cognisable cases in the year, for which no explanation has been offered. The percentage of convictions in cognisable cases was 55. Convictions for bringing false cases numbered 28, though 327 were declared to have been maliciously false; and compensation under section 250, Criminal Procedure Code, was awarded in 41 cases only. Trials appear to have been completed with reasonable promptitude.

The Magistrates had to try in all 10,435 cases in the year, or nearly 2,000 more than the year before. Of these, 2,880 were tried by Honorary Magistrates, though from the fact that the average number of witnesses examined in each case was one only, it follows that they must have been of a petty nature.

7. *Land Revenue and Cesses.*—The total demand of land revenue from all three classes of estates in the Division was Rs. 23,62,417, and the total collection was Rs. 22,25,800. The balances due from permanently-settled estates in the three districts were nominal; and in temporarily-settled estates the collections in Cuttack and Balasore were very good. The percentage in Puri, however, was only 63, though almost the whole of the arrears was due from the recusant estate of Kotdesh. The collections in *khas* estates were good in Cuttack and Puri, but very poor (55 per cent.) in Balasore. No explanation has been offered for this failure, which is *primâ facie* most discreditable to the management in a year of good crops.

The current road cess demand was Rs. 2,70,273 and arrears Rs. 33,346, or Rs. 3,03,619 in all. The collections were respectively Rs. 2,43,384 and Rs. 27,312 and the total arrears Rs. 32,923, which represents 12 per cent. of the current demand. The outstanding arrears in Cuttack are 16·7 per cent. of the current demand. There were 6,727 certificates for disposal in that district in the year, of which 5,575 were for arrears of road cess, and there were over 2,000 pending at the close of the year. It is clear that much trouble is caused by the dilatoriness of the zamindars in paying that cess; and the Collector should give his particular attention to the working of the certificate

office. In the other districts the progress made in disposing of the far less numerous cases was more satisfactory.

The number of land acquisition cases pending at the close of the year was 267, as compared with 135 at the end of last year. No reasons accounting for this increase appear in the Commissioner's report.

The number of partition cases pending increased from 49 to 58, and 14 only were disposed of during the year. The oldest pending case began in 1884. Doubtless good reasons exist for this long delay, but it is to be hoped that the case may soon be disposed of.

8. *Wards' Estates.*—The estates under the Court of Wards numbered five. The collections were fair, save in Kujang and Madhupur. In the former estate the current demand was Rs. 1,71,635, and Rs. 1,46,265 were collected. In the latter, with a current demand of Rs. 79,477, only Rs 37,690 were collected. As the crops were good, in the absence of any explanation this result was in the one case indifferent and in the other extremely bad. The special attention of the Commissioner was last year invited to the growth of arrears in the Kujang estate, which is part of the Burdwan Raj; but though they have still further increased, the matter has escaped his comment. The necessary explanations must now be submitted. The expenditure on improvements fell from Rs. 60,748 to Rs. 40,957.

9. *Excise: Stamps: Income tax.*—The excise revenue increased from Rs. 6,62,775 to Rs. 7,27,438, mainly under the heads of opium, country spirits, and ganja. The number of cases detected fell from 306 to 249

There was a falling off of Rs. 10,000 in the receipts from the sale of stamps, ascribed to the winding up of the settlement and the general slackness of the grain trade. The number of prosecutions fell to 6, and no reward was paid.

The income-tax assessed was Rs. 71,150 as compared with Rs. 62,147 last year, or about one-third of an anna per head of the divisional population.

10. *Railways and Public Works.*—The East Coast Railway is now in working order, and the final opening of the Bengal-Nagpur extension from Calcutta to Cuttack only awaits the completion of the bridges. Nothing has been said by the Commissioner on the subject of feeder lines, which, it is hoped, will not be permitted to pass out of notice. With the completion of the main lines, Orissa will have ceased to have any claim to be considered an isolated province, and the consequences to its trade should be very great. Those lines of communication which at present monopolise the trade will be seriously affected, and it is reported that the traffic on the Kendrapara Canal fell off very considerably during the short time that it was found possible to keep the Calcutta-Cuttack line open.

The information supplied in the report about the canal revenue is so incomplete that it is not possible to compare it with that of previous years. It would appear, however, that it fell off considerably.

11. *Education.*—The total number of boys of school-going age in the Division is about 285,000, and the total number at school was 105,520, or 37 per cent. The total number of girls was 6,275. Last year the boys and girls numbered respectively 94,825 and 6,018.

The most interesting comparison is that which exhibits the progress of English and vernacular education. It would appear that in 1897-98 there were 47 middle vernacular schools with 1,846 boy- and 315 girl-pupils, whilst in 1898-99 the schools were 45 and the pupils 1,859 and 279 respectively. Thus the number of pupils was stationary while that of schools diminished. But the schools teaching the middle English increased in that period from 37 to 45 and the pupils from 2,480 to 2,908. Therefore, it would appear that in Orissa as elsewhere vernacular schools are gradually losing ground. Muhammadan education appears to be stationary; and in the absence of any precise information it is not possible to say how Sanskrit education is progressing. Of the special schools, the Cuttack Training College, the Medical School and the Survey School made some progress; but the Alalpur Industrial School lost ground.

12. *Dispensaries and Hospitals.*—There were 33 of these institutions open during the year as compared with 31 in the year before, and the total number

of patients treated was 141,200 compared with 140,329. The number of in-patients, however, fell from 3,284 to 2,169. The most important is the Cuttack General Hospital, which is reported to be still crippled by want of funds; but since the close of the year the Dhenkanal Raj has generously contributed Rs. 2,000, an example which, it is hoped, will be followed.

13. *Local Self-Government.*—The criticisms passed last year on the working of the Cuttack Municipality do not appear to have borne any fruit, and the prosperity of the town, which with the advent of the railway ought to increase rapidly, will be seriously threatened if no improvement in its administration ensues. The collection of municipal taxes in Puri is reported to be very lax, with consequent financial embarrassment.

The Commissioner has little to say for the Local Boards, and still less for the Union Committees, but a hopeful view is taken by him of some experiments, initiated by Mr. J. N. Gupta, c.s., and which His Honour trusts will continue to be carried on, in the direction of village co-operation for village purposes in the Government estates of Khurda.

14. *Conduct of Zamindars.*—There is little that is new to be noted on this subject, though it is satisfactory to find that several of the more serious disputes are about to be settled in the proper way by recourse to the preparation of a record of rights under the Bengal Tenancy Act. The management of the estates of absentee landlords has again evoked criticism from the Commissioner; and it is necessary that the zamindar, who leaves his estates entirely in the hands of his agents, should learn that he leaves his good name also in their keeping.

15. *Political.*—Mr. McL. Smith held charge of the district of Angul for the whole of the year. Full tours and inspections were made by him, and the Commissioner inspected the district office. The crops in the Khondmals were normal, but the rice crop in the Angul subdivision was only 12 annas. The number of civil suits slightly increased, while cognisable offences decreased. The land revenue collections were very good, being 99·4 of the gross demand. The excise revenue fell off by 40 per cent., and no satisfactory explanation has been advanced by the Deputy Commissioner. The income from stamps, too, was less, owing to a decrease in the number of transfers of property. The number of pupils attending the schools again fell off.

The thanks of the Lieutenant-Governor are due to Mr. Stevenson for his generally careful administration of the Division. Extracts from his report are printed for general information.

By order of the Lieutenant Governor of Bengal,

F. A. SLACK,

Offg. Secy to the Govt. of Bengal.

Extracts from the Annual General Administration Report of the Orissa Division for 1898-99.

* * * * * * *

III.—WEATHER AND CROPS.

17. The following table compares the average rainfall in each district during the past three years:—

District.	Rainfall in inches.		
	1896-97.	1897-98.	1898-99.
1	2	3	4
Cuttack ...	64·88	57·22	59·95
Balasore ...	69·13	57·42	58·18
Puri ...	58·02	50·02	49·65
Divisional average ...	64·01	54·89	55·93

As compared with the previous year, the rainfall was slightly heavier except in Puri where it was less.

18. *Cuttack.*—The rainfall was nearly normal in amount, but not very evenly distributed, that in April being very heavy and in other months rather below the average, while it practically ceased in October. The season, however, was a favourable one for the crops the outturn of which was well up to average.

19. *Balasore.*—The rainfall was below normal, but above that of the previous year. It was heavy in the months of August, September and October, but the somewhat early cessation of the rains was not conducive to the proper development of the ears of grain. The outturn of the main rice crop was, however, good, though slightly below the average. The rainfall from December to March was, on the whole, favourable to the *rabi* crop and the *boro* rice, but it was scarcely sufficient during the months of February and March—a fact which reduced the outturn below the average. Floods in the Subarnarekha and Kansbans rivers did some damage to paddy crops in two parganas.

20. *Puri.*—Though the total rainfall of the year was less than in 1897-98, the agricultural results were, on the whole, satisfactory.

The rainfall in June was somewhat deficient, but the subsequent good rainfall of July and August improved prospects, and the outturn of the main rice crop was on the average 94 against 100, being somewhat less than in the preceding year.

There was no loss of crops on account of floods during the year.

IV.—PUBLIC HEALTH.

21. The subjoined table compares the number of deaths from different diseases in the districts of the Division during the past three years:—

District.	Population.	Number of deaths from fever.			Number of deaths from cholera.			Number of deaths from dysentery and diarrhœa.			Number of deaths from bowel-complaints.		
		1896.	1897.	1898.	1896.	1897.	1898.	1896.	1897.	1898.	1896.	1897.	1898.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
Cuttack	1,937,671	24,765	26,700	23,093	5,281	11,366	1,853	3,696	4,012	3,737	...	...	...
Balasore	994,625	13,613	12,847	12,009	7,679	3,204	3,131		...		...	...	...
Puri	944,998	5,019	6,508	5,232	3,305	9,047	432		...	...	2,431	3,865	2,069
Total ...	3,877,294	43,397	46,055	40,334	16,265	23,617	5,416	3,696	4,012	3,737	2,431	3,865	2,069

District.	Number of deaths from small-pox.			Number of deaths from other causes.			Total number of deaths from all sources.			Ratio of deaths per mille of population.		
	1896.	1897.	1898.	1896.	1897.	1898.	1896.	1897.	1898.	1896.	1897.	1898.
	15	16	17	18	19	20	21	22	23	24	25	26
Cuttack	1,372	1,657	1,305	17,609	19,982	15,932	52,723	64,617	45,020	27·20	33·34	28·69
Balasore	..	.	..	14,208	14,305	12,404	35,500	30,356	27,634	35·69	30·52	27·77
Puri	632	1,843	5,508	12,125	15,657	10,851	23,512	36,920	24,002	24·01	39·06	25·40
Total ..	2,004	3,500	6,813	43,942	49,944	39,277	111,735	131,893	97,046	28·82	34·01	25·18

22. The general health of the Division was better than it was during the two preceding years. The death-rate for districts taken separately shows an appreciable decrease, markedly so in the case of Puri (25·49 against 39·46 per mille of population). Deaths from small-pox were more numerous than in 1897 or 1896. Those from cholera show a striking diminution, being 18,201 fewer than in 1897-98.

23. *Cuttack.*—The year was a particularly healthy one, the result, as the Collector thinks, of normal rainfall, good harvests and an absence of high floods in the last two years. There seems little doubt that the scarcity of 1896 and 1897 did not press seriously on the bulk of the population in this district.

24. *Balasore.*—The health of the town and district of Balasore was also comparatively good during the year, recorded mortality from all causes being less than in 1897.

25. *Puri.*—Public health in the district and town of Puri was better than in the preceding year, and the mortality returns compare favourably with those of the other two districts of the Division. Deaths from cholera show an unusual decrease, being 432 only against 9,047 in 1897. Small-pox prevailed in an epidemic form in some parts of the district during the year under report, hence the unusually heavy mortality from this cause.

It is said that the rainy season is the healthiest, cholera disappearing with the setting in of the south-west monsoon, except when reintroduced by pilgrims, while it is in the cold weather that fever is most prevalent. During the year under report cholera completely disappeared from the town by the middle of March, *i.e.*, long before the monsoon broke and did not reappear during the year. It is remarked by the Health Officer that it is an event unique in the annals of Puri for the *dol* and *Rathjatra* festivals to pass without a single case occurring.

Sanitary works.

26. The Cuttack Municipality spent Rs. 17,489 in conservancy and road-cleaning, Rs. 112 on water-supply and Rs. 1,901 on drainage. The expenditure incurred for the prevention of plague amounted during the year to Rs. 1,416. There were 34 prosecutions for infringement of conservancy rules. A sum of Rs. 1,116 was spent by the Jajpur Municipality in conservancy and Rs. 100 on drainage; Rs. 482 were spent on plague precautionary measures. There were 391 prosecutions for breaches of municipal and other laws, Rs. 299-12 being realised in fines. The Kendrapara Municipality spent Rs. 1,374 in conservancy and road-cleaning and Rs. 220 in water-supply. The expenditure on account of plague amounted to Rs. 758-14-8. In the densely populated part of this Municipality some attempts were made to compel residents to erect private latrines. There were 215 prosecutions for infringement of conservancy rules, fines imposed aggregating Rs. 146-12.

Apart from the amounts spent by the Balasore Municipality on the excavation of tanks and wells and in the construction of latrines (which in all amounted to Rs. 1,166), there were Rs. 1,309 spent on drainage works and Rs. 200 on conservancy. Necessary steps were taken under sections 195, 200 and 217 for village sanitation; an expenditure of Rs. 747 was incurred for the prevention of plague. There were 42 prosecutions under the Municipal Act, and Rs. 34 were realised as fines.

In the Puri Municipality Rs 93 were spent in cleansing wells, Rs. 89 on drainage and Rs. 15,495 on conservancy, including road-cleaning. A sum of Rs. 476 was expended by the Municipality, besides Rs. 1,005 by the District Board on prevention against plague. There were 1,489 prosecutions under the Municipal Act and under Act V of 1861. Village sanitation cannot be said to have as yet been attempted. The people do as they like. The source of water-supply is generally suspicious, and jungles, stagnant pools of water, heaps of rubbish and filth are found in and about almost every village. It is only in the Khurda Government Estate that something has been done by the late Subdivisional Officer, Mr. J. N. Gupta, in clearing up villages.

Vaccination.

27. The following table shows the vaccination operations in the districts of the Division during the past three years:—

DISTRICT.	Number of persons vaccinated.			Number of successful operations in 1898-99.	Percentage of successful operations to total number of persons vaccinated in 1898-99.
	1896-97.	1897-98.	1898-99.		
1	2	3	4	5	6
Cuttack	33,958	46,006	51,652	49,956	96·71
Balasore	48,440	49,284	50,384	49,375	97·99
Puri	27,485	35,914	20,417	19,607	96·03
Total ...	109,883	131,204	122,453	118,938	97·12

28. The total number vaccinated shows a decrease as compared with the previous year. This decrease occurred solely in the Puri district, and here it was so marked that, in spite of an aggregate increase of 6,752 cases in Cuttack and Balasore, the result for the Division as a whole was a decrease by 8,751 cases. The falling off in Puri was confined to the interior of the district, as in the town itself 2,844 persons were vaccinated against 2,739 in the preceding year, 92·68 per cent. of the operations being successful as against 94·92 per cent. in 1897-98.

The Puri report chiefly attributes these poor results in the mufassal to want of funds and to the abolition of paid and the introduction of licensed vaccinators. The replacement of paid by licensed vaccinators was undoubtedly a desirable step, though one taken by the District Board from motives of economy only, and may very possibly have had the result attributed to it in a reduction of operations on paper, though not in reality. For with the inadequate supervision over vaccination that exists in the interior of districts especially when, as in Puri, the vaccinators are scattered all over and do not work systematically in selected areas, a paid vaccinator finds it to his interest to fudge his returns to show himself a hard worker and at the same time to shirk real work. A licensed vaccinator has not the same inducement to make false returns or to shirk work as his income depends on the number of vaccinations he actually performs.

The District Board used to assign Rs. 1,000 annually to vaccination and employed 40 paid men. During 1898-99, from motives of economy, 82 licensed vaccinators were entertained in place of the above. They formed the regular staff, though 20 paid vaccinators were specially deputed to the tracts where small-pox was prevalent. It does not appear therefore that want of funds directly at least affected vaccination operations. It seems, however, that these were much handicapped by bad arrangements for the regular supply of lymph

to the operators. After so many years' experience it might have been expected that this old complaint would have ceased to be heard.

29. The credit of the increase in the number of operations in Cuttack is given by the Collector to the arrangements made by the District Board, which also increased the staff of vaccinators by three men. The increase in Balasore has not been accounted for, but may be due to an increase in the number of vaccinators from 42 in 1897-98 to 46 in the year under report.

30. No serious opposition is reported to have been brought to notice, but in Cuttack it is said that the vaccinators commonly find a difficulty in persuading people to be vaccinated and apply for *parwanas* to village headmen which usually have the desired effect. From the remarks of the Civil Surgeon of Puri it appears that the people of that district, who are ignorant and prejudiced, object to vaccination as a system, as they do not believe in its efficacy. Their reasons are said to be that compared with the results of inoculation, vaccination does not afford sufficient protection, as it has to be repeated from time to time, and even then does not render the subjects quite immune from attacks of small-pox. No remarks have been offered under this head by the Collector of Balasore, but it appears from his report that a Vaccination Sub-Inspector there brought false charges against some persons under sections 143 and 341 of the Indian Penal Code, and it was then discovered that he had been vaccinating villagers forcibly and letting off those who paid him money.

31. Vaccination with calf lymph locally manufactured was carried on in Cuttack and Puri. The lymph obtained in Puri was chiefly used in vaccinating prisoners in the jail. The Balasore report is silent on the point.

Calf vaccination.

32. The number of prosecutions under the prohibition of Inoculation Act [Act IV (B.C.) of 1865] was but one in Cuttack during the year (though 13 have been instituted since its close), and this though inoculation is very prevalent. Under Act V (B.C.) of 1880 there were no cases. In Balasore and Puri there were no cases at all under either Act. The subject plainly has nowhere received the attention it deserved.

V.—MATERIAL CONDITION OF THE PEOPLE.

33. The year under report was free from calamities of season. The rainfall was sufficient, and on the whole well distributed throughout the Division. The people had good crops, the prices of food-grains were low and the railway in progress gave employment to the labouring classes at their doors. The year may thus be pronounced to have been one of prosperity.

The Collector of Cuttack remarks that the year has been marked by an unusual number of weddings and other ceremonies such as usually denote prosperous times.

34. In Balasore some of the cultivating classes are said to have sold their raiyati holdings towards the close of the year for repayment of loans and maintenance of their families in consequence of the last winter harvest not being sufficient to pay off the debts contracted during the year 1896-97 which was marked by agricultural depression. The landless non-labouring classes and the landholding middle classes are said to have been the worst off, the former in consequence of the keener competition for clerical employ and the latter because of the gradual rise in the standard of comfort and expenditure with the advance of civilization while their incomes remained stationery. For the trading, money-lending and landless labouring classes on the contray the year was a good one.

35. In Puri with the good crops of the last two years the condition of the people generally was all that could be desired.

VI.—EMIGRATION AND IMMIGRATION.

Emigration.

36. Emigrants were again registered only in the district of Balasore. The statement given below shows the number of emigrants registered in each district during the last two years:—

District.	For the Colonies.						For Tea Districts.					
	1897-98.			1898-99.			1897-98.			1898-99		
	Coolies.	Dependants.	Total.	Coolies.	Dependants.	Total.	Coolies.	Dependants.	Total.	Coolies.	Dependants.	Total.
1	2	3	4	5	6	7	8	9	10	11	12	13
Cuttack ...	...	...	...	...	...	...	...	...	...	..	...	...
Balasore ...	...	...	...	...	...	...	...	...	...	10	4	14
Puri	...	...	...	...	...	...	...	...	...	...	...	...
Total ...	...	...	...	...	...	...	...		...	10	4	14

In Balasore there was one depôt opened in 1898-99 under Act I of 1882 from which 10 registered emigrants with 4 dependants were despatched.

37. From Cuttack 155 free emigrants were despatched during the year 1898 against 94 in 1897. The increase in the number, the Collector states, can only be accounted for by increased activity on the part of the recruiters. Indeed no explanation seems possible or necessary. The number is still below the figures for the years 1892 to 1896.

From Balasore 63 free emigrants including 9 children were recruited during 1898 against 119 in the preceding year, showing a decrease of 56 for which no explanation has been attempted.

38. No Collector in this Division has reported the number of criminal cases connected with emigration which occurred in his district.

As regards abuses also no remarks have been made by any District Officer.

39. There were altogether seven depôts in the Division against four in the previous year, of which three were in Cuttack and four in Balasore. The increase was due to the opening of one new depôt in Cuttack and of two in Balasore. In Balasore one depôt was closed in September 1898, owing to the conviction of its agent under section 406, Indian Penal Code.

40. During the year the depôts in Cuttack were regularly inspected by the Assistant Magistrate, District Superintendent of Police and the Inspector of Police, and the depôt buildings and the latrines attached to them were found to be in good order. Filtered water was used for drinking purposes this year in one of the depôts of this district.

The depôts in Balasore were as usual inspected by the Magistrate and the Police Inspector. The Civil Medical Officer also paid a visit to those depôts. Their sanitary arrangements are reported to be sufficient. The Agents of the depôts of the Balasore district have now enclosed one side of their depôts, as far as this can be arranged for, by a wooden paling as provided in rule 3 of the rules under Act I (B.C.) of 1889.

Immigration.

41. There was no registered immigration into the districts of this Division. As in the previous year, contractors, labourers and artizans came to this Division in large numbers, especially from the Bombay Presidency, in quest of work on the Bengal-Nagpur and East Coast Railways.

VII.—PRICES OF FOOD-GRAINS AND LABOUR.

42. The average price of common rice fell from 16 seers 12 chitaks per rupee (the rate prevailing during the last fortnight of 1897-98) to 18 seers 7 chitaks during the corresponding period of 1898-99. This was due to the successive good harvests throughout this Division of the last two years and to

restricted exportation of rice to coasting ports during 1898-99. The year under report, therefore, compares very favourably in the matter of prices with 1897-98. The rate per rupee was, however, still higher than it was seven or eight years ago, and it is unlikely that prices will ever fall to the old level owing to increased population and improved means of communication.

There was a fall in the average price of wheat and gram in all districts of the Division. Salt was dearer in Balasore and cheaper in the other two districts, the average price for the Division being 10 seers 15 chitaks against 10 seers 14 chitaks in 1897-98.

43. Notwithstanding the considerable fall in the price of rice, the staple food-grain of the people of this Division, there was no appreciable reduction in the wages of labour in Cuttack, while except that the wages of the cooly class remained unchanged, those of all classes of labourers rose in Balasore. In Puri also there was no change except that coolies in the town received one pice a day less.

VIII.—MANUFACTURES AND MINES.

Manufactures.

44. The principal articles of manufacture in this Division are *tasar* and cotton cloths, brass and bell-metal utensils, coarse sugar, lac, brass, silver and gold ornaments.

Tasar and cotton cloth.—*Tasar* and cotton cloth are manufactured by hand looms, the former chiefly at Patpur and Agarpara in Balasore and at Gopalpur in the Jajpur subdivision of Cuttack. From Gopalpur *tasar* cloth is exported to Berhampore and Madras. The manufacture of Gulnagar muslin, which had so wide a reputation, is in its decline on account of the competition of cheaper machine-made goods.

Cotton cloth is manufactured in almost all parts of the Division. The product of the local looms is preferred by the country people to machine-made cloth because of greater durability and warmth in the cold season.

45. *Brass and bell-metal utensils.*— Brass and bell-metal utensils are manufactured in all the districts of this Division In Balasore district the principal places of manufacture are Chandanpur and Remuna. The utensils made at the former place are light and highly polished, while at the latter are produced heavy and durable utensils of pure metal.

46. *Coarse sugar.*—The manufacture of coarse sugar from sugarcane is common to all districts of this Division. The people do not prepare sugar from the juice of the date-palm, nor do they care for it. The advantages of Behia mills for pressing sugarcane are but very gradually being appreciated by the people.

47. *Lac.*—Lac is chiefly manufactured in Cuttack for use in the preparation of the armlets called *shanka.*

48. *Brass ornaments.*—Brass ornaments are worn by low caste women of this Division, but not so much as formerly.

49. *Gold and silver ornaments.*—Ornaments of silver and gold are made in different parts of this Division for local use, but they contain much alloy. The silver filigree work of Cuttack maintains its popularity.

50. *Earthen pottery.*—Earthen pottery is of course made everywhere. Tiles and earthen well-rings are largely manufactured in Cuttack for local use and for export to Puri.

51. *Miscellaneous articles.*—Jute twist, fishing nets, *hukkas*, and bamboo mats and baskets are manufactured in the district of Cuttack. Wicker baskets are sold here and there in all districts, and some reed mats are made in Balasore. Ebony, buffalo and deer horn, and ivory are worked in Cuttack. Pipes (*nulches*) of ebony, buttons, mouth-pieces of *hukkas*, and sticks of horns, chains, sticks and other articles of ivory, and slippers of soft white leather embroidered with needlework find a ready market in Calcutta.

52. *Iron-smelting.*—Iron-smelting is carried on in killa Sukinda in the Cuttack district as it is in the Gurjats.

53 *Salt.*—Salt manufacture is a thing of the past in this Division. Large stocks of salt had accumulated at the Tua and Gurbai factories on the Chilka. This salt being stored on the side of the lake remote from the railway was undersold by the Ganjam salt, which could be run up direct at less cost.

Special efforts were made to get rid of these accumulations, not without success, as 63,755 maunds were sold during 1898-99 against 17,047 maunds in the previous year—an increase of 46,708 maunds. This was due to the reduction in the cost price from 2 annas per maund of 1894 salt and 3 annas per maund for salt of other years to 1 anna and 2 annas respectively. The amount realised by sale of salt during the year under report was as follows:—

	Rs.	A.
Duty	1,59,387	8
Cost price	7,063	10
Total ...	1,66,451	2

The District Officers of Cuttack and Balasore have supplied the figures in the subjoined tables showing the outturn of some of the principal articles of manufacture in their respective districts during the last three years. The information has been supplied mainly by chakla kanungos. The Collector of Puri is unable to supply any figures in the absence of any reliable statistics:—

Cuttack.

District.	Articles.	Outturn in— 1896-97. Quantity.	Value.	1897-98. Quantity.	Value.	1898-99. Quantity.	Value.	Remarks.

	Reed mats and baskets ...	29,915	27,157	26,534

54. There are no mines in this Division. Laterite, rubble, limestone, gravel and sandstone quarrying went on as usual in the hills of the Cuttack district for building and road-metalling purposes. The Bengal-Nagpur Railway was the chief customer,

Mines.

as out of Rs. 6,33,831, the estimated value of the output for the year, Rs. 6,10,144 worth was taken by the railway against Rs. 94,852 in the previous year. This increase is due to the vigour and rapidity with which the Railway Company pushed on the work of constructing the large bridges over the Koakhia, Katjuri, Mahanadi, Birupa and Brahmini rivers.

In Puri laterite, rubble, lime, and sandstone were as usual quarried by the Public Works, the District Board and Railway contractors.

IX.—TRADE AND COMMERCE.

Sea-borne trade.

55. The table below compares the value of the sea-borne trade of the Orissa ports during the last two years :—

Name of port.	Value of imports.		Value of exports.		Total value of trade.		Remarks.
	1897-98.	1898-99.	1897-98.	1898-99.	1897-98.	1898-99.	
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Cuttack ...	36,174	27,844	27,27,180	26,13,709	27,63,354	26,41,553	
Balasore ...	81,10,538*	1,00,65,448	64,56,578	44,29,769	1,45,67,116	1,44,95,217	
Puri ...	49*	4,202	4,61,170	5,96,710*	4,61,219	6,00,912	
Total ...	81,46,761	1,00,97,494	96,44,928	76,40,188	1,77,91,689	1,77,37,682	

*Adopted from the report of the Collector of Customs, Calcutta, for 1898-99.

56. The aggregate value of the trade of this Division was Rs. 1,77,37,682 during 1898-99 against Rs. 1,77,91,689 in 1897-98, equivalent to a decrease of Rs. 54,007, or ·3 per cent., during the year under report. This is the ultimate result of a decrease in the value of both imports and exports in Cuttack and of exports in Balasore, coupled with an increase in the value of imports in Balasore and of both imports and exports in Puri.

57. The decrease in the value of imports in Cuttack is said to be due to non-importation of kerosene-oil, and that in exports to the lower price of rice, which was more largely exported, but represented a smaller value. In Balasore the value of the import trade rose from Rs. 81,10,538 during 1897-98 to Rs. 1,00,65,448 during 1898-99, an increase of 24·1 per cent. during the latter year. This figure is the highest attained during the last ten years. The increase is mainly contributed by cotton twist, piece-goods, provisions, &c. The larger imports of these is attributed to the good harvest of the year 1898-99, enabling the people to spend more on such articles. The decrease in the value of exports is set down to the reduced export of rice and paddy to Indian ports in consequence of good harvests throughout India.

58. In Puri the increase in the value of imports as well as of exports is considerable. The former is said to be due to an increased import of cocoanut oil and matches from Colombo, and the latter to increased export of rice to Colombo and Mauritius.

Rail-borne Trade.

59. The opening of the Cuttack-Calcutta section of the Bengal-Nagpur Railway and of the East Coast Railway will offer special facilities for commerce. Puri has already the advantage of the East Coast Railway. The districts of Cuttack and Balasore will be served by both rail and canal, while all the districts possess seaports.

60. The principal articles of trade in this Division are—

Exports.—Rice, paddy, pulses, oilseeds and salt with kerosene-oil and coal which are themselves imported.

Imports.—European cotton twist and piece-goods, various food-grains, gunny-bags, sugar (refined and unrefined,) salt, kerosene-oil and coal.

The following table shows roughly in a combined form the total traffic in 26 principal articles of merchandise imported into and exported from this

Division by rail, steamer and country boats after eliminating the local trade as prescribed by Government Circular No. 1 of the 12th January 1899.

Imports.

61. It will be seen that the total imports by rail during the year amounted to 629,943 maunds against 298,503 maunds imported in 1897-98.

The largest exports were of rice and paddy and the most considerable imports were in gram and pulse, other food-grains, mustard seed, sugar (refined and unrefined), European and Indian piece-goods and cotton twist, salt and coal.

The net traffic may be thus stated:—

			Mds.
Imported by	Rail (column 3)	...	6,29,943
	Canal (column 7)	...	2,97,218
	Total of Imports	...	9,27,161
Exported by	Rail (column 11)	...	1,52,300
	Canal (column 15)	...	6,65,886
	Total of Exports		8,18,186

The imports were thus considerably in excess of the exports, the difference being 108,975 maunds. A comparison of the figures for the past two years shows that there was an increase under the head "Imports" from 6,35,656 maunds to 9,27,161 maunds, and a decrease under "Exports" from 15,29,760 maunds to 8,18,186 maunds. District Officers have not, except in a few instances, analysed the figures or tried to explain fluctuations. The details given below are, therefore, necessarily meagre.

62. In imports the increase under the head of salt was marked, and that in the case of sugar (refined and unrefined), European and Indian piece-goods and cotton twist and coal was moderate, while there was an appreciable decrease in rice and paddy. As regards exports, the decrease was marked in rice, paddy, gram and pulse, other food-grains, sugar (refined and unrefined), tobacco unmanufactured, Indian piece-goods and cotton twist, salt and kerosene oil, while there was an appreciable increase in mustard seed, coal and coke, as will be seen from the figures noted in the margin.

	1897-98.	1898-99.
	Mds.	Mds.
Rice ...	7,32,627	3,31,319
Paddy ...	4,52,684	3,53,645
Salt ...	2,33,161	12,030
Coal and coke	630	26,663
Mustard seed	1,299	24,600

The decrease in rice and paddy is attributable to good harvests in other parts of India and consequent less demand and lower prices. The diminished export of salt the Collector of Puri cannot account for. He states as follows:—

"The imports in salt considerably increased over those of the previous year and the exports decreased almost in the same proportion. But a fairly larger quantity of home made Chilka salt was sold during the year under report as compared with the year before, and this being so, the imports should have quite reasonably decreased and the exports increased, and I am unable to make out why matters should have been otherwise, such as are being indicated by the figures appearing in the statement."

For the increase in the exportation of mustard seed and coal, the Collector of Cuttack can assign no special reason, unless it be due to a general development of trade.

Trade with Calcutta.

63. So far as the exports to Calcutta are concerned, there was an increase in the case of jute (raw), gunny bags, linseed and mustard seed, and a decrease in all other articles such as food-grains, Indian tea, cotton, silk, sugar, tobacco, &c. Imports showed an increase in European piece-goods and cotton twist, Indian piece-goods and kerosene-oil, and a decrease under other heads, viz., Indian cotton twist, salt and gunny bags.

Country boat traffic.

64. The import traffic by canal carried on by country boats in the Cuttack district was mainly from Calcutta, and the Balasore and Burdwan districts. The export was confined to Calcutta and Balasore.

The import traffic by country boats carried on in the Balasore district was from Midnapore, Calcutta, including Howrah, and Cuttack, the exports being from the same places in addition to Hooghly. The principal articles of imports consisted of rice, paddy, gunny bags, sugar (coarse and refined), tobacco, cotton piece-goods and twist, salt, kerosene-oil, coal and coke, country oil, cast-iron and earthen pipes, spices, timber and other miscellaneous goods. The exports from Cuttack were rice, paddy, gram and pulses, jute (raw), linseed, mustard seed, sugar, salt, hides and skins, timbers, &c., those from Balasore being rice, paddy and jute (raw) only.

* * * * * * *

XIII.—CRIME.

71. The total number of cognizable cases reported during the year and investigated by the police rose from 8,204 in 1897 to 9,669 in 1898, and the number of non-cognizable cases from 6,805 to 7,227. Excluding sanitary offences, which cannot be called crime proper, the number of cognizable cases shows a small increase, viz., from 8,425 to 8,729, which, though common to all the districts, occurred mainly in Balasore, and is chiefly visible in class V (Minor offences against property).

72. Out of 9,669 cases reported during the year and investigated by the police, 9,488 represent cases reported at police-stations, or taken up by the police and 181 cases instituted on complaints or by a Magistrate *suo moto* and referred to the police for investigation. Of 9,762 cases under the former head which were disposed of during the year, 5,370, or 55 per cent., ended in conviction, while of 163 prosecutions referable to the latter category, 20, or 12·2 per cent., were successful.

False cases.

73. Out of 1,275 false cases, only 327 were declared to have been maliciously false, the rest being instances of mistake of law or fact. The percentage of maliciously false cases to cases reported during the year and investigated by the police was 3·2 against 3·2 in 1897. There was an increase in the number of such cases in all districts, but chiefly in Balasore. The increase in Cuttack is small and has not been explained. In Balasore the increase is visible in class V (Minor offences against property), and is reported to be due to land disputes arising out of the resettlement. The increase in Puri is said to be the result of more cases having been reported during 1898.

Prosecutions in false cases.

74. Prosecutions under section 211, Indian Penal Code, were instituted in 73, *i.e.*, 22·3 per cent. of the false cases against 20·4 per cent. in 1897. The percentage of prosecutions was lowest in Balasore and highest in Puri.

The proportion of prosecutions in false cases resulting in conviction to the total number of such prosecutions was 38·3 per cent. against 37·5 per cent. in 1897.

Compensation under section 560, Criminal Procedure Code.

75. Compensation was awarded under section 560, Criminal Procedure Code, in 41 cases as against 24 in 1897. The largest number of cases in which action was taken under this section occurred in Puri, where compensation was awarded in 14·1 per cent. of maliciously false cases. This section does not appear to be as freely resorted to as is desirable, especially in the district of Cuttack where the Magistrates are said to be averse to making free use of it.

Abstention from enquiry in reported cases.

76. The number of cases in which enquiry was refused by the police under section 157, Criminal Procedure Code, rose from 797 in 1897 to 811 in 1898. All the districts show an increase except Cuttack. There appears nothing to indicate that the police acted otherwise than with due discretion.

Remands.

77. Of 2,315 A forms sent up, 1,003 were disposed of at the first hearing, the percentage of such falling from 52·1 in 1897 to 43·3 in 1898. The percentages of cases remanded once, twice and thrice were high, being 22·6, 13·6 and 9·2, respectively. In 1898 the percentage of cases remanded six times was 1·4 against 1·3 in 1897, and that of cases remanded more than six times 1·7 against 1·05 in 1897. All districts show an increase in the number of cases remanded more than six times. The Magistrate of Cuttack thinks that this is probably due in his district to the new Criminal Procedure Code rendering it imperative upon a Magistrate to allow a second cross examination after the charge is framed even when there has been a cross examination before the charge was drawn up. The new Code not having been in operation all the year, the results are less marked than they otherwise would have been. The Collectors of Balasore and Puri have not accounted for the increase in their districts.

Results of Sessions trials.

78. The result of trials before the Sessions Court during the year was not so satisfactory as in 1897, the percentage of persons convicted being 70·6 in 1898 against 73·5 in 1897. Balasore is responsible for this lesser percentage, as there the percentage fell from 72·7 to 57·14. Cuttack, on the other hand, shows great improvement, the percentages of convictions in 1898 and 1897 being 75 and 63·2, respectively. The figures for Puri are practically the same for both years.

Bad livelihood cases.

79. In the number of bad livelihood cases there was a falling off from 119 to 112, for which Cuttack is responsible. The result of prosecutions was satisfactory in all districts, and the number of cases tried on the spot rose from 56 to 57.

Arms Act.

80. Two thousand five hundred and ninety applications for the grant or renewal of licenses were received during the year, of which 52 were refused, all in the district of Cuttack. The total number of licenses granted or renewed during the year was 2,537 against 2,470 in 1897, showing an increase of 67 which occurred in the districts of Balasore and Puri; 145 licenses in Form XI granted or renewed in previous years continued in force during the year 1898.

The total number of persons punished was 40 against 33 in 1897, but the fines imposed amounted to Rs 228 as compared with Rs. 248 of the preceding year. The shops for the sale of arms and ammunition are reported to have been duly inspected in all districts of this Division during the year 1898, and the irregularities noticed were not of a serious nature.

* * * * * * *

XV.—CRIMINAL JUSTICE.

86. The total number of criminal cases disposed of during the year was 10,435 against 8,468 in 1897. Benches and Honorary Magistrates sitting singly continued to render material assistance, disposing of 2,880 cases against 2,196 in 1897. The subjoined statements show the number of cases decided by Stipendiary and Honorary Magistrates in each district at head-quarters and at subdivisions and the results of trials:—

	Bhadrak	2	195	301	46·05	318	..	50			97	2	...
	Total	3½	485	617	58·1	770	1	37·5		.	139	2	
Puri	Sadar .	1½	751	864	79·8	637	4·7	66·6	21	1	501	1	5
	Khurda	1	137	167	35·9	482	2·9	60	4	...	137	8	
	Total	2½	888	1,031	72·7	1,119	3·9	63·1	25	1	355	1	4
	GRAND TOTAL	12	2,880	3,325	69·9	3,594	2·1	61·1	57	4	240	1	7·01

87. It will be seen that Honorary Magistrates disposed of over 27 per cent. of the cases, though the majority of these were of a petty nature. The percentage of convictions varies from 35·9 to 79·8. The worst results from this point of view are shown by the Honorary Magistrates of the Khurda Bench, their percentage of convictions being 35·9, while at Cuttack and Puri the percentage exceeded 70. The percentages of convictions in the case of Stipendiary Magistrates ranges from 43·5 to 79·9.

88. There was an increase in the number of offences reported under classes I, II, IV, and specially under class VI (Other offences). This last increase in Cuttack and Puri is attributed mainly to an extension of the area of the Cuttack Municipality, to closer attention paid to sanitary matters owing to the plague scare and to the bringing of the railway line into the town of Puri. The number of witnesses examined during the year 1898 was 27,784 of whom 629, or 2·2 per cent., were detained over two days against 2·05 per cent in 1897. The witnesses were somewhat more promptly discharged by Honorary Magistrates than by Stipendiary Magistrates, the percentages of witnesses detained over two days being 2·1 in the case of the former and 2·2 in that of the latter. This is probably due to Honorary Magistrates having less intricate cases to deal with. The percentage is unsatisfactory in the case of officers at Puri Sadar including the Honorary Magistrates of Puri Sadar Bench and of the Subdivisional Officer of Bhadrak. No explanation has been furnished in these cases.

89. The following table shows the attendance of Honorary Magistrates in the districts of this Division during the year:—

District.	Number of times the Honorary Magistrates were asked to attend	Number of times they actually attended.	Number of times they were absent.			Percentage of attendance to summons.	Remarks.
			With leave or notice.	Without leave or notice.	Total		
1	2	3	4	5	6	7	8
Cuttack	1,007	816	81	110	191	81·03	
Balasore	999	553	191	255	446	55·3	
Puri	1,361	1,217	16	128	144	89·4	
Total for 1898 ..	3,367	2,586	288	493	781	76·8	
Total for 1897 ...	3,114	2,247	311	556	867	72·1	

These figures show some improvement. The attendance of Honorary Magistrates in the districts of Cuttack and Puri was good. Two Honorary Magistrates of Balasore Sadar Bench who used to perform their work regularly and efficiently having resigned, being practising pleaders of the local bar, the work of the Bench is said to have suffered considerably. In Cuttack three Magistrates of the Jajpur Bench, one Magistrate of the Cuttack Sadar, and one of the KendraparaBench had also as practising pleaders to resign, and the Sub-divisional Officer of Jajpur has not as yet been able to select competent men to fill the vacancies.

Fines.

90. Fines amounting to Rs. 48,537 were imposed during the year against Rs. 33,656 imposed in 1897. The balance outstanding at the close of 1897 was Rs. 17,680. The total realisable demand of 1898 amounted to Rs. 66,217, of which Rs. 43,060 were realised and Rs. 7,668 remitted, leaving an outstanding balance of Rs. 15,489 at the close of the year. The collections show improvement in all districts except Cuttack, but no explanation of this has been offered by the Magistrate of Cuttack.

XVI.—REGISTRATION OF DEEDS.

91. There was no change in the number of Sub-Registry Offices in this Division during the year, this remaining at 10. The table below shows the number of deeds registered in each district and the receipts and expenditure during 1897-98 and 1898-99:—

District.	1897-98.				1898-99.			
	Number of deeds registered.	Receipts.	Expenditure.	Surplus credit to Government.	Number of deeds registered.	Receipts	Expenditure.	Surplus credit to Government.
1	2	3	4	5	6	7	8	9
		Rs.	Rs.	Rs.		Rs.	Rs.	Rs.
Cuttack ...	12,273	15,111	8,241	6,870	11,908	14,344	8,219	6,125
Balasore ...	10,017	9,632	6,445	3,187	11,881	11,085	7,703	3,382
Puri ...	14,988	14,057	7,409	6,648	16,522	16,379	7,930	8,449
Total ...	37,278	38,800	22,095	16,705	40,311	41,808	23,852	17,956

92. The total number of deeds registered during 1898-99 was 40,311 against 37,278 in 1897-98. Balasore and Puri show an increase of 1,864 and 1,534, respectively, against a decrease of 365 in Cuttack, the total result being a net increase of 3,033. The increase in Balasore and Puri is reported to be largely due to the fact that, in consequence of the settlement, the raiyats understanding that, the *pahi* lands, which were so long regarded as not transferable, have become so, have been transferring them by registered deed. It is also in part set down to increased appreciation of the value of registration. The decrease in Cuttack is attributed to the fact that during the year 1897-98 the number of deeds registered, of which registration was compulsory, was unusually high owing to the bad harvest. The same cause should of course have been operative in other districts also.

93. With the increase in the number of deeds registered, receipts and charges show an increase in both Balasore and Puri. In the latter district the strength of the establishment was increased in order to cope with the extra work thrown upon it. No mention is made of the working of the system of identification by thumb impressions.

XVII.—CONDITION OF THE DIVISION AS REGARDS LAND AND LAND REVENUE ADMINISTRATION.

94. The total number of estates* exceeded that in 1897-98 by 62. The increase is entirely due to partitions, and to the assessment at the present settlement of a property which had hitherto escaped, as also to the resumption by the Settlement Department of a khandaiti jaghir.

		Rs.
* 1898-99	...	7,226
1897-98	...	7,164

The total demand of the Division was Rs. 23,62,417, of which Rs. 22,25,800 were collected and Rs. 5,196 remitted, leaving an outstanding balance of Rs. 1,31,421. The percentage of total collection on total demand was 94·22 against 89·92 in 1897-98.

The proportion of collections exceeded 99 per cent. in the district of Cuttack, it being 95·85 in Balasore and 85·7 in Puri, against 95·67 and 72·7, respectively, in 1897-98. Both of the latter two districts show more or less improvement over the preceding year, and but for the heavy arrears amounting to as much as Rs. 98,329 outstanding against the single estate of Kotdes in the Puri district, the proprietors of which have proved recusant at the new settlement, the percentage of collections there would have been more favourable

One petty Government estate was sold in the Balasore district, the proprietary rights of Government therein being transferred to the purchaser.

95. The number of estates, shares and interests in estates which became liable to sale during the year on account of non-payment of Government dues was 2,176, of which 24, or 1·1 per cent. only, actually came to sale as against 28, or 1·01 per cent., sold in 1897-98.

Road and Public Works Cesses.

96. The cess demand during the year excluding reductions and remission was Rs. 3,03,524 against Rs. 3,03,639 in 1897-98, thus showing a net decrease of Rs. 115 resulting from an aggregate decrease of Rs. 2,027 in Cuttack and Puri counterbalanced by an increase of Rs. 1,912 in Balasore. The decrease in Cuttack is ascribed to (1) exemption of some estates the value of which was found to be below Rs. 5, (2) inclusion in zamindari estates of some resumed *lakhiraj* properties, and (3) double assessments. The decrease in Puri was only in the arrear demand. The increase in Balasore was due to the assessment of some estates situated in Midnapore but appertaining to the Balasore district. The collections as a whole show an improvement, although Cuttack and Puri show an aggregate decrease of Rs. 5,075 brought about chiefly by the default of some large zamindars. The increase in Balasore is ascribed to the prompt measures taken by the Road Cess Deputy Collector and Certificate Officer to recover arrears and to larger voluntary payments made along with the land revenue demands.

The cesses collected in the Division during the year amounted to Rs 2,69,607 against Rs. 2,66,753 in 1897-98, the percentage of balance on the gross demand being 10·81 against 10·88 in the preceding year.

Both the cesses were levied at the maximum rate of one anna in the rupee in all districts.

Settlement.

97. During the year under report the Provincial settlement continued. Operations in each district are shown below.

Cuttack.—The area cadastrally surveyed is 2,273 square miles containing 4,923 villages including five permanently-settled estates with an area of 174 square miles. Fair rents for 164,070 tenants were settled, and the records of 1,607 villages were finally published during the year under report.

The assessment proposals in 4,016 out of 4,454 estates were dealt with by the Settlement Officer, and the new revenue was brought into force in respect of 2,735 estates. The result of the settlement was an increase of 54 per cent. on the sadar *jama*. Only nine estates with a total revenue of Rs. 4,246 are at present recusant, and it is expected that in most even of these, proprietors will ultimately engage for the revenue.

The settlement of the wards estate of Madhupur was completed during the year, and the attestation of a permanently-settled pargana (Derabisi) has been revised in 84 out of 119 villages.

The proprietors of the two large permanently-settled estates of Aul and Darpan have applied for a record-of-rights in their estates. Both estates were surveyed and portions attested some years ago in the Orissa settlement, and arrangements are now being made to frame a record-of-rights.

Balasore.—The area under survey and settlement is 1,733 square miles containing 3,593 villages. Attestation was completed before the commencement of the year 1898-99, rents were settled for 44,417 tenancies, the records of 3,592 villages were published in draft and those of 1,076 villages were finally published. The proposals for assessment of revenue were dealt with by the Settlement Officer in 1,408 temporarily-settled estates out of 1,420 and in 792

the new revenue came into force during the year. The result of the settlement was an increase of 75 per cent. on the sadar *jama*. Two estates with a total revenue of Rs. 2,519 are recusant up to date.

Puri (excluding the Khurda Government estate).—The total area under settlement is 1,069 square miles, including the Ekhrajat and Satais Hazari [illegible] belonging to the Puri Temple. The attestation and most of the settlement of rents in the temporarily-settled portion was completed before the 31st [illegible] 1898.

During the year under report the settlement of rents was finished and attestation of the Satais Hazari and Ekhrajat Mahals was begun. The records of 413 villages were finally published. The settlement of land revenue subject to revision by the higher authorities was completed for 463 out of 481 estates, and the new revenue was brought in during the year in 328 estates, the result being an increase of 37 per cent. in the sadar jama. The large estate of Kotdes with a revenue of Rs. 1,04,312 is alone recusant.

Government estate Khurda.—The settlement was nearly completed during the year 1897-98. Only 13 records remained to be published in draft, and 228 to be finally published. This work was finished, and the settlement proceedings concluded during the year under report. The result of the settlement was an increase of Rs. 75,230, or of 21·8 per cent. in the mufassal *jama* and of Rs. 64,871, or 21·7 per cent., in the sadar *jama*.

Public Demands Recovery Act.

98. The number of certificates which remained pending from 1897-98 was 1,849,* and the number filed during the year under report was 12,719 (against 8,417 in 1897-98), showing an increase of 4,302. The increase in the number of certificates filed during the year occurred under all heads except class IV (Water-rates), and was most marked under class V (Cesses).

The increase under class II (Arrears of rent due to Government) occurred chiefly in Balasore and Puri, and was due in the former to the fact that in 1897-98, owing to bad harvests in the preceding year, certificates were not freely filed, and in the latter is ascribed to energetic action taken to realise rents from the raiyats of Khurda.

Class IV (Water-rates) shows a decrease, which in Cuttack is attributed to the discretion exercised by the Canal Revenue Deputy Collector in issuing certificates and in Balasore to the punctual payment of water-rates by raiyats.

There was an increase of 322 under class V (Cesses) made up of decreases in Balasore and Puri more than counterbalanced by an increase in Cuttack. The decrease in Balasore and Puri is said to have been due to punctual payment of cesses by proprietors of estates owing to the recovery of the tenantry from the scarcity of 1896 and 1897. The abnormal increase in Cuttack is due to the issue of certificates for petty demands of 1896-97 as well as of 1897-98, for which requisitions were received from the road cess office during the year.

The increase under class VI (Demands of the Court of Wards) was small, and that under class VII (All other demands) was mostly due to a large number of certificates filed for the recovery of tuccavi loans and of demands from pound and ferry farmers.

The disposals fell short of the institutions to which the number pending from the preceding year being added, the pending file at the close of 1898-99 showed 2,866 cases. It is satisfactory to note that out of 11,702 cases disposed of, recourse to the extreme measure of sale was necessary in but 35 cases, which is equivalent to a percentage of 0·29. In 5,022, or 42·9 per cent. of the cases the demands were satisfied on the mere issue of notice.

Warrants were issued in 150 cases, against 12 in 1897-98; two defaulters were imprisoned, one being released on payment of his debt before the expiration of the term of imprisonment, and the other without payment of the amount due, as it was found irrecoverable.

Partition.

99. There was no new partition case filed in any district of this Division, except in Cuttack, where there were 23 institutions during the year. The number pending at the close of 1897-98 was 49, so that the total for disposal came to 72 cases. Of these, 14 cases (13 in Cuttack and 1 in Balasore) were decided, leaving 58 pending at the close of the year distributed among the three districts as follows, viz., in Cuttack 51, Balasore 6 and Puri 1.

Of the 51 cases in Cuttack, 9 are pending completion of settlement and in the remaining 42 cases proceedings are in progress. In Balasore, commencement of proceedings has been ordered in four cases as soon as necessary information has been received from the Settlement Department. In one of the remaining two cases the proprietors were called upon to file papers, but some of them having applied for the withdrawal of the case, enquiry is being made as to whether the remaining proprietors are also in favour of this. In the other case the proceedings were postponed under Commissioner's orders, but intimation is said to have been received since the close of the year that all the proprietors except one have executed *kabuliyats*, and necessary steps will be taken during 1899-1900. In the one case in Puri which was awaiting the completion of settlement operations, the parties having agreed to the arrangement proposed, except as regards a few items, the allotment paper is under preparation.

Land registration.

100. The total number of applications under section 42 filed during the year in the several districts of this Division was 8,448 against 10,395 in 1897-98. This represents a percentage of 4·9 on the total number of initial registrations, as against 6·1 in 1897-98.

There was an increase in the number of applications in the districts of Balasore and Puri, while Cuttack shows a decrease which is attributed to the fact that in previous years when attestation was in progress many mutations were intimated to the Collector's office, by parties wishing to make themselves secure which ceased to be the case in the year under report when settlement operations were drawing to a close and no longer supplied the like incentive. The increase in Balasore and Puri, on the other hand, is said to be due to registration of interests as recorded in the current settlement and to steady and vigorous action taken under section 65 of the Act. The instructions contained in the Board's Circular No. 3 of September 1891, dispensing with the necessity of recording evidence of possession in uncontested land registration cases continued to be observed in all three districts. The procedure is said to have worked satisfactorily facilitating the speedy disposal of cases, and no instances of fraudulent registration came to light.

Fees realised during the year amounted to Rs. 186 in Cuttack and to Rs. 542 in Puri. In Balasore no fees were realised. Expenditure on account of land registration charges amounted to Rs. 2,224 in Cuttack. In Balasore and Puri there was no such expenditure. The expenditure in Cuttack was due to the entertainment of a special staff to clear off arrears which had accumulated on account of the large number of institutions in the two preceding years.

Land acquisition.

101. Proceedings for the acquisition of 44 acres 3 roods 38 poles of land for Government, Municipalities, District Boards, &c., costing Rs. 8,473 were confirmed by the Board of Revenue during 1898-99 against 995 acres 3 roods and 4 poles costing Rs. 16,717-0-3 in 1897 98. The annual abatements of Government revenue allowed on account of land acquired for Government amounted to Rs. 14-11-1.

The average cost per acre of the land acquired was Rs. 188 against Rs. 16 in 1897-98. The great disparity is due to 972 acres 1 rood 14 poles of waste land having been acquired for Government in 1897-98 in Balasore at a cost of Rs. 14,697 and to 1 rood 38 poles of land being acquired during 1898-99 for the Raja Shyamanand Day's Dispensary in Balasore Town at a cost of Rs. 3,616. The high price during the year under report was due also to larger expenditure in Puri on account of sarbarahkari tenures included in zamindari estates, tankibahal tenures and orchards, khas mahal lands having chiefly been acquired in the previous year.

The most important projects in which proceedings were taken during the year, were the Bengal-Nagpur Railway and the East Coast Railway extensions. The proceedings in respect of the latter have been completed and partially submitted to the Board.

Four Special Land Acquisition Deputy Collectors were employed in the Division during the year, viz., 3 for the Bengal-Nagpur Railway and 1 for the East Coast Railway. The officer employed for the East Coast Railway closed his office on 1st June 1898, making over charge of records to a Deputy Collector of the head-quarters station of Puri. Of the 3 officers employed for

the Bengal-Nagpur Railway, one closed his office on 31st January 1899, and another at the close of the year. The third officer is still at work.

Embankments.

102. Embankments are under the charge of the Public Works Department. Out of 33 embankments in the Balasore district maintained by Government, it was at first proposed to maintain 6 after the present settlement, and 1 was subsequently added to these by the Executive Engineer, Balasore. The Superintending Engineer, Orissa Circle, proposed to retain some of the remaining 16 embankments for the protection of houses and crops, but Government did not consider them fit to be so maintained, and they were abandoned. In the present settlement the gross assets of estates affected by this are calculated as if they were not protected by embankments.

The question of the right to retain existing *bundhs* and to erect new ones within the area declared under the Embankment Act by Government Notification No. 115 of 2nd April 1894, was one that much exercised the people of the Balasore district, especially in the northern part of the Sadar subdivision. The tract affected by the notification cannot be brought under cultivation without the erection of small embankments to exclude brackish water brought up by high tides. Cultivation appears to have been undertaken at considerable expense in ignorance of the notification over a considerable portion of the above declared area, jungle being cleared and small *bundhs* put up. This has been going on since 1894, and only lately, after the lapse of some four years did the Executive Engineer, Balasore, begin to enforce the law. The people affected, who knew nothing of the prohibition when they put up the *bundhs i.e.*, during the time the notification was a dead letter, feel aggrieved at being now called on to remove them. The result must of course throw back cultivation, and cause loss to the cultivators, while the settlement proceedings also appear to have been conducted in ignorance of the facts, and assessment was made on the assumption that the cultivation would continue protected. The zamindars and raiyats concerned have therefore submitted memorials to the Government, asking for the withdrawal of the prohibitions. The memorials were submitted to Government with my remarks in April last.

As regards the embankments in the Puri district, it is said by the Collector that the Superintending Engineer seems to think that the classification of the embankments accompanying Mr. Odling's note of July 1894, is susceptible of improvement, and that he therefore proposes to divide the embankments in all the five classes into two, viz., B and C. The B class he would retain as agricultural works, and the C he would no longer maintain at the expense of Government, but would leave them to the parties interested to repair or not as they liked. The effect of this classification would be that some of the embankments that were proposed to be abandoned before would be retained and *vice versâ*. The Collector has not been able as yet to express a definite opinion as to the merits of this classification.

Advances under the Land Improvement and Agriculturists' Loans Acts.

103. No advance was made under Act XIX of 1883 during the year under report in any district of this Division. Of Rs. 15,000 advanced to the Raja of Parikud without interest, to enable him to undertake the repairs of protective embankments in his estate, and thereby relieve the distress prevailing in 1896 and 1897 in tracts adjoining the Chilka Lake, Rs. 1,500 were paid up in 1897-98, and of the remainder, Rs. 3,000, which fell due during the year under report, was realised. The Raja having been reported to have done the work satisfactorily, one-third of the total demand (Rs. 5,000) was remitted by Government during 1898-99 in terms of the modified rules.

Under the Agriculturists' Loans Act, 1884, no advance was made in any district except Puri, where a sum of Rs. 522 was advanced to 59 applicants on their joint-security at the rate of Rs. 2 per acre.

The amount realisable during the year was Rs. 46,979, including interest (Rs. 3,011) out of a total outstanding balance of Rs. 54,227. Of this amount, Rs. 44,954 was collected, leaving a balance of Rs. 2,025 at the close of the year.

Working of the Bengal Tenancy Act.

104. The Act has been partially introduced into the Division. The question of its further extension in whole or in part was under consideration during the year of report, and is so still pending receipt of the opinion of the

Settlement Officer of Orissa. Operations under the Act were chiefly under sections 39, 58, 61, 80 and Chapter X of the Act. Three thousand one hundred and seventy-two books of rent receipts and 1,310 of account forms were sold or supplied gratis during the year against 2,488 of the former and 130 of the latter in 1897-98.

The price lists of staple food grains under section 39 continued to be prepared and published.

A complaint under section 58 was made in the Balasore district, but on examination it was not believed by the trying Deputy Collector.

The number of applications for deposit of rents under section 61 seems to be steadily increasing, the figures for the year being Rs. 2,370 against Rs. 2,145 in 1897-98 and Rs. 872 in 1896-97. The new settlement may have something to do with this.

Ninety-five applications were made under section 80 during the year against two in 1897-98 in all of which registration was allowed.

There was only one application under Chapter X of the Act, for the preparation of a record-of-rights and for settlement of fair rents, and this was from the Parikud Raja's estate in Puri.

Training of young Civilians in survey and settlement work.

105. There were only two such officers in the Division during the year to whom the rules on the subject applied, viz., Mr. S. C. Mallick, Assistant Collector of Cuttack and Mr. J. N. Gupta, late Subdivisional Officer of Khurda. The former went through a course of instruction under the Settlement Officer of Orissa, and the latter, who had done all he could while the settlement operations of the Khurda estate were in progress in previous years, could only in 1898-99 check some of the settlement papers which were being made over to the khas mahal office.

XVIII.—WARDS AND ATTACHED ESTATES.

106. There were during the year only five estates under the management of the Revenue authorities, viz., three in Cuttack and two in Puri.

One of the three Cuttack estates, that of Kujang, being a portion of the Burdwan Raj, is under the general management of Raja Bun Behary Kapur, assisted by a local sub-manager. Of the other two estates (Kanika and Madhupur) each has its manager.

107. Management seems to have been satisfactory on the whole. The balances on account of rent and cesses at the close of the year amounted to Rs. 81,095 in Kanika, Rs. 29,741 in Kujang and Rs. 14,859 in Madhupur.

108. Litigation in connection with these estates chiefly took the form of suits for the recovery of arrears of rent.

109. The Kanika and Madhupur minors continue to make good progress in their studies. Both read in the 4th class of the Ravenshaw Collegiate School. The former married in April last, and some special arrangement seems now necessary for his education. The Collector will be requested to submit proposals.

110. The two estates (Rorang and Malighati) in Puri are under the immediate supervision of the Collector. Neither is so large as to require a special manager.

In Puri also the management of the estates seems to have been satisfactory. The crops of the year 1896 failed owing to high floods and drought, and collections during 1896-97 were very poor in consequence, so large arrears accumulated by 1897-98. A portion was realised in that year, but the balance remained to be collected with the current demand during the year under report. The balances on account of rent and cesses as they stood at the close of the year amounted to Rs. 4,848 in the Rorang estate and Rs. 3,520 in the Malighati estate.

111. Suits were filed on behalf of the estates for recovery of some arrears of rent and cesses, as the provisions of the Public Demands Recovery Act could not be taken advantage of till after survey and preparation of a record-of-right.

No schools or dispensaries were maintained by these estates, nor could any works of improvement or agricultural experiments be undertaken by them, as no funds were available.

112. The Rorang ward, who is now about 20 years of age, has passed the Entrance examination from the Ravenshaw Collegiate School, and is continuing his studies for the First Arts. The Malighati ward resides in Midnapore and is being educated there under the supervision of the Collector of that district.

113. There were two attached estates, Killah Patia in Cuttack and the Jaghir mahals in Puri. Killa Patia has been under the management of the Civil Court since 15th May 1898.

The total receipts during the year including cesses and miscellaneous receipts amounted to Rs. 9,700-11-9, and the total expenditure during the year under heads salary, contingencies and other miscellaneous charges was Rs. 1,713-1-3.

The Raja of the estate is the judgment-debtor, and was paid Rs. 1,625 for his maintenance. The decree-holders were paid Rs 4,875, of which half was set off against principal and the other half against interest. The outstanding balance of debt has been reduced from Rs. 19,884-7-11 at the beginning of the year to Rs. 15,265-12-6 (Rs. 1,182-3-3 for principal and Rs. 14,081-9-3 for interest) at its close.

Embankments taken up during the last year to protect the crops have been finished, except one which will be so this year.

114. The jaghir mahals in Puri which were attached by order of the Civil Court, continued under the management of the Collector as receiver in terms of section 503, Civil Procedure Code.

The Subordinate Judge of Cuttack controls the accounts of these mahals. Rupees 5,453-13-5 was realised during 1898-99. Out of the total expenditure of Rs. 6,112-4-6 incurred during the year, Rs. 823-7-9 was paid as road and public works cesses, Rs. 57 as the general management rate, a sum of Rs. 3,500 was remitted to the Subordinate Judge for payment to decree-holders, while Rs. 1,731-12-9 was expended on establishment, contingencies, law expenses, &c. The amount to credit of the estate on 31st March 1899 was Rs. 1,921-15-4.

XIX.—EXCISE.

115. There was no material change in the system of excise administration during the year.

The total number of shops of all kinds settled for 1898-99 was 942 against 919 and 891 in the two preceding years, the increase being chiefly in the number of *tari* shops. The total excise revenue from all sources amounted to Rs. 7,27,438 against Rs. 6,62,775 in 1897-98, an increase of Rs. 64,663, which appears under all heads except rum, imported wines and druggists licenses, and miscellaneous. The increase is attributed to keener competition at the auction-sales and to increased consumption. The decrease under imported liquors was due to the abolition of the wholesale imported liquor shop in Balasore and to the settlement of such shops in Cuttack and of retail imported liquor shops in Balasore below the upset figure. Under the head Miscellaneous the decrease was due to the orders under which the rents of excise buildings transferred to the Public Works Department (which then were credited to the Public Works Department) were to be again credited to the Excise Department being brought into effect only during the third quarter of the year under report in the district of Cuttack, so that the Excise Department lost the rents of two quarters.

Three railway refreshment rooms, viz., at Cuttack, Bhadrak and Balasore were opened during the year.

116. There was a falling off in the number of cases detected during 1898-99 as compared with 1897-98, the figures being 249 against 306; the decrease is marked only in the district of Puri, where the number of cases fell from 147 in 1897-98 to 82 during 1898-99. This is attributed, with what reason it would be difficult to say, to the increased vigilance of the Police and Excise officers. It is satisfactory to note that the cultivation of Gurjat *gannja* being practically put a stop to, the smuggling of this article has become much less common. Most of the cases of smuggling occur in Puri, and the drug is brought from Ganjam, where in the "malias" its cultivation is unchecked.

The incidence of excise revenue per head of population during the year was 3 annas against 2 annas and 8 pie in 1897-98.

* * * * * * *

XXIII.—RAILWAYS AND OTHER PUBLIC WORKS.

124. The main line of the East Coast Railway with its Puri Branch is now in working order. This line was temporarily linked with the Bengal-Nagpur Railway Extension during the first few months of 1899 by the help of diversions. The construction of the Calcutta-Cuttack section of the Bengal-Nagpur Railway passing through the districts of Balasore and Cuttack was in progress during the year. All the earthwork is practically finished with the exception of the approaches to some of the big bridges. The permanent-way is all laid excepting over these bridges and a few nalas where temporary diversions have been made.

The bridge over the Subarnarekha alone was quite finished, but the masonry of all other bridges is practically complete. All work in connection with the acquisition of lands for the line in the district of Balasore was concluded.

The line was temporarily opened for goods traffic on the 10th February 1899, and for passenger traffic on the 6th March 1899. Towards the end of May it was again closed, the rainfall interfering with the running of trains.

125. The High Level, the Kendrapara and the Taldanda Canals are intended for both irrigation and navigation, while the Coast Canal is for the latter purpose only. The traffic on the Kendrapara Canal fell off considerably during the short period that the Cuttack branch of the Bengal-Nagpur Railway remained open, and there is no doubt that the Railway will divert the passenger and a good deal of the goods traffic from the steamer lines. The total length of the distributaries of the above irrigation canals is 1,095 miles, and the area commanded by them is 571,981 acres.

The amount collected by the Canal Revenue Deputy Collector on account of water-rates and miscellaneous canal revenue amounted to Rs. 2,73,211 against Rs. 3,25,336 in 1897-98, and the decrease is said to be due to the fact that the collection of fishery, plantation and other miscellaneous rents of the Canal Department which was formerly in the hands of the Canal Revenue Deputy Collector has, since 1st April 1898, been transferred to the Engineering Department.

126. The following table shows the accidents on railways and resulting casualties during the last two years:—

District.	Persons.				Trains.			
	Killed.		Wounded.		Accidents.		Obstructions.	
	1897-98.	1898-99.	1897-98.	1898-99.	1897-98.	1898-99.	1897-98.	1898-99.
1	2	3	4	5	6	7	8	9
Cuttack ...	......	1	......	1	1	2	......	......
Balasore ...	......	2	......	1	......	1	......	......
Puri ...	2	4	2	1	19	3	......	2
Total ...	2	7	2	3	20	6	......	2

Besides the above, 4 persons were killed and 20 wounded in the district of Cuttack while working on the lines under construction, against 3 and 10 respectively in 1897-98. In Balasore only 3 persons were wounded against 4 killed and 4 wounded in 1897-98.

As the Bengal-Nagpur Railway line was opened only in the latter part of the year in the districts of Cuttack and Balasore, no comparison is possible. The figure shown against Cuttack in column 6 of the statement above represents an accident on that portion of the East Coast Railway which passes through that district in which six animals were run over. In Puri the number of accidents fell off from 19 to 3, but the number of persons killed increased by two, while that of those wounded decreased by one. The deaths in Puri are reported to have happened to persons carelessly trying to cross the line

while a train was approaching, and the one death in Cuttack and two in Balasore were suicides.

Of the two accidents to trains in Cuttack, one was a collision between two ballast trains and the other was a derailment.

In Puri none of the obstructions were of a serious nature.

The construction of roads and bridges and the excavation of tanks and wells were as usual dealt with by the District Boards and Municipalities; but there was no other public work in the Division deserving of special mention.

XXIV.—COMMUNICATIONS.

127. The three districts of the Division are well off in respect of communications. The Grand Trunk Road runs through the Division from north to south. The head-quarters of Cuttack and Balasore are also connected with Calcutta by canals and the sea. The East Coast Railway connects Madras and Bombay with the head-quarters of Cuttack and Puri and the subdivisional head-quarters of Khurda. The Cuttack-Midnapore Branch of the Bengal-Nagpur Railway passes through the districts of Cuttack and Balasore, and will, when opened, bring Calcutta within easy reach of the head-quarters of all three plains districts and of the subdivisions of Bhadrak, Jajpur and Khurda.

The Government roads in the districts of Puri and Cuttack were kept in good order.

* * * * * * *

129. The subjoined statement shows district by district the length of roads maintained by District and Local Boards and by Municipalities—

District.	Description of roads.	By whom maintained.				Remarks.
		District Board.	Local Board	Munici-pality.	Total.	
1	2	3	4	5	6	7
		Miles.	Miles.	Miles.	Miles.	
Cuttack ...	Metalled ...	27	...	26	53	
	Unmetalled ...	433	438	61	932	
	Total ...	460	438	87	985	
Balasore ...	Metalled ...	44·25	1·00	19	64·25	
	Unmetalled ...	265·75	197.00	8·75	471·50	
	Total ...	310·00	198·00	27·75	535·75	
Puri ...	Metalled ...	78·5	...	4·75	83·25	
	Unmetalled ...	78	82·5	2	162·5	
	Total ...	156·5	82·5	6·75	245·75	

Arboriculture.

		Rs.
Cuttack	...	699
Balasore	...	471
Puri	...	331
Total	...	1,501

The marginally-noted statement shows the amount spent on arboriculture in each district.

One thousand five hundred and three plants in Cuttack, 161 in Balasore and 925 in Puri were put down during the year under report.

XXV.—WORKING OF THE LODGING-HOUSE ACT.

(1) Chattis on the Jaganath road in Cuttack.
(2) Chandbali.
(3) Chattis on the Jagannath road in Balasore.
(4) Jajpur.
(5) Barang chatti on the Ganjam road in Cuttack.
(6) Puri town and the chattis on the Jagganuath road in Puri.

130. The places in which the Act is in force are noted in the margin. It was extended to the railway stations at Jatni (Khurda road), Chatipore, Kalupara and Balugan, under Government Notification No. 879M., dated the 8th February 1899. Works of improvements were executed out of lodging-house funds as marginally* shown. The general health of those towns and areas to which the Act has been extended was good during the year. No epidemic disease appeared.

The lodging-houses are said to have been duly inspected by Health Officers and others.

XXVI.—EDUCATION.

131. There were altogether 6,480 schools with 105,520 boys and 6,275 girl pupils, or 111,795 pupils in all, against 5,931 schools with 100,843 pupils in the previous year. The increase in the number both of schools and pupils is shared by all districts, and is due, it is said, to the good harvest of the year under report.

132. The total expenditure on education in this Division during 1898-99 was Rs. 4,88,900 against Rs. 4,50,165 in 1897-98. The expenditure shows an increase under all heads except provincial revenues and municipal funds.

Colleges.

133. The Ravenshaw College, the only institution of its kind, sent up two candidates to the M.A. examination held in November 1898 one of whom succeeded. Nineteen candidates competed at the B.A. and 29 candidates at the F.A. examination held in March last; 9 of the former and 14 of the latter passed. It is to be regretted that none of the three candidates who appeared at the B.L. examination held in November 1898 were successful.

High Schools.

There were 11 high schools in the three districts of the Division, *i.e.*, the same number as in 1897-98; but the attendance shows an improvement, being 1,921 against 1,767.

134. The following table gives the information available as to the results of the University Entrance examination in the three districts of the Division during 1897-98 and 1898-99:—

District.	1897-98.		1898-89.	
	Number of competitors.	Number of successful candidates.	Number of competitors.	Number of successful candidates.
1	2	3	4	5
Cuttack ...	43	42	62	39
Balasore ...	28	12	24	19
Puri ...	9	6	11	7
Total ...	80	60	97	65

135. Of the 97 candidates who appeared at the last Entrance examination 65 were successful. The result is satisfactory, the percentage of success being 67 against 62·5 in the preceding year.

Middle schools.

136. The number of middle schools in the three districts of the Division rose from 78 to 85, and that of the pupils attending these from 4,284 to 4,746. The increase was more or less shared by all three districts.

137. The subjoined statement contrasts the results of the Middle Scholarship examination for boys during the past two years:—

District.	1897-98.		1898-99.	
	Competed.	Passed.	Competed.	Passed.
1	2	3	4	5
Cuttack ...	128	46	132	85
Balasore ...	85	29	88	41
Puri ..	48	23	53	42
Total ...	261	98	273	168

The results of the Middle Scholarship examinations for the year under report show a great improvement over the preceding year, the percentage of success being 61·5 against 37·5.

138. There were 6,230 upper and lower primary schools, with 101,245 pupils, against 5,721 such schools with 91,457 pupils in 1897-98, an increase of 509 schools and 9,788 pupils. The increase is shared by all three districts of the Division.

Primary Schools.

The total expenditure on primary education was Rs. 2,88,402 against Rs. 2,56,156 in 1897-98.

The following statement shows the results of the Upper and Lower Primary Scholarship examinations during the last two years:—

District.	Upper Primary.				Lower Primary.			
	1897-98.		1898-99.		1897-98.		1898-99.	
	Number competed.	Number passed	Number competed	Number passed.	Number competed.	Number passed.	Number competed.	Number passed.
1	2	3	4	5	6	7	8	9
Cuttack ...	154	87	141	85	880	148	1,168	611
Balasore ...	95	60	131	106	571	293	742	521
Puri ..	84	43	117	91	752	505	975	523
Total ...	333	190	389	282	2,203	946	2,885	1,655

Results were thus more satisfactory in 1898-99 than in the previous year, the percentage of success at the Upper Primary examination being 72·4 against 57 and that at the Lower Primary examination 57·3 against 42·9

139. The total number of girls under instruction including those attending boys' schools was 6,381 against 6,131 in 1897-98.

Female education.

The following table compares the number of special girls' schools and of the pupils attending them for the last two years:—

District.	1897-98.		1898-99.	
	Schools.	Pupils.	Schools.	Pupils.
1	2	3	4	5
Cuttack ...	58	1,524	59	1,610
Balasore ...	39	1,058	36	933
Puri ...	19	479	20	512
Total	116	3,061	115	3,055

Girls' schools decreased in number by 1 and their pupils by 6. Of the 115 girls' schools, 5 are middle vernacular, the most useful among them being those managed by the Baptist Missionary ladies of Cuttack and Balasore The best middle vernacular school under native management is the Ravenshaw Hindu Girls' School at Cuttack.

The highest standard reached by girls in Orissa is the middle scholarship standard, nine girls, viz., 7 from Cuttack and 2 from Balasore passed the

east Middle Scholarship examination. Seventeen girls passed the upper and 16 the Lower Primary Scholarship Examination from the three districts of the Division. Nine scholarships (one middle and eight primary) were awarded to successful girls during the year under review.

Education of Muhammadans.

140. The table underneath shows the number of Muhammadan pupils attending schools in the three districts of the Division:—

District.	Population.		Total number of pupils attending schools.		Number of Muhammadan pupils attending schools.		Percentage of Muhammadan pupils to total number of pupils.	
	Total.	Muhammadans.	1897-98.	1898-99.	1897-98.	1898-99.	1897-98.	1898-99.
1	2	3	4	5	6	7	8	9
Cuttack ...	1,937,671	52,896	53,158	68,414	2,172	2,198	4·0	3·7
Balasore ...	994,625	24,250	33,969	36,187	786	844	2·3	2·3
Puri ...	944,998	13,984	22,054	25 059	415	404	1·8	1·6
Total ...	3,877,294	91,129	109,181	119,660	3,373	3,446	3·0	2·8

The total number of Muhammadan pupils under instruction was thus 3,446 against 3,373 in 1897-98. The number of Muhammadan pupils, though larger by 73, has not increased in proportion to the general increase in the number of pupils, the percentage of Muhammadan pupils having fallen by ·2.

In Orissa the Muhammadans seem to obtain quite their fair share of appointments.

Fifty-two Muhammadan pupils successfully passed the last departmental examinations, viz., 2 the Middle English, 7 the Middle Vernacular, 9 the Upper Primary and 34 the Lower Primary Scholarship examinations. Five Muhammadan pupils were also successful at the University Entrance examination.

Education of aboriginal and other backward races.

141. The number of aboriginal pupils under instruction was 185 against 220 in the preceding year—a loss of 35 pupils. This is partly due to the closure of a Sonthal school in Balasore and partly to the prevalence of small-pox in Puri which, to a certain extent, diminished the attendance of Khand boys in Arangomal, a hilly tract in the Khurda subdivision.

The 185 pupils of aboriginal races returned during the year are thus distributed:—

Cuttack	...	15 (13 Savars and 2 Khonds.)
Balasore	...	117 (Sonthals.)
Puri	...	53 (Khands and Savars.)

The special schools for the education of the aboriginal races comprise 1 in Cuttack, 4 in Balasore and 3 in Puri, all of them being lower primaries and enjoying monthly stipends from public funds.

No aboriginal pupil passed at any of the departmental examinations except one in Puri, who was successful at the lower primary test.

142. There are seven low caste schools in the district of Cuttack, two of them being stipendiary and the rest non-stipendiary.

Six low caste pupils from Balasore passed the Lower Primary Scholarship examination. No low caste pupil from Cuttack or Puri appeared at any of the departmental examinations during the year under review.

Special schools

143. The schools that fall under this category are the Cuttack and Balasore Training schools, the Cuttack Medical and Survey Schools, one Industrial School in Balasore and 34 Sanskrit tols.

144. The most important of these institutions are the Cuttack Training, the Medical and the Survey Schools.

The Cuttack Training School consists of three departments, viz., (1) the English Department, (2) the Pandit Department and (3) the Central Class. The number of students borne on the rolls on the 31st March last was 68 against 67 on the corresponding date in the preceding year.

Nine students appeared at the Teachership examination of 1898 of whom 5 passed.

The Pandit Department consists of three classes, and had on its rolls 43 students against 41 in the preceding year. Sixty-three per cent. of the students of this department are Brahmans belonging mostly to the Puri district. The percentage of success in the Vernacular Mastership examination was 60·6 against 81 in 1897-98.

The Central Class for the training of teachers for upper primary schools had 21 students on its rolls against 17 in the preceding year. Fourteen candidates appeared at the Upper Primary Teachership examination of 1898, of whom 10 were successful.

Proposals for extending the boarding accommodation of the school have been made and are now under the consideration of Government. The present number of boarders is 52. Their health was generally good, and there was no serious breach of discipline among the inmates.

145. The Balasore Training School which had been temporarily closed, was re-opened from March last. It had four Hindu pupils on its rolls on the 31st of that month. The accommodation provided both for the boys and the boarders is excellent.

146. The Cuttack Medical and the Cuttack Survey Schools had 104 and 88 pupils respectively against 99 and 84 in the preceding year.

147. The only industrial school in this Division is that at Alalpur in the district of Balasore. It registered 20 pupils on the 31st March last against 24 on the corresponding date of 1897-98. It is supported by a monthly grant of Rs. 15 from the Balasore District Board. Carpentry and needle-work are taught. Palanquins, almiras, boxes, &c., are manufactured by the students with the help of their teachers, an with the sale-proceeds, materials are purchased for new work.

148. Of the 34 Sanskrit schools returned during the year, 9 belong to Cuttack, 6 to Balasore and 19 to Puri. These tols prepare candidates either for the Oriental title or the Sanskrit Standard Examinations or for both. The best tols in the Division are (1) Puri Sanskrit School, (2) Padmanav Tol (Cuttack), (3) Sriram Chandra Tol (Balasore)

There are three Associations in the Division for the promotion of Sanskrit education, viz., one at Puri, one at Cuttack and one at Balasore. These associations have to depend entirely on private liberality.

Indigenous education.

149. The number of Arabic or Persian schools is 42.

XXVII.—DISPENSARIES AND HOSPITALS.

150. *Cuttack.*—The total number of hospitals and dispensaries in the district of Cuttack remained unchanged, being 18 as in 1897.

The General Hospital, the most important institution in the district, is maintained by the Cuttack Annachattar Fund with a contribution from Government towards the pay of the Assistant Surgeon in charge. This institution is very useful, and has the medical school attached to it. The total income and expenditure of this hospital came to Rs. 8,842 and Rs. 6,292 respectively during 1898. The medical school passed 10 students (all males) in the final examination.

The hospital maintains its reputation as a most useful institution in the district, but its resources are very limited. The Annachhattar Fund contributes only Rs. 230 a month, and the institution gets no pecuniary assistance from either the District Board or the Municipality. With regard to the General Hospital, the Magistrate remarks as follows:—

"Its wants are many, the instruments require replenishing and the number of menial servants should be increased. A yearly grant towards the maintenance of this institution is much needed, and I think well deserved."

Since the close of the year the Dhenkanal Raj has contributed Rs. 2,000 as a donation for the purchase of instruments and equipment.

151. The dispensaries maintained by Municipalities are those of Cuttack, Jajpur and Kendrapara.

The District Board of Cuttack maintains dispensaries at Nayabazar, Dharmasala, Jagatsingpur and Pattamundi.

The Central Irrigation Hospital, Banki, Acquapada and Hukitola Dispensaries are maintained by grants from Government. The Lady Thompson Hospital and Dispensary for females has been languishing for want of support, and an attempt made when His Honour visited Orissa to raise funds failed. The institution will probably have to be closed. It depends entirely on private subscriptions. The Ward's Estates of Kujang and Kanika maintain four dispensaries, viz , Anantpur, Rajnagar, Ghanteswar and Ganja. Of these, the first is situated in Kujang and the rest in Kanika.

The dispensaries in Cuttack district are reported to be in good order and have done useful work.

The total expenditure during 1898 was Rs. 24,030 against Rs. 22,929 in 1897.

There was a decrease both in the number of in and out-patients treated during 1898, and this is said to be due to the general healthiness of the year. The decrease in the number of in-patients is said to have occurred mainly in the General Hospital and to have been caused by the plague scare which prevailed during the months of May, June and July 1898.

152. The number of dispensaries in the Balasore district has increased by one owing to the opening of a new dispensary at Baliapal on 26th May 1898. This new dispensary was maintained by the District Board with the help of a private contribution of Rs. 112.

The Pilgrim Hospital and Raja Baikuntha Nath De Bahadur's Dispensary are supported partly by subscriptions and partly by grants from the Municipality and from Government.

The Balasore District Board maintains hospitals at Bhadrak and Chandbally with the aid of private subscriptions and a grant from Government. The Jellasore, Soro and the Balasore Female Dispensaries are entirely maintained by private subscriptions.

The total expenditure decreased from Rs 9,783 in 1897 to Rs. 9,243 in 1898, and this was due to the reduced cost of diet and to smaller expenditure on the purchase of European medicines and bedding during 1898. There was a decrease also in the number of in-patients treated. The increase in the number of out-patients is said to be principally due to the railway works in progress and to the opening of the new dispensary at Baliapal as stated above.

Nothing is said in the Balasore report as to the general condition of dispensaries and hospitals in the district. The District Officer has been asked to supply the omission.

153. The number of hospitals and dispensaries in Puri district has increased by one owing to the opening of a new dispensary at Gopo by the District Board.

The Puri Pilgrim Hospital is supported by the Municipality. It cost Rs. 4,226 in 1898 against Rs. 4,373 in 1897. The dispensary at Balianta is entirely maintained by the Lodging-House Fund.

The dispensaries at Khurda, Pipli, Satpara and Gope are maintained by grants from the District Board, the former two receiving also contributions from Government and from private sources.

There has been a decrease in private subscription. The total expenditure was Rs. 9,355 against Rs. 9,197 in 1897.

The total number of in and out-door patients treated was 23,095 against 21,571 in 1897.

The temporary cholera hospital at Puri had not to be opened during the year under review as cholera was absent.

The Puri report makes no mention of the Plague Inspection camp at Jatni (Khurda Road station) which is now closed. The Magistrate's attention is being drawn to this.

* * * * * * *

XXX.—LOCAL SELF-GOVERNMENT INSTITUTIONS.

District Boards.

156. The District Boards of the Division appear to have on the whole discharged their duties in a satisfactory manner during the year under report. Members as a rule took an interest in matters coming before them, and they in all cases worked harmoniously together. The Finance Sub-Committees still, however, fail to meet regularly to pass accounts, though there has been some improvement. The Puri District Board is in low water financially, and has had to seek the aid of Government. The attendance of members of the District Boards of Cuttack and Balasore appears to have been satisfactory. That of the members of the Puri District Board, though showing an improvement, was still unsatisfactory, as some of the official as well as the non-official members were very irregular in their attendance. The Chairman is no doubt taking action as regards these members, so that, when necessary, section 18 of the Local Self-Government Act may be resorted to. His attention, however, is being drawn to this.

The following gentlemen deserve special mention for the satisfactory work done by them:—

Rai Jogeswar Chandra Chander Bahadur, Vice-Chairman of the Cuttack District Board.

Raja Baikuntha Nath Dey, Bahadur, Vice-Chairman of the Balasore District Board.

Babu Harish Chandra Ghose, Vice-Chairman of the Puri District Board.

Local Boards

157. The attendance of members of the Sadar Local Board of Balasore and of the Puri and Khurda Local Boards was worse than in the preceding year. The same branches of administration were entrusted to the Local Boards of this Division as in 1897-98. The chief object of having a Local Board, however, viz., more direct supervision of departments entrusted to it, is never attained, as members do not personally, as a rule, look into things for themselves. They want an establishment to do this for them, and so long as a Local Board merely meets to talk, pass bills and hear reports from subordinates, there is no reason for its existence. All these things the District Board could do more quickly and cheaply. Pound farmers at least in Cuttack continue to be allowed to fall months into arrears before action is taken. Indeed, in one case a defaulter was deliberately retained against his own will while arrears amounted from some Rs. 60 to Rs. 200, the Local Board's excuse being that a resale might result in loss, *i.e.*, a certain loss to the Local Board was preferred to a possible one, whilst meantime the farmer was making some profit at the Board's expense. Evidently leases are still granted without due enquiry as to the circumstances of the would-be lessee. Further report has been called for.

Union Committees.

158. There are no Union Committees in the districts of Cuttack and Puri. In Balasore there were altogether 5 such. Of these, 4 were in the Sadar subdivision, and one under the Bhadrak Local Board. These Unions are said to have been entrusted with the supervision of village road works. Of the Unions under the Sadar Local Board, two held three meetings each, and the rest one meeting each during the year under report.

The Unions at Remana and Soro have been spoken of favourably. The rest did practically nothing during the year 1898-99. The Unions are still more superfluous than the Local Boards.

159. The Khurda subdivision offered, however, a sample of what might be expected where Local Self-Government was a natural development and not an artificial creation like our Unions, &c.

To Mr J. N. Gupta, then Subdivisional Officer, belongs the credit of having induced the residents in the extensive Government estate there to eke out the very inadequate grant from the Board towards estate improvements by voluntary contributions in labour or in cash. Large sums have been thus collected, and the money raised in a village is spent in it in meeting purely local wants, such as re-digging a tank, repairing a village road, &c. Whatever the work,

it is that determined upon by the panchayat and the villagers, and the money collected is, when possible and necessary, supplemented by a grant from the Estate Improvement Fund. The village selects the work, and knows exactly how and to what amount money is spent upon it. Being thus aware that they get value for their money, the people interest themselves greatly in the scheme. The Board during the year formally sanctioned a continuance of the experiment and the requisite working establishment.

Municipalities.

160. The number of municipalities remained unchanged, being 5 with 75 Commissioners as reported in 1897-98. Their working has been much as usual. The average attendance has fallen off in all municipalities except Kendrapara, where there has been an improvement. The weak point continues usually to be here as elsewhere outdoor supervision. Resolutions are passed, but execution is left to subordinates who fearing no regular check think only of saving themselves trouble. This applies chiefly to the larger municipalities. In subdivisions an energetic Subdivisional Officer with the smaller area to look after can do and does much; but this if he had the money, he could of course do equally well without any municipality. The year was generally a healthy one in all municipalities. The Municipal Commissioners of Kendrapara deserve credit for the interest they took in their work, while those of Jajpur, except the Vice-Chairman, have been very unfavourably noticed.

161. With regard to the Cuttack Municipality, Mr. Carey, the District Officer, writes as follows:—

"The Cuttack Municipality seems to lack any moving spirit to provide energy for coping with its difficulties. Mr. Growse and myself have in vain endeavoured to induce them to prepare a detailed scheme for gradually improving the conservancy of the town. They have done nothing but pass resolution for the employment of a certain number of extra sweepers for a brief period to cleanse all filthy places."

This municipality is in debt, but that it is so is the result, I fear, to no small extent of inadequate or rather unequal assessment. The Commissioners have curtailed expenditure largely, but what is wanted is the employment of an impartial assessor who will raise the assessment of the middle and better classes, many of whom appear under assessed, while the lower classes are fully so. Municipal Commissioners need not be expected to do the work so thoroughly as an assessor. The drawback to the employment of an assessor is the risk of much of his work being undone by the Commissioners hearing objections to assessment. But many a Commissioner who would hesitate to assess a neighbour to the extent he should be, would not find it so difficult to uphold an assessment once made, and in any case the assessor's figures would give something to compare existing taxation with.

The conservancy arrangements are considered by the Magistrate inadequate, and there is no doubt they would prove so were an epidemic to break out. That the town is healthy is due to its situation, soil, generally scattered character and good water-supply.

162. Nothing is said about the sanitary and conservancy arrangements of the Balasore Municipality. The Magistrate has been requested to make good the omission. There appears nothing special to remark as regards Balasore.

163. The municipality of Puri like that of Cuttack is in a poor way financially. This is due to the Commissioners' permitting heavy arrears of tax to remain outstanding. The arrear balance at the end of 1897-98 was Rs. 8,239, and on 31st March 1899 it had increased to Rs. 9,329, as I ascertained at a recent visit to Puri.

The Commissioners during the year introduced the system of paying the tax daroga and his staff by commission in place of salary, but to no real effect. So far as I could learn, the tax daroga is a *persona grata* to some of the Commissioners who therefore let him go his own way. Naturally it is not to his interest to make the new system of payment by commission, which involves more trouble for himself, a success.

The Chairman and Vice-Chairman are unable to improve matters owing to the inertness or obstructiveness of some of the Commissioners. The sanitary condition of the town remains in much the same state as reported last year. Slight improvements have been attempted so far as funds permit in the way of water-supply, &c.

XXXI—EMPLOYMENT OF MUHAMMADANS

164. The Muhammadans of Orissa are gradually seeing the advantage of education, and on the occurrence of vacancies their claims receive due consideration from the heads of offices. They are comparatively few in number and mostly poor and available only for menial duties.

* * * * * * *

XXXVI.—CONDUCT OF ZAMINDARS

The conduct of Rai Hurry Bullubh Bose, Bahadur, the Government pleader of Cuttack, deserves notice. He is perhaps the best educated and the most enlightened of the larger Orissa zamindars, and there is no public movement in which he does not take a leading part. His purse is always open where there is a deserving object.

XXXVII.—GENERAL REMARKS.

185. Beyond what has been elsewhere noted, there is nothing calling for special remark here.

The year was one of prosperity on the whole. The new settlement assessment has been introduced and paid in many estates with but few instances of recusancy.

Except a few cases imported from Calcutta, plague has been absent Necessary precautions have, however, been taken in all districts.

NOTE ON THE EARLY COTTON CROP IN BENGAL, 1899.

The following is published for general information.

F. A. Slack,

The 14th December 1899. *Offg. Secy. to the Govt. of Bengal.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

NOTE ON THE EARLY COTTON CROP IN BENGAL, 1899.

Explanation.—This report furnishes estimates of the area and outturn of the early cotton crop which is sown during the monsoon rains and harvested in the cold weather. Estimates of the late crop will be published in February.

2. *Character of the season.*—The rainfall in July was irregularly distributed over the districts in which early cotton is grown. In August, it appears to have been generally below the normal. The deficiency was most marked in the Chota Nagpur districts. In September, it was noticeably above the normal in the three important districts of Bhagalpur, the Southal Parganas, and the Chittagong Hill Tracts, but very deficient in Cuttack, Hazaribagh, Ranchi and Palamau. In October, it was in defect everywhere, except in Orissa and in the Chittagong Hill Tracts, the latter of which received more than double its normal allowance of rain. During November, there were only a few light and scattered showers in the beginning of the month.

3. *Area sown.*—The normal area under early cotton is shown in column 3 of the statement appended to this note as 94,800 acres. The normal area in 1898 was estimated as 96,500 acres. The difference is due to a revision of figures in Manbhum. The total area cultivated with early cotton this year is estimated as 87,600 acres against 95,400 acres estimated to have been sown in 1898. The decrease, amounting to 8 per cent., is noticeable chiefly in Chota Nagpur, and is due to want of sufficient rain at the time of sowing.

4. *Character of the crop.*—From the appended returns, it will be seen that only three unimportant districts, viz., Monghyr, Cuttack, and Balasore, return normal crops of 100 per cent. Manbhum and Angul report 80 per cent. crops. Six districts, viz., Midnapore, Jalpaiguri, Bhagalpur, the Southal Parganas, Hazaribagh, and Singhbhum return estimates varying from above 50 per cent. to 70 per cent. The important district of the Chittagong Hill Tracts, where the rainfall was very heavy, returns only half of a normal crop (50 per cent.), and this estimate is also returned from Ranchi. Crops below 50 per cent. are reported from Puri and Palamau. The season has undoubtedly been worse than that of last year, and the crop is now estimated as 65 per cent. as against 75 per cent. estimated for 1898.

5. *Gross outturn.*—The estimated yield of the early cotton crop of this year amounts to 5,687,700 lbs. against 6,599,600 lbs. estimated for last year. The average yield of the five preceding years amounts to 6,475,900 lbs.

N. N. BANERJEI,

Assistant Director of the Department of Land Records and Agriculture, Bengal.

(COUNTERSIGNED,)

P. C. LYON,

Director of the Department of Land Records and Agriculture, Bengal.

CALCUTTA,

The 6th December 1899.

Forecast of the early cotton crop of Bengal, 1899.

DIVISION.	DISTRICT.	Approximate normal area under *early* cotton in acres.	Approximate area sown last year (1898) in acres.	Estimated area sown this year (1899) in acres.	Taking 100 to represent the normal outturn, per acre, how much represented the outturn last year (1898) ?	Taking 100 to represent the normal outturn per acre, how much will represent this year's outturn (1899) ?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
1	2	3	4	5	6	7	8	9
Burdwan	Midnapore ...	1,900	1,800	1,800	40	70		
Rajshahi	Jalpaiguri ...	400	500	500	6	69		
Chittagong ..	Chittagong Hill Tracts.	17,000	17,000	17,000	6	50	The poor outturn is due to unseasonable heavy rainfall.	I will enquire further as to the estimate made of the area sown this year and last year. The Assistant Commissioner has probably, but little means of ascertaining it.
Bhagalpur .	Monghyr ..	400	400	400	100	100		
	Bhagalpur ...	11,300	11,300	11,300	100	69		
	Sonthal Parganas	12,900	12,000	12,500	80	70	The outturn this year is below that of last year, owing to excessive rain after sowing.	
Orissa	Cuttack ...	2,100	3,100	3,300	106	100	The outturn is estimated at the normal only, owing to want of timely rain during the early growth of the plants.	
	Puri	6,500	4,700	4,300	75	49	The decrease in the current year's outturn is due to scanty rainfall at the time of sowing and of flowering.	
	Balasore	1,000	900	1,000	81	100	The increase in the area and outturn, as compared with the area and outturn of the previous year, is due to seasonable rain.	
	Angul and Khondmals.	2,900	3,500	2,000	75	60		
Chota Nagpur ...	Hazaribagh ...	7,500	7,500	7,500	100	58		
	Ranchi	8,900	6,900	4,000	100	50	The decrease in the area sown this year, as compared with that of last year, is due to want of sufficient rain at the time of sowing, and the decrease in the outturn is due to the early cessation of the rains.	
	Palamau	5,900	9,500	7,000	95	45		
	Manbhum ...	10,800	9,100	9,000	75	80		
	Singhbhum ...	5,300	6,000	6,000	75	66	The decrease in the outturn this year, as compared with that of last year, is due to want of sufficient rain.	
	Total ..	94,800	95,400	87,600	75*	66*		* Estimated by this Department.

FINAL REPORT ON THE WINTER RICE CROP IN BENGAL, 1899.

THE following is published for general information.

F. A. SLACK,

The 16th December 1899. Offg. Secy. to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final Report on the Winter Rice Crop in Bengal, 1899.

1. *Character of the season.*—The rainfall of the season 1899 from April up to September was fully described in the first forecast of the winter rice crop issued on the 10th October last. The ante-monsoon showers commenced in April, and the rainfall was generally above the normal in that month. In May it was below the normal in North Bengal and Chota Nagpur, normal in Bihar, and above the normal in Lower Bengal and Orissa. East Bengal received the heaviest showers. In June there was an excess of rain in all divisions of these Provinces, excepting in Orissa, where there was a slight deficiency. It was about the middle of this month that the regular monsoon weather was established. Similar weather to that of June prevailed in July, and Orissa and the South of Chota Nagpur were the only tracts where the rain fell short of the normal. In August the rainfall continued to be excessive in most parts of these Provinces. It was slightly in defect in South-West Bengal and in Orissa, and very deficient in Chota Nagpur, which received only 54 per cent. of the normal rain. In September the rainfall was moderately heavy in North and East Bengal, a little below the normal in Bihar and South-West Bengal, and 40 to 50 per cent. in defect in Chota Nagpur and Orissa. In October it was below the normal everywhere, excepting East Bengal and Orissa, where it was excessive. In November there were only a few scattered showers early in the month.

2. *Area cultivated.*—The figures denoting the normal area have been considerably revised in Muzaffarpur, Darbhanga, and Singhbhum, and the total normal area cultivated with winter rice in this Province now stands at 31,076,400 acres against 31,244,800 acres shown in the preliminary forecast of October. A change has also been made in Darbhanga and Singhbhum in the column showing the areas under winter rice last year. Since the submission of the first forecast, new estimates of this year's winter rice areas have been received from the District Officers of Burdwan, Hooghly, Faridpur, Gaya, Muzaffarpur, Darbhanga, the Sonthal Parganas, Angul and Khondmals, Palamau and Singhbhum, and the total area under this year's crop is now shown as 31,326,600 acres. The total area cultivated with rice last year amounted to 31,568,300 acres. As explained

in the forecast of October, the contraction in cultivation of 241,700 acres is due chiefly to excessive rain in the months of June, July and August, which interfered with the timely transplantation of the seedlings in low-lying areas, and also, to a small extent, to the cultivation of jute in lands sown last year with rice. On high lands, however, an increase in cultivation was noticeable owing to the favourable character of the season.

3. *Character of the crop.*—From the district returns appended to this note it will appear that in 16 districts the crop is estimated as 100 per cent. or above 100 per cent., in 20 districts it is estimated from 75 per cent. to 100 per cent., and in 5 districts from 50 per cent. to 75 per cent. In 4 districts it has fallen below 50 per cent.

On comparing the present estimates of the crop with those made in October last, it will be seen that prospects have improved in 17 districts, have remained unchanged in 9 districts, and have deteriorated in 19 districts. The crops are uniformly good in Rajshahi, and, excepting Manbhum, where the rainfall of September saved the crop, are noticeably poor in Chota Nagpur. The untimely cessation of the rains here and in the Puri district have damaged the crop very seriously. The crops in Bihar suffered from want of rain in October. Excepting, therefore, the divisions of Patna, Orissa and Chota Nagpur, prospects are not discouraging, and it is hoped that the estimate made in October for the Province, viz. a 95 per cent. crop, may eventually be harvested. Last year's crop was estimated at 100 per cent. over a slightly larger area.

4. *Gross outturn.*—Accepting a 95 per cent. crop for the Province, as stated above, the estimate of the probable gross outturn of cleaned winter rice amounts to 327,970,300 cwts. against 347,895,600 cwts. produced last year.

N. N. BANERJEI,
Assistant Director of Land Records and Agriculture, Bengal.

(Countersigned.)

P. C. LYON,
Director of the Dept. of Land Records and Agriculture, Bengal.

CALCUTTA,
The 4th December 1899.

APPENDIX I.

Final Report on the Winter Rice Crop of 1899.

1	2	3	4	5	6	7	8	9	10	11
DISTRICT.	Subdivision.	Total area of subdivision in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under winter rice last year (1898) in acres.	Estimated area under winter rice this year (1899) in acres.	Taking 100 to represent the normal outturn, how much represented the outturn last year (1898)?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1899)?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
Burdwan	Sadar	794,880	635,500	351,600	432,000	432,000	125	100	The outturn would have been above the normal, had not the rainfall in August been somewhat deficient.	
	Kalna	276,460	224,000	115,200	128,000	123,000	125	105	The outturn would have been better, if there had been sufficient rain in August and September.	
	Katwa	225,280	169,600	130,200	140,000	140,000	125	100	The outturn would have been above the normal, had there been sufficient and seasonable rain in October and November. The high lands suffered much from want of rain.	
	Raniganj	429,440	254,700	209,000	220,000	220,000	125	75	The area in column 7 has been revised.	
	District Total ...	1,726,080	1,283,800	806,000	920,000	920,000	125	95		
Birbhum	Sadar	709,120	900,000	393,300	393,300	393,300	113	72	The crops suffered to some extent on account of scanty rainfall in the Sadar subdivision in the months of September and October.	The estimate for the *Sadar* subdivision is probably too low.
	Rampur Hat ...	412,800		211,600	226,100	211,600	113	125		
	District Total ...	1,121,920	900,000	604,900	619,400	604,900	113	91		

1	2	3	4	5	6	7	8	9	10	11
DISTRICT.	Subdivision.	Total area of subdivision in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under winter rice last year (1898) in acres.	Estimated area under winter rice this year (1899) in acres.	Taking 100 to represent the normal outturn, how much represented the outturn last year (1898)?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1899)?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
Bankura	Sadar	1,229,430	428,800	346,600	355,900	355,700	112	87	Sufficient rain fell after the submission of the preliminary forecast and benefited the crop. The outturn is likely to be better than that estimated in the first forecast.	
	Vishnupur ...	448,000	214,000	160,400	182,000	185,000	112	87		
	District Total ...	1,677,430	642,800	507,000	537,900	540,700	112	87		
Midnapore	Sadar	2,093,410	1,229,100	717,500	760,000	760,200	106	110	On the whole, a larger area has been brought under cultivation, and this is due to seasonable rainfall.	
	Contai	543,300	456,300	347,900	352,900	349,7[illegible]	75	100		
	Tamluk	417,920	279,600	2[illegible]0,200	230,[illegible]00	23[illegible],[illegible]00	75	75		
	Ghatal	238,080	146,500	118,300	100,000	1[illegible]8,[illegible]00	60	90		
	District Total ...	3,292,800	2,111,500	1,403,900	1,442,900	1,447,900	91	101		
Hooghly	Sadar	2[illegible]2,880	17[illegible],800	115,900	112,000	111,600	75	120	The rains at the end of September improved the outturn in the Sadar subdivision to a great extent. In the Howrah subdivision about 7,70[illegible] acres of land were flooded; hence the figure in column 7 does not agree with the corresponding estimate in the preliminary forecast. In Ulubaria about 5,000 acres of land which remained submerged at the time of the submission of the preliminary forecast were afterwards transplanted; hence the increase in area in column 7. In Jehanabad, owing to the complete cessation of the rains in the beginning of September, the estimate of outturn given at the time of the first forecast has been reduced.	
	Serampore ...	21[illegible]	1[illegible]	85,[illegible]	1[illegible]	10[illegible],500	87	75		
	Jahanabad ...	255,5[illegible]	107,7[illegible]	78,000	7[illegible]	80,000	75	80		
	Howrah	110,720	6[illegible],800	4[illegible],800	61,700	40,3[illegible]	106	100		
	Ulubaria	215,680	128,000	7[illegible],600	80,000	65,000	75	100		
	District Total ...	1,087,360	702,300	396,200	432,000	397,400	83	94		

24-Parganas	Sadar	553,760	462,700	255,700	340,500	338,400	10[illegible]	96	The decrease in the area cultivated this year as compared with that of last year is due to excessive rain during the early part of the rainy season, which prevented large tracts of low lands from being cultivated.	
	Barasat	313,600	189,400	102,100	117,100	117,100	110	95		
	Basirhat	230,400	216,000	142,500	142,500	145,000	100	58	The increase in the estimated outturn this year as compared with the corresponding outturn as shown in the preliminary forecast is due to timely rainfall in October last.	
	Diamond Harbour	266,880	243,900	243,200	232,900	200,000	90	75		
	District Total ...	1,344,640	1,102,000	743,500	833,000	800,500	99	89		
Nadia ...	Sadar	497,920	362,800	61,400	76,600	65,000	100	100	The increase in the outturn in column 9 as compared with that given in the preliminary forecast is due to favourable rainfall in September and October.	The failure in Chuadanga has probably been exaggerated.
	Kushtia	382,060	278,400	26,600	28,000	28,000	90	90		
	Meherpur	404,480	294,700	22,800	37,400	15,500	62	75		
	Chuadenga ...	230,400	167,900	10,300	24,000	20,000	75	50		
	Ranaghat	273,280	199,200	11,300	11,100	10,900	100	90	There was not sufficient rain in the Ranaghat subdivision in September and October; hence the decrease in the outturn in column 9 as compared with the corresponding estimate in the preliminary forecast.	
	District Total ...	1,788,160	1,303,000	132,400	177,100	140,300	87	87		
Murshidabad.	Sadar	586,240	395,100	68,100	60,200	60,500	87	90		
	Kandi	405,760	279,900	171,700	189,900	189,900	100	100		
	Jangipur	381,440	310,600	37,300	40,300	40,300	100	100		
	District Total ...	1,373,440	985,500	277,100	290,400	290,700	97	98		
Jessore ..	Sadar	568,960	304,000	153,300	160,000	150,000	106	90	The final outturn is less than that estimated in the first forecast owing to damage caused by the *Shai* and *Peroli* insects and want of rain in the latter part of the season.	
	Jhenida	304,000	230,000	64,000	48,100	48,100	100	75		
	Magura	272,000	171,600	82,000	89,[illegible]	78,[illegible]	100	70		
	Narail	311,680	187,500	128,000	128,000	128,000	112	80		
	Bangaon	415,360	240,000	77,000	100,000	100,000	75	75		
	District Total ..	1,872,000	1,142,100	504,300	520,700	499,100	100	80

RESOLUTION REVIEWING THE WORKING OF THE DISTRICT AND LOCAL BOARDS IN BENGAL DURING 1898-99.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVT.

Calcutta, the 19th December 1899.

RESOLUTION—No. 5571L. S.-G.

READ—

The reports from Commissioners of Divisions on the working of the District Boards in Bengal during 1898-99.

Read again—

The Resolution reviewing the Divisional Reports on the working of District Boards in Bengal during 1897-98.

The year under review was the thirteenth during which the Bengal Local Self-Government Act, III of 1885, has been in operation in Bengal. The number of District Boards and Union Committees remained unchanged during the year, but the number of Local Boards increased from 104 to 105 owing to the reconstitution of the Local Board at Chuadanga in the district of Nadia. The area within the jurisdiction of the District and Local Boards and the population of that area also remained the same except for some trifling variation in the figures for the District Board of Balasore.

2. *Constitution of District Boards.*—The number of members of District Boards was 795, or one greater than in the previous year. Of these 186 held their seats *ex-officio*, 281 were nominated by Government and 328 were elected by the Local Boards against 186, 280 and 328, respectively, in the previous year; 257 of them were officials, and 538 non-officials. The number of European or Eurasian members was 186 against 183 in 1897-98, the remainder being natives of the country. The total number of meetings held by District Boards was 555, being 16 less than in the previous year, and the average attendance at each meeting was 10·5 against 10·7 in 1897-98. There was an improvement in the number of meetings that had to be adjourned and of those that proved abortive for want of a quorum, the figures for the past year being 52, against 61 in 1897-98. The largest number of meetings was held by the District Board of Pabna (20); the Saran, Muzaffarpur and Purnea District Boards come next with 19 meetings each, while Khulna, Jalpaiguri and Mymensingh show 18 meetings each. In Midnapore, Murshidabad and Rangpur the number of meetings held, viz. 11, 6 and 11, respectively, fell short of the prescribed number of at least one meeting during a month, the reason assigned in the case of the last two District Boards being that there was not sufficient business to justify the call of more meetings.

3. *Constitution of Local Boards.*—The Local Boards had 1,259 members, of whom 153 were officials and 1,106 non-officials, against 151 and 1,102, respectively, in 1897-98. Of the total number, 39 sat as *ex-officio* members, 803 were nominated by Government, and 417 were elected. Europeans or Eurasians held 107 and natives of India 1,152 seats. The Local Boards called 1,107 meetings during the year under report, or 28 less than in 1897-98. Of this number, 187 had to be adjourned or proved abortive for want of a quorum against 202 in 1897-98. Sixty-three Local Boards failed to meet once a month as against 54 in the previous year. The Local Boards which met least often were Chuadanga, which held only one meeting and Thakurgaon, which held three meetings during the year. The Chuadanga Local Board, although reconstituted in January 1898, did not begin work till the close of the year 1898-99: hence the small number of meetings held. The reason assigned in the case of Thakurgaon is that as there were no important subjects to be considered, no more meetings were

necessary. The average attendance at the meetings of Local Boards was 5·2 against 5 in the preceding year.

4. *Elections.*—The year under report witnessed the fifth general election of members of the Local Boards in all the districts of the Burdwan and Presidency Divisions, except Midnapore, and in the districts of Rajshahi, Pabna, Dacca and Faridpur. The elections in Nadia alone are reported to have aroused general interest.

5. *Occupation of members.*—The following table classifies the members of the several District and Local Boards according to their professions and occupations:—

	Government servants.		Zamindars, &c.		Pleaders and Mukhtears.		Planters.		Missionaries.		Government pensioners.		Other occupation.		Total number of members.
	Number.	Ratio per cent.	Number.	Ratio per cent.	Number.	Ratio per cent.	Number.	Ratio per cent.	Number.	Ratio per cent.	Number.	Ratio per cent.	Number.	Ratio per cent.	
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
District Boards	251	31·5	253	31·8	174	21·8	58	7·2	4	·5	13	1·6	42	5·2	795
Local Boards ..	153	12·1	568	45·1	345	27·4	46	3·6	5	·4	26	2·06	116	9·2	1,259

As compared with the preceding year, the number of Government servants on the District Boards decreased from 257 to 251 and the number of zamindars increased from 244 to 253. In the case of Local Boards the number of pleaders and mukhtears increased from 333 to 345 and the number of Government pensioners decreased from 33 to 26. In other respects there has been but little change.

6. *Powers of Local Boards.*—There was little change in the powers exercised by Local Boards. In Hooghly and Howrah they were relieved respectively of the management of second class roads and the duty of conducting the lower primary scholarship examinations. In Murshidabad, the management of the roads in Berhampore and Jangipur was resumed by the District Board. The Local Boards in Rangpur were entrusted with the supervision of pounds and ferries during the year as an experimental measure. The power of distributing rewards on the result of scholarship examinations was withdrawn from the Local Boards in the Faridpur district. The Jamui and Beguserai Local Boards in Monghyr and the Kishenganj and Arraria Local Boards in Purnea were given the management of pounds in their respective jurisdictions during the year.

7. *Union Committees.*—The following statement furnishes particulars regarding the constitution, income and expenditure of the several Union Committees:—

Deducting the opening balance, the total income of the 57 Union Committees amounted to Rs. 22,865, or Rs. 2,984 more than in the previous year, and the expenditure to Rs. 21,388 against Rs. 17,481 in 1897-98. Thirty-two Unions spent the whole or nearly the whole amount allotted to them. Five out of the six Unions in the district of Burdwan incurred no expenditure during the year, the reason assigned being that the Committees do not take interest in their work with the little money placed at their disposal. The Magistrate of Burdwan does not think that much harm would be done if these Unions were abolished. The Union Committee at Contai, in the district of Midnapore, is reported to have done some useful work during the year. The attitude of the Local Boards of that district towards the Union Committees not having been satisfactory, the Chairman of the District Board had to frame certain rules, with a view to prevent undue interference on the part of the Local Boards with the affairs of the Unions. The Magistrate of Howrah makes the following remarks regarding the Union Committees in his district:—

"The Union Committees have not as yet learnt how to account for the moneys received from District Boards, and it is a question whether these bodies will ever be able to learn it. The term of office of the members is for two years. These members will be replaced by another set of villagemen, and it seems hardly possible for them to learn it. Unless these bodies are allowed a clerk, their work cannot be satisfactorily done. These bodies can hardly be entrusted with any other power than the supervision of some limited number of village roads. The incompetence to submit any sort of account is the great drawback to their usefulness * * * Their work in village roads, wherever I have seen it, has been well and satisfactorily done, but there has yet been practically no cleansing of tanks or other sanitary work."

The Chairman of the Basudebpur Union in the 24-Parganas is reported to have taken great interest in his work, the condition of the roads and drains within that Union having been considerably improved under his personal supervision. The work done by the other two Union Committees in that district is said to have been fair, but their administration of pounds was not satisfactory. The Magistrate of Nadia reports that the Union Committees in his district have, on the whole, showed improvement, and the funds placed at their disposal were all well spent. The working of the Union Committees in Jessore and Khulna is also reported to have been satisfactory. The Pabna Union Committee has not been favourably reported on, nor the Laksham Union Committee in Tippera which, it is stated, did not take much interest in its work. The Chandpur and Matlab Union Committees, as also all the Union Committees in Noakhali, are said to have done their work satisfactorily. The Commissioner of Chittagong is of opinion that none of the districts of his Division are sufficiently advanced for the Union Committee system to be worked with much chance of success. The Unions at Remuna and Soro have been favourably spoken of, but the other Unions in the district of Balasore are stated to have done practically nothing.

8. *Financial results.*—The table below compares the income and expenditure of the District Boards under all main heads for 1897-98 and 1898-99:—

INCOME.

	1897-98.	1898-99.

Debt	6,31,748	3,89,308
Interest on Debt	27,641	17,389
Total ...	69,07,397	66,74,415

The 38 District Boards in the Province began the year with an opening balance of Rs. 17,86,437. The total receipts from all sources amounted to Rs. 66,90,172 against Rs. 71,05,065 in 1897-98, and the expenditure Rs. 66,74,415 against Rs. 69,07,397. The year thus closed with a credit balance of Rs. 18,02,193, but of this sum more than a lakh and a-half consisted of deposits which were not at the disposal of the Boards. The actual closing balances amounted to more than half of the year's income in Jalpaiguri, Rangpur and Dacca, and to more than one-third in Bankura, Hooghly, Howrah, Tippera, Champaran, Gaya and Purnea. In the cases of Bankura, Howrah, Dacca, Tippera, Purnea, Gaya and Champaran the large balances are adequately accounted for, but no explanation on the subject has been furnished in the cases of Hooghly, Rangpur and Jalpaiguri.

INCOME.

9. *Provincial rates.*—The proceeds of the road cess, less the cost of collection and of periodical re-valuation, form the receipts under this head. The increase of Rs. 48,332 over the receipts of the past year is attributed to better collections and also to the increased yield of cesses where estates have been revalued.

10. *Interest.*—The increase of receipts under this head is due to a larger collection of arrears of road cess.

11. *Pounds.*—The number of pounds increased from 3,808 to 3,968, but their income fell from Rs. 4,55,101 to Rs. 4,41,975. The decrease occurred chiefly in Burdwan, Midnapore, Champaran and Monghyr. The falling off in Burdwan and Midnapore is ascribed to decrease in the collections, both on account of the arrear and current demands, and that in Champaran to smaller realisations under heads "Fines on stray cattle" and "Sale-proceeds of unclaimed cattle," to some of the pounds having been resettled at lower rents, and to a decrease in the receipts of earnest-money credited during the year on account of pounds settled for 1899-1900. In the case of Monghyr it is explained to be due to the fact that one quarter's rent of pounds for 1898-99 was paid by the farmers in the previous year in addition to the full demand of that year. Inspections of pounds were, as in previous years, made occasionally by Government and District Board officials, members and Vice-Chairmen of Local Boards, members of Union Committees and Sub-Inspectors of Schools, and also by Pound Inspectors, who were in some districts appointed for the purpose. Pounds are generally leased out for one year only, but in special cases leases are granted for a longer period. Complaints against pound farmers and pound-keepers are reported from the 24-Parganas, Nadia, Khulna, Dinajpur, Bogra, Mymensingh, Tangail, Backergunge, Monghyr, Purnea, Balasore, Puri and the Aurangabad subdivision of the district of Gaya. All complaints appear to have been adequately dealt with.

12. *Education.*—The income from this source declined from Rs. 65,879 to Rs. 64,928. The falling off is marked in the district of Rajshahi and occurred chiefly under the head of Contributions.

13. *Medical.*—The income under this head was Rs. 30,831 against Rs. 38,559 in 1897-98. The decrease occurred chiefly in Chittagong and Hooghly. In Chittagong it was owing to the local Municipality not having paid any contribution during the year for the construction of the General Hospital as it did in the preceding year, and in Hooghly it is attributed to the fact that the receipts for the year 1897-98 were increased largely by the realisation of arrear contributions due to the Mondlai Dispensary and the realisation of the cost of additions to the dispensary building from Dr. Bhola Nath Bose's Trust Fund.

14. *Scientific and other Minor Departments*—Only six districts, viz. the 24-Parganas, Rajshahi, Dacca, Gaya, Saran and Cuttack show receipts under this head. In the 24-Parganas, Dacca, Gaya and Saran they were derived from conservancy and sanitary arrangements made at certain fairs, and in Rajshahi from the sale of *matka* cloth and cocoon seed manufactured and reared at the sericultural school. The sum of Rs. 618 shown under this head against Cuttack was received as donations and subscriptions for the maintenance of the veterinary dispensary which was opened in the town in October 1898.

15. *Miscellaneous.*—There was a decrease of Rs. 46,508 in the income under this head. This falling off is noticeable chiefly in Darbhanga, and is said to be due to the large amount refunded by Government during the previous year in adjustment of the famine accounts.

16. *Minor Works and Navigation.*—Canal revenue in Chittagong fell off from Rs. 13,965 to Rs. 12,826 in consequence of the remissions granted to *ijaradars* on account of the loss sustained by them from the cyclone of October 1897.

17. *Civil Works.*—The receipts under this head, which are derived mainly from "Tolls on ferries" and "Contributions," declined from Rs. 12,02,961 to Rs. 9,03,271. This falling off is noticeable under both heads. That under the head "Tolls on ferries" is shared by no less than 20 out of the 38 districts, viz. Burdwan, Hooghly, Howrah, Nadia, Jessore, Rajshahi, Dinajpur, Pabna, Dacca, Mymensingh, Backergunge, Tippera, Chittagong, Gaya, Shahabad, Saran, Muzaffarpur, Monghyr, Malda and Cuttack. The decrease was very large in the Cuttack, Monghyr, Saran and Chittagong districts. The Chairman of the District Board of Cuttack attributes the decrease to the fact that fresh leases were granted in March 1898 and half of the annual rent was paid and credited in 1897-98, in consequence of which the receipts for that year were swelled. In Monghyr it is due to the farmers having credited in 1897-98 the full demand of the year and one-fourth of the rent due for 1898-99; to the fact that in 1897-98 the security deposits of the ferry farmers were adjusted by credit to rent; and to the rents of certain ferries having been reduced. In Chittagong it is explained that as the material prosperity of the people decreased after the cyclone of November 1897, very few of them came forward to bid for the ferries at the annual sales, in consequence of which the ferries were sold at very low figures. The ferries were, as usual, inspected from time to time by District Engineers and their subordinates and also by Government servants who happened to pass by them. The condition of ferry boats, landing-stages and approaches generally appears to have been good. Prosecutions against ferry farmers are reported from the 24-Parganas, Khulna, Rajshahi, Pabna, Saran, Muzaffarpur and Balasore districts. In Gaya some complaints were received from the Postal Department regarding delay in crossing mails at some of the ferries, and those are reported to have been duly attended to by the District Engineer.

18. *Contributions.*—Contributions by Government or private individuals for the execution of particular works declined from Rs. 7,13,853 to Rs. 4,41,590. The contributions from Provincial Revenues to maintain equilibrium between the receipts and expenditure amounted to Rs. 5,12,108 against Rs. 5,11,128.

19. *Loans.*—A sum of Rs. 30,000 was borrowed from Government by the Saran District Board to improve the roads, which had suffered heavily from

floods, but as the amount was received only at the end of March, no part of it was spent during the year. The sum of Rs. 4,000 shown against the 24-Parganas District Board represents the amount of loan given to the Board by Messrs. Gillanders, Arbuthnot and Company for the construction of a road leading to the Lower Hooghly Jute Mills at Badartolla. The sum of Rs. 54 which is entered against Jessore was the amount of loan recovered by the Board from the Mohespur Municipality.

20. *Deposits and Advances.*—The income under this head decreased from Rs. 5,24,827 to Rs. 4,22,934. The variations are of no special importance.

EXPENDITURE.

21. *Administration.*—The cost of general administration decreased from Rs. 2,82,770 to Rs. 2,47,938. The decrease is attributed chiefly to a change in the rules under which sums paid on account of cost of establishment for offices of account or control are treated as "Contributions to Provincial."

22. *Pounds.*—There was a decrease of expenditure under this head amounting to Rs. 2,860. The largest decrease occurred in Patna, and is reported to be due to the heavy cost incurred in repairing the pound-houses in 1897-98.

23. *Marine.*—In former years the subsidies paid for steamer services used to be shown under the head "Minor Works and Navigation," but under instructions from the Accountant-General such expenditure is now shown under this head.

24. *Education.*—The statement below shows the expenditure incurred by the several District Boards on education during the past two years under the main heads:—

	1897-98.	1898-99.
	Rs.	Rs.
Inspection.		
Sub-Inspectors	1,92,591	1,81,898
Inspecting Pandits	89,025	86,755

Payments to abolished Schools	9,068	7,131
Examination, Prizes and Rewards	31,938	32,559
Contingent Charges	11,452	10,534
Total ...	12,00,815	11,81,488

The decrease of expenditure is shared by 24 districts, the exceptions being Hooghly, Howrah, the 24-Parganas, Jessore, Jalpaiguri, Backergunge, Tippera, Gaya, Shahabad, Muzaffarpur, Saran, Monghyr, Cuttack and Puri. The above table shows that 46·0 per cent. of the total expenditure incurred by District Boards on education during the year was devoted to primary schools, 22·7 to inspection and 20·5 to middle schools.

25. The following statement compares for the past two years the expenditure of each District Board on primary education and on education as a whole, and the percentage which the expenditure bears in each case to the ordinary annual income:—

District Boards.	1897-98.					1898-99.

The average expenditure on education incurred by the District Boards during the year was 20·2 per cent. of their ordinary income against 20·3 in 1897-98 and

21·3 in 1896-97. In all the districts of the Patna Division and in the Jessore, Khulna, Jalpaiguri, Mymensingh, Backergunge, Chittagong, Monghyr, Bhagalpur and Purnea districts the expenditure was below the provincial mean. The highest figures are shown in the districts of the Orissa Division and in Bankura, Dacca, Faridpur and Tippera. Taking the proportion spent on primary education, Balasore shows a ratio of 30 per cent., Cuttack 28·8, and Dacca 22·2. In Jalpaiguri, Gaya, Shahabad, Saran and Champaran the proportion was below 10 per cent. of income.

26. From the tabular statements appended to the General Report on Public Education in Bengal, it appears that the number of schools maintained by District Boards increased from 174 to 180 during the year, and that, with the increase in the number of schools, there was a corresponding rise in the number of pupils. This increase occurred chiefly in high and middle schools. There was a rise also in the number of schools aided by District Boards as well as in the number of pupils attending them. The number of industrial schools maintained by District Boards increased from 6 to 7, while those aided by those bodies declined from 3 to 2 during the year. The total number of girls' schools aided by District Boards and of the pupils in them decreased by 91 and 1,142, respectively, as the following figures will show:—

	1897-98.		1898-99.	
	Schools.	Pupils.	Schools.	Pupils.
Upper Primary	53	1,089	55	1,179
Lower "	1,682	27,579	1,589	26,347
Total ...	1,735	28,668	1,644	27,526

27. The following remarks regarding the educational work of District and Local Boards occur in the annual report of the Director of Public Instruction for the year 1898-99:—

District Boards.—The relations between the different District Boards in the Province and the Education Department continued to be entirely friendly. The Deputy Inspector, who is an *ex-officio* member of the Board and a leading member of its Educational Sub-Committee, was everywhere consulted on all educational matters, and his views were in the main accepted. Delay in the transaction of business is complained of from the Burdwan Division, notably from the Midnapore district, in which, although there is a paid Secretary, the results of the lower primary scholarship examination held in November 1898 were not ready even in May 1899. The Inspector of the Burdwan Circle further remarks that "sufficient help was not accorded to him by some of the District Boards in effecting transfers of Departmental Sub-Inspectors serving under them, when such removals were necessary on public and special reasons."

The educational work transacted at the meetings of District Boards was of the usual nature. The Educational Sub-Committee, it may be remarked, deals with all educational matters in the first instance, and submits its recommendations for the final decision of the Board.

Local Boards.—These bodies have not as yet proved successful in the administration of primary grants where such powers have been delegated to them by the District Boards. In the Burdwan Division they are said to take very little interest in their work, and that they often depart from the principles laid down by the District Board, and in some cases endeavour to make inspecting pandits subordinate more to themselves than to the District Board through the Sub-Inspectors. The result was that in Howrah the District Board had to curtail the educational powers it had delegated to the Local Boards. In the Presidency Division no educational powers are exercised by the Local Boards of the 24-Parganas and Khulna.

It would at first sight seem that being relieved from the pressure of famine, the District Boards had not only made ampler provision for primary education than in the preceding year, but also had spent more liberally. But a closer examination of the Divisional figures does not bear out this favourable view in all cases. There is a disturbing factor in what are called "uncashed cheques," which largely affects the figures from year to year, and renders comparison between any two consecutive years a very complicated task. Cheques to the

extent of thousands of rupees are issued by the District Boards towards the close of the year, and are some times kept uncashed till it expires. Unaccountably enough, these sums, though passed before the year closes, are not entered in the returns for that year, being shown as imaginary 'savings,' and are carried forward to swell the allotment and expenditure for the year that follows.

The constant presence of this disturbing element points to laxity on the part of those who administer the primary grants.

28. *Employment of Muhammadans as Sub-Inspectors of Schools.*—In Backergunge a Muhammadan B.A. was appointed to be a Sub-Inspector of Schools. There was a temporary vacancy in Mymensingh, but no qualified Muhammadan applied for the post. In Tippera two temporary vacancies occurred, one of which was filled up by a Muhammadan under-graduate in preference to Hindu graduates. The Monghyr and Purnea District Boards have one and two Muhammadan Sub Inspectors of Schools out of a total number of three and four, respectively. The proportion of Muhammadans to Hindus being as one to ten in Bhagalpur, the Chairman of the District Board does not consider that any special measures are necessary in his district. No remarks on the subject occur in the report from the Patna Division.

29. *Special Sc ools.*—Technical and other special schools were maintained and aided by the District Boards of Burdwan, Midnapore, Hooghly, Rajshahi, Rangpur, Pabna, Mymensingh, Backergunge, Tippera and Balasore. The Maisadal Raja's Technical School stood first among the schools of that class in Bengal which competed for the Sub-Overseership Examination held at Sibpur. The sericultural School at Rampur Boalia supplied cocoon seeds to Japan, Italy, England and to several places of India. A cocoon rearing-room has been constructed, and arrangements are being made for the building of a workshop. The technical schools at Mymensingh and Backergunge are reported to be in an unsatisfactory condition, and it is proposed to improve them by associating them with the zilla schools and affiliating them to a central Engineering College to be established at Dacca. The number of pupils in the Apprentice Department of the Comilla Artizan School decreased by four, and that in the artizan classes increased by three during the year. Six boys in the Apprentice Department passed the examination, four of whom joined the Sibpur College. In the Artizan Department five boys are reported as fit for certificates of proficiency. The total receipts of the school amounted to Rs. 10,010, out of which Rs. 2,555 were derived from the sale-proceeds of articles manufactured in the school. The District Board of Bhagalpur have sanctioned a contribution of Rs. 1,800 per annum towards the maintenance of classes to be attached to the zilla school, teaching the 1st and 2nd year standards of the apprentice course of the Sibpur Engineering College but the classes were not opened during the year. The District Boards of Howrah, Tippera, Noakhali and Cuttack continued to grant scholarships to boys to enable them to study at the Engineering College at Sibpur, and the District Boards of all districts in the Patna and Bhagalpur Divisions, except Purnea, awarded scholarships to pupils for education at the Bihar School of Engineering.

30. *Female Medical Education.*—The District Boards of the 24-Parganas, Rangpur, Mymensingh, Noakhali, Tippera, Patna and Cuttack granted scholarships during the year to female students in medical schools. The District Board of Midnapore discontinued the grant of scholarships for want of candidates. A native midwife together with a menial staff was, as before, employed in the female ward attached to the Gaya Pilgrim Hospital with the object of training *dais* in midwifery, &c.

31. *Medical.*—The expenditure under this head shows an increase of Rs. 95,029, chiefly under heads "Miscellaneous," "Sanitation and Vaccination" and "Hospitals and Dispensaries." The expenditure incurred by some of the District Boards in adopting measures to prevent the importation of plague, such as the erection of plague camps and contributing to the cost of the police employed in those camps and in railway stations, accounts for the increase under head "Miscellaneous."

32. The statement below shows the number of dispensaries aided and maintained by the several District Boards during the year, together with the cost incurred in maintaining and aiding them, and the proportion which the

expenditure on medical charity bears to the ordinary income of each District Board during the past two years :—

District Boards.	Number of dispensaries maintained.	Cost of maintenance.	Number of dispensaries aided.	Amount of contributions paid.	Percentage of the total expenditure incurred by District Boards on medical charity and sanitation, excluding the expenditure on Plague Camp on their ordinary income.

33. The District Board of Backergunge kept up the largest number of dispensaries (29) during the year, at a cost of Rs. 15,085 ; Monghyr comes next with 10 dispensaries ; total cost Rs. 13,477. Two new dispensaries were opened during the year at Bera and Chat Mahar by the District Board of Pabna, two

at Nanda Bhuia and Char Gazi by the District Board of Noakhali, one at Mollahat by the District Board of Khulna, one at Gope by the District Board of Puri, and one at Baliapal by the District Board of Balasore. Arrangements are also being made by the District Boards concerned for the opening of a dispensary at Katihar in the district of Purnea, and one in Singti Sibpur in the district of Howrah. The management of the Tarasankar Dispensary at Taki and the Port Canning Dispensary, which were hitherto aided by the District Board of the 24-Parganas, has since been transferred to that body. The District Boards of Midnapore, Mymensingh and Backergunge employed extra Hospital Assistants for the suppression of cholera epidemics in those districts. Gratuitous medical relief to cholera patients was also afforded by the District Boards of Noakhali and Chittagong. The cholera hospital at Gaya, which was during the previous year wholly maintained by the District Board, was supported by private subscriptions and endowments during the year. The District Boards of Birbhum, Rajshahi, Jalpaiguri, Bogra, Rangpur, Pabna, Mymensingh and Noakhali retained the services of their midwives and lady doctors. A veterinary institution was opened during the year at Burdwan by the District Board for the suppression of cattle-disease in the district. The Veterinary Assistant attached to the institution is required to visit all places where cattle-disease breaks out. The total number of animals treated at the institution and in the interior of the district is reported to be 152 and 231 respectively. In Cuttack a Veterinary Dispensary was opened in October 1898 with the help of public donations and subscriptions and a monthly subsidy of Rs. 40 from the District Board. A sum of Rs. 618 was received during the year as donations and subscriptions for the maintenance of the institution. The District Boards of Hooghly and Bogra continued to grant stipends to the boys sent for the prosecution of their studies at the Veterinary School at Belgachia and to supply books required by them. A student was also elected by the District Board of Mymensingh to study at that institution from the beginning of the next session. The District Board of Chittagong employed 12 vaccinators for six months and constructed two vaccination depôts, one at Halishahar and the other at Bakalia. The District Board of Backergunge distributed during the year ten medicine chests containing simple remedies among the panchayats and 29lbs. of quinine through the dispensaries in the district.

34. *Sanitation.*—The outlay on sanitation fell off from Rs. 2,64,743 to Rs. 1,86,905. The figures in the margin show how these amounts were apportioned among the various sub heads of expenditure in both years. On the improvement of water-supply the largest expenditure was incurred by the District Board of Backergunge, viz., Rs. 20,839. The prescribed minimum limit of Rs. 5,000 was attained by six District Boards only, viz., Khulna, Mymensingh, Backergunge, Tippera, Saran and Muzaffarpur. The chief measures undertaken in the improvement of water-supply were the digging, re-excavating and disinfecting of tanks and wells, clearing them of weeds, repairing ghats, fencing and cutting khals and inlets for water. Besides these works, the construction of the hot-spring reservoir at Sitakund, which was undertaken by the District Board during the previous year, was completed during the year.

	1897-98. Rs.	1898-99. Rs.
Improvment of water-supply ...	2,23,544	1,31,541
Ditto of village sites ...	7,005	13,770
Conservancy of towns and villages	2,034	1,280
Sanitation at fairs	7,883	11,736
Other sanitary expenditure ...	24,277	28,578
Total ...	2,64,743	1,86,905

35. The preparation of the registers showing the existing sources of water-supply in every village containing more than 100 houses is reported to have been completed during the year in Burdwan, Birbhum, Howrah, in all the districts of the Presidency and Rajshahi Divisions except Dinajpur, in the Tippera, Noakhali, Patna, Gaya, Champaran, Shahabad, Monghyr, Bhagalpur districts and all the districts of the Orissa Division. The Commissioner of Rajshahi is of opinion that in his Division, with its great rivers and its large rainfall, there is no hope of any result following the enquiry as to the adequacy of the water-supply, except in cases (if any such there be) as to which some local deficiency has been alleged.

36. The details of expenditure incurred by District Boards on other sanitary objects are given in columns 22 and 23 of Form No. IV. The largest

expenditure under this head was incurred by the District Board of Shahabad, chief among which was the contribution paid to the Arrah water-works for protective works at Bahiara.

37. *Scientific and other Minor Departments.*—Veterinary charges increased from Rs. 1,912 to Rs. 7,132, the bulk of the expenditure having been incurred in the several districts of the Patna Division. One of the two bulls maintained by the District Board of Pabna for improving the breed of cattle in the district died during the year, and endeavour is being made to procure another in its place. The total cost of the maintenance of the Arab stallion kept at Buxar by the District Board of Shahabad for breeding purposes was Rs. 199 against Rs. 274 in the previous year. The Commissioner of the Division remarks that the results are not commensurate with the cost. The District Board of Backergunge purchased four bulls at a cost of Rs. 295 during the year.

38. *Stationery and Printing.*—The expenditure under this head increased from Rs. 49,282 to Rs. 51,477.

39. *Miscellaneous.*—There was a decrease of Rs 6,983 in the expenditure under this head, which was due to various causes of no special importance.

40. *Famine Relief.*—The expenditure of Rs. 94 incurred by the Rajshahi District Board was in adjustment of the accounts for the previous year. Rupees 937 was expended in Tippera in the treatment of destitute coolies. The sum of Rs. 3,666 shown against Puri represents payments to contractors for work done during 1897-98.

41. *Minor Works and Navigation.*—The decrease of expenditure under this head in Tippera was due to the reduction in the monthly subsidy for the boat service between Maniknagar and Brahmanbaria. The District Board of Malda spent Rs. 161, against Rs. 212 in the preceding year, for clearing snags from the navigable rivers.

42. *Civil Works.*—The statement below compares the expenditure under the head of Civil Works during 1897-98 and 1898-99:—

YEAR.	Ferry establishment, contingencies and refunds.	Original Works.	Repairs.	Establishment and contingencies.	Tools and Plant.	Water-supply and water-works.	Drainage works.	TOTAL.
1	2	3	4	5	6	7	8	9
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1897-98 ...	38,816	8,97,204	20,07,966	6,72,977	24,519	1,39,770	5,370	37,86,712
1898-99 ...	37,447	9,45,201	22,61,019	6,38,063	30,546	1,01,830	2,657	40,16,853
Difference	—1,369	+47,997	+2,53,053	—34,914	+6,027	—37,940	—2,713	+2,30,141

The increase of Rs. 2,30,141 is noticeable under the heads "Original Works" "Repairs" and "Tools and Plant," the largest increase being under "Repairs." The Muzaffarpur District Board spent the largest sum on original works, viz., Rs. 1,32,287. Next comes Backergunge with an expenditure of Rs 1,14,254. The most important works undertaken by the District Board of Muzaffarpur were the improvement of the Sonbarsa road, an important feeder to the Sitamarhi station, at a cost of Rs. 10,000, the bridging of the Sitamarhi road at a cost of Rs. 10,588, and the metalling of seven other roads at an aggregate outlay of Rs. 17,154, and those undertaken by the District Board of Backergunge were the construction of the Umedpur to Bonasberia road at a cost of Rs. 15,722 and the construction of the Patuakhali to Backergunge road at a cost of Rs. 12,000.

43. *Appendix C.*—The average ratio of the cost of Civil Works to the total expenditure of District Boards was 60·5 per cent. against 56·9 in 1897-98, but in particular districts the proportion ranged from 75·1 in Muzaffarpur and 71·0 in Purnea to 39·6 in Pabna and 29·7 in Rangpur. The percentage of the cost of establishment on total expenditure was 9·3 for the whole Province against 9·4 in the previous year. It reached 16·5 in Champaran and 13·5 in Saran, while Backergunge and Balasore show 5·8 and 4·9 respectively. For the whole Province the salary of the District Engineer represented 36·9 per cent. of the total cost of establishment, but this proportion is exceeded in no less than 17 districts. In Cuttack the salary of the District Engineer comes to 60·1 of the total cost of establishment, and in Gaya to 19·0 only. The provincial

mean ratio of cost of establishment to expenditure on Original Works and Repairs (19·5) is exceeded by 18 districts, to the greatest extent by Rangpur (60·9.)

44. *Village Roads.*—The statement in the margin compares the outlay on village roads in each Division, except Bhagalpur, during the past two years. The increase of Rs. 74,297 over the expenditure of the past year was shared by all the Divisions, except Chittagong. The Commissioner of the Burdwan Division reports that all the Local Boards in his Division still complain of the insufficiency of the village road grant. The Chairman of the Burdwan Local Board considers it desirable that village road works should be done under the contract system. As, however, the grant for village roads is stated to vary from Rs 20 to Rs. 50 only, no contractor comes forward, and money is advanced to persons of known position in the village on an understanding that the villagers will contribute at least one-third or half of the grant made by the Board. This latter system, however, did not work well in Dacca, and the District Board sanctioned during the year the appointment of two sub-overseers who are required to frame estimates and arrange for the proper execution of the works. They are also required to take the measurements of each work and bill for them in the same way as is done for works under the District Board. The heavy floods of the year are reported to have caused heavy damage to village roads in the Midnapore, Patna, Muzaffarpur and Tippera districts.

45. *Water Communications.*—The Telkupi khal in the Serajganj subdivision of Pabna was kept navigable during the floods at a cost of Rs. 9[illegible]5. The subsidised service of *gayna* boats between Pabna and Kushtia noticed in last year's Resolution was once more tried during the year, but had to be abandoned, as the public would not use the boats. The District Board of Dacca undertook during the year the construction of *bandals* at the head of the Buriganga river, the removal of bars from the head of the Ichamati river, and the Dasara, Tetuljhora, Pania and Munshiganj khals, and the repair of the spurs on the south bank of the Buriganga. The tow-path from Barama to Kaliganj was also repaired during the year. In Backergunge the tow-path from Jhalakati to Perojpur was improved at a cost of Rs. 539. In Noakhali 16 navigable channels were cleared of jungle and other obstructions, and eight road side drains, which are used as boat channels, improved. A drain was also cut along the Chittagong Trunk Road from Lomua to Khyarah.

46. *Steam Communications.*—The steam communications between Malda and English Bazar, Calcutta and Kalna, Narayanganj and Manikgunge, and Barisal and Noakhali were maintained during the year. The steamer service between Pabna and Kushtea was put a stop to in August 1898, and the subsidy paid by the District Board of Pabna for that service was withdrawn.

47. *Miscellaneous Public Improvements.*—The amounts spent by the several District Boards under the head of arboriculture are shown below:—

		Rs.			Rs.			Rs.
Burdwan	...	4,183	Dinajpur	...	1,224	Patna	...	888

Rajshahi	...	642	Chittagong	...	582	Balasore	...	471
			Puri	...	331			

No expenditure under this head was incurred by the District Boards of Pabna, Muzaffarpur, Darbhanga and Bankura. Besides the sums mentioned, a sum of Rs. 28 was spent by the District Board of Faridpur for constructing a bund in the "Dhol Samudra" for the protection of paddy fields from the flood

of the Padma. The District Board of Purnea spent Rs. 3,724 on the construction of bunds in Nepal to close the eastern spill channels of the Kosi. The Belwa bunds which protect the district from the overflow of the Panar, were also repaired at a cost of Rs. 108.

48. *Railway Feeder Roads.*—The feeder road from the village of Debipur to the Debipore Railway station in the district of Burdwan was completed during the year. The Stewart Road, which is a feeder to the Akra station on the Budge-Budge Railway, was metalled at a cost of Rs. 3,060, and the village road from Hatugunge to Natra station improved at a cost of Rs. 500. The Kishanganj and Hansada Road in Nadia was repaired at a cost of Rs. 576, and the existing feeder roads in Khulna maintained at an outlay of Rs. 893. A road from the Chilahati station to Chalani was constructed by the District Board of Rangpur at a cost of Rs. 762. A feeder road from Kurmitola Railway station to the Mymensingh road was constructed by the District Board of Dacca, and the Tangi to Kaliganj road improved. The District Board of Mymensingh completed the feeder road from Balipara Railway station to Shibganj and improved three other roads, which had been seriously damaged by the earthquake. The construction of a road from Tangail to Bhatpara steamer station was also taken in hand by that District Board during the year. The District Board of Faridpur maintained five feeder roads during the year at a total cost of Rs. 2,632. Rs. 2,122 were spent in Tippera on four railway feeder roads, Rs. 10,792 in Noakhali on the feeder road from Harishpur to Gooptasera and Rs. 2,271 in Chittagong on the construction of three approach roads to the Assam-Bengal Railway. The District Board of Cuttack undertook the construction of an approach road to the Cuttack railway station, and the District Board of Balasore four feeder roads from the Orissa Trunk Road leading to the railway stations at Balasore, Khantapara, Soro and Markona.

49. *Railways and Tramways.*—The works on the Ranaghat and Krishnagar Railway were completed during the year and the line was opened for traffic on the 4th April 1899. A proposal for the construction of a tramway from Magrahat to Bishtupore in the 24-Parganas is under the consideration of the District Board. A scheme for the construction of two other tramways on the Grand Trunk Road and the Diamond Harbour Road is also under consideration. The feeder line of railway from Segauli to Raxaul was opened in April 1899 for traffic during the dry season. A project for a light railway from Bucktearpur to Bihar is being considered by the District Board of Patna.

50. *Contributions.*—The amounts shown under the head "Contributions to Provincial" represent contributions made by District Boards towards the cost of the police force employed at plague camps, refund of the unexpended balance of Government grants for special works, payments on account of cost of establishments in the offices of account and control and contributions made by District Boards to Union Committees. The total expenditure incurred under this head declined from Rs. 3,02,483 to Rs. 2,60,170.

51. *General Remarks.*—The observations made by the Divisional Commissioners regarding the working of District and Local Boards are quoted below.

Mr. J. Kennedy, Officiating Commissioner of the Burdwan Division, remarks:—

"I can only repeat what I said last year that while District Boards are useful consultative bodies, Local Boards and Union Committees might, with advantage, be abolished. They have not enough money for any useful purpose, and their supervision of primary education is little more than nominal."

Mr. C. E. Buckland, Commissioner of the Presidency Division, writes:—

"I have no particular remarks to add to those made last year. The working and attitude of District and Local Boards do not change materially from year to year."

Mr. P. Nolan, Commissioner of the Rajshahi Division, states:—

"I found that all the Boards worked during the year smoothly and without friction. In Jalpaiguri the work was very badly done for the reason indicated by Mr. Forrest, the inefficiency of a newly appointed District Engineer: his deficiencies would, I think, have been more promptly dealt with had not it so happened that the Chairman who was in office when Mr. Fowle was appointed took furlough a few months afterwards. In Rangpur the results were also unsatisfactory, both in regard to the attention paid to business, as indicated by the deficiency in the number of meetings, and the failure to execute necessary works, for which budget provision had been made. The latter result is attributed to the introduction of the system of contracts with substantial men: the failure was in arranging to carry out the changes without stopping the work."

Mr. H. Savage, Officiating Commissioner of the Dacca Division, observes :—

"On the whole the District Boards are useful institutions, but the utility of Local Boards unless presided over by the Subdivisional Officer is practically limited to supplying sinecure posts for incompetent clerks and providing a medium for payment of money supposed to be spent on village roads. For the most part non-official Chairmen and Vice-Chairmen have neither the time nor the inclination to inspect Local Board works at a distance from head-quarters, and with rare exceptions such works are carried out in a slovenly and costly manner. With the Subdivisional Officer as Chairman, a Local Board can be of practical use if the members restrict themselves to advice and leave the executive part of the work to the Chairman who, in the course of his annual tour, has to visit every place of importance in his subdivision and is indeed the only person who is in a position to see that any work which is undertaken is properly executed. In subdivisions in which I have found the Local Board's work neglected I have recommended the members to appoint the Subdivisional Officer as their Chairman, and in several instances my advice has been followed."

Mr. F. R. S. Collier, Officiating Commissioner of the Chittagong Division, remarks : —

"The District Boards have as usual worked well. The Local Boards have worked fairly well; but the allotments, which it is possible to place at their disposal, are too small for them to be of much use. Mr. Manisty in his report for last year expressed an opinion that Sadar Local Boards were a superfluity and a mistake. I concur with this remark; but consider it applicable, though not so completely, to all Local Boards, and, as far as this Division is concerned, to Union Committees also."

Mr. J. A. Bourdillon, Commissioner of the Patna Division, writes :—

"It will be observed that all District Officers heartily acknowledge the assistance they have received from their District Boards, but they do not find much to say in favour of the Local Boards. Local Self-Government has, in fact, shared in the general prosperity which was the characteristic feature of 1898-99 in the Patna Division : work has been well done, friction has been almost unknown, and the curtain falls on satisfied actors and an appreciative audience."

Mr. H. C. Williams, Commissioner of the Bhagalpur Division, records the following observations :—

"I took charge of the Division towards the end of April, and have as yet not seen much of it. The same remarks seem to apply here as in other Divisions, viz., that the District Boards generally do good work, while the Local Boards are not of much use. This is of course due to the causes, viz., the difficulty of getting sufficiently well-educated men in out-of-the-way places and the very limited powers the Local Boards are entrusted with. Certainly in some subdivisions additions might be made to those powers. As regards the District Board of Monghyr, from the Chairman's report and from the cases which have come before me, it appears that every branch of its administration is out of joint, and that the Chairman and new Vice-Chairman will have to pay close attention to it for sometime.

"The Bhagalpur and Purnea District Boards as well as Monghyr, have asked to be relieved of the duty of looking after Imperial and Provincial Works which was made over to them in 1891-92, mainly on the grounds that the allowance of 15 per cent. given by Government to meet the charges is insufficient, and that the District Engineer has not sufficient time to look after the work. As regards Bhagalpur with its large Central Jail, I believe the contention to be well founded, but I cannot agree in the case of other districts. The percentage may possibly be too small, and in that case, Government might have been inclined to raise it; but to reject the proposal summarily seems to be ill-advised, and to be likely to deprive the District Engineer of some pay which he would otherwise have got. I cannot say that I consider the attendance in this Division to be good. Even allowing for the difficulty of roads in the rains 50 per cent. at least should be attained to in every District or Local Board. It is the difficulty of inducing members from mufassal to attend regularly which alone justifies the presence on the Board of so many residents of head-quarters stations."

Mr. C. R. Marindin, Commissioner of the Orissa Division, says :—

"Having only taken over charge of the Division about ten days ago, I am not in a position to offer any useful remarks of a general nature."

52. This is a dry record of facts, but it is a record of good work, and the Lieutenant-Governor congratulates the Districts Boards upon it. He is specially satisfied with the increased attention given to their roads. The information is now nearly complete by which he will be able to judge of the comparative merit of the many conflicting claims and projects they put forward, and to decide whether it will be possible to grant some assistance in aid of the most deserving in the next budget.

By order of the Lieutenant Governor of Bengal,

E. N. BAKER,

Offg. Secretary to the Government of Bengal.

FORM No. I. (a)

Statement showing the constitution of the District Boards in Bengal during the year ending 31st March 1899.

RESOLUTION ON THE REPORT REGARDING THE FLOODS WHICH OCCURRED IN THE GODDA SUBDIVISION OF THE SONTHAL PARGANAS AND IN THE EASTERN PORTION OF THE DISTRICT OF BHAGALPUR ON SUNDAY, THE 24TH SEPTEMBER 1899.

REVENUE DEPARTMENT—AGRICULTURE.

Calcutta, the December 19th 1899.

RESOLUTION No. 4613.

READ—

Letter No. 2446R., dated the 18th November 1899, from the Commissioner of the Bhagalpur Division and Sonthal Parganas, reporting on the floods which occurred in the districts of Bhagalpur and Sonthal Parganas on the 24th September 1899.

On the evening of the 23rd September a south-west wind brought very heavy rain to the Sonthal Parganas and Bhagalpur. During the night it veered round through the south and west to the north-west, and the rain continued till 10 A.M. at Godda and till 4 P.M. in Bhagalpur. The actual fall registered at the former station was 10 inches and at the latter 8; but the centre of the storm appears to have been on the north slope of the Damin-i-koh in the Godda subdivision, a hilly tract draining through narrow valleys to the low-lying land south of the Ganges, where the channels, through the constant interruption of the current, have gradually become raised above the level of the plain. The swollen rivers swept out the hamlets lying in their upland valleys, and uniting their volume below, marched in a widening inundation over the villages in the low lands. Fortunately the Ganges was low, and the floods, widening their outlet through the bridge on the East Indian Railway, rapidly passed away. By the Tuesday or Wednesday at the latest the flooded villages were no longer isolated.

2. The loss of life was deplorably great. The rivers rose soon after midnight, and in the uplands the villagers were still asleep, and were swept away without the warning that would have enabled them to reach higher ground. The velocity of the flood in its earlier course is shown by the fact that, though 881 men were drowned there, only 69 bodies were recovered. When it reached the plains the dawn was breaking, and the wall of the advancing waters could be plainly seen. There was, however, no place of refuge on the treeless level, and there no less than 762 persons perished. Thus in all 1,643 lives were lost: many families wholly disappeared, and in some cases entire hamlets have left no trace behind.

3. The loss of property was happily less severe; for though 246 villages were injured, 25,555 huts destroyed, 13,705 cattle and goats drowned, and altogether 123 square miles were exposed to the violence of the flood, yet the water passed so rapidly away that the crops were saved. In a few villages the fertility of the land has been permanently impaired by deposits of sand, but for the tract as a whole the rice crop will probably be a bumper one; and the cattle that escaped far exceed those which were lost.

4. Immediately on learning the nature of the calamity, Mr. Cumming, the Collector of Bhagalpur, arranged for the distribution of grain and money doles, and mats for temporary shelters to relieve the immediate necessities of the case; relief works were opened; and all the officials at head-quarters were hurried to the affected villages. The dead bodies and the carcases of the drowned cattle were disposed of by a special staff. Medical assistance was rapidly organised, and all the wells were cleansed. In the Sonthal Parganas difficulties of communication concealed the nature of the disaster for some time; but when its magnitude was apprehended similar provision was made. In all Rs. 1,350 were expended in charity in the Sonthal Parganas and Rs. 549 in Bhagalpur. But the people in a spirit of sturdy independence, singular and

honourable, refused eleemosynary help, save for the immediate needs of the moment, and preferred to obtain assistance in the shape of interest-bearing loans. The villagers, whose crops were destroyed and whose fields were covered with sand, declining the proferred alms, turned to sow the sand with castor-oil and linseed. The cheerfulness with which the calamity has been borne, and the courage with which the future is being faced are worthy of the greatest admiration. In all Rs. 5,982 were advanced under the Agriculturists Loans Act in the Sonthal Parganas and Rs. 11,060 in Bhagalpur. The sum is the very smallest, it is believed, which has ever been disbursed on the occasion of a disaster of like magnitude. The Commissioner is satisfied that it is enough, and refused to appeal generally to the public for subscriptions. The Lieutenant-Governor hopes he was right. The Commissioner says that the only serious loss of property was in cattle, and that the majority of the losers were cattle-breeders, who have in no case lost their all. It is difficult to believe that few plough-cattle were lost in the rice-cropped valley of the Bhagalpur district. The Commissioner says that no charity could have covered the whole of the losses. No charity ever does, and the Lieutenant-Governor cannot but think that more general charity, after the precedent of the Famine Fund, in presenting plough-bullocks to the poorer peasants, would have been deeply appreciated and most useful. The Collector has been instructed to revisit the tract to make thorough enquiries in this view.

5. A list is appended of those who contributed; and the Lieutenant-Governor has no doubt that had a general appeal been made the response would have been as generous as is ever the case in this province. Among the local zamindars Mr. Dip Narain Singh, Mahashay Tarak Nath Ghosh, Mr. Tilakdhari Lal, and Babu Braja Mohan Mazumdar are reported to have done good work; and Babu Braja Mohan Dubey, tahsildar of the Barkope zamindar, gave great assistance to the Deputy Commissioner of the Sonthal Parganas. Among the native officials Babu Krishna Prasad Pande, Sub-Inspector in charge of the Godda thana, rendered very valuable services.

6. Mr. C. Fisher, the Deputy Commissioner of the Sonthal Parganas, from the moment that he knew of the gravity of the floods, did everything that was possible to alleviate the disaster; and Mr. J. G. Cumming, the Collector of Bhagalpur, who was more fortunate in receiving early information, has deserved the thanks of the Lieutenant-Governor for the completeness of the arrangements devised by him and the energy with which he superintended their execution.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secy. to the Govt. of Bengal.

DARJEELING DISASTER.

GENERAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 19th December 1899.

RESOLUTION—No. 4078.

READ—

A letter, No. 719Jct., dated the 23rd November 1899, from the Commissioner of the Rajshahi Division, submitting a report from the Deputy Commissioner of Darjeeling on the disaster which overtook Darjeeling on the night of the 24th-25th September 1899.

ON the night of the 24th September 1899, a number of very serious landslips took place in Darjeeling and the neighbourhood, owing to excessive rainfall on the 24th—25th September 1899. Up to the former date, the monsoon rainfall had been 17 inches in excess of the average, and although there had been a partial cessation during the previous week, there was no break in the rains sufficient to admit of any appreciable drying of the soil before the unprecedented rainfall of the 24th-25th September 1899. During the twenty-four hours ending at 8 o'clock on the morning of the 24th 5·30 inches fell, followed by 19·40 inches before 4 A.M. of the following day. Of the latter amount, 14·32 inches fell between 4 P.M. on the 24th and 4 A.M. on the 25th. The result was that very heavy landslips occurred in the hills, causing a deplorable loss of life and very serious destruction of property, both public and private.

2. The heaviest rainfall and consequently the greatest destruction occurred in the north-west corner of the district, the eastern boundary of the tract lying about six miles east of Darjeeling.

3. The number of lives lost in the town of Darjeeling was seventy-two (ten European and sixty-two Native). In the interior of the district, the number was 228. The most serious loss of life occurred at Poolbazar below Chongtong Tea Estate to the north-west of Darjeeling, where sixty-seven deaths were recorded. In the whole of the Kalimpong East Teesta tract seven deaths were recorded; and the number in the Kurseong subdivision was nine, the victims being natives.

In Darjeeling itself the disaster afforded opportunities for the display of bravery of the most conspicuous kind. The night was pitch dark; the rain fell in torrents; the danger was of unknown magnitude and of an unprecedented kind, to incur which called for courage of an unusual quality. The courage was not wanting, and was rewarded by the preservation of lives which would otherwise have inevitably been lost. Though the Lieutenant-Governor has already publicly testified to the admiration with which he and the whole community regard the conduct of the many brave men, both European and native, who voluntarily risked their lives for others in the appalling surroundings, he cannot let this occasion pass without again placing it on record.

4. The loss of property sustained by various local bodies and private individuals was approximately as follows:—

	Rs.
(1) Darjeeling Municipality	1,14,000
(2) Military Department	73,900
(3) Public Works Department	5,03,000
(4) Darjeeling Road Cess Committee ...	41,800
(5) Forest Department	31,100
(6) Cinchona Department	7,600

Private property.

(1) In the town of Darjeeling	2,95,000
(2) Tea Estates	10,74,600
(3) Private losses on Government Khas Mahals ...	25,000
(4) Losses in private estates	1,50,000
(5) Railway	20,000

The loss to public and private property amounted in all to Rs. 23,37,000. In addition in many instances sites, on which houses stood will have to be abandoned, and in the case of bridges, the new structures, owing to the scouring of the river beds, will have to be larger and, therefore, more expensive than the old ones.

5. Immediately after the disaster, a Committee was appointed by Government, with instructions to give such assistance and advice to the residents as would, under the circumstances, be useful, and subsequently to suggest any measures, which might seem best calculated to prevent the occurrence of landslips in Darjeeling in the future, and to confine the damage done by them, should they be inevitable, within as narrow limits as possible. The Committee's report has been received by this Government and is now under consideration.

6. The Committee appointed two Sub-Committees to take up cases of distress, the one among Europeans, and the other among natives. The latter Sub-Committee has hitherto devoted itself entirely to relieving immediate distress, and has still to deal with the more difficult questions of compensation for loss of land, crops, and cattle, the reconstruction of houses, and the provision of suitable sites for building purposes, all of which necessitate careful enquiries. For houseless persons, a camp was started immediately after the disaster, the Municipal covered market and barracks being utilised in the first instance, and subsequently mat houses were put up in the Botanical Gardens in Darjeeling. This camp will remain open until the houses have been re-constructed.

7. A Committee was formed to receive subscriptions for the relief of the distress. It was at first considered that Rs. 15,000 would be required, but the generosity of the public at once contributed a sum far in excess of that amount. A list of the subscribers is appended, and it shows that the total amount contributed before the closing of the lists amounted to Rs. 26,812-4-5, which, it has since been found, will be sufficient to relieve the most pressing cases of distress. Out of the total amount subscribed, the sum of Rs. 12,118-10 has so far been expended, Rs. 7,571 11-6 on the relief of Europeans and Rs. 4,546-14-6 on that of natives. All cases of distress among the former have been finally disposed of, but much remains to be done to relieve the far more numerous cases among the latter. Distress in tea gardens was relieved, for the most part, by the managers; but in one or two instances in which they were unable to provide the requisite funds, contributions were made from the Relief Fund.

8. For the first ten or fifteen days after the disaster, the public at large cheerfully helped in the clearance of the earth from houses, roads, and drains, aided most effectively by the men of the Battery from Katapahar, the convalescent depôt from Jelapahar, the Royal Munster Fusiliers from Lebong, whose services were most promptly and thoughtfully put at the services of the civil authorities by General Wodehouse, Commanding the Presidency Division. The District Recruiting Officers' Goorkha recruits, and the reserve police all volunteered, and gave much assistance in the work of clearance. But for the energy of the soldiers, whose powers of work were a revelation to the hillmen, the roads and paths in the stations would have been impassable much longer than was actually the case. The Lieutenant-Governor has already had an opportunity of publicly thanking them for the services they so willingly rendered, but he gladly takes this fresh occasion for acknowledging the obligations their conduct has imposed on the public.

9. The disaster imposed a heavy strain on Mr. Earle, the Deputy Commissioner of Darjeeling, to which he was fully equal; and the Lieutenant-Governor desires to express to him his thanks for the promptness with which he confronted the emergency and the success which has rewarded his efforts.

ORDER—Ordered that a copy of this Resolution be published in *Calcutta Gazette* for general information, and that a copy of it be submitted to the Government of India in the Home Department for information, and that copies be forwarded to the Commissioner of the Rajshahi Division for information and communication to the Deputy Commissioner of Darjeeling.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secy. to the Govt. of Bengal.

DARJEELING RELIEF FUND.

WEATHER AND CROP REPORT.

For the week ending the 18th December 1899.

Burdwan.—No rain. Weather seasonable. Harvesting of *aman* going on. Standing crops doing well. Fodder and water sufficient. Condition of cattle good. Common rice selling as follows:—

	Srs.	
Sadar	15	per rupee.
Kalna	14	
Katwa	16	
Raniganj	13½	

Birbhum.—No rain. Weather very cool. Harvesting of *aman* continues. Price of common rice at Sadar and Rampur Hât 15 seers per rupee. Fodder sufficient.

Bankura.—No rain. Weather seasonable. Harvesting of *aman* going on. Sugarcane doing well. Sporadic cases of cow-pox reported. Fodder and water sufficient. Price of common rice 16 seers per rupee at Bankura and Vishnupur.

Midnapore.—No rain. Weather seasonable. Prospects of winter rice and *rabi* crops very good. Harvesting of winter rice going on. Cattle-disease reported from Binpur and Jhargram. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	16	per rupee.
Contai	19	
Tamluk	15	
Ghatal	16	

Hooghly.—No rain. Weather seasonable. Harvesting of *aman* going on. *Rabi* doing well. Common rice sells at 14 seers 5 chitaks per rupee.

Howrah.—No rain. Weather seasonable. Harvesting of *aman* crop is still going on. Prospects very good. *Rabi* crops progressing. Fodder and water sufficient. Common rice sells at 13½ seers per rupee.

24-Parganas.—Rainfall nil. Weather seasonable. Prospects of crops good. Sowing of *rabi* crops finished. Harvesting of *aman* proceeding. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	14	per rupee.
Barasat	17½	
Basirhat	16	
Diamond Harbour	16	

Nadia.—No rain. Weather seasonable. Harvesting of *aman* and *kalai* going on Prospects of standing crops good. Some cattle-disease reported from Meherpur. Fodder and water sufficient. Price of common rice stationary.

Murshidabad.—No rain. Weather seasonable. Harvesting of *aman* and sowing of *rabi* continue. Harvesting of *kalai* commenced. Sugarcane is being pressed. Mulberry doing well. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	15	per rupee.
Jangipur	17	
Kandi	17½	

Jessore.—No rain. Weather seasonable. Harvesting of early *aman* paddy nearly completed. Sowing of *rabi* crops over. Prospects of *aman* good. No cattle-disease reported. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	16	0	per rupee.
Jhenida	18	0	
Magura	17	0	
Narail	18	13	
Bangaon	18	0	

Khulna.—Rainfall nil. Weather seasonable. Harvesting of early *aman* going on. Sowing of *rabi* crops completed. Fodder and water sufficient. Common rice sells as follows:—

				Srs.	
Sadar	...	...	...	17¾	per rupee.
Bagerhat	...	...	...	16	
Satkhira	...	...	...	18	

Rajshahi.—No rain. Weather seasonable. Prospects of crops good. Harvesting of *aman* paddy going on. Condition of cattle good. Fodder and water available. Common rice sells at 18½ seers per rupee.

Dinajpur.—Rainfall nil. Weather seasonable. Standing crops good. No cattle-disease. Plenty of fodder and water. Rice selling at Sadar 17 seers and at Thakurgaon 16 seers per rupee.

Jalpaiguri.—Rainfall nil. Weather seasonable. Harvesting of *haimanti* paddy continues. Transplantation of tobacco still going on. Fodder and water ample. Price of common rice stationary.

Darjeeling.—Rainfall at Darjeeling ·05, Siliguri ·14. Weather seasonable. *Hills*—*Haimanti* paddy, *bara marua*, and *phaphar* are being harvested; harvesting of *kalai* finished; wheat, barley, and *tori* are progressing. *Terai*—*Haimanti* paddy being harvested; tobacco and sugarcane doing well. Coarse rice sells as follows:—

					Srs.	
Hills	...	...	...	...	10	per rupee.
Terai	...	...	...	...	17	

Bhutta sells at Darjeeling 21 seers and at Kalimpong 28 seers per rupee.

Rangpur.—No rain. Harvesting of winter rice and transplantation of tobacco going on. Standing crops progressing well. Common rice selling at 16 seers 5 chitaks per rupee. Fodder and water sufficient.

Bogra.—No rain. Cutting of paddy and *rabi* sowings continuing. Prospects good. Fodder and water ample. Common rice selling at 19½ seers per rupee.

Pabna.—No rain. Weather fine and cool. *Aman* being harvested. Prospects good. Prices stationary. Fodder and water sufficient.

Dacca.—Rainfall nil. Weather seasonable. Harvesting of *aman* paddy continues. Prospects good. Fodder available. No cattle-disease. Common rice 16 seers per rupee.

Mymensingh.—Rainfall at Kishorganj ·57. Weather cold. Prospects of crops good. Harvesting of *aman* paddy continues. Common rice sells at 17 to 20 seers per rupee. Fodder and water sufficient.

Faridpur.—No rain. Weather cold. State and prospects of crops good. Common rice sells at 16 seers per rupee.

Backergunge.—Report not received.

Tippera.—No rain. Weather seasonable. Harvesting of *aman* and sowing of *rabi* and *boro* in progress. Prospects fair. Average price of common rice 16¾ seers per rupee.

Noakhali.—No rain. Prospects of crops good. Lands being ploughed for *rabi* crops. Cattle-disease at Companiganj and Sandip continues. Fodder and water sufficient. Price of common rice 18 seers per rupee.

Chittagong.—No rain. Prospects of crops good. Sowing of *rabi* crops and reaping of *aman* continue. Water and fodder sufficient. Common rice 16 seers per rupee.

Patna.—Rainfall nil. Harvesting of paddy is vigorously going on. Poppy and *rabi* crops doing well. Mustard and pea flowering. Pressing of sugarcane continues. Fodder and water for cattle sufficient. Common rice in Patna Bazar sells at 19 seers per rupee.

Gaya.—No rain. Harvesting of paddy and pressing of sugarcane continue. *Rabi* doing well. Common rice selling at 17 seers per rupee.

Shahabad.—No rain. Harvesting of a d continues. *Rabi* crops doing well. Sugarcane pressing going on. Cattle-disease reported from Sasaram. Weather favourable for poppy. Fodder and water sufficient. Rice sells at Sadar 13 seers per rupee.

Saran.—Rainfall nil. Weather cool. Threshing of paddy going on. Prospects of *rabi* and poppy good. Common rice sells at 15¼ seers and *makai* at 15 seers per rupee.

Champaran.—No rain. Paddy harvesting almost finished. Weeding of *rabi* and poppy going on and prospects are good. Price of common rice 15 seers and of maize 17 seers per rupee.

Muzaffarpur.—Rainfall nil. Harvesting of winter rice approaching completion. Prospects favourable Prices are—Common rice 15 seers, wheat 14¼ seers, barley 18 seers, *makai* 16¾ seers, gram 16¼ seers, *rahar* 16 seers, and *marua* 20 seers per rupee.

Darbhanga.—No rain. Weather seasonable. Paddy harvesting in progress. *Rabi* doing well. Fodder and water sufficient. Cattle-disease reported from Madhubani. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	8	per rupee.
Samastipur	17	0	
Madhubani	19	0	

Monghyr.—No rain. Weather cool. Harvesting of winter rice going on. Sugarcane pressing continues. Prospects of standing crops fair. Rain much needed for late poppy crops. General prospects of opium continue hopeful. Common rice sells as follows:—

	Srs.	ch.	
Monghyr	14	5	per rupee.
Begusarai	16	0	
Jamui	16	0	

Bhagalpur.—No rain. Weather seasonable. Harvesting of *aghani* crops continues. *Rabi* doing well. Stray cases of cattle-disease reported from Banka subdivision. Prices practically stationary.

Purnea.—Rainfall nil. Weather cold. Harvesting of *aghani* rice continues. Tobacco transplantation completed. Prospects of *rabi* crops good. Pressing of sugarcane going on briskly. A few cases of cattle-disease reported from thana Raniganj. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	17	per rupee.
Kishanganj ...	16	
Araria	20	

Malda.—Rainfall nil. Weather seasonable. Harvesting of winter rice still going on. Prospects of crops good. Average price of common rice 17 seers per rupee. Fodder and water sufficient.

Sonthal Parganas.—No rain. Weather very cold. Harvesting of rice and pressing of sugarcane continue. *Rabi* crops doing well. Fodder and water sufficient. Average price of rice 16 seers 10 chitaks and of Indian-corn 19 seers per rupee.

Cuttack.—Rainfall nil. Weather seasonable. *Guru sarad* being harvested. *Arhar* and sugarcane being cut. Condition of cattle generally good. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Cuttack	15	12	per rupee.
Jajpur	17	1	
Kendrapara	18	6	
Banki	17	9	

Balasore.—Rainfall nil. *Sarad* harvesting and sugarcane pressing continue. *Rabi* crops in flower. Rice sells at 17 $\frac{5}{16}$, 14 and 18 seers per rupee in the interior, Balasore and Bhadrak respectively. Cattle-disease reported from Basudebpur Circle. Fodder and water sufficient.

Angul.—No rain. Weather cold. Harvesting of winter rice and *birhi* nearly over, and that of *arhar*, *til* and sugarcane in progress. Labour available in the fields. New coarse rice selling at 18 and 10¼ seers per rupee in Angul and Khondmals respectively. Cattle-disease reported from the interior. Fodder and water available.

Puri.—Rainfall nil. Weather delightfully cool. *Bara sarad* being reaped. *Kulthi*, winter *mandia*, and other miscellaneous crops thriving. *Mung* is being sown. Sugarcane is being pressed. Fodder and water sufficient. Common rice sells as follows:—

	Old rice.		New rice.		
	Srs.	ch.	Srs.	ch.	
Sadar	15	0	17	1	per rupee.
Khurda	14	7	16	8	
Interior of district	16	2	17	4	

Hazaribagh.—No rain. Weather seasonable. Harvesting of rice finished. Common rice sells at 13 seers per rupee.

Ranchi.—Rainfall nil. Weather seasonable. *Sirguja* is being harvested; outturn poor. Rice sells at Ranchi 11 seers and in the interior 14½ seers per rupee. Cattle-disease reported from several thanas Fodder and water sufficient.

Palamau.—No rain. Weather seasonable. Sugarcane pressing continues. *Rabi* sown still good, but wants rain urgently. Fodder and water sufficient. Cattle-disease continues. Prices at Sadar are—Common rice 12 seers 15 chitaks, gram 16 seers 14 chitaks, *makai* 14 seers, wheat 12 seers 15 chitaks, and barley 18 seers per rupee.

Manbhum.—Rainfall nil. Weather seasonable. Winter rice an average crop. *Rabi* crops promise well. Cattle-disease reported from thanas Baghmaudi, Chandil, Purulia, Para, and Topchanchi. Fodder and water sufficient. Average price of common rice at Sadar 14 seers 14 chitaks, and at Gobindpur 13 seers per rupee. Supply sufficient.

Singhbhum.—No rain. *Rabi* crops need rain. Common rice sells at 15 seers 9 chitaks per rupee.

General Summary.—There was slight rain in Darjeeling and at Kishorganj in Mymensingh. The harvesting of the winter rice crop is going on. The *rabi* crops are in good condition, but in parts of Chota Nagpur they are in need of rain. In Bihar the poppy crop is doing well. The pressing of sugarcane is in progress. The price of common rice is reported to have fallen in 16 districts and slightly risen in 7; it is stationary in the rest. The condition of cattle is generally good, there being plenty of fodder in every district.

* Present return not received.

U. In the subdivisions the retail prices of salt per rupee are :—Brahmanbaria 10 seers ; Chandpur 9 seers.
V. At Feni Hât the retail price of salt is 9 seers per rupee.
W. At Cox's Bazar the retail price of salt is 8½ seers per rupee.
W1. In the subdivisions the retail prices of salt per rupee are : —Bihar 10 seers ; Barh 10½ seers ; Dinapur 10 seers.
X. In the Jahanabad, Nawada and Aurangabad subdivisions the retail price of salt is 10 seers per rupee.
Y. In the subdivisions the retail prices of salt per rupee are :—Siwan return not received ; Gopalganj (Mirganj) 12 seers 10 chittacks.
Y1. At Bettiah the retail price of salt is 10 seers per rupee.
Z. In the subdivisions the retail prices of salt per rupee are: —Hajipur 10 seers ; Sitamarhi 9½ seers.
a. In the Madhubani and Samastipur subdivisions the retail price of salt is 11 seers per rupee.

CALCUTTA,

	Inches.
The mean pressure of the seven days	30·039
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	30·028
	Hours.
The total number of hours of bright sunshine	60·3
The maximum possible number of hours of sunshine	75·1
	°
The mean temperature of the seven days	64·4
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	67·8
The extreme variation of temperature	29·4
The maximum temperature	79·4
	Miles.
The highest velocity of the wind in one hour	11
	%
The mean relative humidity	69
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	71
	Inches.
The total fall of rain from 10th to 16th December 1899	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·04
The total fall from 1st January to 16th December 1899	71·95
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65·23

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

⌓, dew.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,

Calcutta, the 18th December 1899.

G. W. KÜCHLER,

for Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories.

Bauria Town.

North.—The Bengal-Nagpur Railway line and Radhanagar khal.

West.—The Chakkasi khal.

South and East.—The river Hooghly.

Amta Village Union, comprising the villages Amta, Chotomoira, Maduria Someswar, Baramoira, Jagannathpur Jot Kallyan, Mallagram, Sontoshnagar Dyara, Ranapara, Gugun, Gusarpur Kharap, Narit, Kalbas, Bara Gazipur Gazipur, Mainan, Napara, Joyanti Tajpur and Mohesmari—

North.—The southern boundary line of villages Ramchandrapur and Kurit, Kotalpara, Chakpota, Koomaria and Kalikata and the river Damodar.

West.—The eastern boundary line of village Thalia, the northern, eastern and southern boundary line of village Dhalnpur, the southern boundary line of village Shibaguri, the eastern boundary line of village Shauriya, the northern, eastern and southern boundary line of village Kamargori, the eastern boundary line of village Khulna, the northern and southern boundary line of village Sheral, and the eastern boundary line of village Kushberia.

South.—The northern boundary line of village Sarda, the river Damodar, and the northern boundary line of villages Tajpur, Gazipur and Khanpara.

East.—Right bank of the river Damodar from the northern boundary line of village Sarda to the point in village Napara just opposite to the southern boundary line of village Dyara situated on the left bank of the river and the western boundary line of villages Chandpur and Harishpur.

C. W. Bolton,

Chief Secy. to the Govt. of Bengal.

PROCLAMATION—No. 5647J.

The [illegible] December 1899.—Under section 15, Act V of 1861, as amended by Act VIII of 1895, the Lieutenant-Governor declares that the conduct of the inhabitants of mauza Elenga, police-station Kalihati, district Mymensingh, has rendered it expedient to increase the number of the police force by the appointment of an additional force to be quartered therein at the cost of the inhabitants of the said mauza. This proclamation shall remain in force for a period of one year from this date.

C. W. Bolton,

Chief Secy. to the Govt. of Bengal.

PROCLAMATION—No. 5670J.

The [illegible] December 1899.—Under section 15 of Act V of 1861, as amended by Act VIII of 1895, the Lieutenant-Governor declares that the conduct of the inhabitants of village Cheraut, in thana Pupri, in the subdivision of Sitamarhi, in the district of Muzaffarpur, has rendered it expedient to increase the number of the police force by the appointment of an additional force to be quartered therein at the cost of the inhabitants of the aforesaid village, and hereby declares that this proclamation shall remain in force for a period of six months.

C. W. Bolton,

Chief Secy. to the Govt. of Bengal.

ERRATUM.—No. 4861J.

The 21st December 1899.—In Government Notification No. 4816J., dated the 16th November 1899, published in Part I at page 1451 of the *Calcutta Gazette* of the 22nd idem, appointing certain gentlemen to be Honorary Magistrates of the Khulna Sadar Independent Bench, *for* "Babu Promoda Nath Sen" *read* "Babu Promoda Charan Sen."

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT.

ESTABLISHMENT.

The 22nd December 1899.

No. 266.—Babu Phani Lal Mullick, Overseer, is vested with the powers of a Canal Officer under Act III (B.C.) of 1876 to be exercised only when in charge of an Irrigation subdivision in one of the districts of Bengal to which the Act has been extended.

R. B. BUCKLEY,
Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

The 22nd December 1899.

No. 265.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a drainage cut from Thailo to Magikoara, pargana Benahar, zilla Cuttack, it is hereby declared that for the above purpose a piece of land measuring, more or less, 14 acres 2 roods and 18 poles of standard measurement, commencing from Similia Jore to Aulonka Nadi, in mauza Koondpur, as marked on the ground, is required within the villages of Thailo, Magikoara, Rombhila and Koondpur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Executive Engineer, Mahanadi Division.

R. B. BUCKLEY,
Secy. to the Govt. of Bengal.

RAILWAY DEPARTMENT.

The 21st December 1899.

No. 237.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for Bungalow purposes at Dhanbaid, on Jheria Branch, East Indian Railway, in the villages of Baromasia, Monitor and Dhanbaid, pargana Jheria, zilla Manbhum, it is hereby declared that for the above purpose two pieces of land measuring, more or less, 72 bighas 10 cottahs 12·66 chitaks of standard measurement (corresponding to 23 acres 3 roods 86·80 poles) bounded as follows:—

Plot on north side.—Bounded on the south by East Indian Railway land and on all other sides by land belonging to Raja Joymongul Singh of Jheria.

Plot on south side.—Bounded on the north by East Indian Railway land, east by Mr. Stagye's Bungalow compound and on the south and west by land belonging to Raja Joymongul Singh of Jheria,

are required within the aforesaid villages of Baromasia, Monitor and Dhanbaid.

Mines of coal, ironstone, slate or other minerals lying under the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the District Engineer, East Indian Railway, Asansol.

No. 238.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for gate lodge in the village of Masampur, pargana Mahamudsahi, zilla Nadia, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1·5 pole of

standard measurement, bounded on the north by the Eastern Bengal State Railway, and on the other three sides by the village of Mazampur, is required within the aforesaid village of Mazampur.

This declaration is made, under the provisions of section 6, Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Executive Engineer, Rajbari.

The 22nd December 1899.

NOTIFICATIONS OF THE BOARD OF REVENUE.

NOTICE.

No. 3295B.

THE HON'BLE MR. W. B. OLDHAM, C.I.E.

APPLICATIONS for tickets of admission to the Opium sale-rooms for the year 1900 should be made at the office of the Board of Revenue, Lower Provinces, on or after the 20th December 1899.

Tickets for the year 1899, which have not already been surrendered, should be returned at the same time.

By order of the Board of Revenue, L. P.,

CALCUTTA,
The 30th November 1899.

N. BONHAM-CARTER,
Offg. Secretary.

No. 3274B.

OPIUM.

THE HON'BLE MR. W. B. OLDHAM, C.I.E.

Opium manufactured at the Patna Factory.

	Chests.
Supply from 1897-98	5,583
Ditto 1898-99	14,817
Total ...	20,400

Opium manufactured at the Ghazipur Factory.

	Chests.
Supply from 1897-98	4,513
Ditto 1898-99	19,487
Total ...	24,000

NOTICE is hereby given that the Provision Opium to be brought forward for sale by public auction in the year 1900 will consist of about 20,400 chests prepared at the Patna Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, and about 24,000 chests prepared at the Ghazipur Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, being of the seasons 1897-98 and 1898-99, in the proportion marginally noted.

2. The dates on or about which the sales will be held, and the total quantity of opium, as well as the respective quantities manufactured at the Patna and Ghazipur Factories, which will be brought forward for sale every month, are specified below. The Board of Revenue reserve to themselves the right of altering the dates should circumstances render it expedient to do so. In accordance with the notification of the Government of India, No. 2874A., dated 23rd June 1899, 1,700 chests of Patna and 2,000 chests of Benares opium will be sold monthly from January to December 1900:—

DATES.	Chests manufactured at the Patna Factory.	Chests manufactured at the Ghazipur Factory.	Total chests.
1	2	3	4
On or about Wednesday, 3rd January 1900 ...	1,700	2,000	3,700
On or about Tuesday, 6th February " ...	1,700	2,000	3,700

On or about Wednesday 1st August " ...	1,700	2,000	3,700
On or about Monday, 3rd September " ...	1,700	2,000	3,700
On or about Friday, 12th October " ...	1,700	2,000	3,700
On or about Monday, 5th November " ...	1,700	2,000	3,700
On or about Monday, 3rd December " ...	1,700	2,000	3,700
Total ...	20,400	24,000	44,400

The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the

name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, Certificate of the opium advertised for sale; No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1898-99, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

CALCUTTA,
The 27th November 1899.

N. BONHAM-CARTER,
Offg. Secretary.

No. 3279B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1897-98, will be held at the Government Opium Sale-Room, No. 2, Bankshall Street, on Wednesday, the 3rd January 1900, at 11 A.M., and will comprise 3,700 chests, viz.—

		Chests.
Opium manufactured at the Patna Factory	... ...	1,700
Ditto at the Ghazipur Factory	... ...	2,000
Total	...	3,700

2nd.—The general conditions of the Sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 27th November 1899, and published in the *Government* and *Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 18th January 1900, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale Room will be received after 3-30 P.M. of Monday, the 8th January 1900, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M of Thursday, the 18th January 1900.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Fatories will be brought to sale down to December 1900 about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering this date should circumstances render it expedient to do so :—

FOREIGN DEPARTMENT.

NOTIFICATION.

FORT WILLIAM, *the 22nd December, 1899.*

No. 3847-*I.B.*—In accordance with the provisions of section 3, sub-section (*2*), of the Moorshedabad Act, 1891 (XV of 1891), and section 23 of the General Clauses Act, 1897 (X of 1897), the following draft Notification, which it is proposed to issue by virtue of the powers conferred by section 3, sub-section (*1*), of the Act, hereinbefore first mentioned, is published for the information of all persons likely to be affected thereby.

2. It is further notified that the said draft will be taken into consideration on the twenty-third day of February 1900, together with any objections or suggestions that may have been received with respect to it before that date.

Draft Notification.

In exercise of the powers conferred by section 3, sub-section (*1*), of the Moorshedabad Act, 1891 (XV of 1891), the Governor General in Council is pleased, on the written request of the Nawab Bahadur of Moorshedabad, to add the immoveable property enumerated in the following list to the First Schedule appended to the Deed of Settlement annexed to the said Act.

List of immoveable property added to Schedule I of the Deed of Settlement annexed to Act XV of 1891.

NOTIFICATION.

No. 5653M.—The 22nd December 1899.—It is hereby notified for general information that, on the application of the Commissioners of the Nalchitti Municipality, in the district of Backergunge, the Lieutenant-Governor has been pleased to declare that the provisions of section 3, Act XX of 1887, with respect to wild birds, shall apply, so far as regards the rules framed by the Municipal Commissioners of Nalchitti, to hares and deer.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5654M.—The 22nd December 1899.—It is hereby notified for general information that the Lieutenant-Governor intends to confirm, under clause 4, section 3, Act XX of 1887, the following rules framed by the Commissioners of the Nalchitti Municipality, in the district of Backergunge, under section 3 of the Act, for the protection of wild birds and game within the limits of that Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said Municipality:—

Rules.

1. "Wild bird" for the purposes of these rules shall include jungle-fowl, pea-fowl, partridges, quail, plover, whistling teal, painted snipe, cotton teal, and every bird killed for the sake of its plumage.

2. The Local Government having by notification declared that the provisions of section 3, Act XX of 1887, shall apply to hares and deer, the following rules will apply to these animals as well as to wild birds.

3. The breeding season for the purposes of these rules shall extend from 1st April to the 30th September.

4. Whoever during the breeding season has in his possession within the limits of the Municipality of Nalchitti any wild bird, deer or hare recently killed or taken, or exposes for sale any such bird or animal, living or dead, shall be liable to a fine not exceeding Rs. 5 for each bird or animal.

5. Whoever during the breeding season imports into the town the plumage of any kind of wild bird, recently killed or taken, or the fur or skin of any hare or deer recently killed or taken, shall be liable to a fine not exceeding Rs. 5 for the plumage of every such bird or the fur or skin of every such hare or deer.

6. In the case of a second conviction the fine may extend to Rs. 10 for each such bird, hare, deer, plumage, fur or skin.

7. All birds, plumage, fur or skin, &c., in respect of which a conviction has been had under rules 4, 5 and 6, shall be confiscated.

8. A reward not exceeding half the fine imposed and realised under rules 4, 5 and 6 may be granted by the adjudicating Magistrate to any person who has afforded information leading to a conviction for a breach of any of the above rules.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 5656L.S.-G.—The 22nd December 1899.—It is hereby notified that the Lieutenant Governor is pleased, in the exercise of the power conferred on him by section 35 of the Bengal Ferries Act, I of 1885, to direct that the ferry at Dignagar, over the river Madhumati, which is situated in the district of Jessore, shall be managed by the District Board of Jessore, and that all the proceeds of the ferry, and all the fines levied and compensation received under the said Act in respect thereof, shall be paid into the District Fund, with effect from the date of this notification.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned plot of land situate in the district of Mymensingh will be put up to sale at the Mymensingh Collectorate on the 5th January 1900, corresponding with 22nd Poush 1306 B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The land to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this land will be considered as the proprietor of the land, and the entire proprietary right of Government in that land will be transferred to him free of revenue in perpetuity.

2nd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the land to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.	REMARKS.
		R. P. YDS.

Advertisement of Sale

NOTICE is hereby given that the undermentioned plot of land, no longer required by Government, situated along the Sini-Midnapore-Calcutta-Cuttack Extension of the Bengal-Nagpur Railway, in the district of Singhbhum, will be put to sale at 12 o'clock on the 1st day of January 1900, corresponding to the 15th Pous Falsi 1307 at Chaibassa, in the office of the Deputy Commissioner of Singhbhum.

The purchaser of the plot of land will be subject to the following conditions:—

1st.—The purchaser will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than 8 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close-holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plot of land will be sold revenue-free to the highest bidder.

5th.—The purchasers shall be put in possession on receipt by the Deputy Commissioner of the orders of the Board confirming the sale.

Consecutive lot number.	Name of district.	Pargana and mauza.	Number of mile on which land is situated.	Situated on which side of the railway.	Approximate area of lot in bighas and acres.		Land excluded from sale from each plot and reasons for exclusion.	Commencement and termination of lot.	Boundary of lot.

Gaya Collectorate, the 16th December 1899. A. W. COOK, for Collector.

NOTICE is hereby given that the Mica Mines mentioned below, will be put up to auction on the 1st February 1900, in the Deputy Commissioner's Office at Hazaribagh.

A mining lease for five years on the conditions published at page 231, Part I of the *Calcutta Gazette*, dated 2nd March 1898, will be given to the highest bidder, subject to the approval of the Divisional Commissioner. In addition to the rent a royalty at the rate of 2½ per cent. will be levied on the sale value of the mica at the pit's mouth.

These mines had been sold by auction on 3rd July 1899, for Rs. 10,000 per annum, but the auction purchaser having failed to deposit Rs. 5,000 by way of security, the settlement was cancelled.

Names of mines.	Situation.	Area in square feet.
1. Choolo ... 2. Kairo ... 3. Pira ... 4. Teria ..	In the Koderma Reserved Forest, district Hazaribagh.	The present aggregate area of the mines is 20,000 square feet. In addition to this area the lessee will be allowed to work all land intervening between the mines and lying within a distance of 200 feet from any of these four mines, but exclusive of any land that may be included in or that lie within a distance of 20 feet from any other mine already settled.

Hazaribagh, the 4th December 1899. A. H. WARDE JONES, *for* Deputy Commissioner.

General Conditions.

Tenders should be superscribed "Tender for paper," and should be accompanied by a deposit of one per cent. on the value of the tender. This deposit should be paid into the Bank of Madras and its receipt attached to the tender. In cases where tenderers may deposit Government promissory notes, they should endorse the same payable to the "Collector and Superintendent of Stationery, Madras."

2. Tenderers should send six sheets of each description of paper tendered as a sample, marking clearly thereon the manufacturer's name and the description, size and weight; they should be flat, not folded.

3. The papers should be delivered at the Stationery Office, Beach, Madras, at the cost and risk of the contractor

4. The successful tenderer or tenderers will be required to pay a security of 10 per cent. on the value of the paper for which the tender is accepted and to sign a contract bond (a form of which will be furnished by this office for inspection) within twenty days from the date of his being informed of the acceptance of his tender; and, in case of failure, his deposit delivered with the tender will be forfeited and credited to Government and his tender considered as cancelled.

5. The necessary stamp duty on the contract bonds must be paid by the contractors.

6. The quantities specified in the above schedule are only probable requirements; actual demands will be mentioned in the orders given from time to time, agreeably to which contractors will be required to supply the articles.

7. Blotting paper should be packed and supplied in tin-lined dealwood cases. Other papers should be well packed in strong canvas with bale planks and iron hoops. They should be packed quite flat, and each quire in a ream packet should be distinctly marked or separated by a slip of paper. All bales of each description and size of paper should contain a uniform number of reams and their contents should be distinctly marked on them.

8. In cases of necessity, the contractors must undertake to store the consignments in their own godowns for a period not exceeding three months at their risk and free of charge.

9. In the event of a consignment being rejected, the contractors will be required to replace it within a month from the date of intimation of rejection.

10. Considerations of the quality of the paper tendered and of its price will alone guide the Superintendent in his decisions, but he reserves to himself the right, without assigning any reason, of rejecting any tender in whole or in part, and in respect of articles, rates, quantities or other particulars, &c.

11. Forms of tender and any further information can be obtained on application to the Superintendent of Stationery.

H. BRADLEY, Acting Superintendent of Stationery.

Stationery Office, Madras, the 20th November 1899.

CORPORATION OF CALCUTTA.

LOAN NOTIFICATION.

THE Commissioners of Calcutta are prepared, with the sanction of the Governor-General in Council given under section 404 of Act II (B C.) of 1888, to open a Debenture Loan for Rs. 5,00,000 (five lakhs) out of the unallotted balance of the sanctioned loan of 25 lakhs advertised for on the 14th August 1899 on the security of the rates, taxes and dues imposed and levied under the Calcutta Municipal Consolidation Act, 1888.

2. The debentures will have a currency of (25) twenty-five years from the 1st November 1899, and will bear interest at the rate of 4 per cent per annum, payable on the 1st May and the 1st November of each year. Provided that anticipation interest on the earnest deposits as well as on all subsequent deposits made under this Notification will be paid to the successful tenderers as specified in paragraphs 8 and 13 of this Notification, and the payment will be noted on the back of the Debentures when issued as payment in full for the first half-year ending 20th April 1900.

3. The form of the debentures will be that given in the Twelfth Schedule of Act II (B.C.) of 1888.

4 No debentures will be issued for any sum less than Rs. 500, and above that amount debentures will be issued only for multiples of Rs. 100.

5. Tenders for the whole or any part of the above loan of Rs. 5,00,000 will be received by the Secretary to the Corporation up to 2 o'clock P.M., on Friday, the 5th January 1900.

6. Each tender must be made out in the form annexed to this Notification, and enclosed in a sealed cover, addressed to the Secretary to the Corporation, and superscribed—"Tender for Municipal Loan of 1899-1900."

7. Each tender must be accompanied by an earnest deposit in Government promissory notes, Calcutta municipal debentures, currency-notes or cheques for not less than 3 per cent. of the amount tendered.

8. When a tender is accepted, the earnest deposit, when made in currency-notes or cheques, will be held as a payment in part of the amount tendered, and will bear interest at the rate of 4 per cent. per annum from the date of acceptance of the tender, provided that the whole amount tendered is paid up in the manner hereinafter prescribed; but no debenture will issue for the amount of the earnest deposit so long as the entire amount of the tender is not paid, but debentures may be issued for each instalment paid in full, the earnest deposit not being included in any but the last instalment.

9. The earnest deposits on tenders, which may not be accepted, will be returned on application, and no interest will be payable on such deposits. If an allotment after being made is not taken up, or the full amount allotted is not paid as hereinafter prescribed, the earnest deposit will be forfeited.

10. The rate at which a tender is made must be specified in rupees, or rupees and annas: but not in any fraction of an anna. If a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna. A tender in which the rate is not specified in rupees or rupees and annas will be rejected as null and void.

11. The whole amount of each allotment will be divided into two equal instalments as follows, payable into the Bank of Bengal:

Instalment I. As near as possible to 50 per cent. payable on 18th January 1900.
Do. II. ditto 50 per cent * ditto 31st January 1900.

N.B.—The words "as near as possible" are used in this paragraph for the purpose of making each instalment an exact multiple of Rs. 100 for debentures in excess of Rs. 500.

12. Parties, whose tenders are accepted, will have the option of paying all or any of the instalments before the dates specified above, and will receive interest from the date of such payment.

13. Anticipation interest will be paid on all instalments from the respective dates on which such instalments are paid into the Bank of Bengal to the 30th April 1900.

14. In the case of two or more tenders at the same lowest rate accepted, a *pro rata* allotment will be made, but no such allotment will be issued if the amount thus allottable on any tender is less than Rs 500.

15. A minimum having been previously fixed, tenders will be opened by the Loan Committee of the Commissioners at 2-30 P.M., on Friday, the 5th January 1900, at the Municipal Office.

W. R. MACDONALD, Secretary to the Corporation.

Municipal Office, Calcutta, the 22nd December 1899.

Form of Application for Debentures.

I hereby tender for Rs. of the Municipal four (4) per cent. Debenture Loan for 1899-1900 and agree to pay for the same at the rate of Rupees annas for every Hundred Rupees allotted to me, subject to the conditions stated in the Notification dated the 22nd December 1899.

I enclose Government Promissory Notes, Calcutta Municipal Debentures, Currency-notes, or a Cheque for Rs. , as earnest deposit.

(Signed)

Dated

(967—2)

For Khulna line at 8-15 A.M.

The letter-box will be cleared for the evening Mails without late fee at the following hours, viz. :—

For East Indian Railway Loop Mail at 2-30 P.M. and up to 2-55 P.M. with a late fee of ½ anna.
For Darjeeling and Assam at 3 25 P.M. without late fee, and 3-50 P.M. with late fee of ½ anna.
For the Bombay Mail *via* Jubbulpore, carrying also Mails for Ceylon at 6 P.M.
For the Punjab Mail at 7-30 P.M.
For Midnapore district only at 7-30 P.M.
For Khulna Mail at 7-30 P.M.
For Eastern Bengal Mail at 7-30 P.M.

Late letters bearing a fee of ½ anna will be received for the Bombay Mail *viâ* Jubbulpore up to 6-30 P.M., and for other Mails from 7-30 to 8 P.M., and from 8 to 8-45 P.M., with a late fee of 1 anna for the Punjab and Eastern Bengal Mails only.

Late registered articles will be received between the following hours :—

For Offices served by the Bombay Mail *viâ* Allahabad and Jubbulpore from 5 P.M. to 6-15 P.M.
For Offices served by the Punjab Mail from 6 P.M. to 7 P.M.
Ditto by the Eastern Bengal Mail from 6 P.M. to 7 P.M.
Ditto by the Khulna Mail from 6 P.M. to 7 P.M.

The late fee on each registered letter will be two annas, which must be prepaid in stamps on the letter.

Articles for Burma and for Port Blair by Sea are received without late fee up to 7-30 P.M., after which hour they are received fully prepaid and bearing an extra stamp of ½ anna up to 8 P.M.

On the latest safe day of despatch of the Mail for the Australasian Colonies *viâ* Tuticorin, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6 P.M., and late letters and papers fully prepaid will be received up to 6-30 P.M.

On the day of despatch of the Mail for Europe (Thursday) the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6-30 P.M., and late letters and papers fully prepaid will be received up to 6-45 P.M. Late registered articles will be received from 5 to 6 P.M. On other days the letter-box for Foreign articles will be cleared for the last time without the late fee at 6 P.M., and late letters and papers will be received up to 6-30 P.M for despatch by any Foreign Mails *via* Tuticorin, Madras, or Bombay the same night and up to 8-30 P.M., late letters and papers up to 9 P.M., for any Foreign Mails despatched by Sea. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and *Indian Law Reports* are hereby informed that unless the amount of their subscription for 1900 is received before the 31st December 1899, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1900.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-orders. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should also be stated. Omission to note these particulars will involve considerable delay.

R. SHEEPSHANKS,

Under-Secy. to the Govt. of Bengal.

The 1st December 1899.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage* (Inland rate) Rs. 22-8
Ditto ditto (Overland rate) Rs. 28.

	Without postage. Rs.	A.	P.	With postage. Rs.	A.	P.

,, each of the Madras, Bombay, and Allahabad Series	6	0	0	7	0	0
,, a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	......			2	0	0
,, a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	......			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies wil be supplied to subscribers when required in place of copies lost in transit:—

	For town. Rs.	A.	P.	For mufassal. Rs.	A.	P.
For the Calcutta Series, per copy ...	0	8	9	0	10	3
,, each of the Madras, Bombay, and Allahbad Series, per copy ..	0	5	3	0	5	9
,, the Calcutta Series. For the year	7	2	6	8	6	3
,, each of the Madras, Bombay and Allahabad Series. For the year	4	4	6	4	11	3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
,, Curator of Government Books, North-Western Provinces and Oudh.
,, Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1899 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

ADVERTISEMENTS will be received for publication on the papers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page.	Half page.	Quarter page.
For one issue ...	Rs. 20	Rs. 14	Rs. 9

Catalogue of Books procurable from Thomason College Book Depôt.

Application to be made to Curator. Cash must accompany order. Articles will be sent by Value-payable Post to persons in Government employment only. It is advised that letters containing remittances be registered.

N.B.—The Revised Prices herein entered cover the cost of packing, postage and other incidental charges (except commission for value payable supplies), and are for all purchasers other than resident College Students.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal octavo, with numerous plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required.

VOLUME I.*

SEC.		Rs.	A.
I.—Building Materials (1898)	...	2	0
II.—Masonry (1898)	... ...	1	4
III.—Carpentry (1898)	... ...	1	8
IV.—Earthwork (1892)	... ...	1	4
V.—Tools and Plant (never published).			

VOLUME II.*

VI.—Buildings (1899)	... ...	1	4
VII.—Bridges (1897)	... ...	4	4
VIII.—Roads (1897)	... ...	1	8
IX.—Railways (1891)	.. ...	1	4
X.—Irrigation Works (under revision)			

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol. I.—Direct and Transverse Strain, principally by Analytical Methods ...	7	0
II.—The Stability of Structures, mostly by Graphic Methods (in the Press).		

MANUALS.

	Rs.	A.
VII.—Surveying (by Major Firebrace, R.E.), (7th edition), with Curve Table	3	0
XIII.—Drawing (by Lieut. R. Pulford, R.E.)†	6	0
XIIIA.—Drawing, First Principles of Geometrical (by Lieut. R. Pulford, R.E.)	1	4
XIV.—Simple Applied Mechanics, (3rd edition), Parts I and II in one...	1	8
Simple Applied Mechanics, Part II (1st edition)	0	8
XV.—Examples of Estimating. Comprising a progressive series of Estimates (with plans of Buildings and Bridges, worked in detail). By P Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition)	3	12
XVI.—Earthwork Estimating, with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E., say ...	1	0
XVII.—Specimens of Printing used in the College Drawing Course and Entrance Examinations ...	0	6

Note.—The complete Treatise forms the course of the Engineer Civil and U. S Classes at the Thomason College in Civil Engineering. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

	Rs.	A.
Curve Tables, complete for laying any curve ...	0	4
Scantlings of Timber for Roofs. Tables and investigation of formulæ for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 16 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master	0	12
Notes on Chemistry of Building Materials	1	8
Tate's Mechanism	1	0
Banerman's descriptive Mineralogy ...	2	4
Useful Rules and Tables, relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers with Tables, &c. By Rai Kunhya Lal	2	8

* Date of Edition on sale.
† Originally published at Rs.15, reduced to Rs. 6.

MISCELLANEOUS—*continued.*

	Rs.	A.
O'Callaghan's Earthwork Tables for India, in one large sheet, 12 annas; mounted on cloth and bound	1	12
Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces ...	0	12
Tyndall's Hand-book of Specifications (in the Press)		
The Indian Engineer's Pocket-Book ...	1	0
Wooden Bridges and Designs. By Rai Kunhya Lal (in the Press)		
Blasting under Water (2nd edition) ...	0	10
Waugh's Instructions for Topographical Surveying	1	0
Analysis of Lime and Cement Stones. By Murray Thomson, Esq., M.D., F.R.S.E. ...	0	6
Chart, giving by a graphic method, the discharges of earthen channels up to 40 feet bed width: very useful for Projects ...	1	6

SCIENCE BOOKS.

	Rs.	A.
Wilson's Inorganic Chemistry ...	1	8

MATHEMATICAL.

	Rs.	A.
Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pie into decimals of a Rupee. With a few others of general utility. (4th edition)	1	8
Boileau's Tables of Log sin² ½ P (for computing time)	0	4
Cape's Logarithms, with tables of Squares, Cubes, &c.	1	4
„ **Geometry**	1	4
Todhunter's Plane Trigonometry ...	2	8
Todhunter's Differential Calculus ...	2	8
Cape's Mechanics	0	8
Military Topography	0	8

HINDUSTANI.

	Rs.	A.
Elements of Hindustani Grammar ...	0	8
Technical Dialogues—English and Urdu ...	1	0
A Vocabulary of Common and Technical Words in English-Urdu ...	0	12
History of India (*Itihas Timirnasak*), Hindi, Parts I and II, both	0	6
Short Account of Ganges Canal, (English and Urdu) each	0	4

NOTE AND FIELD-BOOKS, &c.

	Rs.	A.
Note-Books (Section paper), large each ...	1	4
Surveying Field-Books (ruled) ...	0	14
Levelling Field-Books (English Pattern)	1	4
Ditto ditto (Canal Pattern) ...	1	4
Ditto ditto (College Pattern)	2	0
P. W. D. Note-Book	1	4
„ **Measurement-Book** ...	1	4
Circular Card-board Protractors, 12 inches	2	0

MISCELLANEOUS.

	Rs.	A.
Distributary Velocity and Discharge Table. By Capt. Allan Cunningham ...	0	8
Description of Venomous Snakes. (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India")	1	8
Ditto ditto in Urdu	1	4
Perspective (fully explained). By Colonel A. M. Brandreth, R.E.	1	12
Thomason College Calendars for 1892,* 1895,† 1896,† and 1897,† each	2	0
Ditto ditto for 1898‡ and 1899,† Part I	3	6
Forms of Accounts, P. W. D., for Subdivisional Officers, in English (very old) ...	0	4
Memo. of Instructions for Road Project	1	0
Project for College Mess (sample project)	0	8
Ferrotype Printing Processes ...	0	8

* This does not contain the Entrance Examination papers of the Superior Accounts Branch, Public Works Department.

† These include Question Papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, Public Works Department.

‡ This does not contain the Entrance Examination papers of the Upper Subordinate Class.

MISCELLANEOUS—*concluded.*

	Rs.	A.
Thomason College Library Catalogue	1	12
Ditto, Supplement, 1895 to 1899, each ...	0	2
Irrigation by Rajbahas ... } each ...	0	4
Irrigation Tract, No. I ... }		
„ „ „ II ... }		
„ „ „ III ... }		
Land Measuring Chain Statement, Area of kutcha and pucka bighas, sheet ...	0	4
Report of the Ganges Canal Committee (Major Crofton's Project for remodelling the Ganges Canal according to the views of Major-General Sir Arthur Cotton, R.E., K.C.S.I.). 1866	0	8
Report of the Ganges Canal. By Captain J. Crofton, R.E., with Estimates and Plan—		
Vol. I, Report, 1865 ... } Vol. II, Estimates ... } ...	1	0
Shakespearian Readings, viz.— ...	0	12

SCHEDULE G.

PORTIONS OF THE BENGAL MUNICIPAL ACT, 1884, THE POWERS OR DUTIES CONFERRED OR IMPOSED BY WHICH ON THE LOCAL GOVERNMENT MAY NOT BE DELEGATED.

[Explanation of marginal references:

1. "Rule" means one of the rules made under section 241 of the Bengal Municipal Act, 1884, for Darjeeling.

2. "Cal." means the Calcutta Municipal Act, 1899 (Bengal Act III of 1899).

3. "1884" means the Bengal Municipal Act, 1884, as modified up to the 1st November, 1896.]

A

BILL

To amend the Bengal Municipal Act, 1884, in its application to Darjeeling.

WHEREAS it is expedient to amend the Bengal Municipal Act, 1884, in its application to Darjeeling; It is hereby enacted as follows:— Ben. III of 1884.

Short title and extent. 1. (*1*) This Act may be called the Darjeeling Municipal Act, 1900; and

(*2*) It extends only to the Darjeeling Municipality, as constituted for the time being under the Bengal Municipal Act, 1884.

PART. I.—AMENDMENT OF THE BENGAL MUNICIPAL ACT, 1884.

Insertion of new section, 1A, in Bengal Act III, 1884. 2. After section 1 of the Bengal Municipal Act, 1884, the following shall be inserted, namely:— Ben. III of 1884.

"1A. The Local Government, on the recommendation of the Commissioners at a meeting, may, by notification in the Calcutta Gazette, declare that any area adjacent to the Darjeeling Municipality shall be deemed to be included within that Municipality for the purposes of such portions of this Act as may be specified in that behalf in such notification." Power to include adjacent areas within the Darjeeling Municipality for certain purposes.

Amendment of section 6. 3. To section 6 of the the said Act the following shall be added, namely:—

"(*20*) 'bridge' includes a culvert;

"(*21*) 'drain' includes a *jhora* or watercourse or channel;

"(*22*) 'dwelling-house' means a masonry or framed building constructed, used or adapted to be used wholly or principally for human habitation; [Cal., s. 3 (*18*).]

"(*23*) 'framed building' means a building the external walls of which are constructed of timber framing or iron framing filled in with brick, stone or other material, and the stability of which depends on such framing; [Rule 1 (a).]

"(*24*) 'Government road' means a road maintained by the Government or at the public expense; [1884, s. 30.]

"(*25*) 'hut' means any building no material portion of which above the plinth-level is constructed of masonry or of squared timber framing or iron framing; [Cal., s. 3 (*22*).]

"(*26*) 'masonry building' means any building other than a framed building or a hut; [Cal., s. 3 (*25*).]

"(*27*) the expression 'materially alter,' when used with reference to a building, includes—

(*a*) the construction of a roof or an external or party wall, [Cal., Sch. XVII, rule 52; 1884, s. 240.]

[*The Darjeeling Municipal Bill.—Section 3.* (*Act*, *section* [illegible])]

(*b*) any repairs to the building which involve the re-construction of a masonry wall or a chimney after the same has been entirely or in great part demolished,

(*c*) the closing-up of any door or window in an external wall,

(*d*) any alteration of the internal arrangements of a building which effects an alteration of its drainage, ventilation or sanitary arrangements, or which affects its security,

(*e*) the addition of any building, room, verandah, out-house or other structure,

(*f*) the roofing of any space between one or more walls and buildings,

(*g*) the enclosing of any verandah;

(*h*) the conversion into more than one place for human habitation of a building originally constructed as one such place, and

(*j*) the conversion of two or more places for human habitation into a greater number of such places:

Explanation.—Clause (*f*) applies only as regards the structure which is formed by roofing a space, and not as regards adjoining buildings;

"(*28*) 'plinth' means the part of a wall between the ground-level and the level of the lowest floor of a building; [Rule 1 (*g*).]

"(*29*) 'private bridge' means any bridge which is not a public bridge as defined in this section;

"(*30*) 'private drain' means any drain which is not a public drain as defined in this section, and includes any surface, sullage, or other drain on private property;

"(*31*) 'private road' means any road, path, street, alley, way or passage which is not a public road or a Government road as defined in this section;

"(*32*) 'public bridge' means a bridge on or over which a public road or any public work is carried, and the property in which is for the time being vested in the Commissioners;

"(*33*) 'public drain' means any drain which is vested in the Commissioners;

"(*34*) the expression 'public road' means any road, path, street, alley, way or passage over which the public have a right of way, and the property in which is vested in the Commissioners; and, as used in section 207, section 216, section 217, clause (*1*), and section 235, and in rule 4 of Schedule A and rule 17 in Schedule C, includes also a Government road; and

"(*35*) the expression 're-erect,' when used with reference to a building, includes— [Cal., s. 3 (*30*).]

(*a*) the re-construction of a building after more than one-half its cubical extent has been taken down or burnt down or has fallen down,

(*b*) the conversion of one or more huts or temporary structures into a masonry or framed building, and

[*The Darjeeling Municipal Bill.—Sections 3-8.* (*Act, sections 6—191*).]

(*c*) the conversion into a place for human habitation of any building not originally constructed for human habitation:

Explanation.—Clause (*a*) applies whether the re-construction takes place (after the commencement of the Darjeeling Municipal Act, 1900) entirely at the same time or by instalments at different times, and whether more than half the cubical extent has (after the commencement of the Darjeeling Municipal Act, 1900) been taken down or burnt down, or has fallen down, at the same time or at different times."

Insertion of new section 6A.

4. After section 6 of the said Act the following shall be inserted, namely:—

"6A. The Commissioners may decide whether any particular building is a framed building, a masonry building or a hut, as defined in section 6; and their decision shall be final."

Power to define character of building.

Restriction on application of sections 175 to 182.

5. Sections 175 to 182 of the said Act shall not apply in the case of any notice issued under any of the clauses enacted by this Act or under any rule or bye-law made under any such clause.

Insertion of new section, 182A.

6. After section 182 of the said Act the following shall be inserted, namely:—

"182A. (*1*) When the Commissioners, by written notice, make any requisition or order under any of the clauses enacted by the Darjeeling Municipal Act, 1900, or under any rule or bye-law made under any such clause, a reasonable period shall be prescribed in such notice for carrying such requisition or order into effect. [Cal., s. 597.]

Time for complying with requisition or order, and power to enforce requisition or order in default of person directed.

(*2*) If any such requisition or order or any portion thereof is not complied with within the period so prescribed, the Commissioners may take such measures, or cause such work to be executed or such things to be done, as may, in their opinion, be necessary for giving due effect to such requisition or order; and the expenses thereof shall be paid by the person or by any one of the persons to whom such requisition or order was addressed.

(*3*) The Commissioners may take any measure, execute any work, or cause any thing to be done under this section whether or not the person who has failed to comply with the requisition or order is liable to punishment or has been prosecuted or sentenced to any punishment for such failure."

Addition to section 184.

7. To section 184 of the said Act the following shall be added, namely:—

"Provided also that no suit shall be instituted in any Civil Court to contest the liability of any person to pay any expenses under any of the clauses enacted by the Darjeeling Municipal Act, 1900, or to contest the amount which any person has been called upon to pay under any of the said clauses."

Amendment of section 191.

8. For the words "after six hours' notice in writing," in section 191 of the said Act, the words "without giving notice" shall be substituted.

[*The Darjeeling Municipal Bill.—Sections 9, 10.*
(*Act, sections 201A-201D*).]

Amendment of section 201. 9. In section 201 of the said Act, for the words "any road," and the words "part of a road," wherever they occur, the words "any public road" and the words "part of a public road" shall respectively be substituted.

Insertion of new sections 201A to 201G. 10. After section 201 of the said Act the following shall be inserted, namely:—

Absolute closing of public road. "201A. (*1*) If it appears to the Commissioners that any public road or part thereof—

(*a*) threatens the stability or security of any hillside or bank or any immoveable property thereon, or

(*b*) in consequence of its condition or its situation with reference to any adjacent hillside or bank, cannot be efficiently maintained or repaired except at a cost, which, in their opinion, is unreasonable,

the Commissioners may, by public notice, declare such road or part to be absolutely closed.

(*2*) From the date of any notice published under sub-section (*1*) in respect of any public road or part thereof, the Commissioners shall not be bound to maintain or repair such road or part; and the site thereof may be disposed of or otherwise dealt with in any manner the Commissioners may think fit.

Control over private roads and bridges. "201B. All private roads and bridges shall be subject to the inspection and control of the Commissioners.

Control over construction or alteration of private road or bridge. "201C. (*1*) Every person who intends to construct, re-construct or alter a private road or bridge shall send to the Commissioners an application for permission to execute the work.

(*2*) Every such application shall be accompanied by the documents or particulars prescribed in this behalf in Schedule A.

(*3*) Every person applying for permission to construct, re-construct or alter a private road must further mark out on the ground the alignment of the road, for inspection by the Commissioners.

(*4*) The permission referred to in sub-section (*1*) may be either granted or refused absolutely, or granted subject to any conditions which the Commissioners may think fit to impose in accordance with the rules contained in the said Schedule A.

(*5*) No work referred to in sub-section (*1*) shall be commenced without the written permission of the Commissioners.

Re-construction, etc., of private road or bridge. "201D. If it appears to the Commissioners that any private road or bridge is so situated or is in such a condition as to threaten the stability or security of any hillside or bank or any immoveable property thereon, they may, by written notice, require the owner—

(*a*) to re-construct, re-grade, divert, alter or repair such road or bridge, or

(*b*) to make a revetment or retaining-wall on either side or both sides of such road, or

(*c*) to take such other order with such road or bridge as may be specified in the notice.

[*The Darjeeling Municipal Bill.—Sections 10, 11.*
(*Act, sections 201E-207*).]

Provision or enlargement of waterway on private road.

"201E. If it appears to the Commissioners that waterway ought to be provided on any private road, or that the waterway provided on any private road ought to be enlarged, they may, by written notice, require the owner of the road—

(*a*) to provide and maintain waterway, or

(*b*) to enlarge the existing waterway,

as the case may require.

Rules as to construction, etc., of private roads and bridges.

"201F. Whenever any private road or bridge is to be constructed, re-constructed, re-graded, diverted, altered or repaired, and whenever a waterway for any private road is to be provided or enlarged, in pursuance of section 201C, section 201D or section 201E, the work shall be executed in accordance with the rules contained in Schedule A, so far as they are applicable to the particular case.

Power to close private road.

"201G. If it appears to the Commissioners that the existence of any private road threatens the stability or security of any hillside or bank or any immoveable property thereon, they may, by written notice, require the owner to close the road and to take such order with the site thereof as they may consider necessary for the stability or security of such hillside, bank or property and as may be prescribed in the notice:

Provided that no notice shall be issued under this section in respect of any private road which constitutes the only approach to a building, unless, in the opinion of the Commissioners, another road affording a suitable approach to the building can be constructed at reasonable expense."

Amendment of section 207.

11. For section 207 of the said Act the following shall be substituted, namely:—

Removal of materials falling on public road or drain.

"207. (*1*) Whenever any building, wall, revetment or other erection, or any part thereof, or any stone, tree, soil or *débris* from private premises, falls down and obstructs any public road or public drain, the Commissioners may cause the obstruction to be removed.

(*2*) All stone and trees so removed shall be separately heaped near the spot, and a notice shall be affixed in the vicinity calling upon the persons from whose premises the stone or trees or any of the same has or have fallen to take away the same.

(*3*) If, in the course of removing any obstruction under sub-section (*1*), it be found necessary to break up or blast any stone or to cut up any tree, the work shall be executed by the Commissioners; and, if any persons desire, in pursuance of a notice affixed under sub-section (*2*), to take away any stone or tree which has been so dealt with, they must first pay to the Commissioners the expenses incurred by them under this sub-section.

(*4*) If such stone or trees be not taken away by the said persons within seventy-two hours after the affixing of the said notice, the same shall become the property of the Commissioners.

[*The Darjeeling Municipal Bill.—Sections 11-13. (Act, sections 207A-220.)*]

Removal of *débris* falling upon or into private road or drain.

"207A. If it appears to the Commissioners that any *débris* which has fallen upon or into any private road or drain ought to be removed, they may—

(*a*) cause such *débris* to be removed, at the expense of the owner of the road or drain, or

(*b*) by written notice require the said owner to remove the *débris*."

Insertion of new sections 210B and 210C.

12. After section 210A of the said Act the following shall be inserted, namely:—

Powers where buildings, &c., threaten the stability of other immoveable property.

"210B. If it appears to the Commissioners that any building or portion of a building, or any thing affixed to a building, or any wall or structure on any land, is in such a condition as to threaten the stability or security of any hillside or bank or any immoveable property thereon,

the Commissioners may, by written notice, require the owner or occupier of such building or land,—

(*a*) to take down such building, portion, thing, wall or structure and remove the materials, or

(*b*) to secure or repair such building, portion, thing, wall or structure, in such manner as may be prescribed in the notice, or to make a revetment for the support thereof, or to take such other order therewith as may be prescribed in the notice, and

(*c*) in case (*a*), also to take such order with the site of such building, wall or structure, for ensuring the stability or security of any hillside or bank or any immoveable property thereon, as may be prescribed in the notice.

Powers where hills or bank threatens the safety of buildings.

"210C. If it appears to the Commissioners that the condition or situation of any hillside or bank, being private property, is such as to threaten the safety of any building, and that the safety of such building cannot be ensured by taking action under section 248A, and also that such building threatens the safety of some other building, they may, by written notice, require the owner or occupier of such first-mentioned building—

(*a*) to take down the building and remove the materials, or

(*b*) to secure the building, in such manner as may be prescribed in the notice, or to make a revetment for the support thereof, or to take such other order therewith as may be prescribed in the notice,

and may also, by written notice, require the owner or occupier of such other building to secure the same, in such manner as may be prescribed in the notice, or to make a revetment for the support thereof, or to take such other order therewith as may be prescribed in the notice."

Amendment of section 220.

13. In section 220 of the said Act the words "(other than provisions enacted by the Darjeeling Municipal Act, 1900)" shall be inserted after the words "this Part."

[*The Darjeeling Municipal Bill.—Sections 14, 15.*
(Act, sections 224A-228.)]

Insertion of new sections 224A to 224C.

14. After section 224 of the said Act the following shall be inserted, namely :—

"224A. The Local Government may, by notification in the Calcutta Gazette, define, for the purposes of this Act, the limits of any *jhora* or watercourse or channel.

Power to define limits of *jhoras*, &c.

"224B. (*1*) Every person who intends to construct, re-construct, alter, stop up or obstruct any private drain shall send to the Commissioners an application for permission to execute the work.

Control over construction or alteration of private drains.

(*2*) Every such application shall be accompanied by a general description of the drain.

(*3*) The permission referred to in sub-section (*1*) may be either granted or refused absolutely, or granted subject to any conditions which the Commissioners may think fit to impose in accordance with the rules contained in Schedule B.

(*4*) No work referred to in sub-section (*1*) shall be commenced without the written permission of the Commissioners.

"224C. The Commissioners may, by written notice, require the owner of any building or land—

Re-construction, repair, etc., of private drains.

(*a*) to re-construct, enlarge, extend, alter, repair, make efficient, stop up or remove any drain belonging to such building or land, or

(*b*) to alter the inclination or direction of any such drain, or

(*c*) to provide moveable coverings of gratings for any such drain, of such nature as may be specified in the notice, or

(*d*) to carry any such drain to such point or outlet or of contact with some other drain as may be specified in the notice."

Amendment of sections 227 and 228.

15. For sections 227 and 228 of the said Act the fllowing shall be substituted, namely:—

"227. If any building or land is not drained to the satisfaction of the Commissioners, they may, by written notice, require the owner to provide a drain therefor, at such inclination, and to such point of outlet or of contact with some other drain, as may be specified in the notice.

Power to require provision of private drain.

"228. (*1*) If it appears to the Commissioners that any buildings or lands belonging to different owners can be drained, or the drainage thereof improved, more economically or advantageously in combination than separately the Commissioners may cause such buildings or, lands to be drained, or the drainage thereof to be improved, in such manner as they may consider suitable.

Private drainage combination.

(*2*) The Commissioners may cause any drain which has been provided or improved under sub-section (*1*) to be maintained or repaired in such manner as they may consider suitable.

[*The Darjeeling Municipal Bill.—Sections 16, 17. (Act, sections 229A-238).*]

(*3*) All expenses incurred under sub-section (*1*) or sub-section (*2*) in connection with the drainage of any buildings or lands shall be paid by the owners of such buildings or lands, in such proportions as the Commissioners may direct."

Insertion of new section 229A.

16. After section 229 of the said Act the following shall be inserted, namely:—

Rules as to construction, etc., of private drains.

"229A. Whenever any private drain is to be constructed, re-constructed, enlarged, extended, altered, repaired or otherwise dealt with in pursuance of section 224B, section 224C, section 227 or section 228, the work shall be executed in accordance with the rules contained in Schedule B, so far as they are applicable to the particular case." [Cal., s. 308.]

Insertion of new sections 236 to 244Z.

17. For sections 236 to 244 of the said Act and the heading prefixed thereto the following shall be substituted, namely:—

"BUILDING REGULATIONS.

Prohibition of inflammable materials for roofs or external walls.

"236. (*1*) Except with the previous written permission of the Commissioners, external roofs or walls of buildings shall not, after the commencement of the Darjeeling Municipal Act, 1900, be made of grass, leaves, mats, canvas, shingles or other inflammable material. [Cal., s. 368; 1884, s. 236.]

(*2*) The Commissioners may, by written notice, require the owner of any building situated in or near a road and contiguous to or adjoining any other building, and having, at the commencement of the Darjeeling Municipal Act, 1900, an external roof or wall made of any such inflammable material as aforesaid, to remove or alter such roof or wall.

(*3*) Sub-sections (*1*) and (*2*) shall not apply to any garden hut, orchid-house, fernery or other similar structure within a compound, unless in any particular case the Commissioners consider any such structure to be dangerous.

Use of building sites, and erection, re-erection and material alteration of buildings.

"237. After the commencement of this Act, no land shall be used as a site for the erection, re-erection or material alteration of a building, and no building shall be erected, re-erected or materially altered, otherwise than in accordance with the provisions of this Act and any rules, bye-laws or orders made under this Act, relating to the use of building sites or the erection, re-erection or material alteration of buildings, as the case may be. [Cal., s. 363.]

"*Masonry buildings and framed buildings.*

"238. (*1*) Every person who intends— [Cal., s. 370.]

Application for approval of site for erection, re-erection or material alteration of a masonry or framed building.

(*a*) to erect or re-erect a masonry or framed building, or

(*b*) to materially alter a masonry or framed building in the manner referred to in sub-clause (*e*), sub-clause (*f*), sub-clause (*g*), sub-clause (*h*) or sub-clause (*i*) of clause (*27*) of section 6,

[*The Darjeeling Municipal Bill.—Section 17.* (*Act, sections 239-243*).]

shall send to the Commissioners an application for approval of the site, together with a site-plan of the land.

(*2*) Every such application and site-plan shall contain the particulars and be prepared in the manner prescribed in this behalf in Schedule C.

Approval of site when to be given or refused.

"239. Within thirty days after the receipt of any application made under section 238 for approval of a site, or of any information or further information required under Schedule C, the Commissioners shall, by written order, either— [Cal., 373.

(*a*) approve the site, subject to such conditions or modifications (if any) as may be specified in the order, or

(*b*) refuse, on one or more of the grounds mentioned in section 244B, to approve the site.

Application for permission to erect, re-erect or materially alter a masonry or framed building.

"240. (*1*) Every person who intends to erect, re-erect or materially alter a masonry or framed building shall send to the Commissioners an application for permission to execute the work, together with a plan of the building, complete elevations and sections of the work, and a specification of the work. [Cal., s. 370; 1881 s. 237.]

(*2*) Every document referred to in sub-section (*1*) shall contain the particulars and be prepared in the manner prescribed in this behalf in Schedule C.

(*3*) Every application under sub-section (*1*) for permission—

(*a*) to erect or re-erect a masonry or framed building, or

(*b*) to materially alter a masonry or framed building in the manner indicated in clause (*b*) of section 238,

must be sent either together with the application sent under section 238 or within a period of three months from the issue, under section 239, of the order (if any) approving the site; and, if any such application be sent after the expiration of the said period, it shall not be received unless a fresh application is made under section 238 for approval of the site.

Permission to erect, re-erect or materially alter a masonry or framed building not to be given unless and until site approved.

"241. Permission to erect or re-erect a masonry or framed building, or to materially alter a masonry or framed building in the manner indicated in clause (*b*) of section 238, shall not be given unless and until the Commissioners have approved the site on an application sent to them under section 238. [Cal., s. 371.]

Work not to be commenced unless and until permission given.

"242. The erection, re-erection or material alteration of a masonry or framed building shall not be commenced unless and until the Commissioners have granted written permission for the execution of the work on an application sent to them under section 240. [Cal., s. 372.]

Permission to execute work when to be given or refused.

"243. Within thirty days after the receipt of any application made under section 240 for permission to execute any work, or of [Cal., s. 374; 1884, s. 237.]

[*The Darjeeling Municipal Bill.—Section 17.*
(*Act, sections 244-244B.*)]

any information or further information required under Schedule C, the Commissioners shall, by written order, either—

(*a*) grant permission to execute the work, subject to such conditions or modifications (if any) as may be specified in the order, or

(*b*) refuse, on one or more of the grounds mentioned in section 244C, to grant such permission :

Provided that, where the approval of a site is required by this Act, the said period of thirty days shall not in any case begin to run until the site has been approved under section 239.

Record of reasons when approval or permission refused.

"244. Whenever the Commissioners refuse to approve a site for the erection, re-erection or material alteration of a masonry or framed building, or to grant permission to erect, re-erect or materially alter such a building, they shall state specifically the grounds for such refusal. [Cal., s. 375.]

Reference to appellate Engineer if grant or refusal of approval or permission is delayed.

"244A. If, within the period prescribed by section 239 or section 243, as the case may be, the Commissioners have neither given nor refused their approval of a building-site or their permission to execute any work, as the case may be, the Engineer appointed under section 351D shall be bound, on a written reference being made to him by the applicant, to determine forthwith, by written order, whether such approval or permission should be given or not; and such order shall be final. [Cal., s. 376 (1).]

Grounds on which approval of site may be refused.

"244B. The only grounds on which approval of a site for the erection, re-erection or material alteration of a masonry or framed building may be refused are the following, namely :— [Cal., s. 377.]

(*1*) that the site is not, in the opinion of the Commissioners or (where an appeal or reference has been made to the Engineer appointed under section 351D) the Engineer, a safe site for the erection, re-erection or alteration of the building ;

(*2*) that the erection, re-erection or alteration of the building upon the site would, in the opinion of the Commissioners or (where an appeal or reference has been made to the Engineer appointed under section 351D) the Engineer, threaten the stability or security of some hillside or bank or some immoveable property thereon ;

(*3*) that any particulars comprised in the site-plan would contravene some specified provision of this Act or some specified rule, bye-law or order made hereunder ;

(*4*) that the application for such approval, or the site-plan, does not contain the particulars or is not prepared in the manner prescribed in Schedule C ; or

[*The Darjeeling Municipal Bill,—Section 17.*
(*Act, sections 244C-244E*).]

(*5*) that any information required under the said Schedule has not been duly furnished.

"244C. The only grounds on which permission to erect, re-erect or materially alter a masonry or framed building may be refused are the following, namely :— [Cal., s. 377.]

Grounds on which permission to execute work may be refused.

(*1*) that, having regard to the site, to the plan of the building, to the elevations, sections and specification of the work, and to the information and documents (if any) furnished to the Commissioners, the building, in the opinion of the Commissioners or (where an appeal or reference has been made to the Engineer appointed under section 351D) the Engineer,—

(*a*) would not be safe for human habitation, or

(*b*) would threaten the stability or security of some hillside or bank or some immoveable property thereon;

(*2*) that the work, or any of the particulars comprised in the building-plan, elevations, sections or specification, would contravene some specified provision of this Act or some specified rule, bye-law or order made hereunder;

(*3*) that the application for such permission does not contain the particulars or is not prepared in the manner prescribed in Schedule C; or

(*4*) that any information required under the said Schedule not been duly furnished.

"244D. (*1*) If the erection or re-erection of any masonry or framed building, or the material alteration of any such building in the manner indicated in clause (*b*) of section 238, is not commenced within six months after the date on which permission was given to execute the work, the work shall not be commenced until fresh applications have been made under sections 238 and 240 and fresh approval and permission have been given under sections 239 and 243. [Cal., s 379, 1884, s. 289.]

Lapse of permission if not acted upon within six months.

(*2*) If any other material alteration of a masonry or framed building is not commenced within six months after the date on which permission was given to execute the work, the work shall not be commenced until a fresh application has been made under section 240 and a fresh permission granted under section 243.

"244E. (*1*) When any site, after having been approved under section 239, has been prepared for building-work, the owner of the building shall, not less than three days before building-work is commenced, send to the Commissioners a written notice specifying the date on which it is proposed to commence such work. [Cal., s. 380.]

Notice before commencing building work, and inspection of site.

[*The Darjeeling Municipal Bill.—Section 17.*
(*Act, sections 244F-244J.*)]

(*2*) The Commissioners may thereupon inspect the site; and, if it appears to them that the site is in such a condition as to render the building unsafe, or that the proposed work would threaten the stability or security of any hillside or bank or any immoveable property thereon, they may, by written order, withdraw their permission to execute the work, and may, if they think fit, by a like order grant a fresh permission subject to such conditions for ensuring safety as they may consider necessary.

Notice after completion of work.

"244F. Within fifteen days after the erection, re-erection or material alteration of any masonry or framed building has been completed, the owner shall send to the Commissioners a written notice of the fact. [Cal., s. 381.]

Inspection.

"244G. The Commissioners may, at any time during the erection, re-erection or material alteration of any masonry or framed building, or within one month after the receipt of the notice sent under section 244F with respect to any building, inspect such building, without giving previous notice of their intention so to do. [Cal., s. 382.]

Powers on making inspection.

"244H. (*1*) If, on making any such inspection, the Commissioners find that the building is being or has been constructed— [Cal., s. 383.]

(*a*) otherwise than in accordance with the plans approved by the Commissioners, or

(*b*) in such a way as to contravene any of the provisions of this Act or any rule, bye-law or order made hereunder,

they may, by written notice, require the owner of the building either—

(*i*) to make such alterations as may be specified in the notice with the object of bringing the work into conformity with the said plans or provisions, or

(*ii*) to appear before them and show cause why such alterations should not be made.

(*2*) If such owner does not appear and show cause as aforesaid, he shall be bound to make the alterations specified in such notice.

(*3*) If such owner appears and shows cause as aforesaid, the Commissioners shall, after hearing him, cancel the notice issued under sub-section (*1*) or confirm the same subject to such modifications (if any) as they may think fit.

"*Huts.*

Application for permission to erect, re-erect or materially alter a hut.

"244J. (*1*) Every person who intends to erect, re-erect or materially alter a hut shall send to the Commissioners an application for permission to execute the work. [Cal., s. 384, 1884 s. 213.]

(*2*) Every such application shall contain the particulars and be prepared in the manner prescribed in this behalf in Schedule C.

[*The Darjeeling Municipal Bill.—Section 17.*
(*Act, sections 244K-244-O.*)]

"244K. The erection, re-erection or material alteration of a hut shall not be commenced unless and until the Commissioners have granted written permission for the execution of the work on an application sent to them under section 244J. [Cal., s. 385.

Work not to be commenced unless and until permission given.

"244L. Within fourteen days after the receipt of any application made under section 244J for permission to erect, re-erect or materially alter a hut, or of any information or further information required under Schedule C, the Commissioners shall, by written order, either— [Cal., s. 386; 18 s. 243.]

Permission to execute work when to be given or refused.

(*a*) grant such permission, subject to such conditions or modifications (if any) as may be specified in the order, or

(*b*) refuse, on one or more of the grounds mentioned in section 244-O, to grant such permission.

"244M. Whenever the Commissioners refuse to grant such permission as aforesaid, they shall state specifically the grounds for such refusal. [Cal., s. 387.]

Record of reasons, when permission refused.

"244N. If, within the period prescribed by section 244L, the Commissioners have neither granted nor refused permission to erect, re-erect or materially alter a hut, the Engineer appointed under section 351D shall be bound, on a written reference being made to him by the applicant, to determine forthwith, by written order, whether such permission should be granted or not; and such order shall be final. [Cal., s. 388 (*1*).]

Reference to appellate engineer if grant or refusal of permission is delayed.

"244-O. The only grounds on which permission to erect, re-erect or materially alter a hut may be refused are the following, namely:— [Cal., s. 389.]

Grounds on which permission to erect, re-erect or materially alter a hut may be refused.

(*1*) in the case of erection or re-erection, or of any material alteration of the kind indicated in clause (*b*) of section 238, that the site is, in the opinion of the Commissioners or (where an appeal or reference has been made to the Engineer appointed under section 351D) the Engineer, an unsafe site for a hut;

(*2*) that the work would, in the opinion of the Commissioners or (where an appeal or reference has been made to the Engineer appointed under section 351D) the Engineer, threaten the stability or security of some hillside or bank or some immoveable property thereon;

(*3*) that the work would contravene some specified provision of this Act or some specified rule, bye-law or order made thereunder;

(*4*) that the application for such permission does not contain the particulars or is not prepared in the manner prescribed in Schedule C; or

(*5*) that any information required under the said Schedule has not been duly furnished.

[*The Darjeeling Municipal Bill.—Section 17.*
(*Act, sections 244P—244S.*)]

"244P. If the erection, re-erection or material alteration of any hut is not commenced within three months after the date on which permission was given to execute the work, the work shall not be commenced until a fresh application has been made and a fresh permission granted under this Act. [Cal., s. 390.]

Lapse of permission if not acted upon within six months.

"244Q. (*1*) If any site be specially prepared for erecting, re-erecting or materially altering a hut in pursuance of any permission granted under section 244L, the owner of the hut shall, not less than three days before building-work is commenced, send to the Commissioners a written notice specifying the date on which it is proposed to commence such work.

Notice before commencing building-work, and inspection.

(*2*) The Commissioners may thereupon inspect the site; and, if it appears to them that the site is in such a condition as to render the hut unsafe, or that the proposed work would threaten the stability or security of any hillside or bank or any immoveable property thereon, they may, by written order, withdraw their permission to execute the work, and may, if they think fit, by a like order, grant a fresh permission subject to such conditions for ensuring safety as they may consider necessary.

"*Exemptions.*

"244R. The following buildings shall be exempted from the operation of sections 240 to 244Q, except in so far as those sections relate to sites, that is to say— [Cal., s. 393.]

Exemptions.

(*a*) any building erected and used, or intended to be erected and used, exclusively for the purpose of a plant-house, summer-house (not being a dwelling-house), poultry-house or aviary, provided the building be wholly detached from, and situated at a distance of at least ten feet from, the nearest adjacent building; and

(*b*) any building of a temporary character erected or intended to be erected by, or with the sanction of, the Commissioners for use solely as a hospital for the reception and treatment of persons suffering from any infectious or contagious disease.

"DEMOLITION, ALTERATION AND STOPPING OF WORK.

"244S. If the Commissioners are satisfied— [Cal., s. 449, 1884, ss. 238, 241 (*3*), 244.]

Demolition or alteration of work unlawfully commenced, carried on or completed.

(*1*) that any work referred to in section 201C, sub-section (*1*), or section 224B, sub-section (*1*), or the erection, re-erection or material alteration of any building—

(*a*) has been commenced without obtaining the permission of the Commissioners, or (where an appeal or reference has been made to the Engineer appointed under section 351D) in contravention of any orders passed by the Engineer, or

[*The Darjeeling Municipal Bill.—Section 17.*
(*Act, sections 244T-244V.*)]

(*b*) is being carried on or has been completed otherwise than in accordance with the particulars on which such permission or orders was or were based, or

(*c*) is being carried on or has been completed after such permission has been withdrawn, or

(*d*) is being carried on or has been completed in breach of any provision contained in this Act or in any rules or bye-laws made hereunder, or of any condition, modification, direction or requisition lawfully imposed, made or given under this Act or such rules or bye-laws, or

(*2*) that any alterations required by any notice issued under section 244H have not been duly made,

the Commissioners may apply to a Magistrate, and such Magistrate may make an order—

(*i*) directing that the work done, or so much of the same as has been unlawfully executed, be demolished by the owner or altered by him to the satisfaction of the Commissioners, as the case may require, or

(*ii*) directing that the work done, or so much of the same as has been unlawfully executed, be demolished or altered by the Commissioners at the expense of the owner:

Provided that the Magistrate shall not make any such order without giving the owner full opportunity of adducing evidence and of being heard in defence.

Power to stop progress of work unlawfully commenced or carried on.

"244T. (*1*) In any case in which any work referred to in section 244S has been unlawfully commenced or is being unlawfully carried on, the Commissioners may, by written notice, require the person carrying on the work to stop the same pending the decision of a Magistrate on an application to be made to him under that section. [Cal., s. 451.]

(*2*) If any work be carried on upon any premises in contravention of a notice issued under sub-section (*1*), any person directing or carrying on such work may, under the orders of the Commissioners, be removed from the premises by any police officer.

Demolition and fine cumulative.

"244U. When any person is liable to be directed to demolish work and to pay a fine under this Act, both those directions may be given at the discretion of the Magistrate. [Cal., s. 452.]

"CONTROL OVER OCCUPATION OF BUILDINGS.

Power to prohibit occupation of unsafe or insanitary buildings.

"244V. (*1*) If it appears to the Commissioners that any masonry or framed building, or the site thereof, is, in consequence of its condition or of its situation with reference to any hillside or bank, unsafe, [1884, s. 242.]

they may, by written notice, prohibit the owner or any other person from occupying or continuing to occupy the building until the building or the site, as the case may be, is rendered safe to the satisfaction of the Commissioners.

[*The Darjeeling Municipal Bill.—Section 17.*
(*Act, sections 244W-244Y.*)]

(*2*) If it appears to the Commissioners that any hut, or the site thereof, is unsafe,
they may, by written notice, prohibit the owner or any other person from occupying or continuing to occupy the hut or from permitting it to be occupied until the hut or the site, as the case may be, is rendered safe to the satisfaction of the Commissioners.

(*3*) If it appears to the Commissioners that the drainage of, or the latrine accommodation provided for, any masonry or framed building is defective,
they may, by written notice, prohibit the owner from letting the building for occupation until the defects have been remedied to their satisfaction.

"244W. If any person occupies or continues to occupy any building in contravention of any notice issued under sub-section (*1*) or sub-section (*2*) of section 244V, he may, under the orders of the Commissioners, be removed from the building by any police-officer. [Cal., s. 451 (2).]

Power to remove persons occupying unsafe buildings.

"244X. (*1*) If, for any reason, any building intended for or used as a dwelling-place appears to the Commissioners to be unfit for human habitation, they may apply to a Magistrate to prohibit the further use of such building for such purpose; and the Magistrate, after such inquiry as he thinks fit to make, may, by written order, make a prohibition as aforesaid or may pass such other order as he may deem just and proper. [Cal., s. 444.]

Prohibition of use of unfit buildings for human habitation.

(*2*) When any such prohibition has been made, no owner or occupier of such building shall use or suffer the same to be used for human habitation until the Commissioners certify in writing that the causes rendering it unfit for human habitation have been removed to their satisfaction, or a Magistrate, by written order, withdraws the prohibition aforesaid.

"244Y. (*1*) If it appears to the Commissioners that any dwelling-house, or any hut which is used as a dwelling-place, or any room in any such house or hut, is so overcrowded as to endanger the health of the inmates thereof, they may apply to a Magistrate to abate such overcrowding; [Cal. s. 445.]

Abatement of overcrowding in dwelling-house or dwelling-place.

and the Magistrate, after such inquiry as he thinks fit to make, may, by written order, require the owner of the building or room, within a reasonable time, not exceeding four weeks, to be prescribed in the said order, to abate such overcrowding by reducing the number of lodgers, tenants, or other inmates of the building or room,

or may pass such other order as he may deem just and proper.

(*2*) The Commissioners may, by written order, declare what amount of superficial and cubic space shall be deemed, for the purposes of sub-section (*1*), to be necessary for each occupant of a building or room.

[*The Darjeeling Municipal Bill.—Sections 17, 18.*
(*Act, sections 244Z-248B.*)]

(*3*) If the owner of any building or room referred to in sub-section (*1*) has sub-let the same, the landlord of the lodgers, tenants, or other actual inmates of the same shall, for the purposes of this section, be deemed to be the owner of the building or room.

(*4*) It shall be incumbent on every tenant, lodger, or other inmate of a building or room to vacate on being required by the owner so to do in pursuance of any requisition made under subsection (*1*).

"ROOF-GUTTERS AND DOWN-PIPES OR PLATFORMS.

Power to require provision, &c., of roof-gutters and down-pipes or masonry platforms.

"244Z. The Commissioners may, by written notice, require the owner or occupier of any building— [Rule 27.]

(*a*) to provide and maintain a sufficient number of suitable roof gutters and down-pipes or masonry platforms for carrying water from the roof of the building into such drains as may be specified in the notice, or

(*b*) to renew, alter, repair or remove any such gutters, pipes or platforms already provided for the building."

Insertion of new sections, 248A to 248E.

18. After section 248 of the said Act the following shall be inserted, namely:—

"REVETTING, TURFING AND SLOPING.

Power to require revetting, turfing or sloping.

"248A. If it appears to the Commissioners that the condition or the situation of any land, being private property, is such as to threaten the stability or security of any hillside or bank or any immoveable property thereon, the Commissioners may, by written notice, require the owner of the land to do all or any of the following things, namely—

(*a*) to construct and maintain a revetment, retaining-wall or toe-wall upon any part of the land;

(*b*) to re-construct, enlarge, strengthen, alter or repair any revetment, retaining-wall or toe-wall already standing on the land;

(*c*) to turf the land or any portion thereof;

(*d*) to slope the land or any portion thereof.

Power to execute work where owners of adjacent property would be benefited.

"248B. If any owner to whom a notice is issued under section 248A represents to the Commissioners, within fifteen days after the service of the notice, that the work required by the notice will directly and substantially benefit the owners of any adjacent buildings or land,

the Commissioners may, after hearing all the owners concerned, themselves cause the said work to be executed;

[*The Darjeeling Municipal Bill.—Sections 18, 19.*
(*Act, sections 248C-272A.*)]

and the expenses thereby incurred shall be recovered from any or all of such owners, in such proportion as the Commissioners may direct.

"248C. If it appears to the Commissioners that buildings or lands belonging to two or more owners can be protected, by the execution of works of the nature referred to in section 248A, more economically or advantageously in combination than separately,

Power to execute works in combination.

the Commissioners may themselves cause such works or any of them to be executed, maintained and kept in repair;

and the expenses thereby incurred shall be recovered from the said owners, in such proportion as the Commissioners may direct.

"248D. Notwithstanding anything contained in section 248A, the Commissioners may at any time themselves cause any revetment, retaining-wall or toe-wall to be constructed, re-constructed, enlarged, strengthened, altered or repaired on any private land immediately abutting upon any public road or public drain;

Power to execute works where public road or drain is affected

and the expenses thereby incurred shall be paid by the Commissioners and the owner of such land, in such proportion as the Commissioners may direct.

"248E. Whenever any revetment, retaining-wall or toe-wall is to be constructed, re-constructed, enlarged, strengthened, altered or repaired, or any land is to be turfed or sloped, in pursuance of section 201D, section 210B, section 210C, section 248A, section 248B, section 248C or section 248D, the work shall be executed in accordance with the rules contained in Schedule D, so far as they are applicable to the particular case."

Rules as to revetting, turfing and sloping.

Insertion of new sections 272A to 272E

19. After section 272 of the said Act the following shall be inserted, namely:—

"272A. Whoever—

Fine for certain offences.

(*a*) contravenes any provision of any of the clauses of this Act mentioned in the first column of the following table, or

(*b*) fails to comply with any direction lawfully given to him or any requisition lawfully made upon him under any of the said clauses,

shall be punished with fine which may extend to the amount mentioned in that behalf in the second column of the said table.

[*The Darjeeling Municipal Bill.—Section 19.*
(*Act, section 272B.*)]

Clauses. *	Fine which may be imposed.	
1	2	
Section 201D	Five hundred rupees.	
„ 201E	Five hundred rupees.	
„ 201F	Two hundred and fifty rupees.	
„ 201G	Five hundred rupees.	
„ 207A, clause (*b*) ...	Fifty rupees.

„ 236, „ (*2*)...	Twenty-five rupees.	
„ 244E, „ (*1*)...	One hundred rupees.	
„ 244F.	One hundred rupees.	
„ 244Q, sub-section (*1*)	Fifty rupees.	
„ 244T, „ (*1*)	Five hundred rupees	
„ 244V, „ (*1*)	Two hundred and fifty rupees.	[1884, s. 78 (*1*) (*242*)]
„ 244V, „ (*2*)	Fifty rupees.	
„ 244V, „ (*3*)	One hundred rupees.	[1884, s. 273 (1) (*242*).]
„ 244X, „ (*2*)	Fifty rupees.	
„ 244Y, „ (*1*)	Fifty rupees.	
„ 244Y, „ (*4*)	Ten rupees.	
„ 244Z.	One hundred rupees.	
„ 248A.	Five hundred rupees.	
„ 248E.	Five hundred rupees.	

Continuing fine for certain offences.

"272B. Whoever, after having been convicted of—

(*a*) contravening any provision of any of the clauses of this Act mentioned in the first column of the following table, or

(*b*) failing to comply with any direction lawfully given to him or any requisition lawfully made upon him under any of the said clauses,

continues to contravene the said provision or to neglect to comply with the said direction or requisition, as the case may be,

shall be punished, for each day after the first during which he continues so to offend, with fine which may extend to the amount mentioned in that behalf in the third column of the said table.

[*The Darjeeling Municipal Bill—Section 19.*
(*Act, sections 272C, 272D*).]

Clauses	Daily fine which may be imposed.	
1	2	
Section 201D ...	One hundred rupees.	
„ 201E ...	One hundred rupees.	
„ 201G ...	One hundred rupees.	
„ 207A, clause (*b*) ...	Ten rupees.	
„ 210B.	One hundred rupees.

„ 244V, „ (*2*)	Ten rupees.	
„ 244V, „ (*3*)	Twenty rupees.	[1884, s 273 (*1*) (*243*)]

Fine for unlawfully commencing, carrying on or completing work.

"272C. If any work referred to in section 201C, sub-section (*1*), or section 221B, sub-section (*1*), or the erection, re-erection or material alteration of any building— [Cal., s 579, 1884, ss 267, 271 (*218*) 272 (*2*), 273 (*1*) (*235*, *241*)]

(*a*) is commenced without obtaining the permission of the Commissioners, or (where an appeal or reference has been made to the Engineer appointed under section 351D) in contravention of any orders passed by the Engineer, or

(*b*) is carried on or completed otherwise than in accordance with the particulars on which such permission or orders was or were based, or

(*c*) is carried on or completed after such permission has been withdrawn, or

(*d*) is carried on or completed in breach of any provision contained in this Act or in any rules or bye-laws made hereunder, or of any condition, modification, direction or requisition lawfully imposed, made or given under this Act or such rules or bye-laws, or

if any alterations required by any notice issued under section 244H be not duly made,

the owner shall be liable to fine which may extend, in the case of a road, bridge, drain, or masonry or framed building, to five hundred rupees, and in the case of a hut to fifty rupees and

to further fine which may extend, in the case of a road, bridge, drain, or masonry or framed building, to one hundred rupees, and in the case of a hut to ten rupees, for each day after conviction during which the offence is continued.

Fine for disobedience of direction for demolition or alteration where work unlawfully commenced, carried on or completed.

"272D. If any person to whom a direction to demolish or alter work is given under clause (*i*) of section 244S fails to obey the same, he shall be liable [Cal., s 580, 1884, s. 267]

to fine which may extend, in the case of a had, bridge, drain, or masonry or framed building, to five hundred rupees, and in the case of a hut to fifty rupees, and

[*The Darjeeling Municipal Bill.—Sections 19, 20.*
(*Act, sections 272E-350A.*)]

to further fine which may extend, in the case of a road, bridge, drain, or masonry or framed building, to one hundred rupees, and in the case of a hut to ten rupees, for each day after conviction during which he so fails.

"272E. When a building has been erected, re-erected or materially altered under this Act without any statement having been made, under rule 22 or rule 27 of Schedule C, that it was intended to use the building or any part thereof for any of the purposes specified in section 261, or as a stable, cattle-shed or cow-house, then any person using the building or any part thereof for any of those purposes shall be liable,— [Cal., s. 588.]

Fine for using building for carrying on offensive trade without previous declaration.

(*a*) in the case of a masonry or framed building, to fine which may extend to two hundred rupees, and to further fine which may extend to twenty rupees for each day after conviction during which he continues such use, and

(*b*) in the case of a hut, to fine which may extend to twenty rupees, and to further fine which may extend to five rupees for each day after conviction during which he continues such use."

Insertion of new sections, 350A and 350B

20. For section 350A of the said Act the following shall be substituted, namely:— [1884, ss 208, 232, 350A.]

"350A. (*1*) The Commissioners, at a meeting which has been convened expressly for the purpose and of which due notice has been given, may, from time to time, make bye-laws for enforcing, prohibiting or regulating the doing of any act which may, in the opinion of the Commissioners, affect the stability or security of any hillside or bank or any immoveable property thereon.

Additional power to make bye-laws.

(*2*) In particular, and without prejudice to the generality of the foregoing power, the Commissioners at a meeting as aforesaid may make bye-laws for all or any of the following purposes, namely:—

(*a*) prohibiting or regulating the making of excavations, the cutting of hillsides or banks and the removal of soil from hillsides or banks;

(*b*) prohibiting or regulating quarrying;

(*c*) prohibiting or regulating the removal of loose stones from hillsides, banks, *jhoras* and sites of landslips;

(*d*) for preventing or regulating the grazing or straying of cattle on hillsides and banks;

(*e*) for enforcing the cutting, trimming or removal of trees, shrubs, bamboos, bushes or hedges bordering on, overhanging or obstructing, any road or drain, or causing, on being likely to cause, damage or injury to any road or drain, or to any person using any road;

[*The Darjeeling Municipal Bill.—Sections 20, 21.*
(*Act, sections 350B-351C.*)]

(*f*) for enforcing, regulating or prohibiting the cutting of trees, shrubs, bamboos or plants;

(*g*) for enforcing, regulating or prohibiting the making of, or for regulating the maintenance of, gardens or garden-terraces;

(*h*) for prohibiting or regulating the making of holes or the placing of loose earth for or around trees, shrubs, bamboos or plants;

(*j*) for enforcing or regulating the planting and maintenance of particular kinds of trees, shrubs, bamboos or plants on land, where, in the opinion of the Commissioners, such enforcement or regulation is necessary or desirable with a view to the better protection of any hillside or bank from landslips.

(*3*) The word 'cattle', as used in clause (*d*), shall have the same meaning as in the Cattle-trespass Act, 1871. I of 1871.

"350B. The Commissioners may, by any bye-law made under section 350A, declare that any person committing a breach of any such bye-law, or failing to comply with any notice issued thereunder, shall be liable to fine which may extend to fifty rupees and to further fine which may extend to twenty rupees for each day after conviction during which the offence is continued."

Fines for breach of bye-laws made under section 350A.

Insertion of new sections, 351B to 351H.

21. After section 351A of the said Act the following shall be inserted, namely:—

"351B. (*1*) The Local Government may make rules to regulate any of the matters referred to in sections 201F, 229A, 237 and 248E, and may by such rules alter, add to or cancel any of the rules contained in Schedules A, B, C and D, respectively. [Cal., s. 567; 1884, s. 241.]

Power to make rules for the amendment of Schedules A, B, C and D.

(*2*) All references in this Act to any of the aforesaid Schedules shall be construed as referring to such Schedule as for the time being amended in exercise of the powers conferred by sub-section (*1*).

"351C. The Commissioners may enter into or upon any building or land, with or without assistants or workmen, in order to make any inspection, survey, measurement, valuation or inquiry or execute any work which is authorised by any of the clauses enacted by the Darjeeling Municipal Act, 1900, or by any rule or bye-law made under any such clause, or which it is necessary, for any of the purposes or in pursuance of any of the provisions of any such clause, rule or bye-law, to make or execute: [Cal., s. 595.]

Power of entry to inspect, survey or execute work.

Provided as follows:—

(*a*) except when it is in this Act otherwise provided, no such entry shall be made between sunset and sunrise;

[*The Darjeeling Municipal Bill.—Section 21.*
(*Act, sections 351D-351G*).]

(*b*) except when it is in this Act otherwise provided, no dwelling-house, and no hut which is used as a dwelling-place, shall be so entered, unless with the consent of the occupier thereof, without giving the said occupier at least six hours' previous written notice of the intention to make such entry;

(*c*) sufficient notice shall in every instance be given, even when any premises may otherwise be entered without notice, to enable the inmates of any apartment appropriated to females to remove to some part of the premises where their privacy need not be disturbed;

(*d*) due regard shall always be had, so far as may be compatible with the exigencies of the purpose for which the entry is made, to the social and religious usages of the occupants of the premises entered.

Appeal to specially appointed Engineer.

"351D. (*1*) The Local Government may by notification in the Calcutta Gazette, appoint an Engineer, of higher rank than an Executive Engineer, to hear appeals under this Act. [1884, s. 242A.]

(*2*) An appeal shall lie to the said Engineer from any requisition or order (not being an order apportioning expenses) made under section 201C, sub-section (*4*), section 210, section 210B, section 210C, section 224B, sub-section (*3*), section 228, section 239, clause (*b*), section 243, clause (*b*), section 244E, sub-section (*2*), section 244H, sub-section (*1*) or sub-section (*3*), section 244L, clause (*b*), section 244Q, section 244V, section 248A, section 248B, section 248C or section 248D.

Appeal to Commissioner of the Division.

"351E. An appeal shall lie to the Commissioner of the Division from any order apportioning expenses incurred in pursuance of section 228, section 248B, section 248C or section 248D.

Limitation of time for appeal.

"351F. Every appeal under section 351D or section 351E must be presented within a period of thirty days after the date of the requisition or order against which the appeal is made: [Cal., s. 621; 1884, s. 242A.]

Provided as follows:—

(*a*) if in any case the said period expires on a day when the office of the aforesaid Engineer or Commissioner is closed, the appeal may be presented on the day that the said office is re-opened; [Act XV, 1877, s. 5.]

(*b*) any appeal may be admitted after the expiration of the said period when the appellant satisfies the appellate authority that he had sufficient cause for not presenting the appeal within such period.

Assessors in appeals.

"351G. (*1*) In dealing with any appeal preferred to him under section 351E, the Commissioner

(*The Darjeeling Municipal Bill,—Sections 21-28.*
(*Act, sections 351H, 362.*)

shall be assisted by two assessors, who shall be selected and summoned by him for each appeal or group of appeals from a list to be prepared annually by the Deputy Commissioner:

Provided that, if any assessor so summoned fails to appear, the appeal may be heard in his absence.

(*2*) The assessors, if present, shall be consulted by the Commissioner, and their opinion shall be recorded in writing; but the Commissioner shall not be bound to conform to their opinions.

Finality of decision in appeal.

"351H. (*1*) The decision of the Engineer appointed under section 351D, or the Commissioner of the Division, on any appeal preferred to him shall be final. [1884, s. 242A (3).]

(*2*) If the said Engineer or Commissioner rejects any such appeal, he shall, by written order specifically state the grounds for such rejection."

Addition to section 362.

22. To section 362 of the said Act the following shall be added, namely:—

"Provided that no compensation shall be payable for damage sustained by any person by reason of the exercise of any of the powers conferred by any of the clauses enacted by the Darjeeling Municipal Act, 1900."

Addition of new Schedules A to D.

. After the sixth Schedule to the said Act the Schedules marked respectively A, B, C and D shall be added.

Repeal.

24. The portions of the said Act mentioned in the first column of Schedule E are repealed to the extent mentioned in the second column of that Schedule.

PART II.—TEMPORARY PROVISIONS.

Temporary operation of Part II.

25. This Part shall only continue in force until the publication in the Calcutta Gazette of a notification by the Local Government declaring that it shall cease to have effect.

Substitution of Local Government for Commissioners.

26. All clauses enacted by this Act shall be read as if the words "the Local Government" were substituted for the words "the Commissioners" and "the Commissioners at a meeting."

Amendment of Bengal Act III of 1884.

27. The portions of the Bengal Municipal Act, 1884, which are mentioned in the first column of Schedule F shall be read subject to the amendments respectively indicated in the second column of that Schedule. Ben. III of 1884.

Delegation of certain of Local Government's powers and duties.

28. (*1*) The Local Government may, by notification in the Calcutta Gazette, delegate to any officer any of the powers or duties conferred or imposed on the Local Government by any portion of the Bengal Municipal Act, 1884, other than the portions mentioned in Schedule G.

(*2*) In the exercise or performance of any powers or duties delegated to any officer under sub-section (*1*), such officer shall be subject to the control of the Local Government.

[*The Darjeeling Municipal Bill.—Schedule A.—Rules 1-7.*]

SCHEDULE A.

RULES AS TO PRIVATE ROADS AND BRIDGES.

(*See sections 201C, 201F and 351B.*)

Par I.—Roads.

Applications for permission to construct, re-construct or alter private roads.

1. (*1*) Every application for permission to construct, re-construct or alter a private road other than a footpath must be accompanied by—

(*a*) a plan of the road, showing cross-sections,

(*b*) type-drawings of all bridges to be provided or already provided for the road, and

(*c*) a description of the provision which it is intended to make or which already exists in respect of retaining-walls and revetments (if any) and drainage.

(*2*) Every application for permission to construct, re-construct or alter a private footpath must be accompanied by a full description of the path.

Slope.

2. (*1*) A private road must be so constructed as to have a slope inwards towards the hillside.

(*2*) Such slope must be not less than the gradient of the road.

Retaining walls and revetments.

3. (*1*) Whenever the Commissioners so direct, the outer edge of a private road must be protected by retaining walls, and the inner cutting by revetments.

(*2*) Such walls and revetments must be of such number and must be placed in such positions as the Commissioners may direct, and must be constructed in accordance with the rules contained in Schedule D.

Drain.

4. A stone-lined drain must be provided on the inner side of a private road, where such side is not rock.

Fencing.

5. Timber or iron fencing, or a masonry parapet, must, if the Commissioners so direct, be provided at the outer edge of a private road, either along the whole road or at such points as the Commissioners may direct.

Part II.—Bridges.

Applications for permission to construct, re-construct or alter private bridges.

6. Every application for permission to construct, re-construct or alter a private bridge must be accompanied by drawings of the bridge.

Width of bridge.

7. A private bridge must be constructed of the full width of the channel which it spans.

[*The Darjeeling Municipal Bill.—Schedule A.—Rules 8-11.—Schedule B.—Rules 1-5.*]

Slope of flooring under bridge.

8. The flooring placed in the bed of the channel under a private bridge must, as far as practicable, be laid at the same slope as that of the channel.

Pocket above bridge.

9. When a pocket for the deposit of *debris* is cut in the hillside above a private bridge, otherwise than in solid rock, such pocket must be lined with masonry walling.

Platform of bridge.

10. When the platform of a private bridge consists of timber, the platform shall not be covered with metalling or soil.

Substitution of gratings for culverts.

11. Where a small drain is crossed by a private road, a wooden or iron grating must, if the Commissioners so direct, be laid over the drain, instead of a covered culvert.

SCHEDULE B.

RULES AS TO PRIVATE DRAINS.

(*See sections 224B, 229A and 351B.*)

Construction of drains for sullage water.

1. Drains for sullage water must be constructed—

(*a*) with round or half-round tiles bedded in concrete, or

(*b*) with U-shaped stone masonry set in lime mortar and plastered over the inner surface with Portland cement, or

(*c*) with U-shaped stone concrete.

Construction of drains for surface water.

2. (*1*) Drains for surface water only may be constructed either of dry rubble masonry or of any other material approved by the Commissioners, and may be either rectangular or U-shaped or V-shaped in section.

(*2*) Such drains shall not be connected with any drain carrying sullage water or sewage.

Drains to be open.

3. Except with the written permission of the Commissioners, no covered drain shall be constructed, and no open drain shall be covered in.

Sectional area.

4. The sectional area of every drain shall be subject to the approval of the Commissioners.

Discharge.

5. (*1*) Drains must discharge into the nearest water-channel, unless in any case the Commissioners otherwise direct.

(*2*) The outfall of a drain into a water-channel must be protected and guided in such manner as the Commissioners may direct.

[*The Darjeeling Municipal Bill.—Schedule B.—Rule 6.—Schedule C.—Rules 1, 2.*]

(*3*) Where the drain of a private road joins the drain of a public road, the former drain must be so directed or so protected by strike-boards as to prevent damage to the public drain or road.

6. A masonry drain must be placed round every dwelling-house, and the site must be sloped from all sides towards such drain.

Drain round dwelling-house.

SCHEDULE C.

RULES AS TO THE USE OF BUILDING SITES AND THE EXECUTION OF BUILDING WORK.

[*See sections 238, 239, 240, 244B, 244C, 244J, 244L, 244O, 272E and 351B.*]

Part I.—Definitions.

1. In this Schedule, unless there is anything repugnant in the subject or context,—

Definitions.

(*a*) the word 'base,' as applied to a wall, means the under side of the course immediately above the footings of the wall; [Rule 1 (*f*).]

(*b*) 'nogging' means lime or cement concrete, or brick-work in lime or cement mortar, which is filled in between the frames of iron or wood in a framed building; and [Rule 1 (*k*).]

(*c*) 'topmost storey' means the uppermost storey in a building, whether constructed wholly or partly in the roof or not, and whether constructed, used or adapted to be used for human habitation or not. [Rule 1 (*h*).]

Part II.—Building sites.

2. (*1*) When any application is made for approval of a site, or when application for permission to erect, re-erect or materially alter a hut involves the approval of a site, the Commissioners shall refer the application to the Municipal Engineer, who shall certify— [Cal., Sch. XVII, rule 1.]

Certificate by Engineer as to site.

(*a*) whether, in his opinion, the site is reasonably secure from danger from hillside slips either from above or from below, or could be made secure as aforesaid by the addition of protective works, and

(*b*) whether, in his opinion, if the site be built upon as proposed, the stability or security of any hillside or bank or any immoveable property thereon would be threatened by the building, or could be ensured by the addition of protective works.

[*The Darjeeling Municipal Bill.—Schedule C.—Rules 2-8.*]

(*2*) If the said Engineer certifies that the site is not secure as aforesaid, or that the stability or security of any hillside, bank or property would be threatened by the proposed building, or that the addition of protective works is necessary,

and if the Commissioners consider that the site ought nevertheless to be approved or that the said protective works need not be added,

the Commissioners shall refer the matter to the Engineer appointed under section 351D, and shall deal with the application in accordance with his decision, which shall be final.

(*3*) If protective works have to be added as aforesaid to any site, the site shall not be approved until such works have been constructed and have received the written approval of the Commissioners.

Part III.—Buildings generally.

Architecture.

3. Every building erected or re-erected, and every material alteration made to a building, must have such architectural features as to prevent the building being, in the opinion of the Commissioners, unsightly or unsuitable to its surroundings. [Rule 31; Cal., s. 367 (ii).]

Buildings of more than three storeys.

4. (*1*) Except with the special sanction of the Commissioners, no building shall be erected or re-erected so as to have more than three storeys. [Rule 7.]

(*2*) When any such sanction is given, the materials and method of construction of the building must be such as may be prescribed by the Commissioners.

Level of floor.

5. The floor or lowest floor of every building erected or re-erected from the ground level must be constructed at such level as will admit of— [Cal., Sch. XVII, rule 3.]

(*a*) the construction of a drain sufficient for the effectual drainage of the building and placed at such level as will admit of the drainage being led into some drain at the time existing or projected, and

(*b*) there being an air space of at least six inches in depth between the under side of the floor joists and the ground level.

Building over drain.

6. A building shall not be placed over any drain, except with the written permission of the Commissioners. [Cal., Sch. XVII, rule 4.]

Part IV.—Masonry buildings and framed buildings generally.

Foundation.

7. The foundation of a masonry or framed building must rest on solid ground or rock. [Cal., Sch. XVII, rule 7]

Footings for walls.

8. (*1*) The projection of the bottom of the footings on each side of each wall of a masonry or framed [Rule 1 in Schedule.]

[*The Darjeeling Municipal Bill.—Schedule C. Rules 9, 11.*]

building must be at least one-fourth of the thickness of the wall at its base.

(*2*) The height from the bottom of such footings to the base of each wall must be at least two-thirds of the thickness of the wall at its base.

(*3*) Except where the foundation is a rock, the bottom of such footings shall not be less than three feet below the ground level.

(*4*) When a wall is built on rock, footings may be omitted if the surface of the rock is properly cleaned and stepped to receive the first course of masonry.

External and cross walls of a one-storeyed building.

9. The external and cross walls of a masonry or framed building of one storey must be built of— [Rule 6.]

(*a*) stone or brick bedded in lime or cement mortar,

(*b*) stone or brick bedded in mud mortar, or

(*c*) timber or iron framing filled in with nogging, or covered with corrugated or plain iron, or planked:

Provided that, when stone or brick bedded in mud mortar is used, those portions of the walls around doors and windows, and under the wall-plates for one foot in depth, and in the foundations up to plinth level, must be of stone or brick bedded in lime or cement mortar.

External and cross walls of a two-storeyed building.

10. (*1*) The external and cross walls of the lower storey of a masonry or framed building of two storeys must be built of—

(*a*) stone or brick bedded in lime or cement mortar, or

(*b*) timber or iron framing filled in with nogging or covered with corrugated or plain iron:

Provided as follows:—

(*i*) if any of the said external walls do not support any masonry wall in the upper storey, they may be built of nogging instead of as prescribed in clause (*a*); and

(*ii*) if any of the said cross walls are intended for partitions only, and do not support any wall in the upper storey, they may be built of nogging or of timber framing planked with boards.

(*2*) The external and cross walls of the upper storey of a masonry or framed building must be built of the materials specified in clause (*a*) or clause (*c*) of rule 9.

External and cross walls of a three-storeyed building.

11. (*1*) The external and cross walls of the lowest storey of a masonry or framed building of three storeys must be built of—

(*a*) stone bedded in lime or cement mortar, or

(*b*) iron framing covered with corrugated iron or filled in with nogging;

and the external and cross walls of the storey next above the lowest storey of such a building must be built of—

(*i*) stone or brick bedded in lime or cement mortar, or

(*ii*) timber or iron framing filled in with nogging or covered with corrugated iron:

[*The Darjeeling Municipal Bill.—Schedule C. Rules 12, 17.*]

Provided that if any of the cross walls in either of the said storeys are intended for partitions only, and do not support any wall in the storey above, they may be built of planked timber framing.

(*2*) The external and cross walls of the topmost storey of a masonry or framed building must be built of—

(i) stone or brick bedded in lime or cement mortar, or

(ii) timber or iron framing, filled in with nogging, or covered with corrugated or plain iron, or planked.

Party-walls.

12. The party walls of a masonry or framed building must be built of stone or brick bedded in lime or cement mortar for their full height, and must be carried up, of a thickness of not less than nine inches, above the roof, flat or gutter to such a height as will give a distance of at least eighteen inches measured at right angles to the slope of the roof above the highest part of the roof, flat or gutter.

Roofs.

13. (*1*) The roof of every masonry or framed building must be constructed of corrugated or plain iron, lead slates or tiles: [Rule 8.]

Provided that, with the written permission of the Commissioners, any such roof may be constructed of shingles securely attached to a frame of iron or timber.

(*2*) The rise of the roof shall not in any case be less than one-eighth of the span.

Floors.

14. The floors of every masonry or framed building must be constructed to bear safely the maximum load to be carried, such load being taken as not less than sixty pounds *per* square foot, including the weight of the floor. [Cal., Sch. XVII, rule 14.]

Beams and girders.

15. (*1*) All beams and girders in a masonry or framed building must be supported by a breadth of brick-work, stone or other solid substance sufficient to secure their stability. [Cal., Sch. XVII, rule 15.]

(*2*) The bearing of a beam or girder on a wall shall not, without the sanction of the Commissioners, be less than three-fourths of the thickness of the wall.

Iron work.

16. All iron posts, girders or joists or other iron work used for the support of any portion of a masonry or framed building must be of such quality and strength as are approved by the Commissioners. [Rule 17.]

Part V.—Dwelling-houses.

Free passage about dwelling-houses.

17. (*1*) Except with the written permission of the Commissioners, no dwelling-house or part thereof shall be erected, re-erected or extended so that any external wall thereof is in any direction at a distance less than— [Rule 21.]

(*a*) twenty feet from any part of any adjacent building or structure, or

[The Darjeeling Municipal Bill.—Schedule C. Rules 18, 21.]

(b) ten feet from the boundary of the holding on which the house stands, or

(c) four feet from the side of any public road.

(2) The said permission shall not be granted unless the Commissioners are satisfied that notice of the intention to apply for it has been given to the neighbouring proprietor or his agent, and shall not be refused except on sanitary or other public grounds.

(3) If the said permission be granted, the Commissioners shall send a copy thereof both to the applicant and to the said neighbouring proprietor.

Out-houses.

18. Every person who erects or re-erects out-houses, or ranges or blocks of out-houses, whether the same are to be used as dwellings or stables or for any other purpose in connection with a dwelling-house, must build the same— [Rule 22 1884, s. 243.]

(i) so that they may stand in regular lines, with a free passage or way, in front of and between every two lines, of such width as the Commissioners may direct, for ventilation and for facilitating scavenging; and

(ii) with such and so many privies, latrines or urinals, and such means of drainage, as the Commissioners may require; and

(iii) at such level as will suffice for the means of drainage required by the Commissioners.

Rooms of dwelling-house to be open to outer air.

19. The whole of at least one side of every room in a dwelling-house must either be an external wall or abut on a verandah. [Cal., Sch. XVII, rule 19.]

Size and ventilation of inhabited rooms.

20. Every room in a dwelling-house which is intended to be used as an inhabited room— [Cal., Sch. XVII, rule 20.]

(a) must be in every part not less than eight feet in height from floor to ceiling or, in the case of a room in the roof, must have an average height of not less than seven feet from floor to ceiling; [Rule 24.]

(b) must have a clear superficial area of not less than eighty square feet; and

(c) must be ventilated by means of doors or windows which open directly into a verandah or the external air, and which have an aggregate opening, clear of the framing, equal to not less than one-tenth of the superficial area of the floor of the room. [Rule 24.]

Part VI.—Applications for approval of sites for, and for permission to erect, re-erect or materially alter, masonry buildings or framed buildings.

Application for approval of site for erection, re-erection or material alteration of a masonry or framed building.

21. (1) Every application for approval of a site for the erection or re-erection of a masonry or framed building must be written on a printed form (to be supplied by the Commissioners free of charge), and must state [Cal., Sch. XVII, rule 30; 1884, s. 237.]

[*The Darjeeling Municipal Bill.—Schedule C, Rule 21.*]

the position of the site, the number assigned to it in the valuation and rating list, its dimensions, and such other particulars as may be prescribed by the Commissioners.

(2) The site-plan sent with such an application must be drawn to a scale of not less than one-fiftieth of an inch to a foot, must be sent in duplicate, and must show—

(*a*) the boundaries of the site;

(*b*) the position of the site in relation to neighbouring roads, hillsides and banks;

(*c*) the angle and the character of the hill-sides or banks occupied by and abutting on the site;

(*d*) whether the site is wooded or not;

(*e*) what springs and *jhoras* (if any) there are on the site;

(*f*) what excavations (if any) it is proposed to make on or near the site;

(*g*) what protective works (if any) it is proposed to construct on, or for the support of, the site;

(*h*) the name of the road (if any) in which the building is proposed to be situated;

(*j*) the position of the building in relation to—

(i) the boundaries of the site,

(ii) all adjacent roads, buildings and premises within a distance of forty feet of the site, and

(iii) (if there is no road within a distance of forty feet of the site) some existing or projected road;

(*k*) the means of access to the building from the road;

(*l*) the position and approximate height of all other buildings within forty feet of the boundaries of site;

(*m*) the position, form and dimensions of privies, urinals, drains, stables, cattle-sheds, cow-houses and other appurtenances of the building, and the inclination of such drains;

(*n*) free passage or way in front of the building;

(*o*) space to be left about the building to secure a free circulation of air, admission of light, and access for scavenging purposes;

(*p*) the width and level of the road (if any) in front and of the road (if any) at the rear of the building; and

(*q*) such other particulars as may be prescribed by the Commissioners.

(3) The foregoing sub-rules shall apply also in the case of applications for permission to materially alter a masonry or framed building in the manner indicated in clause (*b*) of section 238, in so far as the said sub-sections are capable of application to the intended alteration.

[*The Darjeeling Municipal Bill.—Schedule C, Rules 22, 23*]

22. (*1*) Every application for permission to erect or re-erect a masonry or framed building must be written on a printed form (to be supplied by the Commissioners free of charge), and must state the description of the building, its dimensions, and such other particulars as may be prescribed by the Commissioners. [Cal., Sch. XVIII, rule 31; 1884, s. 237.]

Application to be sent and particulars furnished by person intending to erect, re-erect or materially alter a masonry or framed building.

(*2*) The plan of the building and the elevations and sections accompanying such an application must be neatly and accurately drawn to a scale of not less than one-eighth of an inch to a foot, must be fully dimensioned, and must be sent in duplicate, and the said plan must show—

(*a*) the levels and width of the foundation of the building;

(*b*) the level of the lowest floor of the building; and

(*c*) the level of all open spaces in the building or premises, and the plinth level of buildings with reference to the level at the centre of the nearest road.

(*3*) The specification accompanying such an application must comprise full information as to the following particulars, namely:—

(i) the materials and method of construction to be used for external walls, party walls, foundations, roofs, floors, fire-places and chimneys;

(ii) the manner in which roof and house drainage and the surface drainage of land will be disposed of;

(iii) the manner, if any, in which it is proposed to pave the open spaces in the building or premises, and the slope to which the surface is to be made in each case;

(iv) the purpose for which it is intended to use the building;

(v) if the building is intended to be used as a dwelling-house for two or more families, or as a place for carrying on any trade or business in which more than twenty people may be employed, or as a place of public resort, the means of ingress and egress; and

(vi) such other particulars as may be prescribed by the Commissioners.

Explanation to clause (iv).—If it is intended to use the building or any part thereof for any of the purposes specified in section 261, or as a stable, cattle-shed or cow-house, the fact must be expressly stated.

(*4*) The foregoing sub-rules shall apply also in the case of applications for permission to materially alter a masonry or framed building, in so far as they are capable of application to the intended alteration.

23. (*1*) The plans, elevations and sections referred to in section 240 must be signed clearly and in a prominent place by the owner of the building. [Cal., Sch. XVII, rule 33.]

Signature of plans, elevations, and sections.

[The Darjeeling Municipal Bill.—Schedule C, Rules 24-28.]

(*2*) If the said documents have been prepared by an Architect or an Engineer, they may be signed by him as well as by the owner.

Power to require further information.

24. (*1*) Within thirty days after the receipt of any application under section 238 or section 240, the Commissioners may require the applicant to furnish them with any information which has not already been given in the documents received. [Cal., Sch. XVII, rule 34.]

(*2*) If any information required under sub-rule (*1*) is, in the opinion of the Commissioners, incomplete or defective, they may, within thirty days after the receipt of the same, require further information to be furnished.

(*3*) If any requisition made under sub-rule (*1*) or sub-rule (*2*) is not complied with within three months, the application received under section 238 or section 240, as the case may be, shall be deemed not to have been made.

Modification, signature and disposal of plans.

25. (*1*) When the Commissioners have approved any site-plan or given permission to execute any work, any modifications which they may have directed to be made in such site-plan or in any of the approved plans of the work shall be entered on both copies of the plan, and the copies shall be signed on behalf of the Commissioners. [Cal. Sch. XVII, rule 35.]

(*2*) One of the signed copies of each plan shall then be returned to the applicant, and the other shall be kept in the office of the Commissioners.

Part VII.—Huts.

Prohibition of projections or dropping of water over road or passage.

26. Every hut abutting on a road or passage, whether public or private, must be constructed so as not to project over, or admit of water from the roof falling upon or injuring, the road or passage. [Cal., Sch. XVII, rue 44.]

Part VIII.—Applications for permission to erect, re-erect or materially alter huts.

Application for permission to erect, re-erect or materially alter a hut.

27. (*1*) Every application for permission to erect, re-erect or materially alter a hut must be written on a printed form (to be supplied by the Commissioners free of charge) and must contain a description of the site. [Cal., Sch. XVII, rule 47.]

(*2*) If it is intended to use the hut or any part thereof for any of the purposes specified in section 261, or as a stable, cattle-shed or cow-house, the fact must be expressly stated in the said application.

Power to require further information.

28. (*1*) When any application under section 244J has been received, the Commissioners may require the applicant to furnish them with any additional information which they may consider it necessary to obtain. [Cal., Sch. XV rule 48.]

(*2*) If any information required under sub-rule (*1*) is, in the opinion of the Commissioners, incomplete or defective, they may require further information to be furnished.

(*3*) If any requisition made under sub-rule (*1*) or sub-rule (*2*) is not complied with within one month, the application received under section 244J shall be deemed not to have been made.

[*The Darjeeling Municipal Bill.—Schedule D, Rules 1-7.*]

SCHEDULE D.

RULES AS TO REVETMENTS, RETAINING-WALLS, TOE-WALLS, TURFING AND SLOPING.

(*See sections 248E and 351B and Schedule A, rule 3.*)

Part I.—Revetments and retaining-walls.

Foundation and bed-line.

1. (*1*) The foundation of every revetment, retaining-wall or toe-wall must be taken down to original and firm soil or rock; and the bed-line must be cut at right-angles with the face of the revetment or wall.

(*2*) The building of any revetment, retaining-wall or toe-wall shall not be commenced until the foundation and bed-line have been inspected and approved by the Commissioners.

Materials.

2. (*1*) A revetment, retaining-wall or toe-wall may be made of dry rubble masonry, but must, in any case in which the Commissioners so direct, be made of lime masonry.

(*2*) No stone used shall be of greater height than its length or breadth.

Laying of stones.

3. All stones used must be laid on their natural beds, and must be arranged so as to break joint as far as may be possible.

Bonding.

4. (*1*) One through bonding-stone or line of bonding-stones must be inserted at intervals of five feet in each course, and at points intermediate between the corresponding bonding-stones of the course below.

(*2*) Any of the bonding-stones which do not extend right through the wall must overlap each other for one-third of their length.

Solidity

5. Every revetment, retaining-wall or toe-wall must be built up solid to full section; and spawls or chips shall not be used for filling the courses unless their use is unavoidable.

Weep-holes.

6. Weep-holes must be provided at intervals of four feet horizontally and four feet vertically, beginning with the course immediately above ground-level.

Sections.

7. (*1*) Where a revetment, retaining-wall or toe-wall does not exceed twenty feet in height and is not surcharged, its width at the top must be one-fifth of the vertical height, the face batter must be one in four, and the width at the base, measured horizontally, must be equal to the height divided by five *plus* the height divided by four:

Provided that the width at the top shall in no case be less than one foot six inches and need not in any case exceed three feet six inches.

(*2*) Where a revetment, retaining-wall or toe-wall does not exceed twenty feet in height and is surcharged, sub-rule (*1*) shall apply, the height being asumed, for the purposes of that sub-rule, to be one-and-a-half times the vertical height.

[*The Darjeeling Municipal Bill.—Schedule D, Rule 8.—Schedules E and F.*]

(*3*) Where a revetment or retaining-wall exceeds twenty feet in height, detailed designs must be submitted to the Commissioners, and the sections must be such as the Commissioners may approve.

Part II.—Sloping.

8. When, in pursuance of any requisition or direction made or given by the Commissioners, any slope is to be reduced, the angle to which the slope is reduced shall not be greater than 37°.

Angle.

SCHEDULE E.

REPEAL OF CERTAIN PORTIONS OF THE BENGAL MUNICIPAL ACT, 1884.

(*See section 24.*)

1	2
Portions of the Bengal Municipal Act, 1884.	Extent of repeal.
Sections 208, 232 and 267, and section 270, clauses (*4*) and (*5*).	The whole.
Section 218	The figures and word "207 or 208."
Sections 224 and 229, and section 272, clause (*2*).	So much as relates to drains.
Section 271	The figures "227" and "238."
Section 273, clause (*1*).	The figures and words "238 or 241, or lets a house for occupation contrary to the provisions of section 242."

SCHEDULE F.

TEMPORARY AMENDMENT OF CERTAIN PORTIONS OF THE BENGAL MUNICIPAL ACT, 1884.

(*See section 27.*)

1	2
Portions of the Bengal Municipal Act, 1884.	Amendments.
Section 30	So far as this section relates to roads, bridges, channels and drains, *for* "the Commissioners" *read* the "Local Government," and *omit* the proviso.

[*The Darjeeling Municipal Bill.—Schedule F.*]

1	2
Portions of the Bengal Municipal Act, 1884.	Amendments.
Section 31	So far as this section relates to roads, bridges, channels and drains, *for* "The Commissioners at a meeting" *and for* the words "the Commissioners," wherever they occur, *read* "the Local Government," *and for* "Municipal Fund" *read* "public funds."
Section 34	*After* "The Commissioners at a meeting" *insert* "or the Local Government, as the case may be."
Sections 37, 219 and 271 ...	*After* "the Commissioners" *insert* "or the Local Government."
Section 69	The duties and powers conferred and imposed on the Commissioners in respect of the construction, maintenance, repair and improvement of roads, bridges, channels and drains shall be performed and may be exercised, respectively, by the Local Government, at the cost of the public funds.
Sections 120 to 129	For the purpose of the recovery, in pursuance of section 360, of moneys due to the Local Government,— (*a*) *after* the word "Commissioners," wherever it occurs, *insert* "or the Local Government, as the case may be", and (*b*) *after* "Municipal Fund," in section 124, *insert* "or the public funds, as the case may be."
Sections 183, 211, 212, 351, 353 and 361 (paragraph 1).	*After* "the Commissioners," wherever those words occur, *insert* "or the Local Government, as the case may be."
Sections 190, 191, 197, and 198 ...	So far as these sections confer power to take action in respect of drains, streams, channels, watercourses and springs for other than sanitary purposes, *for* "the Commissioners" *read* "the Local Government."
Sections 201, 202 to 206, 209, 210, 218, 226, 230 (so far as it relates to drains), 233 to 235 and 269, and section 272, clause (*1*).	*For* the words "the Commissioners" and the words "the Commissioners at a meeting," wherever they occur, *read* "the Local Government."
Section 203	*For* "Municipal Fund" *read* "public funds."

[*The Darjeeling Municipal Bill.—Schedule F.*]

Portions of the Bengal Municipal Act, 1884.	Amendments.
1	2
Section 212, paragraph 2 ...	*After* "the Municipal Fund" *insert* "or the public funds, as the case may be."
Section 350	So far as this section relates to— (*a*) preventing obstructions and encroachments on roads, (*b*) regulating the use of streams and channels, and (*c*) regulating the management of drains, *for* the words from "The Commissioners" *to* "given" *read* "The Local Government may."
Section 352	*Before* "may order proceedings" *insert* "the Commissioners or the Local Government, as the case may be." *After* "the Municipal Fund" *insert* "or out of the public funds, as the case may be."
Section 354	*After* "deposited in the office of the Commissioners" *insert* "or of the authority issuing the same." *After* "as the Commissioners" *insert* "or the said authority, as the case may be." *For* "inspection in the office of the Commissioners" *read* "inspection in the said office."
Section 360	*After* "the Commissioners of any Municipality" *insert* "or the Local Government."
Section 361, paragraph 2 ...	*After* "the Commissioners" *insert* "or the Local Government." *After* "the Municipal Fund" insert "or the public funds, as the case may be." *After* "such Commissioners" *insert* "or the Local Government, as the case may be."

[*The Darjeeling Municipal Bill.—Schedules F and G.*]

Portions of the Bengal Municipal Act, 1884.	Amendments.
1	2
Section 363	*After* "any municipality," "the said Commissioners" and "If the Commissioners," respectively, *insert* "or the Local Government." *After* "such Commissioners" *insert* "or of the Local Government, as the case may be."
Section 365, paragraph 1 ...	*For* "of the municipality" *read* "or the Local Government, as the case may be."

SCHEDULE G.

PORTIONS OF THE BENGAL MUNICIPAL ACT, 1884, THE POWERS OR DUTIES CONFERRED OR IMPOSED BY WHICH ON THE LOCAL GOVERNMENT MAY NOT BE DELEGATED.

(*See section 28.*)

So much of section 1A as authorises the making of a declaration, section 6, clauses (*14A*) and (*19*), sections 7 to 30, 32, 35, 37B to 68, 69A to 111A, 147A to 174, 220, 221, 223, 224A, 252, 255, 259 and 276, Parts VII to XI, and sections 350, 350A, 350B, 351, 351A, 351B and 351D.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to amend the Bengal Municipal Act, 1884, so as to take fuller powers for the control of roads, drains, hillsides and buildings in Darjeeling.

2 The circumstances which have rendered this legislation necessary are as follows. On the 23rd and 24th September last, very heavy and unprecedented rainfall occurred at Darjeeling; and this, following on an already excessive seasonal rainfall, resulted in numerous and disastrous landslips throughout almost every part of the town, causing the loss of 72 lives and extensive destruction of roads and houses, and other property. On the 3rd October, a Committee was appointed, consisting of engineers and residents of Darjeeling, under the presidency of Mr. Joscelyne, Chief Engineer, to inspect and report on the condition of buildings, roads and drains in Darjeeling, and to submit recommendations for such measures as they might consider necessary to prevent the occurrence of landslips in future, or to minimise their consequences.

3. The Committee made a very thorough and searching investigation, visiting every part of Darjeeling, examining the condition of every building, road or drain which had suffered material damage, and determining the cause of the injury in each case. In their report, which is printed as Paper No. 1 to the Bill, they have clearly traced the causes which led to the landslips, and have indicated the measures which are required in order to ensure safety for the future. The Committee are unanimously of opinion that, if their recommendations are accepted and reasonable precautions are taken in the future, the safety of the station will be assured.

4. The chief contributory causes of the damage done, as enumerated in paragraph 12 of the Committee's Report, are the following:—

(*a*) defective drainage of sites;
(*b*) excessive lead of road drains;
(*c*) imperfect or badly-constructed revetments;
(*d*) neglect to reduce or protect steep slopes; and
(*e*) undercutting of steep slopes for the formation of paths, roads and out-houses.

To these may be added the following, which are set forth in other parts of the report and in Appendices II and IV:—

(*f*) quarrying and removing of stones from *jhoras* and hillsides;
(*g*) defective supervision of building sites, including sites of huts;
(*h*) absence of power to regulate quarrying, or to deal with natural water-channels, outside municipal limits;
(*j*) insufficient turfing, and omission to plant suitable trees;
(*k*) construction of gardens and flower beds in unsuitable places; and
(*l*) formation of cattle runs by indiscriminate grazing of cattle on hillsides.

5. The remedial measures recommended by the Committee deal with each of these defects. They are summarised in paragraphs 13 and 14 of the Committee's report, and are set forth in greater detail in the report of a Sub-Committee which was adopted by the Committee and forms Appendix No. 4. It is to give effect to these recommendations that the Bill has been prepared.

6. Part I of the Bill makes such alterations in, and additions to, the Bengal Municipal Act, 1884, as are required for conferring the necessary powers. Part II contains a series of temporary provisions to enable the Government to exercise the new powers, through specially selected officers, until the Municipal Commissioners are financially in a position to exercise those powers themselves. The temporary transfer of these powers to the Government was recommended by the recent Committee (see paragraphs 15 and 16 of their report and paragraphs 13 and 14 of Appendix No. 4 to the Report), and the proposal has received the hearty approval of the Municipal Commissioners of Darjeeling (see Proceedings on page 2 of Papers No. 2). Provision is made in section 25 of the Bill for the withdrawal of Part II on the publication of a notification in the Calcutta Gazette.

CALCUTTA;

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 22nd December, 1899:—

No. 25 OF 1899.

A Bill to amend the Indian Articles of War.

V of 1869. WHEREAS it is expedient to amend the Indian Articles of War; It is hereby enacted as follows:—

Short title and commencement.

1. (*1*) This Act may be called the Indian Articles of War Amendment Act, 1900; and

(*2*) It shall come into force at once.

Substitution of new sub-articles for sub-article (*2*) of article 4, Act V, 1869.

2. For sub-article (*2*) of article 4 of the said Indian Articles of War, the following sub-articles shall be substituted, namely:—

"(*2*) Unattested recruits who, in the opinion of their Commanding Officer, are not likely to make good soldiers, and persons attested under these Articles who are serving in a cavalry corps and who have, in the opinion of their Commanding Officer, failed to become good riders, shall be liable to discharge from the service by order of the Commanding Officer of the corps or department to which they may belong:

"Provided that, in the case of persons attested under these Articles, this liability shall cease on the completion of their third year of service.

"(*3*) Every person so dismissed or discharged shall forfeit all claim to pension."

STATEMENT OF OBJECTS AND REASONS.

The practice of discharging from the service unattested recruits who were considered by their Commanding Officer to be unlikely to make good soldiers, and, in the cavalry branch, of discharging men at any time within the first three years of their service if they had failed to become, or were unlikely to become, good riders, was in vogue in the native army from its earliest days. In course of time, however, doubts arose as to the legality of the practice and, in deference to those doubts, it was discontinued. It has now been found, by experience, that it is necessary that Commanding Officers should be invested with the power in question, and the proposed amendment is introduced to place the legality of such proceedings beyond doubt.

EDWIN H. H. COLLEN,
Major-General.

The 21st December, 1899.

J. M. MACPHERSON,
Secretary to the Government of India.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, DECEMBER 27, 1899.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 249.

[First Publication.]

PACIFIC OCEAN—THE PHILIPPINES—LUZON.

Samur island—A rocky islet to the north-westward.

THE British Admiralty has given notice (No. 750 of 1899) of the existence of a rocky islet situated about 8½ miles north-westward of Samur island, north-east coast of Luzon; a reef of rocks, some of which are awash at low water, extends 1½ miles eastward of the islet, the sea breaking over the reef. Two soundings of 27 and 21 fathoms were obtained between this islet and Samur island.

Approximate position, lat. 14° 34′ N., long. 122° 40′ E.

This Notice affects the following Admiralty Charts:—Philippine islands, No. 943; between St. Bernardino and Mindoro straits, No. 2577: Also, Eastern Archipelago, part I, 1890, page 338; and Revised Supplement, 1898, relating to that work, page 68.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 250.

[First Publication.]

EASTERN ARCHIPELAGO—CELEBES.

Cape Besar—A reef to the eastward.

THE British Admiralty has given notice (No. 757 of 1899) of the existence of a reef with a least depth of 2 fathoms over it, about 8 miles eastward of cape Besar; it is situated with the west extreme of Bungkiel island bearing N. 20° W., distance 4½ miles, and north extreme of cape Besar S. 84° W.

This reef is about 500 yards long, east and west, and 300 yards broad, the water being discoloured.

Approximate position, lat. 0° 59′ N., long. 123° 8′ E.

(Variation 2° Easterly in 1899.)

This Notice affects the following Admiralty Chart:—Eastern Archipelago, No. 942a: Also, Eastern Archipelago, part II., 1893, page 383.

CALCUTTA, *the 22nd December 1899.*

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 251.

[First Publication.]

AUSTRALIA—Torres strait, inner route.

Shoal patches south of Aye reef and also between Ead and Jee reefs.

The Port Master, Brisbane, has given notice (No. 19 of 1899) that Commander Parry, of H. M. surveying vessel "Dart," reports that, when making a further examination of the Shoal Patches referred to in Notice No. 17, issued from this Office on the 25th October last, he found another coral head, about two yards in diameter, with only 18 feet over it at low water. The minimum depth given in Notice No. 17 should therefore be 18 feet instead of $4\frac{1}{2}$ fathoms.

Commander Parry also reports the existence of a shoal patch in the following position, viz.:—

Ead Reef Beacon—S. 36° 45′ W., distant 1 mile $5\frac{6}{10}$ cables.
Eff Reef Beacon—S. 80° 25′ W., distant 4 miles 4 cables.
Sea Reef Beacon—N. 86° 10′ W., distant 4 miles $4\frac{7}{10}$ cables.

Latitude 14° 3′ 15″ S.; Longitude 143° 55′ 42″ E., approx.

This shoal has 4 fathoms over it at low water, except at its southern end, where there is a minimum depth of only 16 feet. It is $1\frac{1}{2}$ cables long (north and south) and $\frac{3}{4}$ cable wide (east and west). Soundings of from 8 to 10 fathoms were found round the patch, which lies on the same bearing from Ead Beacon as the Taiwan Shoal, but is $4\frac{1}{2}$ cables to the northward of it. An even bottom of 10 fathoms (mud) exists between the two shoals.

Also, a shoal between Ead and Jee Reefs, in the following position, viz.:—

Ead Reef Beacon—S. 30° 55′ W., distant 1 mile $9\frac{6}{10}$ cables.
Eff Reef Beacon—S. 75° 30′ W., distant 4 miles $5\frac{5}{10}$ cables.
Sea Reef Beacon—S. 80° 50′ E., distant 4 miles $4\frac{9}{10}$ cables.

Latitude 14° 2′ 50″ S.; Longitude, 143° 55′ 51″ E., approx.

This is a small coral head, less than 50 yards in extent, with 24 feet over it.
The bearings in each case are given from the shoalest part of the patches.
Charts affected, Nos. 2921 and 2922; Australia Directory, vol. 2.

AUSTRALIA—MARY RIVER.

Additional lights and leading beacons.

THE Port Master, Brisbane, has given notice (No. 18 of 1899) that on and after 18th November 1899, the following new pair of leading lights and triangular beacons will be exhibited in the Mary River, viz.:—

Two white triangular beacons with a black vertical stripe in centre carrying lights at night situated on the right bank of the Mary River, about 8½ cables above the Leslie Rock, which in line bear about S. 29° E. and lead up the Dundathu Reach, intersecting the Dundathu Cutting lead.

Directions.—After passing through No. 2 or Leslie Rock Cutting, with the leading lights and beacons astern in line, continue keeping clear to the south or right bank until the leading beacons named above come in line astern, when continue with them in that position until the leading beacons for Dundathu Cutting come in line astern (or the leading lights in line ahead), when continue as before.

The new front light will be red. The least depth on this line at low-water springs is 10 feet.

Rangoon river—Alteration in Da Silva shoal.

THE following Notice to Mariners (No. 104 of 1899) issued by the Bombay Government is republished:—

A plan made by Commander St. L. S. Warden, R.I.M.S. *Dalhousie*, October 1899, shows Da Silva Shoal to extend one cable further east than shown on Admiralty Chart No. 833. Its eastern edge now lies S. 3° W. 10½ cables from North Beacon. From the eastern edge of the shoal Keikmalong Clump bears N. 68° E., Da Silva Point N. 38° W., and South Beacon S. 2° W. The Syriam Pagoda transit North Beacon now leads over the shoal in 6 feet least water.

The south end of Da Silva Shoal and the channel west of it have deepened. There is now a depth of 21 feet 12½ cables S. 8° W. from North Beacon and 13 to 17 feet between the shoal and Da Silva Point.

Approximate position—Lat. 16° 38′ 00″ N., Long. 96° 15′ 45″ E.

All bearings are true.

This Notice affects the following Admiralty Chart:—Rangoon River and approaches, No. 833, and Bay of Bengal Pilot, 1892, page 329.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 243.

[Third Publication.]

NEW ZEALAND—NORTH AND SOUTH ISLANDS.

Storm signals at certain light-houses.

THE British Admiralty has given notice (No. 721 of 1899) that on and after the 18th October 1899, the following weather forecast signals will be exhibited from the undermentioned light-houses, viz. :—

NORTH ISLAND.

Cape Maria van Diemen, in lat. 34° 28′ S., long. 172° 39′ E.
Tiri Tiri „ 36° 36′ S., „ 174° 55′ E.

SOUTH ISLAND.

Cape Campbell, in lat. 41° 43′ S., long. 174° 18′ E.
Cape Foulwind „ 41° 45′ S., „ 171° 29′ E.
Fairwell Spit „ 40° 33′ S., „ 173° 1′ E.

The weather signals consist of two symbols, a black cone and a black drum. The cone is 3 ft. high and 3 ft. wide at the base, and the drum is 3 ft. high and 3 ft. wide at either end.

These symbols will be used either with or without a red pennant; they will be shown to all vessels passing within signal distance, and between the hours of 8 A.M. and 6 P.M., unless the wind at the station is too strong.

Mariners are cautioned that weather forecast signals for the day are not to be considered as covering a distance greater than a radius of 200 miles from the place at which they are hoisted, and those made with the red pennant under as covering only a radius of 50 miles from the place at which they are hoisted.

If the symbols are not displayed, mariners desirous of obtaining information as to probable changes of weather are requested to use the International Code signal for that purpose.

The weather forecast for the day will be forwarded from Wellington as soon as possible after 10 A.M., except on the following days:—All Sundays. Christmas Day, Boxing Day, New Year's Day, Good Friday, Easter Monday, and the Sovereign's and Prince of Wales's Birthdays. Such messages ought to reach their destination, at latest, about noon on the day they are issued.

The red pennant hoisted below any weather signal made between the hours of 8 A.M. and noon will always indicate that such signal belongs to the forecast of the previous day.

Weather signals without the red pennant will always indicate that the forecast belongs to the day upon which they are hoisted.

The red pennant, when hoisted alone, will indicate that the forecast for the day has not been received from Wellington.

Whenever the wind at any of the signal stations has changed in such manner that the forecast for the previous day will not apply, no symbol will be displayed until the forecast for the day has been received at the station.

EXPLANATION OF SIGNALS.

Moderate Weather.

This will be indicated by the International Code signal.

CAUTIONARY SIGNALS.

Northerly Gales.

The cone hoisted point upwards will denote that strong winds or gales are probable from the northward—that is, from about north-east, changing by the north towards west.

N.B.—This change of wind is usually followed by strong winds or gales from the southward.

Westerly Gales.

The cone hoisted point downwards will denote that strong winds or gales are probable from the westward—that is, from about west, changing by the south-west towards south.

N.B.—After these gales have moderated the wind generally backs to the north-west or to the north; but should the southerly gale continue for a longer time than usual, the wind may be expected to work round as far as south-east.

Easterly Gales.

The cone hoisted point upwards with the drum below will denote that strong winds or gales are probable from the eastward—that is, from about north, changing towards the east and south-east.

N.B.—This change of wind denotes a black north-easter and an approaching cyclone.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS OF THE PORT OF CALCUTTA FOR THE YEAR 1898-99.

No. 2441Marine.

Government of Bengal,

MARINE DEPARTMENT.

Dated Calcutta, the 19th December 1899.

RESOLUTION.

READ—

The Administration Report of the Commissioners of the Port of Calcutta for the year 1898-99.

The total amount of the loans which have been raised by the Port Commissioners, from time to time, including the consolidated loan from the Government of Rs. 60,25,100, and the Dock loan of Rs. 2,87,70,566 amounted to Rs. 4,70,60,666, and the total amount outstanding on these loans on the 31st

March 1899, was Rs. 4,17,42,005. The total investments at credit of the sinking funds have been raised from Rs. 18,34,000 at the beginning, to Rs. 20,99,000 at the close of the year.

2. Against this debt (consisting of the unpaid portion of the consolidated loan from the Government), together with the book debt on account of the Port block transferred by the Government to the Commissioners in 1871, the Dock loan and the seven debenture loans, amounting in all to Rs. 4,38,41,005, the Commissioners hold block of the value of Rs. 5,76,32,200, and reserve funds amounting to Rs. 31,68,378, in addition to the valuable Strand Bank lands extending from Chandpal Ghat to Aheereetollah Ghat, for which they pay to the Government an annual quit-rent of Rs. 37,292.

3. In the beginning of the year traffic at the Docks was thrown into confusion, owing to circumstances which were unforeseen, and the equipment of the Docks proved inadequate to meet the strain. Howrah station having been closed for wheat and seeds in the beginning of May, all that traffic was sent to the Kidderpore Docks. This of itself would have severely tested the resources of the Docks, but, to add to the difficulties, only a very small portion of the goods was consigned to specified vessels. In numerous cases, the consignments arrived without marks or labels, and in advance of the invoices, and it was thus impossible to identify consignments. The custom also of selling railway receipts, and the original consignee taking no further interest in the matter, tended to increase the confusion. On the abatement of the traffic in wheat and seeds, another rush took place, as the coal traffic was able to avail itself of the wagons released from the wheat and seed trade. The coal traffic was, in its turn, again delayed by the block. The difficulties might have been mitigated, though they could not have been avoided, if the staff at the Docks had been numerically stronger and more efficient, but unfortunately, though far too few for the work, they were still further reduced at this time by sickness. The plague scare and labour troubles greatly helped to accentuate the difficulties of the situation.

4. A careful enquiry was held by a representative committee, appointed for the purpose, into the causes of these blocks and the remedies to be prescribed. The result of their recommendations was that the Port Commissioners obtained the sanction of Government to build more receiving sheds, sidings, and coal berths; to make the coal jetties continuous; to purchase more wagons and locomotives; to erect another salt golah; to acquire some necessary land, and to increase their staff.

5. To meet the cost of these and other improvements, including the cost of a new dry dock, this Government obtained during the year the sanction of the Government of India to the issue by the Port Commissioners of a loan of 48 lakhs at a rate of interest not exceeding 4½ per cent. During the year under review, the above scheme was energetically taken in hand, and since the close of the financial year, many of the items have been completed.

6. The year opened with a revenue balance of Rs. 9,33,573, and the income for the year under review amounted to Rs. 62,32,821. The expenditure including sinking funds, renewals, and improvements, amounted to Rs. 65,31,086, leaving a balance of Rs. 6,35,308 on the 31st March 1899.

7. In the year 1897-98, the income exceeded the expenditure by Rs. 80,295. In the year under review, the expenditure over the receipts was in excess by Rs. 2,98,265. This was chiefly due to the consequences of the block of wheat and seeds at the Docks, which involved the payment of claims amounting to Rs. 95,000, and also to large expenditure on the frequent handlings and shiftings of the grain which could not be delivered. The plague scare also necessitated the employment of inferior labour at enhanced rates, whilst the large increase of business done at the Docks was responsible for increased expenditure on coal, stores, and repairs.

8. The income under the head "Jetties" amounted to Rs. 16,48,606, or Rs. 45,299 less than that of the previous year. The expenditure amounted to Rs. 11,14,304, showing an increase of Rs. 1,18,046 as compared with that of the previous year. The net revenue under this head was Rs. 5,34,302 as compared with Rs. 6,97,647 in 1897-98.

9. The income derived from the Petroleum Wharf at Budge-Budge amounted to Rs. 3,77,020 against Rs. 4,06,349 in the previous year. The quantity of kerosine-oil imported was 38,134,516 gallons, as compared with 43,748,921 gallons during 1897-98.

10. The importation of oil from Russia was 51 per cent. of the total quantity imported in the year under review.

11. The total number of packages of tea amounted to 759,467 chests against 713,054 in 1897-98. The receipts, which were Rs. 95,010 in the previous year, amounted in the year under review to Rs. 1,00,003.

12. During the year 204 vessels with a tonnage of 541,086 were berthed at the Jetties against 214 with 557,706 during 1897-98. The average number of days each vessel occupied the Jetties was eight.

13. The income of the Harbour Master's Department amounted to Rs. 5,79,596 against Rs. 5,75,531 in 1897-98. The increase was due to larger receipts from Harbour Masters' earnings and the recovery of wreckage and anchors. The expenditure amounted to Rs. 6,93,800 against Rs. 6,49,861 in the previous year. The increase was due to heavy expenditure in connection with repairs of boats and vessels and to increased cost of river police establishment in consequence of the expenditure for the Dock police being debited in the Harbour Master's Department instead of to the Dock revenue.

14. During the year there were 11 casualties to vessels against 13 in the previous year. This gives a percentage of ·91, calculated on the number of vessels which arrived in the Port. None of the casualties were of a serious nature either with reference to the vessels concerned, or to the conduct of the Assistant Harbour Masters, with the exception of that which occurred to the ship *County of Kinross* on the 25th of January last. After steering that vessel out from No. 2, Prinsep's Ghât moorings, at about 5 o'clock in the afternoon, the Assistant Harbour Master anchored her abreast No. 1 Prinsep's Ghât moorings, in a line with the swinging buoys, with 20 fathoms of chain and in what he considered a clear swinging berth, trusting to the vessel swinging to the eastward; but it so happened that she swang to the westward, the wind being from the south-west, with the result that she tailed the bank and remained there till 2-30 A.M. the next day, when she was brought into the channel by the fire engine vessel *Hetty*. The vessel sustained no damage. The Assistant Harbour Master was severely reprimanded and punished.

Of the remainder, in five cases the officers concerned were exonerated from blame, in three they were reprimanded, and in the remaining two they were cautioned to be more careful in future.

15. The work of examining boats plying for hire was regularly attended to by the surveyors, and during the year 116 passenger boats and 250 cargo boats were surveyed. Of these, 86 passenger boats were found to have become defective through wear and tear, and 30 had become so by accidents. Of the cargo boats, 193 had become defective through wear and tear, and 57 from the effects of accidents.

16. The receipts from Port Dues amounted to Rs. 4,80,137 against Rs. 4,61,715 in 1897-98. The expenditure for the year amounted to Rs. 5,57,399 against Rs. 5,87,598 in the previous year.

17. No change appears to have occurred in the channel of the Sandheads. The Bell Buoy, which was reported missing in November, was found in position with its spire gone.

18. The principal changes which occurred in the river were at the Beaumont's Gut, Kaukhali Crossing, Edon Bar, Back of Hugli, James and Mary Shoal, Ninan, Tail of Fulta Sand and Royapore Crossing. The other channels were fairly steady during the year.

19. A sum of Rs. 9,08,545 was obtained from special tolls levied under section 108 of the Calcutta Port Act, 1890, against Rs. 11,27,752 in the previous year.

20. The result of the working of the Kidderpore Docks was as follows:—

Receipts.		Rs.	*Expenditure.*		Rs.
Graving Dock ...	...	1,54,821	Traffic establishment	...	2,28,921
Rent and Miscellaneous	...	28,375	Working expenses	..	11,88,852
Imports ...	...	50,925	Repairs ...	...	92,554
Exports ...	...	12,99,022	Municipal taxes	...	1,44,080
			Interest ...	...	11,50,823
Total	...	15,33,143	Total	...	28,05,230

21. The thanks of the Government are due to the Commissioners for their efficient management of the affairs of the Trust.

By order of the Lieutenant-Governor of Bengal,

R. B. BUCKLEY,

Secretary to the Govt. of Bengal.

FINAL REPORT ON THE INDIGO CROP OF THE LOWER PROVINCES OF BENGAL FOR THE YEAR 1899.

THE following is published for general information.

REVENUE DEPT., F. A. SLACK,

The 23rd December 1899. *Offg. Secy. to the Govt. of Bengal.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final Report on the Indigo Crop of the Lower Provinces of Bengal for the year 1899.

Character of the season.—The season was at the beginning rather favourable to the indigo crop, but the heavy downpour of June, July and August proved extremely injurious to the crop, which was further damaged in many districts by high floods due to that rainfall.

Area sown.—The total area cultivated in indigo this year is estimated at 452,700 acres against 512,100 acres estimated to have been sown in 1898. The large decrease (nearly 12 per cent.) is chiefly due to the steady decline of the industry in the chief indigo-growing districts of Lower Bengal. There is, however, little change observable as yet in the area sown in the more important indigo-growing districts of North Bihar, though it is anticipated that the competition with artificial indigo will shortly begin to affect the cultivation of the crop in that part of the Province as well.

Outturn.—Some of the District Officers have slightly revised their estimates of the crop since the date of the preliminary forecast of the indigo crop issued on the 4th October last. It appears that the District Officer, Bhagalpur, overestimated the outturn at the first forecast. Of the chief indigo-growing districts of Lower Bengal, Malda returns an outturn of 75 per cent. of the normal, and Burdwan estimates an outturn of 78 per cent. In all the other districts the estimate falls below 70. The five districts of North Bihar, which include almost all the most important indigo-growing districts of these provinces, and which appear to

have suffered most from the unseasonable weather, estimate an outturn of only 59 per cent. The average outturn in the districts of Lower Bengal is expected to be slightly better, viz. 64 per cent. The estimate of the outturn made by this Department in the preliminary forecast was a 60 per cent. crop for these provinces as a whole. The conditions have since remained practically the same, and there is no reason for changing that estimate. Messrs. Baines & Co.'s final estimate of the total outturn of indigo in the Bengal and Bihar districts amounts to 15,000 factory maunds and 45,000 factory maunds, respectively, against 16,300 factory maunds and 46,200 factory maunds estimated by the District Officers. These estimates practically agree, and that made by Messrs. Baines & Co. may be accepted as the final estimate of this Department.

D. L. ROY,

Assistant Director of Land Records and Agriculture, Bengal.

(COUNTERSIGNED.)

P. C. LYON,

Director of the Dept. of Land Records and Agriculture, Bengal.

CALCUTTA,

The 10th December 1899.

Final Report on the Indigo Crops of Bengal, 1899.

FINAL REPORT ON THE BHADOI CROPS IN BENGAL, 1899.

THE following is published for general information.

F. A. SLACK,

The 21st December 1899. *Offg. Secy. to the Govt. of Bengal.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final Report on the Bhadoi Crops in Bengal, 1899.

Explanatory.—The present report furnishes a review of all the *bhadoi* crops grown in these provinces, including such important food-crops as *aus* paddy, maize, and millets, and also non-food crops, such as jute, cotton, and indigo. Separate notes are issued by this Department for these non-food crops. It is, therefore, unnecessary to comment on them specially in this report. Among the *bhadoi* food-crops, *bhadoi* paddy (known in Lower Bengal as *aus* paddy) is the most important. It occupies an estimated area of 7,743,100 acres or about 50 per cent. of the total area cultivated in *bhadoi* crops. It is the only *bhadoi* cereal grown to any extent in Lower Bengal and in Orissa (where it is locally known as *beali*). The most important *bhadoi* food-crop grown in Bihar and Chota Nagpur is maize or Indian corn; *mandua* and *bhadoi* paddy coming next in importance. The *bhadoi* paddy of Bihar is, unlike the *aus* of Bengal, a low-land paddy which is reaped in October or November.

2. *Character of the season.*—The character of the season up to the middle of September was described in the preliminary forecast issued by this Department on the 26th September last. The rainfall in September was general in North and East Bengal, a little above the average in Bihar, but deficient in Orissa and Chota Nagpur, where it was only about half the normal fall. In October the rainfall was below the average everywhere, excepting Orissa and East Bengal, where it was excessive. A few scattered showers were received in the month of November. The season has

been altogether unfavourable to the *bhadoi* crops, the rainfall being both excessive and badly distributed, while in a few districts, some crops (especially paddy and jute) also suffered from insect pests.

3. *Area Sown.*—The District Officers of Hooghly, Dinajpur, Dacca, Faridpur, Muzaffarpur, Malda, Sonthal Parganas and Singhbhum have revised their estimates of normal area since the submission of the first report, in consequence of which the provincial total now stands at 16,495,000 acres against 16,464,600 acres shown in the preliminary forecast. The figures representing areas under actual cultivation, both this and last year, have also been revised by some District Officers. According to the district estimates, the total area cultivated in all kinds of *bhadoi* crops this year is 15,584,000 acres against 16,312,100 acres estimated to have been cultivated in 1898. The decrease of 728,100 acres is due to the unfavourable season. The area under *bhadoi* food-crops is estimated at 12,482,700 acres against 13,282,200 acres estimated last year, whilst the area under non-food crops shows on the other hand a slight increase of nearly two per cent., which is chiefly due to the fact that the cultivation of jute has extended in many districts in areas previously cultivated with rice, on account of the low prices prevailing for paddy at the close of last year.

4. *Outturn.*—From the district returns appended to this note, it will be seen that 11 districts* now report a better crop than was expected in September last, while in 11 others† the estimates remain unchanged. All the remaining 23 districts report worse harvests than previously anticipated. Taking the *bhadoi* crops of these provinces as a whole, it will be seen from the appended statement that out of 45 districts only one district, viz., Rangpur, reports a crop above the normal; in seven districts the outturn varies from 90 to 99 per cent. of a normal crop; in 12 others it varies between 80 and 90; in nine others between 70 and 80; in four between 60 and 70; in one district it is 57; and in the remaining 11 districts it falls below 50. The worst crops are reported from Behar and Chota Nagpur, and maize appears to have been the crop which has suffered most. Taking the Province as a whole, the District Officers estimate the outturn of all kinds of *bhadoi* crops at 67 per cent. of the normal

* *Viz.* Burdwan, Hooghly, 24-Parganas, Dinajpur, Rangpur, Bogra, Noakhali, Chittagong, Shahabad, Muzaffarpur, and Monghyr.

† *Viz.*, Murshidabad, Rajshahi, Jalpaiguri, Darjeeling, Pabna, Dacca, Faridpur, Backergunge, Darbhanga, Purnea, and Manbhum.

against 93 estimated in 1898. The estimate made in the first forecast issued by this Department was 80 per cent. of a normal crop. The conditions have since altered for the worse, and the final estimate of the actual outturn of all kinds of *bhadoi* crops may be taken as 70 per cent. of a normal crop.

5. *Gross outturn.*—Accepting a 78 per cent. crop for *bhadoi* paddy for the province, the estimate of the probable gross outturn of cleaned *bhadoi* rice amounts to 44,372,700 cwts. against 57,947,300 cwts. produced last year.

D. L. Roy,
Assistant Director of Land Records and Agriculture, Bengal.

Calcutta,
The 19th December 1899.

Final Report on Bhadoi Crops, 1899.

DISTRICT.	Total area of district in acres.	Total area in district estimated to be under cultivation in acres.	Names of *bhadoi* crops.	Approximate normal area under each specified *bhadoi* crop in acres.	Approximate area last year (1898) under each specified *bhadoi* crop in acres.	Estimated area this year (1899) under each specified *bhadoi* crop in acres.	Taking 100 to represent the normal outturn, how much represented the outturn last year (1898)?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1899)?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
1	2	3	4	5	6	7	8	9	10	11
Burdwan ...	1,726,080	1,353,800	*Bhadoi* paddy	173,700	172,500	173,000	100	85	The short outturn is due to excessive rain and high flood.	
			Indian-corn (maize)	3,000	3,000	3,000	100	100		
			Other *bhadoi* cereals and *bhadoi* pulses.	8,100	7,100	6,600	100	95		
			Other food-crops (*e.g.*, vegetables).	2,700	2,300	2,100	100	93		
			Other non-food crops, *e.g.*, jute indigo, *bhadoi til*, *sunn* hemp, mulberry, &c., &c.	28,000	26,900	26,300	85	86		
			Total ...	215,500	211,200	211,000	98	86		
Birbhum ...	1,121,920	900,000	*Bhadoi* paddy	144,100	150,000	150,000	100	100	The *bhadoi* crops have suffered somewhat from the scanty rainfall in September and October.	
			Indian-corn (maize)	1,900	2,000	2,000	100	75		
			Other food-crops (*e.g.*, vegetables).	1,400	1,500	1,500	99	75		
			Other non-food crops, *e.g.*, jute, indigo, *bhadoi til*, *sunn* hemp, mulberry, &c., &c.	2,800	2,500	2,500	85	100		
			Total ...	150,200	156,000	156,000	100	99		

DISTRICT.	Total area of district in acres.	Total area in district estimated to be under cultivation in acres.	Name of *bhadoi* crops.	Approximate normal area under each specified *bhadoi* crop in acres.	Approximate area last year (1898) under each specified *bhadoi* crop in acres.	Estimated area this year (1899) under each specified *bhadoi* crop in acres.	Taking 100 to represent the normal outturn, how much represented outturn last year (1898)?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1899)?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
1	2	3	4	5	6	7	8	9	10	11
Bankura ...	1,677,430	642,800	*Bhadoi* paddy	21,900	21,300	21,400	112	75	The rainfall in September was very scanty, and hence the outturn of the *bhadoi* paddy and some of the *bhadoi* crops has been less than what was estimated before.	
			Bajra	800	900	700	75	50		
			Mandua (*marua* or *ragi*) ...	1,100	1,100	[illegible]	75			
			Indian-corn (maize)	3,500	3,400	[illegible]	62			
			Other *bhadoi* cereals and *bhadoi* pulses.	8,400	8,700	8,400	75			
			Other food-crops (*e.g.*, vegetables).	700	800	1,000	93	100		
			Other non-food crops, *e.g.*, jute, indigo, *bhadoi til*, *sunn* hemp, mulberry, &c., &c.	8,600	9,100	9,000	100	106		
			Total ..	45,100	45,300	44,500	97	73		
Midnapore ...	3,392,800	2,111,500	*Bhadoi* paddy	147,300	108,300	107,700	69	78	The prospects of the *bhadoi* crops were hopeful at the beginning, but after the transplantation the crops suffered from want of rain, and though there was sufficient rainfall just before the flowering time, it did not much improve the prospects of these crops.	
			Bajra	6,100	6,000	6,100	70	75		
			Mandua (*marua* or *ragi*) ...	2,000	2,000	2,000	60	70		
			Indian-corn (maize)	21,200	18,000	18,000	65	80		
			Other *bhadoi* cereals and *bhadoi* pulses.	48,700	45,900	50,900	65	74		
			Other food-crops (*e.g.*, vegetables).	33,300	19,500	23,500	61	70		
			Other non-food crops, *e.g.*, jute, indigo, *bhadoi til*, *sunn* hemp, mulberry, &c., &c.	77,400	90,000	75,100	58	68		
			Total .	286,000	290,000	283,100	60	73		

Hooghly ...	1,097,360	702,300	*Bhadoi* paddy ...	46,000	47,900	48,900	56	55	Seasonable rain has to a certain extent improved the outturn of "*bhadoi* paddy" and "other food-crops" since the submission of the preliminary forecast of *bhadoi* crops.
			Indian corn (maize)	100	100	100	88	75	
			Other *bhadoi* cereals and *bhadoi* pulses.	2,500	2,600	2,200	81	70	
			Other food-crops (*e.g.*, vegetables).	3,000	3,300	6,200	75	89	
			Other non-food crops, *e.g.*, jute, indigo, *bhadoi til*, *sunn* hemp, mulberry, &c., &c.	28,700	35,000	18,500	81	75	
			Total ...	80,300	88,000	75,900	83	82	
24-Parganas ...	1,344,640	1,102,000	*Bhadoi* paddy ...	108,700	122,100	90,600	106	82	It is believed that the outturn of *bhadoi* paddy was underestimated in the preliminary forecast.
			Other *bhadoi* cereals and *bhadoi* pulses.	3,000	2,600	3,400	75	81	
			Other food-crops (*e.g.*, vegetables).	4,800	5,400	4,500	96	89	
			Other non-food crops, *e.g.*, jute, indigo, *bhadoi til*, *sunn* hemp, mulberry, &c., &c.	42,000	23,300	27,500	100	77	
			Total ...	158,000	153,400	126,000	104	81	
Nadia ...	1,788,160	11,303,000	*Bhadoi* paddy ...	276,300	412,400	343,200	89	80	The figures for "other *bhadoi* cereals and *bhadoi* pulses" and "other non-food crops" in column 7 have been revised since the submission of the preliminary forecast.
			Indian corn (maize) ...	1,000	100	200	65	60	
			Other *bhadoi* cereals and *bhadoi* pulses.	45,200	30,000	30,300	70	72	
			Other food-crops (*e.g.*, vegetables).	20,900	16,200	15,700	80	75	
			Other non-food crops, *e.g.*, jute, indigo, *bhadoi til*, *sunn* hemp, mulberry, &c., &c.	107,800	70,700	80,200	86	44	Excessive rain did considerable damage to the indigo crop hence the short outturn of "other non-food crops."
			Total ...	451,200	528,400	469,500	87	73	
Murshidabad	1,373,440	985,500	*Bhadoi* paddy ...	229,700	230,200	229,700	78	78	The early rise of the river partially damaged the *bhadoi* paddy in some places in the *sadar* and Jangipur Sub-divisions and hence the low outturn.
			Indian corn (maize) ...	200	300	300	75	65	
			Other *bhadoi* cereals and *bhadoi* pulses.	2,200	1,900	1,900	80	86	
			Other food-crops (*e.g.*, vegetables.)	8,600	8,200	8,600	80	77	
			Other non-food crops, *e.g.*, jute, indigo, *bhadoi til*, *sunn* hemp, mulberry, &c., &c.	82,900	82,400	82,400	73	83	
			Total ...	323,600	323,000	322,900	79	79	

District.	Total area of district in acres.	Total area in district estimated to be under cultivation in acres.	Name of *bhadoi* crops.	Approximate normal area under each specified *bhadoi* crop in acres.	Approximate area last year (1898) under each specified *bhadoi* crop in acres.	Estimated area this year (1899) under each specified *bhadoi* crop in acres.	Taking 100 to represent the normal outturn, how much represented outturn last year (1898)?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1899)?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
1	2	3	4	5	6	7	8	9	10	11
Jessore ...	1,672,000	1,142,000	*Bhadoi* paddy	361,800	370,500	368,000	99	66	The short outturn is due to the damage caused by insects and excessive rainfall.	
			Other *bhadoi* cereals and *bhadoi* pulses.	16,600	16,200	16,200	93	75		
			Other food-crops, (*e.g.*, vegetables).	26,700	24,700	24,700	92	95		
			Other non-food crops, *e.g.*, jute, indigo, *bhadoi til*, *sunn* hemp, mulberry, &c., &c.	56,800	38,000	40,300	65	70	The figure for "other non-food crops" in column 7 has been revised after due enquiry.	
			Total ...	461,900	449,400	449,200	96	68		
Khulna ...	3,103,942	870,000	*Bhadoi* paddy	56,400	76,500	63,000	108	72	The decrease in the acreage under *bhadoi* paddy is due to the low price of paddy since last year. The low outturn is due to damage done by insects.	
			Other *bhadoi* cereals and *bhadoi* pulses.	3,200	3,200	3,200	100	100		
			Other food-crops (*e.g.*, vegetables).	3,700	5,000	5,000	75	65		
			Other non-food crops, *e.g.*, jute, indigo, *bhadoi til*, *sunn* hemp, mulberry, &c., &c.	29,800	15,200	16,100	65	78	The slight increase in the acreage under non-food crops is due to the low price of paddy. The difference between the outturn shown in this forecast and that shown in the preliminary forecast is due to the heavy rainfall in the autumn.	
			Total ...	93,100	99,900	87,300	100	74		

Rajshahi ...	1,663,040	1,422,100	*Bhadoi* paddy	119,800	139,700	119,600	[illegible]	78	
			Indian-corn (maize) ...	1,100	..	1,100		80	
			Other food-crops (*e.g.*, vegetables).	2,000	1,200	2,000	100	100	
			Other non-food crops, (*e.g.*, jute, indigo *bhadoi til*, *sunn* hemp, mulberry, &c., &c.	120,000	110,000	120,000	71	85	
			Total ...	242,900	270,900	242,700	[illegible]	81	
Dinajpur ...	2,526,080	1,687,600	*Bhadoi* paddy	129,700	146,900	129,700	100	100	In the early stage of its growth the *bhadoi* rice crop suffered to some extent from heavy rain but its prospects were considerably improved by the subsequent seasonable weather, which also benefited the non-food crops.
			Jowar	7,000	7,000	7,000	75	75	
			Mandua (*marua* or *ragi*)	7,000	7,000	7,000	100	90	
			Other food-crops (*e.g.*, vegetables).	100	100	100	75	75	
			Other non-food crops, *e.g.*, jute, indigo, *bhadoi til*, *sunn* hemp, mulberry, &c., &c.	81,500	80,000	80,000	100	100	
			Total ...	225,300	240,100	223,800	100	99	
Jalpaiguri ...	1,894,000	1,075,000	*Bhadoi* paddy	189,700	198,800	197,300	69	85	
			Indian-corn (maize)	1,000	2,500	[illegible]	91	90	
			Other *bhadoi* cereals and *bhadoi* pulses.	3,800	4,300	4,300	94	91	
			Other food-crops (*e.g.*, vegetables)	5,100	4,700	4,800	79	81	
			Other non-food crops, *e.g.*, jute, indigo, *bhadoi til*, *sunn* hemp, mulberry, &c., &c.	87,200	81,700	85,500	64	79	
			Total	287,700	292,000	293,000	68	83	
Darjeeling ...	744,960	142,000	*Bhadoi* paddy	7,000	6,200	6,200	118	84	Figures against "mandua" and Indian corn (maize)" in columns 6 and 7 have been revised, since the submission of the preliminary forecast.
			Mandua (*marua* or *ragi*)	7,700	5,900	5,900	116	99	
			Indian-corn (maize) ...	22,200	21,700	21,700	91	100

LIBERALITY OF RAI HARI CHARAN CHOWDHURY, ZAMINDAR OF NAKIPUR, IN THE DISTRICT OF KHULNA.

No. 5588Medl., dated Calcutta, the 20th December 1899.
From—E. N. BAKER, Esq., Offg. Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Commissioner of the Presidency Division.

I AM directed to acknowledge the receipt of your letter No. 93G.—Mis., dated the 24th November 1899, in which you report that Rai Hari Charan Chowdhury, zamindar of Nakipur, in the district of Khulna, has given Rs. 5,000 to the Magistrate of Khulna with the request that it may be invested in the highest rate of Government securities, and the interest accruing from it applied to the maintenance of the poor indoor patients in the newly-established hospital at Khulna, the investment being made in the name of the Magistrate and called the "Hari Charan Fund."

2. In reply, I am to request that you will be so good as to convey to the donor the thanks of Government for his liberality and public spirit. This letter will be published in the *Calcutta Gazette.*

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE PATNA DIVISION FOR THE YEAR 1898-99.

GENERAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 26th December 1899.

RESOLUTION—No. 4190Mis.

READ—

The Annual General Administration Report of the Patna Division for the year 1898-99.

The Division was administered by Mr. F. R. S. Collier from the 1st April until the 20th November, and for the rest of the year by Mr. J. A. Bourdillon, C.S.I.

2. *Tours and Inspections.*—With the exception of Muzaffarpur, due to the illness of the Collector, these were full and complete.

3. *Weather and Crops.*—The rainfall was above the average, but somewhat irregularly distributed. The most notable features were a comparative deficiency in the first part of the monsoon, excess in September, the absence of the usual *Hathiya* rains in October, and timely showers in January.

The result of this distribution was a somewhat damaged *bhadoi* crop, and a rice crop impaired by the floods of September and (in the higher fields) by the failure of the *Hathiya* rains, with a splendid *rabi* crop. The poppy did well on a reduced area, no less than 73 lakhs of rupees being distributed to the cultivators; and the indigo crop was above the average, though unfortunately the prices obtained for the produce were disastrously low.

4. *Public Health.*—The registered number of deaths was everywhere remarkbly low. There was a conspicuous absence of epidemics of cholera and small-pox, and fever is believed to have been much less fatal than usual. There was also a falling off in the number of patients at the dispensaries, and there are good grounds for the opinion of the local officers that the year was one of exceptional healthiness.

5. *Material Condition of the People.*—Excepting in one or two sharply defined areas, the crops were good, and succeeded even better ones. The cheapness of food-grains, to districts mainly importing, was much more an unmixed blessing than in other parts of the Province; and the people appear to have enjoyed, within the natural limits imposed by the density of the population, comparative prosperity.

6. *Prices of Food and Labour.*—The tables illustrating the prices of rice, wheat and maize which the Commissioner has embodied in his report are of much interest, but they suggest, amongst other reflections, that the preparation of the lists by the local officers are not based on a uniform system. The method of ascertaining the price of common rice is explained in Government Circular No. 11 of the 17th July 1899; and it seems more probable that the explanation suggested above is correct, than that there was a difference of no less than 8½ seers per rupee on the 25th March between the prices of Patna and those of Motihari. It is desired that the Commissioner will inquire into a matter, which is important, if all comparisons are not to be vitiated. The Lieutenant-Governor has read with interest the Commissioner's remarks about the preparation of a chart showing the mean prices of all the food-grains, and, when it is submitted, will consider whether it should be adopted generally or not. There is no question, however, that the year was one of low prices; and this no doubt conduced, though indirectly, to increase the wages of the agricultural labourers, who, though paid the usual proportions in kind, probably found employment much more abundant, and scrutiny much less severe.

7. *Trade and Commerce.*—The chapter on this subject is of interest. It brings into striking prominence the dislocation of trade that followed the great failure of crops in 1896-97; and these statistics appear to afford a most useful criterion with which to test the accuracy of the crop estimates furnished each year by the District Officers. The figures, as the Commissioner points out, are incomplete; for, except on the Nepal frontier, they exclude the traffic by cart and pack-bullock, which is probably considerable in the south of the Division. Still, as they stand, they no doubt represent very closely the fluctuations of trade.

The district abstracts are interesting; and very notable is the discrepancy between the exports and imports of Saran, which emphasises the degree of the dependence of that district on its opium, indigo and sugar, and on the wages earned through the annual migration to Bengal. The year was a good one for the opium cultivators; and though the price of sugar fell considerably below the high-water mark of 1897-98, yet the crop was very fine. The low price of indigo had no immediate effect on the cultivators; but plague scares somewhat reduced the number of those who went east for work. The conditions of Saran are merely an exaggeration of those of the other districts in the Patna Division, which, on the whole, enjoyed a great measure of prosperity. But it is clear that as the already dense population increases, agricultural prosperity will depend more and more on the specialised cultivation of valuable crops. Districts with a population of 500 to the square mile may continue to subsist on their crops of rice and barley and maize; but where that density is doubled, sugarcane and poppy, or other equally valuable crops, must take their place.

8. *Civil Justice.*—The total number of original cases disposed of by District Judges, Subordinate Judges, and Small Cause Court Judges was 2,618, and by Munsifs 42,410. The corresponding figures in the previous year were 2,635 and 41,345. The fluctuations in the various classes of cases, and in the various districts, were slight and have received no explanation. Witnesses, it is observed, were detained to a greater extent than in the previous year.

9. *Crime.*—In 1897, there was a most serious increase in the number of cognisable crimes, and famine was the reason assigned by the Commissioner in explanation. In 1898, there was a return to the level of 1896, the figures for the three successive years being (exclusive of offences against sanitary laws) 23,099, 34,029 and 22,907. Non-cognisable offences decreased by about 2,000 cases. These figures exhibit the persistence of what may be called the normal quantity of crime, but they also show that those whom hunger drove to commit theft have not formed permanent criminal habits. Dacoities (owing in great measure to the successful campaign in Saran and Champaran against the professional gangs) and riots were far less important components of the total than of old; and the Lieutenant-Governor feels justified by this report in congratulating the Division on the absence of serious and a reduction in the number of minor crimes. Last year it was found necessary to draw attention to the low proportion of bad livelihood cases tried in the villages of the accused, and therefore the Lieutenant-Governor observes with regret that the proportion is now still lower, when the excuse of last year may no longer be urged. It is obvious that the principle of trying these cases in the village of the accused is not applicable to strangers, or to Maghaiya Domes; but these form an inconsiderable portion of the accused. The criminal history of their charges is, or should be, known to the local police; and in the great majority of cases it is possible for the District Superintendent of Police to adjust the completion of his inquiries to the tour arrangements of the Magistrate. Where this cannot be done, and it is necessary to try the cases in the hot weather or rains, there is, of course, personal inconvenience to the Magistrate in going to the spot; but the Lieutenant-Governor cannot admit that the personal convenience of the Magistrate is a sufficient plea for trying three-fourths of these cases in Court. He regards the careful working of this valuable section of the Code as one of the most important functions of a Magistrate; and in Bihar, with its facilities for travel, and where, as the Commissioner points out, it is practically unknown for the members of a village to abuse this section to the injury of a fellow-member, he expects to find at least as high a proportion of locally tried cases as in any other Division in Bengal. He is assured that these distinct injunctions will not have to be repeated.

10. *Criminal Justice.*—During the year Stipendiary Magistrates disposed of 13,609 cases in which almost exactly half of the accused were convicted. The proportion of witnesses detained more than two days slightly decreased, and the proportion of decisions confirmed on appeal was almost stationary. Honorary Magistrates disposed of 10,300 cases, and convicted nearly 3 out of 4 of the accused, while 69 per cent. of the appeals from their decisions were unsuccessful. Witnesses were detained rather more than in the preceding year; but the Lieutenant-Governor considers the record of their work to

be favourable, and acknowledges with much pleasure the great assistance rendered to the stipendiary staff by the body as a whole, and especially by many individual Magistrates. It is observed that particular attention has been paid in the year to the subject of outstanding fines, and that a certain measure of success has been already attained in striking off irrecoverable fines. The Lieutenant-Governor trusts that this attention will be continued, and that steady progress will be made in this necessary work.

11. *Police.*—The Commissioner has devoted much attention to the various questions affecting chaukidars, and the Lieutenant-Governor observes with pleasure the progress made in carrying out the policy of Government in introducing the Chaukidari Act, in regrouping the villages, organising the daffadari circles, and improving the social position of the chaukidars. The subject of departmental fines and rewards has been fully discussed; and he would merely add that while he accepts the large number of fines in some districts as perhaps inevitable to the reorganisation of the components at the time, he anticipates and desires that this severity may now be discontinued. He repeats the remark of the Commissioner himself that its only result, instead of improving the work of the chaukidars, is to make them discontented and unwilling. He desires that the Commissioner will in due course inform Government of the degree of success that has been obtained in preserving the village rights in the *chakran* lands; and he wishes to learn to what degree the daffadars tend to become assimilated to the ordinary police, a tendency which he desires should be firmly checked. Further points to which he desires attention to be directed are the proportion of chaukidars to population, which apparently varies greatly in different districts, the incidence of taxation, towards the re-adjustment of which he is gratified to find efforts are being directed, and the number of villages where assessment lists have been examined in detail on the spot by the District Magistrates or Subdivisional Officers when on tour.

12. *Land Revenue.*—There was a large increase of 1,169 in the total number of estates paying land revenue, and no less than 1,286 new estates were created by partition. The total demand was for Rs. 85,73,846, of which Rs. 3,32,619 were for arrears. The total collections, which slightly exceeded the current demand, included Rs. 2,31,362 on account of arrears. Thus the outstanding arrears at the end of the year included one lakh due in the previous year and nearly two lakhs due in the current year. The collections are satisfactory as a whole, and the results obtained in some of the districts are very good. In others they are less creditable, and suitable notice of the failures has been taken in the Resolution on the Board's General Revenue Report. At the same time the Lieutenant-Governor recognises the peculiar difficulties under which the work is carried on, in the great number of separate estates, the increasing number of separate accounts, and the enormous number of petty co-sharers,—difficulties which reappear with even enhanced effect in the collection of the cesses. Hence he will readily consider any proposal which affords a reasonable hope of diminishing these evils. He observes that the efforts made to ensure the punctual sale of estates in arrears for land revenue were successful, the improvement effected in Saran being especially marked, and he trusts that these efforts will not be relaxed; but he agrees with the Commissioner's remarks as to undue leniency, specially in Saran, having been shown to defaulters. Leniency in a prosperous season to the extent which some of the Collectors have carried it is an administrative mistake.

The total current demand for the Road and Public Works cesses was Rs. 26,98,558, the total collections were Rs. 26,36,222, and the total balances Rs. 7,76,896, or 28 per cent. of the current demand. Results were markedly bad in Saran.

The volume of work in the Certificate Department has rapidly increased during the last year, and in some districts it has become a serious impediment to the success of district administration. The Lieutenant-Governor, in the Resolution on the Board's General Revenue Report, has recognised that matters have in some districts reached a stage at which drastic remedies must be applied, and the exact nature of those remedies will form the subject of a reference to the Board.

The record of progress in the decision of partition cases is more satisfactory than in the preceding year; but only one-fourth was disposed of. Apart from those districts in which a record-of-rights is being made, it appears that in Gaya only 38 out of 178 cases were disposed of: and one of those which were not completed was instituted as long ago as 1885. In point of seniority, however, it must yield to a case in Muzaffarpur which has almost attained its majority; and to one in Saran, which, if the appendix is correct, came into existence in 1865. The Lieutenant-Governor requests that the Board will call for the records of these cases, and satisfy themselves that the delay that has occurred has been unavoidable.

The aid of the Tenancy Act appears to be more frequently sought in the Patna Division than elsewhere; and petitions for the appraisement of produce, the registration of improvements and for issuing notice of the resumption of abandoned holdings are not uncommon It will be of great interest to observe the effect on these returns of the education in his rights which the present survey proceedings are giving to the raiyat.

13. *Wards and Attached Estates.*—These estates are of great importance in the Patna Division; and they add a heavy contribution to the burdens of the District Officers. Their management has been set forth in detail in the report of the Board on these kinds of estates; and the views of Government have been expressed in the Resolution on that report. On the whole, the collections were scarcely so satisfactory as was to be expected; and it is hoped that the results of the fine *rabi* crops will be seen in the collections of the present year.

14. *Excise: Stamps: Income-tax.*—Last year the belief was expressed that the decrease in the income from excise was temporary only, and that with the return of normal conditions the income would rise to its former level. This expectation has been only partially fulfilled; for though the income exceeded that of the previous year by Rs. 1,77,493, still it was lower than in any other year since 1892-93. The nominal incidence per head is 2 annas 7 pies, and the real incidence about 2½ annas.

The stamp revenue exhibits features *a priori* probable, namely, an increase in the receipts from Court-fee stamps, and a very great decrease in those from impressed sheets (*i.e.*, non-judicial stamps). The net result was a decrease of over a lakh of rupees. The collections of income-tax amounted to Rs. 4,63,271, or 98·5 per cent. of the demand, Muzaffarpur alone failing to attain the standard fixed by the Board. The incidence of the tax is about 4¼ pies per head.

15. *Railways.*—During the year the great chord line from Moghul Sarai to Lakhi Sarai progressed towards completion, the main work remaining to be done consisting of the Dehri and Phalgu bridges. There were only two serious railway accidents, one of which, in Shahabad, was caused by an intentional obstruction, and the other by the destruction of a bridge by floods in Muzaffarpur. Unpunctuality of an aggravated kind is charged against the Patna-Gaya and the Bengal and North-Western Railways. No new lines were commenced during the year: and no progress seems to have been made with any of the tramway schemes.

16. *Canals.*—The area irrigated by the Sone canals was slightly greater than in 1897-98, though of course much below that of the famine year. The collections were very good; for, after deducting a small sum which was remitted, nothing was left outstanding. The Saran canals were closed.

17. *Communications.*—The roads were kept in good condition, though much damaged in several districts by the September floods It is observed by the Commissioner that the amount spent on village roads in Champaran is *primâ facie* entirely inadequate. The Lieutenant-Governor agrees with this opinion, and desires to be informed how far the present distribution between main roads and village roads is conducive to the interests of the district as a whole. The expenditure on village roads for the Division exceeded the limit of Rs. 10 per mile due practically to flood damages. The objections of the Muzaffarpur and Darbhanga District Boards to plant trees on the road sides, though somewhat belated, are interesting; and the Lieutenant-Governor desires that as they are opposed to the expressed wishes of Government, they may be examined by the Commissioner and reported to Government without delay.

Much attention was given to the cleansing of wells in Saran and Muzaffarpur, and in the latter district a large sum was expended on the construction of 98 pucka wells. No reason is apparent why so little has been done in the districts of Patna and Champaran.

18. *Education.*—The number of boys at school was 176,757 and of girls 7,315. The total numbers of the last three years are 178,011, 177,125 and 184,072. Thus the increase has been small and relative to the increase in population. It is still for boys only 15·4 per cent. of those of school-going age, which compares very unfavourably with the proportions in the wealthier Divisions of Bengal. The district with the smallest proportion (Saran) is also the most densely populated. The number of girls at school has actually diminished. The total expenditure was over eight lakhs, of which nearly three lakhs were from public funds. Both middle English and middle vernacular schools lost ground equally, but the high schools had 10 per cent. more pupils.

19. *Hospitals and Dispensaries.*—There was again a great falling off in the number of the patients treated, which is ascribed by the Commissioner to the greater healthiness of the year, though there is no doubt that the plague scares continued to deter people from them. The income decreased by nearly Rs. 20,000. The Lieutenant-Governor observes with pleasure that the Zenana Hospitals are becoming more popular; and he would like to see every municipality providing trained female medical aid, the usefulness of which is not measured by the number of patients who seek it at the public institution itself.

20. *Municipalities, District and Local Boards.*—The impression conveyed by the report of the Commissioner on the working of the Municipalities is distinctly favourable. Marked progress was made in the reformation of administration in Patna, where the work of the new Secretary is stated to have been already productive of much good. In Chapra and Darbhanga an advance was made towards a better state of things. The Lieutenant-Governor learns with regret of the retirement of Babu Parameshwar Narain Mahtha, who, in spite of bad health, has for many years, as Vice-Chairman of the Muzaffarpur Municipality, rendered valuable services to that town. Elsewhere much good work was done by non-official Chairmen and Vice-Chairmen, whose public spirit the Lieutenant-Governor takes this opportunity of acknowledging.

Little in the report on the District Boards calls for comment. They continued to render valuable services. The Local Boards, on the other hand, are considered by the majority of the District Officers to be of little use.

21. *Employment of Muhammadans.*—Unlike the rest of the Province, in the Patna Division the proportion of appointments in the public service held by Muhammadans exceeds the proportion of the total population which they constitute, and in the past year the number of ministerial and menial posts held by them has increased. There are in the Division, as is well known, many Muhammadan families, which have for generations been employed in the public service; and the Lieutenant-Governor trusts that they will, by taking advantage of the opportunities for higher education now afforded them, continue to qualify themselves for that employment.

22. *Conduct of Zamindars.*—The year was marked by the sad event of the death of Sir Lachmessar Singh, Maharaja of Darbhanga, a reference to which was made in last year's Resolution. The progress of the cadastral survey on the north side of the Ganges has been a long-continued and thorough education of the people in their legal rights; and has accelerated the transition which, common to the whole Province, had made least progress in the densely populated and highly rented districts of Bihar. Unavoidable soreness has resulted, and reactionary efforts will be made; but in the great zamindaris of Bihar the inevitableness of the innovations was in some cases foreseen and in others has now been frankly recognised; and only a few minor landlords still resent the changes in the tenancy laws. With them the Lieutenant-Governor trusts to the District Officers to exercise the amount of judicious firmness necessary to tide over the early stages of the change.

23. *Public Feeling.*—The subject which above all others stirred the people was the possibility of plague. In the previous year novelty and uncertainty combined to create the wildest panics: in this year the reality was received with

calmness; and the success of the officials in stamping out the disease was only made possible by the most cheerful co-operation of the public. In Darbhanga, and still more in Saran, the plague obtained a real foothold; and the Lieutenant-Governor takes this opportunity of expressing his appreciation of the sense of duty which led the Collector of Saran and his colleagues to persist in their strenuous and successful fight at a time of the year and under conditions which necessitated the greatest discomfort and self-sacrifice.

24. From the very interesting and suggestive report of Mr. Bourdillon the following extracts are printed for the information of the public.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secy. to the Govt. of Bengal.

Extracts from the Annual General Administration Report of the Patna Division for the year 1898-99.

* * * * * * *

III.—WEATHER AND CROPS.

37. The following statement as usual gives the rainfall at each Sadar station, month by month, as compared with the normal rainfall, and the total at foot is compared for each district with the total in 1897-98. The figures have been taken from the reports of the District Officers as was done in 1897-98:—

MONTH.			PATNA.		GAYA.		SHAHABAD.		SARAN.		CHAMPARAN.		MUZAFFARPUR.		DARBHANGA.		AVERAGE.

N.B.—The figures in column "Actual" have been taken from the district reports for the *Sadar*, but the figures for the column "Normal" have been taken from the *Calcutta Gazette*, which appear to be mean for the whole district.

38. A glance at this table will show that in every district the rainfall has been in excess of the normal, the excess being very large in the case of Patna and Muzaffarpur and inconsiderable only in Gaya and Darbhanga. Next it will appear that, except in Gaya and Shahabad, the rainfall was everywhere greater than in 1897-98, the difference being greatest in Champaran and Muzaffarpur. Further scrutiny will show that this universal excess is entirely due to the heavy fall of rain in the autumn, for up till August the rains were somewhat deficient.

39. Briefly, the features of the year's rainfall were these: first a considerable deficiency in June everywhere, except in Shahabad; in July a continued deficiency in the three easterly districts north of the Ganges, though Patna, Shahabad, and Saran received more than the average: in August there was good rain everywhere, except in Champaran and Darbhanga, and the deficiencies were more than made good in all districts, except the two just named and Gaya,—indeed in Patna and Shahabad the excess was about 8 inches, and in Saran and Muzaffarpur about 6: then between the 3rd and 20th of September heavy rain fell in all districts, which became a perfect deluge in Champaran and

Muzaffarpur, the monthly totals in those districts being 29·88 inches and 24·10 respectively, while Darbhanga had 21·65: exhausted with this effort, the monsoon suddenly ceased, for the October rainfall was trifling, that for November nil, and that for December short again. In January some welcome showers fell, especially in South Bihar, while the rainfall for February was about the average. A rainfall so fitful must have caused considerable anxiety, and there must have been times when the outlook was far from bright, although the full crops of the year before and the comparative cheapness of grain must have precluded all fear of scarcity.

40. To enter more into detail, the effect of the weather on the crops was much as follows:—

The scanty and late rain in June, running into July, delayed the sowing of the *bhadoi* crops and the early rice, though when once the maize was down, the fine weather brought it on rapidly; south of the Ganges a good deal of damage was done towards the end of July by heavy rain: in August the maize was damaged almost everywhere by the same cause, as well as the growing rice: September with its heavy rain and floods washed out the rice in many places and further damaged the *bhadoi*, much of which had been cut and was still in the fields; the sudden cessation of the rains at the end of that month enabled much of the rice to recover, and the saturation of the soil provided excellent moisture for the *rabi*, which, moreover, was sown over a larger area, partly for that reason and partly because a good deal of vacant rice land was available. Finally, the fine winter months enabled the rice to be reaped without further trouble, and favoured the *rabi* which, refreshed by showers in January, gave, except in Shahabad, one of the finest harvests known for years. In short, the general result was a poor *bhadoi*, a middling rice crop and a splendid *rabi*. The figures given by the Director of Land Records according to the new system of notation are as follows, 100 representing a fair average crop and 125 a bumper:—

DISTRICT.	Bhadoi.	Aghani rice.	Rabi.
1	2	3	4
Patna	87	79	100
Gaya	79	101	100
Shahabad	65	91	89
Saran	84	80	123
Champaran	88	83	48
Muzaffarpur	50	54	115
Darbhanga	91	85	105
Divisional average about...	77	82	93

41. As regards poppy the year was good. In the Patna report nothing is said on the subject. In Gaya with a slightly smaller area under cultivation than in either of the two previous years, the outturn (7,324 maunds) was higher than in 1897-98 (6,787 maunds), but lower than in 1896-97, when it was 8,063 maunds. In Shahabad the same phenomena appeared—a smaller area and a larger crop, viz. 3,167 maunds against 2,863: the outturn is reckoned as 90 per cent. of a full crop. Saran, too, shows smaller cultivation and larger produce, the latter being 6,940 maunds against 6,655 but this is only 65 per cent. of a good crop, owing to blight in January and strong winds later on in the year. Champaran had good prospects till January: but unfavourable weather then reduced the outturn to 84 per cent.; in 1897-98 it was 97 per cent. The Muzaffarpur report does not deal with the poppy at all, but in Darbhanga the outturn was 100 per cent. The following table gives the usual statistical information as regards the poppy crop for the whole Division: it will be seen that the outturn was slightly greater than that of 1897-98, but that, owing to a reduced area under cultivation, the crop was equivalent to 93·8 per cent.

of a full one: the payments to cultivators amounted to 73 lakhs of rupees instead of 68⅕:—

Season.	Estimated produce.	Actual outturn.	Payments to cultivators— On account of opium.	On account of leaves.	On account of trash.	Total.	Remarks.
1	2	3	4	5	6	7	8
	Mds.	Mds. s. ch.	Rs.	Rs.	Rs.	Rs.	
1897-98	31,065	26,523 19 3¼	67,20,000	93,450	7,500	68,20,950	
1898-99	28,783	26,982 9 8¼	72,00,000	98,267	5,812	73,04,079	Approximate estimate calculated on maunds 30,000 of opium, maunds 13,400 poppy flower leaves, maunds 15,500 trash.

42. For indigo the season was very favourable, but prices ruled very low owing to the scare as to artificial indigo having forced on sales of stocks held in reserve. The outturn of Saran is estimated at 9,998 maunds, valued at Rs. 12,99,740, being 120 per cent. of a full crop. In Champaran the outturn was a full average, or 100 per cent., and in Darbhanga the produce was above the average, being 14,131 maunds as against 8,802 in 1897-98. The Muzaffarpur Collector gives no figures, but it is understood that in that district also the outturn was fully satisfactory.

IV.—PUBLIC HEALTH.

43. The year 1898 was an unusually healthy one in the Patna Division, as the figures in the marginal statement will show. Every district without exception returns a lower death-rate than in 1895, 1896, and 1897, and the general rate of mortality for the whole Division was 24·2 per mille as against 30·46 in 1895, 38·5 in 1896, and 32·5 in 1897. The figures were so remarkably good that nearly every District Officer suspected that fever deaths had been concealed lest they should be thought to have been plague, and took measures to apply such independent checks as could be devised; but, though the Magistrate of Gaya thinks that there may have been some bad reporting, it is admitted by all that the general health was in fact unusually good. There was no cholera or small-pox epidemic anywhere, and the fever was so much less, that it seems reasonable to think that the good crops, low prices, and plentiful food of the year enabled the poorer classes to resist better the attacks of malarial fever. I turn now to the district figures.

District.	Population in 1891.	Number of deaths reported. 1896.	1897.	1898.	Rate per mille. 1896.	1897.	1898.
1	2	3	4	5	6	7	8
Patna	1,760,004	73,814	56,576	42,125	41·64	31·9	23·70
Gaya	2,138,331	73,858	79,273	51,774	34·5	37·0	24·2
Shahabad	2,063,337	57,112	73,177	48,002	27·6	35·4	23·26
Saran	2,467,477	84,520	76,010	61,751	34·2	30·8	25·04
Champaran	1,859,465	74,925	64,717	45,564	40·29	34·8	24·5
Muzaffarpur	2,711,445	126,699	86,932	66,910	46·7	32·06	24·67
Darbhanga	2,801,955	117,467	76,665	67,685	41·9	27·3	24·1
Total ..	15,811,014	608,404	513,350	383,841	38·5	32·5	24·2

44. In Patna the Magistrate and the Civil Surgeon checked the lower death returns by an examination of the dispensary books, and found it supported everywhere by a great falling off in attendance. Small-pox was non-existent, and the deaths from cholera fell from 1,938 to 1,098.

45. In Gaya the immunity of the people from cholera was very remarkable, for the reported deaths were only 1,722 against 6,425 in 1897. Gaya town itself is always liable to invasions of cholera brought by the pilgrims, and provides a most suitable *nidus* for the disease. This year, however, only 187 deaths from cholera occurred in the town itself. In this district four Sanitary Inspectors are entertained by the District Board every year from May till October, both months inclusive. Small-pox deaths fell from 2,600 to 857, and the fever deaths from 59,249 to 40,317.

46. Shahabad shared in the general immunity from cholera, only 244 deaths having been recorded against 3,054 in 1897. During the year just named small-pox had been rather prevalent, and 4,070 deaths occurred: in 1898 the number was 28. Fever deaths fell from 55,779 to 39,147.

47. In Saran the cholera mortality was smaller than in any year since 1893, and the same may be said of the general death-rate. The deaths from cholera were 242 against 878, but those from small-pox showed a small increase from 899 to 985. The deaths from "other causes" continue to bear an extrordinarily high proportion to the total in this district, in spite of the attention that has been called to the matter again and again: in 1898 the number of deaths returned as due to "other causes" amounted to 44·35 per cent. of the whole, the proportion in other districts being as follows:—

Patna	27·6	Muzaffarpur	18·9
Gaya	16·6	Darbhanga	15·27
Shahabad	17·9	General Divisional average, excluding Saran	20·8
Champaran	28·08		

48. In Champaran again the death-rate has not been so low for years, viz., 24·5 per mille; but in 1893 it was as low as 25·16. Cholera was almost entirely absent (35 deaths against 1,309), and small-pox claimed only 530 victims against 827 in 1897. Fever deaths fell from 46,939 to 32,304.

49. In Muzaffarpur as compared with the previous year, the death-rate fell off by one-fourth, and there was practically no cholera or small-pox, the deaths being 178 and 64 against 953 and 75 in 1897. So few deaths from cholera had not been recorded for 15 years.

50. Unlike all the other districts in the Division, Darbhanga shows a slight increase under cholera, viz. 420 to 665, though it was spared the severe visitation of 1896, when 17,491 persons died of that disease. From small-pox there were only 22 deaths against 15 in 1897 and 286 in 1896. Contrary to expectation, the heavy floods of September 1898 were not followed by any large increase of fever.

51. Plague appeared during the year 1898-99 in four districts of the Division, viz., Patna, Saran, Muzaffarpur, and Darbhanga: in every case the disease was imported from Calcutta. It took an epidemic form in Saran and Darbhanga only, because there it had acquired a firm hold before the local officials were informed of the matter. The first death in Saran occurred on the 22nd January, being that of a man who struggled back from Calcutta and arrived in his village in a moribund condition. The District officials were not apprised of the real facts till about the 15th March, when they at once proceeded to the spot and did all that was needed. The last case occurred on the 26th April, and the infected villages, a small group in the Sonepur thana, were declared free of plague on the 28th May. Altogether there were in those villages 108 seizures and 87 deaths. During all this time the Magistrate and District Superintendent of Police, aided by an Assistant District Superintendent of Police deputed from Muzaffarpur, with the Civil Surgeon and the District Engineer when required, were constantly on the spot and dealt with the outbreak with unfaltering energy and self-devotion. In Darbhanga the plague was confined to one village—Jhalwara in the Sadar thana. From first to last there were 49 cases and 46 deaths. The District officials were fully equal to the emergency. Two fatal cases occurred in the Patna district—one in Patna city and one in Bihar town. In Muzaffarpur one isolated case occurred in the town of Hajipur. All these cases were reported without delay. Prompt measures were taken for isolation and disinfection, and they proved most effectual. The attitude of the people everywhere was most satisfactory, except for a short time in the Darbhanga village, which was peopled by bigotted Muhammadans, but even here they gave in eventually.

52. The following table gives the vital statistics for the year in the different municipalities of the Division, where both deaths and births are registered. As in the districts generally so in the towns the death-rate was, without exception, lower than in 1897. The very sharp fall in Bhabhua is due to the fact that in 1897 the municipality was visited with a smart attack of cholera. The most unhealthy town in the Division is Buxar, as it was in 1897,

but it is significant of the difference between the two years that whereas in 1897 the death-rate was 68·12, in 1898 it was 41·38:—

Statement showing the total number of deaths and the death-rate in the different Municipalities during the years 1897 and 1898.

District.	Town.	Population.	Deaths registered.				Births registered.			
			1897.	1898.	Rate per mille.		1897.	1898.	Rate per mille.	
					1897.	1898.			1897.	1898.

	Sitamarhi	8,715	359	257	41·19	29·48	331	344	37·98	39·47
Darbhanga	Darbhanga	73,429	2,388	1,939	32·5	26·4	2,208	2,181	30·0	29·72
	Madhubani	17,525	507	4 5	28·9	28·2	709	630	40·4	35·9
	Rosheru	10,885	402	291	36·9	26·7	340	351	31·2	32·2
	Samastipur	5,241	...	101	...	23·1	...	278	...	33·7
	Total ...	818,394	31,394	22,764	38 3	27·8	25,424	24,190	31·0	29·5

53. The reporting of births is still very indifferently performed, the general death-rate of the Division being only 29·5 per mille. It has often been pointed out that if the registered figures were correct, the towns ought to become depopulated, but this year the births actually do exceed the deaths, being 29·5 against 27·8. No town shows an absurdly low birth-rate, except Bhabhua, where we are asked to believe that it was only 15·54 per mille: the highest rate was recorded in Sitamarhi.

V.—MATERIAL CONDITION OF THE PEOPLE.

54. Taking the Division as a whole, the year 1898-99 was one of exceptional ease and prosperity, although, in a few special tracts to be noted presently, this general prosperity was impaired by local calamities. Mr. Oldham, Collector of Gaya, has well noted the signs of a prosperous year, and I reproduce the passage in full:—

"The harvests of the year were excellent: public health improved; emigration decreased; the prices of the three staples—rice, gram, and wheat—fell to half what they were in 1896-97; crime decreased in a marked degree; the number of deeds of sale and mortgage diminished; the excise revenue largely increased; the number of children attending the schools in the district increased, while the fairs were better attended; and finally the year has closed with such a briskness in the marriage market as has not occurred for many years."

To these outward and visible signs of prosperity Mr. Lister, the Sub-divisional Officer of Siwan, has added—

"A decrease in the sale of non-judicial stamps, an increase in the cultivation of the expensive cane crop, and an advance in civil litigation."

All these indications point to the fact that if ever the Bihar raiyat may be described as prosperous, happy and contented, it was in the year just past. It need hardly be said that a succession of good harvests has caused this prosperity, for not only do they bring abundance of food, but abundance of employment. As Mr. Macpherson, Collector of Saran, has pointed out, the series has been unbroken from the fine *bhadoi* September of 1897 to the splendid *rabi* crop which was reaped in March and April 1899.

55. But, as above stated, one or two tracts are unable to share in the universal jubilation. The northern parts of the Bettiah subdivision, especially the Shikarpur thana, which were so hard hit by the famine of 1896-97, had again a poor rice crop in 1898 and have in fact only just recovered from their

misfortunes. In the Dhaka thana of the same district, another tract where famine was bad in 1896-97, floods did much damage in September 1898. The same calamity washed away the rice and the late *bhadoi* in parts of Muzaffarpur and Darbhanga, but its effects were not so disastrous, as the floods were followed in most places by a splendid *rabi*, nevertheless in certain parts of Darbhanga, such as Hati in the south-east, where there is little *rabi*, the total loss of the rice caused real, though temporary, distress.

VI.—EMIGRATION AND IMMIGRATION.

56. The following table shows the number of emigrants registered during the last two years in the several districts of this Division, and it shows that the total of registered emigrants fell from 1,806 to 880, or more than 50 per cent. :—

Name of district.	For the colonies.		For the tea districts.	
	1897-98.	1898-99.	1897-98.	1898-99.
1	2	3	4	5
Patna	364	140	...	...
Gaya	...	...	370	154
Shahabad	885	504	77	76
Saran	80	6	...	...
Champaran	...	...	...	...
Muzaffarpur	...	...	...	...
Darbhanga	...	...	...	...
Total ...	1,329	650	447	230

57. The decrease in the number of emigrants is principally due to the return of prosperity. To some extent also in South Bihar it may be due to the employment afforded by the Moghalsarai-Gaya Railway; but I was surprised when at Dehri in December to hear that the number of local coolies employed on the great bridge being constructed there was very small. I can understand the skilled workmen being drawn from other places, but it astonished me to learn that nine-tenths even of the coolies were foreigners imported by contractors and mates from many distant parts of India.

58. Out of the six emigrants registered in Saran for the colonies during the year 1898, 4 were males and 2 females, as against 52 and 28, respectively, in the previous year. The decrease is no doubt due to the fact stated above that 1898 was a year of better crops than 1897, and that recruiters therefore found it less easy to induce people to emigrate than in 1897. Of the six emigrants registered, four were of the Saran district, one was from Shahabad, and one from the neighbouring district of Gorakhpur in the North-Western Provinces.

59. No emigrants either to the colonies or to the tea districts were registered in the districts of Champaran, Muzaffarpur, and Darbhanga.

60. There were no complaints during the year in regard to the system of recruitment.

61. The general condition of the depôts was on the whole satisfactory. The accommodation provided was sufficient and the supply of drinking water abundant. The sanitary arrangements were generally fairly good.

62. The classes that principally emigrate are Dusadh, Goala, Kahar, Koeri, Nonia, Rajput, Musalman, Bhuinhar, Kandu, &c.

63. As usual large numbers of able bodied labourers from Saran and Champaran left their homes after the rains to seek work in Bengal, and returned, or are now returning, in preparation for the season of cultivation. A considerable number of temporary emigrants from Shahabad and Gaya also march down the Grand Trunk Road for employment in Calcutta. The numbers who emigrated this year in both these groups were smaller than usual owing

to the fear of plague. Large number of labourers also go in to Nepal every year chiefly from Champaran to cut the rice and *rabi* crops.

64. There is practically no immigration into this Division.

VII.- PRICES OF FOOD AND LABOUR.

65. In accordance with custom, the following statement is given showing the price of three grains—common rice, wheat, and maize—on the last Saturday of each month in the year 1898-99, and I proceed to notice whatever is noticeable in them:—

Date.	Patna.			Gaya.			Shahabad.			Saran.		
	Common rice.	Wheat.	Maize.	Common rice.	Wheat.	Maize.	Common rice.	Wheat.	Maize.	Common rice.	Wheat.	Maize.

66. The statement, however, is not a very satisfying one, as it deals with only the better sorts of grain, and gives no information of the course of prices of the commoner sorts, the millets and pulses, which are the staple food of the poorer classes. In 1897, when the famine directed the solicitous attention of all persons to the price of grain, I kept up a chart from fortnight to fortnight showing the mean price of all the different kinds of grain mentioned in the fortnighty price-current reports, and when submitting my final famine report I inserted a chart (page 36) showing the range of prices for each fortnight of the year on an average of the years 1890—1895, and this chart was discussed and explained in paragraphs 111 to 113 of the report. A chart of the prices of the three grains quoted in the statement has also been prepared, but it differs considerably from the five-year chart of mean prices for two reasons,—*first*, because, as the figures are for three grains only, the omission of one grain, as frequently happens when it is not in the market, altogether vitiates the average: *secondly*, because they take no account of the cheap grains: the price of poultry and game would, in England, be no criterion of the pressure of prices on a population which lives on bacon and potatoes. In my next report I hope to present a chart showing the mean range of prices of all the food-grains in the fortnightly price-current reports, and a comparison

of such a chart, year by year, with the standard printed in my famine report, cannot fail, I think, to be interesting and instructive.

67. However, utilising such statistics as are at my command, I give in the margin an abstract statement showing the average price, throughout the Division as a whole, of common rice, wheat and maize on the last Saturday of every month in 1898-99.

Date.	Divisional mean price of—

68. Taking rice first, it will be seen that rice was 33 per cent. cheaper at the end of the year than it was at the beginning; starting with 12 seers 8 chitaks at the end of April 1898, the price actually fell to 18 seers on the 31st December of the same year, and though it rose slightly during the next three months, 16 seers 6 chitaks of rice were to be bought for a rupee at the end of March 1899: on the 31st December 1896 the average price of rice was 9 seers 4½ chitaks, and on the 31st March 1897 it was 9 seers 1 chitak: comment is unnecessary. During the year rice was never dearer than 11 seers (in Darbhanga), and it fell to 22 seers (in Patna) in three several months.

69. In the same way wheat, which was generally a seer or two cheaper than common rice, followed the same course, varying for the whole Division from 13 seers 10 chitaks in April 1898 to 18 seers 15 chitaks at the end of December, and rising again to 17 seers 6 chitaks at the end of March 1899: at the end of December and the end of March in the famine year the average prices were 8 seers 9 chitaks and 9 seers 3 chitaks. It was never dearer than 11 seers 8 chitaks (in Champaran) in July, and it was as cheap as 22 (in Patna) in December.

70. Lastly, maize, following practically the same course, ranged from 20 seers 12 chitaks in June, before the new crop was assured, to 30 seers 8 chitaks at the end of December, when the advent of the *aghani* rice and the prospect of a bumper *rabi* crop cheapened all grains in the market: even at the end of the year it had risen only to 30 seers. In the famine year the figures at the end of the calendar and the official year were 10 seers 13 chitaks and 10 seers 6 chitaks, but in Patna, Gaya, and Darbhanga there was at the latter date none in the market. In the past year it was never dearer than 19 seers (in Muzaffarpur and Darbhanga), and was actually as cheap as 45 seers for the rupee (in Patna) at the end of March. All these figures speak for themselves and confirm what has been said elsewhere in this report that the year was one of unusual prosperity and cheapness.

71. As regards the price of labour, little or no variation is reported; indeed it is idle to expect any variation from year to year, and if a comparison is to be instituted, it should be between dates 20 years apart. In Gaya and Shahabad there was some increase in the wages of skilled labour—that of carpenters, blacksmiths, masons and thatchers—on account of the great demand of the two railways now under construction in South Bihar. Moreover, the prices offered for earthwork contracts were also very largely increased.

* * * * * * *

IX.—TRADE AND COMMERCE.

84. The statements and appendices under this head have been prepared in accordance with Government Orders Nos. 802 and 1Cir., dated 24th November 1898 and 12th January 1899, respectively, and consequently the form and contents of this chapter are somewhat different from what they have been on previous occasions as noted below:—

(*a*) The statement given in paragraph 71 of last year's report showing trade between districts is not required, and has been omitted.

(*b*) The statements showing trade with Calcutta have been consecutively numbered XLIX and L and relegated to the appendix, the figures under food-grains in columns 2 to 13 of last year's statament (import) being omitted.

(c) The district and divisional appendices have been consecutively numbered from XXXIII to XLVIII.

(d) The two sub-heads "Up" and "Down" of the amalgamated statement (showing trade carried by rail and along the Nadia rivers and canals) have been eliminated.

85. The following amalgamated statement takes the place of that printed in paragraph 66 of last year's report. It will be seen that it omits the distinction formerly maintained between "Up" and "Down" traffic, but substitutes a comparison under each article of trade with the corresponding figures of the previous year. Statistics for districts will be found, if needed, in the appendix. Lastly, the trade with Nepal is not included in this statement, but will be separately dealt with below:—

Statement showing separately the total import and export traffic carried by rail and along Nadia Rivers and Canals during the years 1897-98 and 1898-99.

86. It will be observed that as usual the trade of this Division through the Nadia rivers and by canal is infinitesimal, the total imports being 600 maunds of salt and the exports 21,355 maunds, mostly mustard seed, refined sugar and raw tobacco. Almost all the external trade of the Division is carried by rail, boat and steamer, the first-named claiming far the largest share of the whole. The following abstract gives the figures for imports and exports in

each of the last three years, that period having been taken in order to show the effect of the scarcity of 1897:—

	1896-97.	1897-98.	1898-99.
	Mds.	Mds.	Mds
Imports	1,08,69,047	1,47,44,349	1,15,52,141
Exports	71,54,167	52,15,849	67,11,199
Total Trade ..	1,80,23,214	1,99,60,198	1,82,63,340
Net Trade ...	I+37,14,880	I+95,28,500	I+48,40,942

87. It will be observed that, as is well known, there was a great advance of imports in 1897-98 almost entirely owing to the importation of food-grains, chiefly rice and paddy, accompanied, of course, by a falling off of exports, since, not only the cereals, but other agricultural produce of the year, was almost a complete failure. The excess of imports, therefore, rose in that year from rather more than one-third of a lakh to nearly a lakh of maunds, and has now fallen again to a little less than half a lakh. The increase of imports in 1897 98 was 35·6 per cent., and the decrease in 1898-99 was 21·6 per cent. Owing, however, to the falling off in exports in the famine year, the whole volume of trade has not varied in the triennial period to nearly the same extent as the imports.

88. How greatly the variation in imports in the three years was due to the traffic in food-grains will be apparent from the following abstract statement which gives the figures in thousands of maunds:—

	Imports.			Exports.		
	1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.
1	2	3	4	5	6	7
Rice	26,42	40,80	14,20	3,25	1,86	48
Paddy	5,60	8,45	4,44	59	20	1
Wheat	88	3,96	2,32	1,20	80	3,02
Gram and pulses	1,21	1,68	4,12	21,14	8,72	7,45
Other food-grains	8,15	17,62	12,27	8,69	2,03	1,38
Total ...	42,27	72,01	37,35	34,90	13,61	12,34

89. These figures abound in interesting lessons. The year 1896-97 was an ordinary year, but violent changes took place during the latter half of it: in the last quarter there was no export of food-stuffs, owing to the failure of the crops, but this was more than made up for by the brisk export trade, chiefly of gram and pulses, which went on in the third quarter about October 1896, when dealers from the North-Western Provinces were buying largely for those regions: moreover, during the fourth quarter of the year, grain, mostly rice, began to come in from Calcutta, and the imports of that article ran up to 26,42,000 maunds for the year. The net result of the year's traffic in food-grains was an excess of imports of 7,37,000 maunds.

90. Then came 1897-98. Owing to the heavy importations of food-stuff during the first six months, the total imports reached 72,01,000 maunds, of which 40,30,000 were rice, but, on the other hand, the exports fell away almost to nothing, since, except at the very end of the year, there were no crops to export, and the total exports only aggregated 13,61,000 maunds, two thirds of which were gram and pulses. The excess of imports over exports was 58,40,000.

91. Lastly, we have 1898-99, a year of fair crops early in the season ending in a splendid *rabi*, which was, however, hardly in the market before the year closed. The result is at once apparent in the trade figures. Imports fell off by 48 per cent., rice alone dropping from 40,30,000 maunds to 14,20,000, while the exports also fell off slightly, so that the balance in favour of imports was 25,01,000 maunds. Unless the general cheapness of prices has caused a dulness of trade, I expect to find, when the history of the current year comes to be written, that there has been during the first three months of 1899-1900 a large export of the *rabi* just harvested.

92. Omitting food-grains, the only other articles of trade which deserve notice among those tabled in paragraph 85 are the following. Among imports there has been a considerable advance in gunny-bags, mustard seed, linseed, unrefined sugar, cotton piece-goods in bales, and salt, while a decrease is observable in refined sugar, cotton twist and kerosine oil. Under exports there has been a large advance in linseed, so that apparently what was imported was soon exported again: also in sugar, both refined and unrefined (the cane crop was very fine in some districts), in indigo and in coal: the advance under linseed and refined sugar was quite extraordinary: on the other hand, there was a falling off under unmanufactured tobacco and salt.

93. The subjoined statement shows an abstract of the general trade of the year, district by district, in thousands of maunds:—

DISTRICT.	Imports.	Export.	Total trade.
1	2	3	4
Patna ...	36,32	26,48	62,80
Gaya ...	6,51	5,55	12,06
Shahabad ...	15,31	10,76	26,07
Saran ..	24,24	3,41	27,65
Champaran ...	5,05	4,32	9,37
Muzaffarpur ...	12,86	5,83	18,69
Darbhanga ..	15,23	10,76	25,99
Total ...	1,15,52	67,11	1,82,63

94. It will be seen that the imports everywhere exceeded the exports, the difference being most marked in the districts of Saran and Muzaffarpur: the large imports of the former district attest again the well-known fact that Saran never feeds itself, and has every year to import food-stuffs largely. The trade of Patna accounts for more than one third of the whole, while Gaya and Champaran have little that appears in this statement, though a good deal here as in other districts is carried by carts and pack-bullocks and escapes registration. The existence of this trade by road has long been known, but our ignorance of its volume has always been an inconvenience which was keenly felt when an attempt was made to estimate food-stocks and food-grain traffic in the famine.

95. As compared with the figures for 1897-98, as explained already, the exports are in excess and the imports a good deal below the previous figures. Under Imports Saran alone shows an increase, while under Exports there is an advance in every district without exception. The volume of trade is less than in the previous year everywhere, except in Shahabad and Saran.

96. It remains to examine the trade with Nepal.

97. It will be seen that the imports consist almost entirely of food-grains (13,64,572 maunds), oilseeds (3,52,174 maunds), and tobacco (8,331 maunds), while the exports to Nepal are mainly salt, piece-goods, raw tobacco, kerosine oil, sugar and a few thousand maunds of food-stuffs. The imports as usual greatly exceeded the exports. As compared with 1897-98 there was a decrease of imports and an excess of exports; the volume of trade fell slightly from 22,81,390 maunds to 22,40,628. There was of course a large falling off in the imports of food-grains from 16,70,245 maunds to 13,64,572, also in tobacco, but there was a large advance of more than 100 per cent. in the imports of oilseeds from 1,74,828 maunds to 3,52,174: under exports there was a great decrease in piece-goods; in salt (53,205 maunds, or 24·6 per cent.), and in tobacco (46,906 maunds, or 42·9 per cent.), but a rise in kerosine oil, food-grains, and unrefined sugar.

* * * * * * *

XIII.—CRIME.

120. The total reported crime of the Division during the year 1898 as compared with that of the preceding two years is noted below:—

	1896.	1897.	1898.	Decrease as compared with 1897.
Cognizable	30,056	41,149	30,081	11,068
Non-cognizable	18,157	18,527	16,607	1,920
Total ...	48,213	59,676	46,688	12,988

121. Excluding offences against sanitary laws, the figures stand thus:—

	1896.	1897.	1898.	Decrease as compared with 1897.
Cognizable	23,099	34,029	22,907	11,122
Non-cognizable	18,157	18,527	16,607	1,920
Total	41,256	52,556	39,514	13,042

122. The above figures indicate a considerable decrease in the volume of crime as compared with the previous year, but compared with 1896, the figures show only a slight falling off. The reason of this satisfactory result is not far to seek. The pressure of famine and the consequent high prices of food that ruled duing the first nine months of 1897, and which undoubtedly gave an impetus to crime, disappeared towards the close of that year, and with the steady improvement in prices and prospects that followed in 1898, we find the crime figures below the normal Thus the hope expressed in paragraph 9 of the Government Resolution on the Administration Report for 1897-98 on this subject has been fully justified.

123. The subjoined analysis of cognizable crime by classes also supports the above view. It shows that by far the largest decrease occurs in offences against property, the number of cases of which fell from 29,169 in 1897 to 18,743 in 1898, being a decrease of 10,426 cases, or 35·7 per cent.

Class of offences.	1897.	1898.	Increase.	Decrease.
Offences against property ...	29,169	18,743	...	10,426
Ditto persons ...	1,748	1,698	...	50
Ditto public tranquillity	769	856	87	...
Other offences (excluding public nuisances)	2,343	1,610	...	733
Total ...	34,029	22,907	87	11,209

124. The percentage of cases declared false to the total number of cases reported during the year was 4·6 against 3·4 in the previous year. The number of cases in which prosecutions were instituted for bringing false charges, &c., was 123, or 8·7 per cent., of the total number of false cases, against 117, or 8·1 per cent., in the year 1897. The variation is infinitesimal. Fifty-four of these cases ended in conviction, and in these 51 persons were convicted. Compensation was awarded under section 560, Criminal Procedure

Code, in 105 cases as compared with 138 in 1897. It is to be regretted that more use is not made of this section of the Criminal Procedure Code, especially in the districts of Patna, Saran, and Darbhanga, where the number of orders under this section was disappointingly small, being 3, 4, and 7, respectively. The attention of the Magistrates concerned has, however, been called to the point.

125. It is a matter for congratulation that the average percentage of house-breaking cases not enquired into during the year shows a steady diminution as compared with the preceding five years, viz. 7·8 as against 13·7, 19·8, 31·6, 31·1, and 41, respectively. In this respect Saran and Gaya show very few cases not enquired into, while Champaran, though it shows a steady diminution, still has the highest percentage in the Division: the improvement in Saran is most marked. On the whole the figures show that due attention has been paid to the orders of Government on the subject which have been issued from time to time. I have always looked on section 157 as one of the dangerous sections in the Code of Criminal Procedure as being likely, if its working is not well watched, to lead to wholesale suppression of crime, not only by the police, but by the people and the chaukidars: consequently I look up on the result noted above with much contentment.

126. The result of Sessions trials shows a satisfactory improvement, the percentage of convictions for the Division both in regard to persons and cases having risen from 64·6 and 76·4 in 1897 to 70·9 and 82·2, respectively, in 1898. Darbhanga shows the best result, and Shahabad the worst.

127. The number of true cases of rioting rose from 343 in 1897 to 375 in 1898, the increase being shared by almost all the districts: it is reported that the bulk of these cases were of a petty nature. A special report suggesting the preventive and police measures which should be adopted to check the increase of this crime has recently been submitted to Government, and suitable instructions have also been issued to the District Officers on this subject. Thirteen rioting cases arose out of indigo disputes, of which one was in Saran and four occurred in each of the districts of Champaran, Muzaffarpur, and Darbhanga. None of these were of a serious nature. The total number of cases ending in conviction was 201, or 53·6 per cent, of the true cases. In 245 cases 606 persons were bound down during the year under sections 106 and 107 of the Criminal Procedure Code.

128. True cases of dacoity fell from 54 in 1897 to 41 in 1898, the largest falling off being in Saran and Champaran, where during the previous year large gangs of dacoits were detected and brought to justice. As usual in these cases the judicial results are not very satisfactory, only 18 cases, or 43·9 per cent., of the total number having ended in conviction.

129. Cases of robbery decreased from 60 to 42 or by 30 per cent.: 17 of these 42 cases ended in conviction, which is a fair result.

130. Prosecutions for bad livelihood diminished from 1,246 in 1897 to 928 in 1898. The increase of 239 cases, noticed in paragraph 105 of the last year's report, was due to the fact that owing to the famine and the distress caused by it, thefts and burglaries increased, and to check this rise of crime it became necessary to take active preventive measures under the bad livelihood sections. No such special causes operated during the year under report, and the decrease therefore is more apparent than real; 227, or 24·4 per cent., of these cases were tried in the villages of the accused and 653 cases in Court. In this respect Gaya shows the best result, more than half the number of cases in that district having been tried locally. The results in Patna and Champaran are lamentably bad, while in the remaining districts of this Division they are not at all satisfactory. In paragraph 33 of the Government Resolution on the Police Report for 1897 it has been remarked that "the Lieutenant-Governor expects that the extra work involved by the famine being now over, the orders of Government in this matter will be more carefully complied with." Again in paragraph 9 of the Resolution on the Administration Report of this Division for 1897-98, Government have issued instructions to District Officers impressing upon them the paramount importance of trying bad livelihood cases in the neighbourhood of the villages of the accused. No explanation has been furnished by the District Officers of their omission to carry out the well-known

orders of Government on this subject, with the exception of the Magistrate of Champaran, who states as follows:—

"The reason why local enquiry was held in such a small number of cases was that in a large number of them the persons concerned were Maghya Domes who had stayed away from the settlement, and others who had no fixed residences, or whose fellow villagers could give no evidence as to the special circumstances under which they were arrested under section 55, Criminal Procedure Code. Some of the cases were also decided in the rainy season when it was found impracticable to make a local enquiry without undue delay."

131. If I may say so without disrespect, these orders of Government constitute a counsel of perfection. Theoretically it is desirable that these cases should be tried on the spot where the enquirying officers can absorb the local colour, make general enquiries, and ascertain what the facts are, independently of the evidence of the scheduled witnesses, but in practice this can only be done in the cold weather. An enquiry of this sort usually takes a day or two, and even if their work at head-quarters allows them to get away, Magistrates find it very inconvenient to spend that time in a mufassal village in the hot or rainy season. Therefore it comes to this, that these cases must be taken up in the villages in the cold weather, and when they are brought forward at other seasons of the year, the Magistrate has to decide whether he will hear them in Court at head-quarters, or wait till the cold weather. In many cases they can be postponed, but in many others the Magistrate rightly judges that the iron should be struck while it is hot and while the villagers are still smarting from the depredations of their common foe, and if he takes up the case at once without waiting to go to the spot, I am loath to blame him.

132. The judicial results in bad livelihood cases indicate, however, that on the whole the prosecutions were judiciously instituted, nearly 76 per cent. of them having ended in conviction; the percentage in 1897 was 77. My belief is that in this Division there is little conspiracy to bring false charges of bad livelihood against an innocent man: on the contrary, it is difficult to get men to testify to what every one knows. The number of persons bound down to be of good behaviour for one year was 491, and 44 others were so bound for three years. In 30 of these cases security was forthcoming but in the bulk of the cases (615) it was not furnished.

133. As a separate report has recently been submitted to Government regarding the Dome settlements in Saran and Champaran, I do not think it necessary to repeat the facts here.

XVII.—CONDITION OF THE DIVISION AS REGARDS LAND AND THE LAND REVENUE ADMINISTRATION.

177. The number of estates of each class borne on the revenue-roll of the several districts in this Division during the years 1897-98 and 1898-99 is shown below:—

YEAR.	Class I—Permanently-settled estates.	Class II—Temporarily-settled estates.	Class III—Estates held direct by Government.	Total.
1897-98	66,979	640	220	67,839
1898-99	68,111	666	231	69,008
Difference	+1,132	+26	+11	+1,169

178. There was an increase in the total number of estates in all the districts, except Champaran. In Patna the number increased by 349, in Gaya by 192, in Shahabad by 344, in Saran by 79, in Muzaffarpur by 181, and in Darbhanga by 24. In Champaran there was neither increase nor decrease.

Thus there was the total increase (net) of 1,169 estates, which is made up as follows:—

Total increase brought about by partition	1,286
Increase of one estate (in Saran) formed by alluvial accretion ...	1
Ditto (in Patna) now shown under a separate tauzi number which used formerly to be shown by mistake as included in another estate	1
Increase of four estates in Shahabad—four encamping-grounds having been added to the tauzi roll	4
Total increase ...	1,292
Total decrease brought about by redemption	121
Decrease of one estate in Patna owing to its exclusion from class I, where it used to be shown by mistake, although it belonged to class II and regularly shown thereunder	1
Decrease of one estate in Patna owing to its removal from the roll, as it was discovered to have found entry in the tauzi roll by fraudulent proceedings	1
Total decrease ...	123
Net increase ...	1,169

179. The current demand of the year was Rs. 82,41,227 against Rs. 82,21,300 in 1897-98. The demand of each class of estates is compared below with the corresponding figures for the previous year:—

	1897-98.	1898-99.
	Rs.	Rs.
Class I—Permanently-settled estates ...	77,61,076	77,61,213
" II—Temporarily-settled " ...	2,20,923	2,19,721
" III—Estates held direct by Government	2,39,301	2,60,293
Total ...	82,21,300	82,41,227

180. The total shows an increase of Rs. 19,927 against a net decrease of Rs. 1,535 in 1897-98. The increase of Rs. 137 in the demand under class I is the net result of increases and decreases in the several districts, owing to the transfer of estates from this class to other classes and *vice versâ*, as well as to abatement of revenue for lands taken up under the Land Acquisition Act. The decrease of Rs. 1,202 under class II is due to the usual resettlement of estates, and partly also to the transfer of estates from this class to other classes. Under class III the net increase is Rs. 20,992, due to the transfer of estates from classes I and II and to the favourable harvests of the year, which produced an increase of Rs. 10,963 in Gaya in *bhaoli* rents. It is also contributed partly by the Pusa estate in Darbhanga, which was under direct management throughout the year, against six months in the year 1897-98.

181. The current collections amounted to Rs. 80,49,446 against Rs. 79,82,672 in 1897-98, showing an increase of Rs. 66,774, which is shared by all the three classes of estates, as shown in the margin. The percentage of total current collections on the total current demand was 97·55 against 97·10 in 1897-98.

	1897-98.	1898-99.
	Rs.	Rs.
Class I	76,21,876	76,58,761
" II	1,95,211	1,96,325
" III	1,65,585	1,94,360
Total ...	79,82,672	80,49,446
Increase ...	66,774	

182. The arrear collections amounted to Rs. 2,31,362, or 69·56 per cent., on the arrear demand of Rs. 3,32,619, against 68·69 per cent. in the previous year. The arrear and current collections together amounted to Rs. 82,80,808, or 96·47 per cent. on the total demand (current and arrear) of Rs. 85,83,846, as against Rs. 81,85,659 and 96·11 per cent. in the previous year. The percentage of the total collections on the current demand was 100·3 per cent. against 99·5 in 1897-98. All these figures are very satisfactory and denote a year of prosperity, and I would fain hope one of greater diligence in collections.

183. The total remissions of land revenue granted during the year amounted to Rs. 6,607, as detailed in the margin. Remissions of grace were allowed chiefly to the tenants of Government estates on account of failure of crops, or the death and desertion of the raiyats. Remissions of right were allowed on account of the lands acquired for railways, and on account of the defaulting estates being purchased by Government for want of bidders at revenue sales. Nominal remissions were allowed to *bhaoli* lands in Gaya and to certain settlement holders in Shahabad, who either did not take possession of the estates settled with them, or did not do so until long after the date from which revenue was claimed from them.

	Rs.
Remissions of grace	2,155
Ditto of right	2,143
Nominal remissions	2,309
Total ...	6,607

184. The total outstanding balance amounted to Rs. 2,86,431 against Rs. 3,25,668 in the previous year. It is distributed under each class of estate as in the margin.

	1897-98.	1898-99.
	Rs.	Rs.
Class I	1,80,735	1,36,240
,, II	46,802	53,251
,, III	98,131	96,940
Total	3,25,668	2,86,431

185. The percentage of the total balance on the total demand is 3·3 against 3·8 in 1897-98. Of the total balance outstanding at the close of the year, a sum of Rs. 2,78,889 was, it is said, under realisation, and Rs. 7,542 were classed as doubtful and irrecoverable.

186. Out of the 10,418 estates and shares of estates which became liable to sale for non-payment of Government dues, only 791, or 7·5 per cent., were actually sold. The revenue demand of the estates sold was Rs. 92,589, and the dues for which they were sold amounted to Rs. 45,452. The amount realised by sale was Rs. 10,68,151, or about 11 times the Government revenue. Seven whole estates with an aggregate revenue demand of Rs. 4,269 were purchased by Government for Rs. 256. Purchasers' deposits forfeited under section 23, Act XI of 1859, amounted to Rs. 11,950 for 41 estates and shares of estates. Seventeen whole estates and nine shares were restored to the proprietors under section 24 of the Act. The sales of 17 estates and 9 shares were annulled during the year, and recommendations for annulment of sales on the ground of hardship were made in respect of three estates and three shares of estates.

187. The Board's rule, requiring that arrear lists should be promptly prepared and disposed of and that the proceedings in connection with the sale of estates for arrear of one kist should be concluded before another kist day has come round, could not, I regret to say, be fully carried out in every district, and I am satisfied that in certain districts at certain kists this is a counsel of perfection impossible of attainment. In the districts of Patna, Gaya, Saran, and Muzaffarpur the sales for defaults occurring at the kist of March 1898 could not be held before the next kist day of 7th June 1898. In Gaya the sale was held a fortnight after that date; in Muzaffarpur a month later; in Saran two months later; and in Patna even later than that. The sales for arrears at the kist of June were held in Patna on the 8th October 1898, and the sales for the arrears of the September kist were held in fair time in all the districts, but the June and September kists are small ones: the sales for arrears at the next kist (12th January 1899) were again delayed in Patna, where they were not held before the year closed.

188. The delay, no doubt, is unsatisfactory, but it is chiefly attributable to the very large number of estate accounts and chalans that have to be dealt with. After one of the large kists it takes much time to get the arrear lists prepared, owing to the accounts having to be kept open for several days after the kist day, in order to post up all payments which are made in sealed bags on the evening of the last day of payment. The small landholders almost to a man hold over payments till the very last moment, and their number is so large that it is practically impossible to post all payments on the same day that they are made. Thus for several days after the last day the accounts have to be kept open, the chalans reach the Tauzi Department after long delay, and

the arrear lists are seldom ready until about the time the next kist becomes due, so that it is impossible to hold the sales before that date.

189. Besides this inveterate habit of paying at the last moment, another great cause of delay is the immense number of estate accounts which every Collector in this Division has to deal with. It will appear from the figures noted in the margin (which I have taken from the Board's printed Land Revenue Administration Report for 1897-98) that, compared with the other Divisions, the number of estates in the Patna Division is very large. It is, moreover, increasing every year in such proportions, that I think it will soon be necessary to devise some means to check the further increase of tauzi accounts. Moreover, in addition to the large number of estates, there are vast numbers of separate accounts and innumerable petty proprietors in most of these estates, so that the number of separate chalans is extraordinarily large.

Division.	Total number of estates in 1897-98.
Burdwan	14,227
Presidency	10,377
Rajshahi	6,009
Dacca	28,437
Chota Nagpur	769
Chittagong	32,657
Orissa	7,164
Bhagalpur	16,070
Patna	67,839

190. I have long given this subject my attention, and will endeavour, during the current year, to formulate proposals The vast number of chalans is one difficulty, and a second is the abominable practice of delaying payments till the last moment.

191. As regards the first of the two causes referred to above, a great improvement has no doubt been effected by the introduction of section 11 in the new Partition Act, V (B.C.) of 1897, which will stop the indefinite increase of very petty estates, but it would be a great advantage to the administration if the provisions of that section be extended to apply to all applications for the opening of a separate account made to a Collector under sections 10 and 11 of Act XI of 1859.

192. To check the second, which causes the rush and overcrowding at kist times, it has been suggested that the privilege of depositing sealed bags should be withdrawn from the smaller classes of Zamindars who pay a land revenue of, say, less than Rs. 500.

193. Before leaving this part of the subject, I may mention that the proportion of sales to defaults during the past year, as noted in the margin, shows that in some of the districts the law was administered with great and, to my mind, unnecessary leniency. It would seem that the practice in regard to granting exemptions is not uniform throughout the Division, and I am collecting information to show what it is in each district, and propose to review the whole subject separately.

District.	Percentage of sales to defaults.
Patna	11·1
Gaya	10·2
Shahabad	8·01
Saran	4·4
Champaran	15·9
Muzaffarpur	9·03
Darbhanga	6·2

194. The total number of certificates filed during the year was 70,517 against 61,052, showing an increase of 9,465 over the figures of the previous year. The total number of cases for disposal during the year, including those pending on the 1st, April 1898, was 98,470, of which 68,895, or 69·9 per cent. were disposed of. In 18,291 cases the dues were realised on the mere issue of notice; in 33,567 cases on attachment of property; and in 2,785 cases recourse to actual sale was necessary. Warrants against the persons of the judgment-debtors were issued in 2,005 cases, but in only 14 cases were the debtors actually imprisoned. In 6 out of these 14 cases the debtors had, however, to be released without payment of their debts.

195. Regarding the effect of section 21 of Act I (B.C.) of 1895, as amended by Act I (B.C.) of 1897, on certificate sales, the majority of the Collectors in this Division are still of the opinion that the provisions of the section undoubtedly discourage bidders, whose attendance at certificate sales is unreasonably small.

196. I have always been opposed to the provisions of section 21 of the Act, as I anticipated from the first that they must necessarily embarrass and incommode Government in the collection of its dues by sale, and I find that four of the Collectors in the Division are on my side. As far as actual experience goes, it is perhaps too soon to come to a confident opinion. The question of realization of dues by the certificate procedure assumes greater importance year by year in this Division, and I hope to set the whole matter on a thoroughly sound basis everywhere in the course of the current year: it seems clear that warrants for personal arrest must be more largely employed.

197. The total number of settlement cases for disposal during the year was 153, of which 66 were disposed of, resulting in a net increase of Rs. 6,179. These figures do not include the settlements which are under the Director of Land Records and Agriculture, nor the smaller settlements under the Bengal Tenancy Act.

198. The number of land registration cases pending at the close of 1897-98 was 6,946, and the number instituted during the year under report is 23,399, thus making a total number of 30,345 cases for disposal during the year. Of these, 23,317, or 76·8 per cent., were disposed of, against 24,347, or 77·8 per cent., in the previous year. The expenditure on account of land registration during the year amounted to Rs. 3,586. The fees realised under section 64 of the Act amounted to Rs. 761. The work of rewriting Register D, which was incomplete in the previous year only in the district of Saran, has been all but completed in that district during the year of report, the entries with regard to only 78 estates being still under comparison with the original records. The Mauzawar Register C is being revised by the Settlement Department in Champaran, while Register A, for the rewriting of which there was an application from the Collector of Gaya, is being rewritten in that district.

199. The number of partition cases pending at the close of the previous year was 917, and the number instituted during the year was 175; the total number of cases for disposal during the year was, therefore, 1,092. The number of cases disposed of was 259, and the number pending at the close of the year was 833. Out of this number, 146 were pending in Patna, 140 in Gaya, 124 in Shahabad, 83 in Saran, 9 in Champaran, 226 in Muzaffarpur, and 105 in Darbhanga. Four hundred and eighty-eight cases are pending for more than two years, out of which 132 are in Muzaffarpur; many of these are pending until the settlement records are completed in order to the ascertainment of the rate of rents.

200. The total number of land acquisition cases for disposal during the year was 322 against 231 in the previous year. Proceedings were completed in 221 cases.

201. Under the Land Improvement Loans Act, XIX of 1883, a sum of Rs. 51,500 was allotted to the several districts in the Division, out of which Rs. 15,135 were actually advanced, all in the district of Gaya. The amount realisable during the year of report was Rs. 77,583, viz., Rs. 61,534 on account of principal and Rs. 15,770 on account of interest. The total amount realised during the year was Rs. 58,059, and the total amount remitted was Rs. 105, leaving a balance of Rs. 19,419 outstanding at the close of the year, the whole of which, the Collectors report, is to be recovered by certificates.

202. Under the Agriculturists' Loans Act, XII of 1884, a sum of Rs. 25,500 was originally allotted to the several districts of the Division. The grants for Champaran and Muzaffarpur had to be increased on account of the floods in September 1898; to the former the Board granted an additional sum of Rs. 2,000 out of the reserve in their hands, and a further sum of Rs. 14,000 was given to it by transfer from other districts; while to Muzaffarpur Rs. 15,000 were transferred from Gaya. It was, however, found unnecessary to make any advances in the district of Muzaffarpur, except a small amount of Rs. 46. In Champaran the amount actually advanced was Rs. 19,282. As regards the remaining five districts, only Rs. 1,404 were advanced in Gaya and Rs. 395 in Saran.

203. The amount of advances under Act XII of 1884 recoverable within the year was Rs. 4,30,508, both on account of principal and interest, of which Rs. 3,09,303 were collected and Rs. 2,257 were remitted, leaving a balance of

Rs. 1,18,348 outstanding at the close of the year. The balances are heavy in Muzaffarpur (Rs. 54,892) and in Champaran (Rs. 30,665). Special establishments have been employed in both these districts in order to expedite the realisation of these dues.

204. The working of the various sections of the Tenancy Act during the two years 1897-98 and 1898-99 is shown below:—

	1897-98.	1898-99.
(1) Voluntary transfers, section 12 (3)	939	438
(2) Transfer by decree sale, sections 13 (2) and 14 ...	...	2
(3) Transfer by succession, section 15	4	1
(4) Commutation of rent payable in kind, section 40 ...	45	224
(5) Appraisement of produce where rent is paid in kind, sections 69 and 70	529	554
(6) Registration of improvements, section 80 ...	217	187
(7) Application for certificate of Collector as to acquisition of land for building or other purposes, section 84	2	...
(8) Notices of resumption of land by landlords, section 87 (2)	809	577
(9) Application by Collector to appoint a common manager, section 93	1	...
(10) Application for a survey and record of rights under Chapter X of the Tenancy Act	1	...
(11) Local enquiries held by order of a Court, section 158	21	31

205. The decrease under head (1), "Voluntary transfers," is shared by all the districts and is attributed by Collectors to increased agricultural prosperity. The increase under head (4), "Commutation of rent," occurred chiefly in Patna, where in one estate, named Masaudi, pargana Sandah, in which the landlord has lately claimed a large area as his *khudkasht*, there were 95 cases against one in the previous year. The increase under this head in Shahabad is also large, the figures being 124 against 32 in the previous year. The Collector reports that the raiyats wished to have all *bhaoli* rents commuted into cash rent, but this, in consequence of the splendid harvest of the year, is opposed to the landlord's interest, and hence this large increase in the number of cases before the Collector. The decrease under the head 8, "Notices of resumption of lands by landlords," occurred mostly in Champaran, where the number was 502. In this district many holdings are abandoned every year owing, so the Collector says, to the unhealthiness of the water of the Dhanauti river. It is also to be remembered that in Champaran, unlike other districts in this Division, there is more land than there are men to cultivate it; hence a comparatively trifling matter will induce a tenant to throw up his holding and try his fortune in another village, where he is pretty certain of a welcome.

XVIII.—ATTACHED ESTATES, INCLUDING COURT OF WARDS.

206. During the year under report two estates in the district of Gaya, those of the Raja and Rani of Deo, were taken in charge, owing to the death of the late proprietor, Raja Bhikham Narain Singh, Bahadur, on the 6th of October 1898. Two estates, namely, those of Bibi Kulsam and Bibi Soghra, in the district of Saran, were released from the control of the Court on the 1st of February 1899, as it was found impracticable to manage them with any degree of efficiency, owing to their very embarrassed condition. Thus the number of private estates in this Division under Government management at the end of 1898-99 remained at the same figure (21) as at its beginning.

Paighamberpur	930
Total	13,647

207. The Government demand of revenue and cesses payable by the estates for the year amounted to Rs. 12,42,608 against Rs. 12,28,066 in 1897-98. The increase is chiefly due to the assumption of charge of the two Deo estates referred to in the preceding paragraph. Out of this demand, Rs 12,26,793 have been paid (including Rs. 978 paid in advance for future years). The balance due to Government has decreased from Rs. 75,930 in the previous year to Rs. 13,647 (excluding Rs. 3,146, which had been paid in advance in previous years) during the year of report. The arrears are due from the ten estates noted in the margin. The sums due from the five estates, Hardi, Maghra, Chandrakumar, Bettiah, and Paighamberpur, have been paid since the close of the year, and arrangements are now being made to pay the sum due by the Nawada estate. The arrears in the Hardi, Nawada, Mohula, and Bibi Soghra's estates could not be paid in time for want of funds. In Chandragarh and Majhauwli the sums remained unpaid, as the villages for which they are due came into the possession of the estates concerned within the year. The largest balance is due by the Mohula estate, and the Manager expects to pay it within the current year. Bibi Soghra's estate having now gone out of the Court's hands, the Collector reports that the amount due from it will be realised by certificates. Certain discrepancies in the demand not having been reconciled till after the 31st March, the amount due from the Bettiah estate could not be paid within the year.

Total	...	5,731

208. The demands of superior landlords were met to the extent of Rs. 64,519 during the year, leaving only a reduced balance of Rs. 8,018 against Rs. 11,714 in 1897-98. Of the balance of Rs. 8,018, Rs. 2,287 were due by the estate of the Rani of Deo, and it remained unpaid, as the estate was taken in charge only a few days before the close of the year. The remaining balance of Rs. 5,731 is distributed among the 11 estates named in the margin. The largest balances were due by the Mohula and Paighamberpur estates, as they were short of funds. In the Hardi, Chandragarh, Chandrakumar and Sheohar estates the amounts were left unpaid pending the adjustment of accounts with the superior landlords against whom the estates have counter-claims. The amount due by the Chautaria estate was paid after the close of the year. In the rest the amounts were not paid, as the landlords did not come forward to receive payment.

209. The total of rent and cesses due to the estates for the year of report amounted to Rs. 69,16,098, of which Rs. 43,12,442 represent the current and Rs. 26,03,656 the arrear demand. The total collections aggregated Rs. 40,58,337, representing 94·1 per cent. of the current demand, against 101·0 per cent. of the previous year. The heavy rains of 1898 and the inundations in the districts north of the Ganges damaged the *bhadoi* and *aghani* crops, which account for the short collection. Under the orders of Government and the Board, fictitious and irrecoverable balances to the extent of Rs. 5,75,169 were written off the accounts of the estates, and the balance outstanding at the close of the year was reduced from Rs. 24,35,782 in the preceding year to Rs. 22,17,427.

210. Debts to the extent of Rs, 9,75,475 were paid off, but the total sum due at the close of the year, as compared with that in the previous year, increased by Rs 77,092: of this increase, Rs. 30,485 were due by the estates of the two ladies, Bibi Kulsam and Bibi Soghra, the management of which was relinquished during the year. The increase in the rest of the balance of bebt

due was owing chiefly to the two Deo estates having come under management during the year with debts above Rs. 60,000.

211. Excluding Rs. 1,78,615 incurred in law expenses, the cost of management aggregated Rs. 4,11,297, or 9·5 per cent., of the current demand, which is below the standard fixed by Government. The total disbursements (including revenue rent, debt and management charges) amounted to Rs. 82,13,255, of which Rs. 2,20,680 were spent on improvements, Rs. 7,12,694 on the maintenance of proprietors, and Rs. 44,23,182 under various other heads. The surplus left after expenditure of the year was Rs. 12,45,416 against Rs. 20,77,676 in the previous year.

* * * * *

XX.—STAMPS.

222. The total revenue derived from the sale of stamps and court papers during the year under review was Rs. 21,87,050 against Rs. 22,90,751 in 1897-98, showing a decrease of Rs. 1,09,701 as compared with the preceding year and of Rs. 74,960 as compared with the year 1896-97. The statement below shows the revenue derived from the sale of each kind of stamps during the two years 1897-98 and 1898-99:—

Description.	1897-98.	1898-99.	Increase.	Decrease.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Court-fees	14,87,858	15,26,797	38,939	......
Stamps for copies	1,14,770	1,18,315	......	1,455
Impressed sheets	6,27,131	4,84,001	......	1,43,130
Receipt stamps	21,894	20,042	......	1,852
Notarial "	52	22	......	30
Hundi "	8,048	7,392	......	656
Court papers	30,998	29,481	......	1,517
Total ...	22,90,751	21,81,050	...	1,09,701

223. It will be observed that, with the exception of "Court-fees," there has been a falling off under all the heads, the largest decrease being in the sale "Impressed sheets." Under the head "Court-fees" there has been an increase in the districts of Gaya, Shahabad, Saran, and Darbhanga to the extent of Rs. 71,038, and a decrease in the remaining three districts to the extent of Rs. 32,099. The increase in the first three districts is attributed by the Collectors to the increase in the number of civil suits, which again is doubtless due to returning prosperity. In Saran the increase is further ascribed by the Collector, Mr. Macpherson, to the purchase of one stamp alone of the value of Rs. 22,000 by the Hutwa estate, under the Court of Wards, which was required for taking out letters of administration. In Darbhanga the increase is mainly due to the issue of an unusually large number of stamps required for taking certified copies of maps in connection with the survey and settlement proceedings. The falling off in the revenue in Patna is said to have been due to the institution of petty suits of smaller value than usual, an explanation of doubtful value, I think; while in Champaran and Muzaffarpur it is ascribed to the completion and cessation of the survey and settlement proceedings. Under the head "Stamps for copies" there was a total increase of Rs. 4,017 in the four districts of Patna, Gaya, Shahabad, and Saran, and a total decrease of Rs. 5,472 in the remaining three districts. The increase is ascribed to the increase in the number of civil suits, while the falling off in Champaran and Muzaffarpur is chiefly due to the small number of copies issued of settlement proceedings as compared with the previous years since these proceedings practically came to an end in the year under report: in Darbhanga the suggestion is made that the falling off is due to the fact that the copies of maps referred to above were issued on tracing cloth, thus affecting the sale of impressed stamps for copies.

224. To the large decrease under the head "Impressed sheets" (non-judicial) all the districts contribute. The falling off is chiefly due to the execution of a smaller number of bonds and deeds of sale owing to the good harvests of the year, following on two years of famine and scarcity. In Muzaffarpur the decrease is also ascribed by the Collector to the depression in indigo, owing to which the execution of bonds to cultivate that plant was smaller than usual. . In Champaran the falling off in the sale is attributed by the Collector to an order said to have been issued by the Manager of the Bettiah estate interdicting the transfer of raiyati holdings without the consent of the landlords, an order which resulted in a falling off in the number of such transactions.

225. The decrease under the head of "Receipt stamps" is shared by all districts, except Patna and Gaya, and is generally attributed to the abnormal sale of this class of stamps in the previous year for payments made in connection with railway construction and famine relief works, while the increase is more generally attributable to greater attention to the provisions of the law.

226. The decrease under the head "Notarial stamps" is very small, and does not call for any special remark, while the decrease under the head of "Hundi stamps," which occurred in all the districts, except Saran and Darbhanga, is reported to have been due to the greater popularity gained by the money-order system.

227. There were 322 cases of unstamped or insufficiently stamped documents detected by the civil courts and revenue authorities against 412 in the preceding year. The amount of duty and penalty realised was Rs. 2,925 as against Rs. 5,396 in 1897-98.

228. The number of prosecutions instituted for breaches of stamp law during the year of report was 47, in which 27 persons were brought to trial against 32 cases, in which 38 persons were brought to trial in the preceding year. Of the 27 persons brought to trial, 12 were convicted and 15 acquitted. The amount of fines imposed during the year was Rs. 482 against Rs. 491 in the preceding year. No rewards were paid.

XXI.—INCOME-TAX.

229. The number of persons finally assessed during the year 1898-99 was 16,007, and the final demand amounted to Rs. 4,70,415. The corresponding figures for the previous year were 15,800 and Rs. 4,59,581, respectively; thus in the year of report there was again a large increase of Rs. 10,834, or 2·3 per cent., in the final demand with an increase of 207 in the number of assessees.

230. The final demand under each part was as follows:—

	Rs.		Rs.	
Part I	37,391	against	37,292	in 1897-98
„ II	878	„	1,233	„ „
„ IV	4,32,146	„	4,21,056	„ „
Total	4,70,415		4,59,581	

231. As compared with the previous year, there was an increase in the final demand in all the districts of the Division, except Patna and Saran, where there has been a decrease of Rs. 173 and Rs. 1,480, respectively. In Patna this was due to the reduction of tax on certain money-lenders whose income has fallen off; and in Saran to the exemption of certain dealers in grain and saltpetre whose business failed during the year. During the famine year many grain-dealers must have done well, and it was reasonable to expect that, when ordinary times returned, their profit, and consequently their assessments, would fall off.

In Shahabad, Champaran, Muzaffarpur, and Darbhanga, the final demand increased with the increase in the number of assessees, ranging from 226 in Shahabad to 22 in Darbhanga; but in Gaya, although the number of assessees fell off from 2,671 to 2,562, the demand rose to Rs. 80,558 from Rs. 78,000 in the previous year. This is said to be due to the exemption of a large number of assessees of lower classes who, on enquiry, were found to be not liable to

assessment; while at the same time tax on the wealthy assessees, who appeared to be under-assessed, was enhanced in several cases.

232. The collections amounted to Rs. 4,63,271, or 98·5 per cent., on the final demand, against Rs. 4,56,451, or 99·3 per cent., in the previous year. The percentage of collections on the final demand reached the prescribed standard of 95 per cent. in all the districts, except Muzaffarpur, where it was 94·9. It was highest in Gaya, where it reached 99·7. The percentage of tax contributed by each part on the total amount of tax collected is given in the margin. The arrears of previous year collected during the year under report, excluding the amount remitted as irrecoverable, amounted to Rs. 3,101, and penalties, fines and costs, amounting to Rs. 3,887, were also collected during the year. Thus the gross collections amounted to Rs. 4,70,259 against Rs. 4,66,225 in the previous year, out of the gross demand of Rs. 4,80,240 as compared with a gross demand of Rs. 4,71,908 in the previous year. It will be seen that the collections, as in the previous year, kept pace with the increased demand.

Part I	7·8 against	8·1 in 1897-98.	
„ II		·3	
„ IV	92·	91·1	

233. The outstanding balance on account of tax, penalties, and costs for the ear under report was as follows:—

	Rs.		Rs.	
Tax	7,144	against	3,950	in 1897-88.
Penalties	2,291	„	1,350	„ „
Costs	546	„	383	„ „
Total	9,981		5,683	

234. Muzaffarpur shows the largest outstanding balance (Rs. 5,257) in the Division. Next comes Shahabad with a balance of Rs. 2,651. The unsatisfactory result in both these districts is attributed to the fact that all communication with the interior was cut off for about two months by floods, and the work of revision could not be commenced till the beginning of November, thus the tax could not be realised from many assessees before the year closed.

235. The percentages of the number of assessees under each class on the total number of assessees show that the assessees under the first six classes make up 88·8, or 1·2 less than 90 per cent. of the total number as shown in the margin. These six classes have contributed 45·6 per cent. of the total amount of tax collected during the year. Assessees having incomes from Rs. 2,000 to Rs. 10,000 formed only 9·97 per cent. of the total number, and they contributed 32·5 per cent. of the total amount of tax collected. Persons with income of more than Rs. 10,000 formed but 1·09 per cent. of the total number, while the assessment imposed on them was 21·9 per cent. of the total amount.

Class I	...	49·2
II	...	16·7
III	...	11·6
IV	...	5·2
V	...	3·6
VI	...	2·5
Total		88·8

236. As in the previous year, the largest contributions to the tax were made by the following classes:—

		Rs.		
Money-lending	...	1,71,295, or 36·9	per cent. of the total tax.
Grain merchants	...	64,001, or 13·8	
Piece-goods merchants		31,288, or 6·7	

237. The total actual expenditure of the year under review for assessing and collecting the tax amounted to Rs. 19,905 as compared with Rs. 18,900 in the preceding year, showing an increase of Rs. 1,005. The percentage of charges on collections was 4·2 against 4·02 in the previous year.

238. The system of payment of income-tax by money-order continues to rise in public favour, as the Division shows an increase of 13·1 per cent. in the number of money-orders and of 16·9 per cent. in the amount remitted by them during the year under report. Altogether a sum of Rs. 1,62,148 was remitted to the Collectors in the Division by 8,703 money-orders during the year of report as against Rs. 1,38,670 remitted by 7,781 money-orders in the previous year.

239. The number of firms and other employers who undertook to collect the tax under section 9 (2), Act II of 1886, was 12 against 11 in the previous year. The total amount of tax collected by them during the year of report was Rs. 2,582 against Rs. 4,035 in the previous year. The total amount of remission allowed under rule 13 of the Bengal Government rules was Rs. 100 against Rs. 177 in the previous year. The amount actually credited into the treasury during the year, therefore, amounted to Rs. 2,482 against Rs. 3,858 in the previous year.

240. Out of 16,007 persons finally assessed, coercive measures were taken only against 967, or 6·04 per cent., as compared with 834, or 5·3 per cent., in the preceding year. Property was distrained in 482 of these cases, but it was actually sold in 19 cases against 484 and 56 cases, respectively, in the previous year.

241. It is satisfactory to observe that the number of cases in which actual sale was resorted fell from 56 to 19, and that Gaya, which for some years has had an undesirable prominence in the list, shows only three sales in the year under report against 27 in the preceding year.

242. There was no composition of tax under section 31 of the Act in any district of the Division during the year under report. Mr. Maude, the Collector of Muzaffarpur, is not in favour of the extension of this system in his district, as he finds that the assessees generally apply for composition of the tax in those years in which their tax has been reduced and on reduced terms, and will not agree to compound their tax in any year in which the tax has been enhanced on revision.

XXIII.—RAILWAYS AND OTHER PUBLIC WORKS.

East Indian Railway.

247. In Shahabad a new station was opened at Twininigganj between Dumraon and Raghunathpur during the year under report, and the Athmalgola block hut in Patna was converted into a passenger station.

248. In Patna there were 44 railway accidents in which 28 persons were killed and 14 wounded. There was one instance of a pilot engine colliding with a horse-box, which was seriously damaged and derailed. One horse was fatally injured. The driver and two others were prosecuted and fined Rs. 15 each. One gateman, during whose absence from the gate one man and a cow were killed by a moving train, was sentenced, on conviction, to simple imprisonment for two months.

249. In Shahabad there were 12 railway accidents in which nine persons were killed and two wounded. There was one case of derailment of a train at Chausa for which a railway employé was prosecuted.

Patna-Gaya Railway.

250. Complaints of constant unpunctuality and of want of accommodation for the third-class passengers on the occasion of large gatherings of pilgrims still continue to be heard.

South Bihar Railway.

251. With the exception of the long bridge over the Phalgu river at Gaya itself, the line is almost complete. It is expected that the line will be opened for public traffic by the 1st of July next from Lakhiserai up to the east bank of the Phalgu river.

Moghalserai-Gaya Railway.

252. The earthwork has nearly been completed. All the minor bridges and almost all the major bridges are now practically complete. It is hoped that the portion of the line lying in the Gaya district, *i.e.*, from Gaya to Baroon-on-Sone, will be completed and opened for traffic by the 1st January 1900. It has also been suggested that the great Sone bridge at Dehri might be ready for opening by His Excellency the Viceroy in April next, in which

case trains could probably run through from Lakhiserai to Moghalserai from that date.

253. There have been several cases during the year under report in Shahabad in which accidents have occurred owing to obstructions placed on the rails. These offences culminated in a serious accident at Sasaram at the end of January in which one engine and four trucks were derailed and one life was lost. The offence could not be brought home to any body, but this and other incidents of the kind seem to be the work of mischievous boys for the fun of the thing. Steps are being taken to bring home to the neighbouring villagers that joking of this sort is likely to prove costly to the village.

THE BENGAL AND NORTH-WESTERN RAILWAY, INCLUDING TIRHUT STATE RAILWAY.

254. Numerous and bitter complaints continue to be made against the management of this Railway in the public press and elsewhere, the charges being unpunctuality, disregard of the convenience of the public both as regards goods and passengers, and a generally parsimonious policy.

255. After the breaks on the Hajipur-Muzaffarpur portion of the line which occurred in September 1898, the Railway authorities for many weeks delayed the trains from Pahleza Ghat to Chapra and Gorakhpur, frequently for hours instead of making special arrangements for this traffic. The breaks in question were not repaired by the end of the year, and from letters in the papers it appears that they have not yet been completed.

256. Mr Carlyle, late Magistrate, of Darbhanga, says that the Tirhut State Railway is still managed with too great a disregard for punctuality, a fault which is inexcusable, considering the slow rate at which the trains are run. In several instances the delays in sending telegrams from railway stations were very great. Complaints of insufficient accommodation for the third-class passengers, on the occasion of large gatherings of pilgrims, still continue to be made.

257. There were 25 railway accidents reported from Saran during the year under report, in which 12 persons were killed and 8 wounded.

258. One railway accident is reported from Champaran. The dead body of a man was found near Motihari station, and it was concluded that he had been run over by a train on the previous night.

259. There were six railway accidents in the Muzaffarpur district, in which six persons were killed and two wounded. The only accident of importance was one which occurred between Kanti and Motipur, in which the driver and the two firemen were drowned by their engine falling into the gap left by a bridge which had been washed away by the floods.

260. Ten railway accidents have been reported from Darbhanga during the year. Of these, four concerned Railway servants. In one of these a pointsman was run over and killed while detaching a wagon in motion, and in another a pointsman was run over and killed while sleeping at the facing points. In the remaining two the pointsmen were seriously injured.

261. The construction of a feeder line from Raxaul on the Nepal frontier to the Tirhut State Railway at Segouli, which was undertaken during 1897, was completed during the year 1898-99, and the line has been opened for traffic.

262. The Sakri-Jainagar line, so Mr. Carlyle remarks, remains a fast vanishing example of the way not to do things. The embankment was partially constructed a year and-a-half ago by famine labour, and the line could long since have been opened for goods traffic on temporary bridges, but for want of attention and completion the bank is now crumbling to pieces, and will want a good deal of fresh earth before it can be used. The present rains will of course damage it much further. It is believed that this line was never a favorite project with the Agent, but undoubtedly it is of considerable administrative importance, and every effort should be made to have it completed.

263. The Hajipur-Katihar line is now making fair progress.

TRAMWAYS.

264. Messrs. Turner, Morrison and Company, who at one time were prepared to construct a steam tramway from Bakhtiarpur to Bihar, have withdrawn from the agreement come to between themselves and the District Board of Patna. Negotiations are being made with other Companies which show

every promise of success; the line will be an immense convenience to the public and is likely to be very remunerative.

265. The income of the Patna City Tramway was Rs. 31,839 against Rs. 31,346 last year. The expenditure amounted to Rs. 27,242 during the year, leaving a very small profit on the working expenses. Three accidents occurred during the year against eight.

ARRAH WATER-WORKS.

266. The supply has remained constant throughout the year. The works were inspected by the Engineer to the Sanitary Board in October 1898, and found to be satisfactory. The amount of filtered water drawn off from the standposts varied from 100,000 gallons per diem in the cold weather to 150,000 gallons in the hot weather. This quantity cannot be exceeded until more stand-posts are provided.

EMBANKMENTS.

267. In the Patna and Gaya districts there is one embankment, called the Sakri bandh; it is situated near the trijunction of the districts of Monghyr, Patna, and Gaya. The maintenance charges in Patna amounted to Rs. 1,048, and in Gaya a sum of Rs. 3-5 4 only was paid as share of cost of maintenance during the year.

268. In the Saran district the embankment along the right bank of the Gandak, extending over a length of 119½ miles, is maintained by Government from the proceeds of a cess levied from the proprietors of all the estates in the district. The subjoined table shows the embankment cess, demand, collection and balance of the year under review.

Demand.			Collection during the year.	Balance
Arrear.	Current.	Total.		
	2	3	4	5
Rs. 13,945	Rs. 23,682	Rs. 37,627	Rs. 24,592	Rs. 13,035

269. The percentage of collection was 65·3 against 64·8 of the preceding year. The trouble and expense of collecting these petty dues are very great.

270. During the year the river Gandak threatened the main embankment at Arowa, and accordingly the old retired line was raised. An estimate was sanctioned and work commenced to convert this old retired line into a retired embankment of the same section as the existing one. The cost of maintaining this embankment during the year was Rs. 27,354.

271. In Champaran the embankment along the left bank of the Gandak maintained by the Public Works Department is the only public embankment. The expenditure for the year on construction and maintenance amounted to Rs. 9,977 against Rs. 16,597 in the previous year.

272. The subjoined table shows the collection of the contract rates for the maintenance of the embankment during the year under review.

Demand.			Collection during the year.	Balance.
Arrear.	Current.	Total.		
1	2	3	4	5
3,154	Rs. 13,000	Rs. 16,154	Rs. 13,439	Rs. 2,715

273. A further sum of Rs. 16 was realised during the year on account of advance for the year 1899-1900.

274. In the Muzaffarpur district there are three lines of embankment. They are—

(1) Gandak embankment. | (2) Turki embankment.
(3) Daudpur embankment.

275. All these embankments were properly maintained during the year under review, but some injury was done to the Turki embankment by the floods of September 1898. The Gandak embankment, which is a continuation of that in Champaran, is maintained under the contract system, while the other two are kept up under the taccavi system. The total demand, including arrears, was Rs. 38,136, out of which Rs. 10,745 was realised and Rs. 1,825 was adjusted from previous advance collection. The balance outstanding on the 31st March 1899 was Rs. 25,566.

276. In Darbhanga, as in preceding years, the Ganges and Gandak lines of embankment were maintained on the cost and contract system, respectively. The financial results of the cesses levied under two systems during the year will appear from the subjoined table.

Embankment.	Demand.			Remission.	Collection.	Balance.
	Arrear.	Current.	Total.			
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Gandak ...	1,845	2,147	3,992	..	2,523	1,469
Ganges ...	2,890	2,009	4,899	...	2,205	2,694
Total ...	4,735	4,156	8,891	...	4,728	4,163

CANAL IRRIGATION.

277. The Sone canals in the districts of Patna, Gaya, and Shahabad remained under the direct management of the Public Works Department. The subjoined statement shows the area irrigated and the main financial statistics in connection with the levy of water-rates during the last three years.

District.	Year.	Area irrigated in acres.	Total demand.	Collection.	Remission.	Total adjustment.	Balance.	Percentage of total adjustment on total demand.
1	2	3	4	5	6	7	8	9
			Rs A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.

278. The result of assessment and collection is extremely satisfactory and reflects great credit on the officers concerned.

SARAN CANALS.

279. The canals were closed on the 18th January 1898 and no irrigation was carried out during the year under report. Only petty repairs and maintenance works were executed.

MADHUBAN CANAL.

280. The Madhuban canal in Champaran is maintained by Government. No water-rates are levied on this canal, in virtue of an arrangement made with the zamindar of Madhuban, who originally provided the funds for its construction, but was afterwards compensated for this, when Government took over the management of the canal. The heavy floods which occurred in September last swept across this little canal, and did a great deal of damage to the banks and channel. The area irrigated from this canal during the year was 3,190 acres as against 1,970 acres in 1897-98. The total cost of maintenance during the year was Rs. 8,459.

281. The Masan pyne in Champaran, a water channel which was constructed at the expense of Government during the famine of 1897, proved most useful in securing a rice crop in the tracts through which it flows, both in 1897 when the rains were greatly retarded, and also in 1898 when there was likewise at one time great want of water in this district. The control and the maintenance of the channel were placed in the hands of the District Engineer, and all expenses incurred by him for its up-keep were paid by those who benefited by the water.

282. The completion of the two important canals, that is, the Triboni Canal and the Dhaka Canal, which were commenced during the famine of 1897, is now under the consideration of the Lieutenant-Governor. A full report on the whole question has been separately submitted to Government.

ROADSIDE WELLS.

283. The following statement shows what has been done to improve the roadside wells during the year under report in the several districts of this Division:—

DISTRICT.	NUMBER OF WELLS REPAIRED OR CLEANSED.		NUMBER OF NEW WELLS CONSTRUCTED.		NUMBER OF WELLS PROVIDED WITH CHAIN BUCKETS, &c.		COST OF OPERATIONS IN COLUMNS 2 AND 7.	
	Masonry wells.	Temporary wells.	Masonry wells.	Temporary wells.	Masonry wells.	Temporary wells.	Masonry wells.	Temporary wells.

* * * * * * * *

XXVI.—EDUCATION.

313. The total number of schools of all sorts in the Division rose during the year from 6,236 to 6,262, and the number of pupils from 169,411 to 176,757. There was thus an increase of 26 schools and of 7,346 scholars, and it occurs chiefly in special schools

314. In Patna the number of schools and pupils decreased by 61 and 2,320, respectively, as compared with the figures for 1897-98. The decline is mostly found in the lower primary schools, and it is mainly due to the exclusion from reward examinations of schools whose teachers were detected attempting to cheat. The teachers thus excluded either refused to furnish returns, or closed their patshalas altogether. The number of middle English schools remained stationary, but the number of pupils in them decreased partly owing to the recent affiliation of a high English school located close to the Lodikatra middle English school, and partly to the miserable state of the Bihar middle English institution.

315. In Gaya there was an increase of 9 schools and 3,176 pupils. This increase is chiefly due to some of the private schools having adopted the departmental standard. The large increase in the number of pupils is reported, doubtless with truth, to be due to the year being one of good harvests and general prosperity.

316. In Shahabad there has been a decrease of 33 schools, while there is an increase of 235 pupils The decrease in the number of schools is attributed to the fact that some of the schools were opened so late as not to be entitled to rewards: eight gave in returns as unaided private schools, while 25 did not submit returns at all, and hence they ceased to exist as schools under the rules of the Education Department. Two upper primary schools were started on Government estates.

317. In Saran there was an increase of 25 schools and of 1,718 scholars. This result is mainly due to the agricultural prosperity which obtained during the year under review. The number of secondary schools, viz, high English, middle English, and middle vernacular, remained stationary, but the pupils attending them increased. Four new upper primary schools and 17 lower primary schools were added this year. Four Sanskrit *tols* hitherto returned as private institutions have, under the recent orders of the Education Department, been returned as special schools.

318. In Champaran the total number of schools rose from 655 to 751, and the number of pupils attending them from 16,096 to 18,270, showing an increase of 96 schools and 2,174 pupils The increase is noticeable in lower primary and girls' schools. The rise and fall in the number of pupils of the zilla school and the middle English schools go to show that the rule laying down that passed middle English candidates are to be admitted into the fourth class instead of third class of a high English school as before seems to have been prejudical to the middle English Schools and lowered their prestige to a great extent. It is said that well-to-do persons do not nowadays think it worth while to have their children educated in a middle English school: moreover, the new High Court rule that passing the middle English and middle vernacular examination will not entitle a youth to appear at the mukhtarship examination has helped to make the middle schools less attractive than before.

319. In Muzaffarpur there has been a loss of 32 schools, but a gain of 260 pupils. There is an increase of one high English school, which is due to the raising of the status of the Sitamarhi aided middle English school to that of a high school. Lower primary schools have sustained the greatest loss, which can be explained by the fact that in certain tracts of this district schools were closed and attendance of pupils ceased in consequence of the unprecedented floods of September 1898, and the interrupted communications and general damage and loss which they caused.

320. In Darbhanga there were 919 public schools with 28,392 pupils during the year under report against 897 schools with 26,688 pupils in the preceding year, showing a gain of 22 schools and 1,701 pupils. This increase

is, no doubt, due to the returning prosperity after the late famine. There are two Sanskrit schools in this district, the pupils of which are taught in Sanskrit literature and grammar and go in for the title examinations of Calcutta and the Bihar Sanskrit Sanjivan examination. The one is the Madhubani Government aided Sanskrit school and the other the Maharaja's Sanskrit school at Rahika. Stipends are awarded to successful pupils of these schools.

321. Throughout the Division the proportion of boys of a school-going age who are attending school has increased from 14·7 to 15·4. Patna with a percentage of 32·1 again stands first, and Saran with a percentage of 11·3 is again lowest on the list.

322. Taking the Division as a whole, the average annual cost of educating each pupil was Rs. 4-9-4 against Rs. 4-11-1 in the preceding year. The highest average cost per head was as in previous year in Patna (Rs. 6), and the lowest in Darbhanga (Rs. 3-8-4).

323. The following table gives the number of schools for females and the number of pupils attending them in the several districts of the Division during the past two years:—

DISTRICT.	1897-98.		1898-99.	
	Schools.	Pupils.	Schools.	Pupils.
1	2	3	4	5
Patna	103	1,442	82	1,176
Gaya	13	430	9	202
Shahabad	15	399	12	304
Saran	45	714	41	631
Champaran	3	99	4	105
Muzaffarpur	16	395	11	316
Darbhanga	40	663	36	614
Total ...	235	4,142	195	3,348

324. It will be seen that there was a falling off of 40 schools and 794 pupils during the year as compared with the preceding year. Besides these girls' schools, a large number of girls attend boys' schools.

325. The decrease in the number of girls' schools occurs in all the districts, except Champaran. In Patna there was a loss of 21 female schools. The cause of the decrease is due to the same cause as in the case of boys' schools, viz., the exclusion of schools from reward examinations whose teachers were detected attempting to cheat. In many cases the boys' and girls' schools were kept by the same teachers, and collapsed together. The decrease in Gaya is due to two schools in the Jahanabad subdivision having been returned this year as "mixed schools" owing to a reduction in the number of girls in them. The decrease is also due to two mission schools in Tikari town having been transferred to the head of "Private institutions," as they do not now conform to the departmental course. The decrease of three schools in Shahabad is due to the fact that the three girl teachers of the Buxar and Dumraon Municipalities left the school, because their stipends were reduced. The Bankipore female high English aided school for the first time sent up a girl to the last University Entrance Examination, and she passed in the second division: this school also

passed one girl at the Upper and one at the Lower Primary Examinations. These are encouraging results and have given much satisfaction locally.

326. With a view to encourage Muhammadan education in the district of Patna, 15 maktabs on a fixed monthly stipend of Rs. 2 and two on Rs. 5 a month each are maintained in places where they are needed, and free studentships to the extent of 8 per cent. of the roll are granted to Muhammadan pupils in middle schools. The Muhammadans are now seeking for European education in larger number than before. The Magistrate of Patna states that they are not now behind Hindus in point of education.

327. Hitherto I have been writing of public educational institutions: it remains to treat of those who do not conform to the rules of the Educational Department and are reckoned as private institutions. There were 3,000 of these institutions and 30,338 pupils attending them, as the table below shows:—

District.	Number of private institutions.	Number of pupils.
1	2	3
Patna	494	5,395
Gaya	453	4,538
Shahabad	286	3,811
Saran	316	3,074
Champaran	145	1,804
Muzaffarpur	726	5,756
Darbhanga	580	5,960
Total ...	3,000	30,338

328. The total number of special schools rose from 20 in the preceding year to 39 during the year under report. This increase is due generally to the inclusion of Sanskrit *tols* sending pupils to the Title and Bihar Sanskrit Sanjivan, as ordered by the Director of Public Instruction.

XXVII.—DISPENSARIES AND HOSPITALS.

329. The following statement shows the number of dispensaries and hospitals in each district during the year 1898, their income and the average number of patients treated in each:—

District.	Number of dispensaries.	Income from— Government.	District Board.	Municipality.	Subscription.	Total.	In-patients.	Out-patients.	Ratio per cent. for out-door patients to total population.
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.	Rs.	Rs.	Rs.			
Patna ...	12	1,058	15,018	11,750	3,304	31,130	2,561	109,221	6·1
Gaya ...	10	1,915	10,450	757	12,384	25,506	1,727	51,784	2·4
Shahabad ...	10	4,489	2,280	6,931	10,255	23,955	1,418	60,412	2·9
Saran ...	11	867	7,016	4,333	9,844	22,060	1,256	123,752	5·0
Champaran ...	7	2,239	3,189	2,948	15,683	24,059	960	46,700	2·5
Muzaffarpur	5	1,124	4,066	4,831	3,437	13,458	745	56,894	2·09
Darbhanga...	9	5,233	1,110	5,460	22,184	33,987	1,990	105,875	3·7
Total for 1898	64	16,925	43,129	37,010	77,091	1,74,155	10,657	554,638	3·5
Total for 1897	64	15,266	44,822	58,550	75,369	1,94,007	14,452	592,936	3·7

330. No new dispensary was opened during the year under review; but a new hospital with accommodation for in-door patients in place of the former municipal out-door dispensary was built at Laharia Sarai by the liberality of Rai Ganga Prasad Bahadur, and opened on the 2nd March 1899. This hospital has been in hand for some time, and its final completion is a cause for congratulation. A hospital at Laharia Sarai has long been a real want, as the Raj hospital, an excellently managed institution, is nearly four miles distant from the civil station and at the opposite end of a long straggling municipality.

331. The total income of all the dispensaries in the Division amounted to Rs. 1,74,155 against Rs. 1,94,007 in 1897-98, showing a decrease of Rs. 19,852 as compared with the last year. The decrease is shared by all the districts, except Shahabad and Champaran. The decrease in Patna mainly occurred under the heads "Municipal grant" and "Subscriptions" of the Bankipore and Patna City dispensaries, and it is explained that, as there were fewer patients treated and food was cheaper, there was a corresponding shrinkage in the contributions from the municipal funds. In Gaya the decrease is due to a falling off in the income of the Lady Elgin Zanana hospital, which again is due to the fact that in 1897 the hospital received a donation of Rs. 10,000 from the Raja of Maksudpore, whereas no such donation was received in 1898. The decrease is also explained to be due to the absence of any municipal grant to the pilgrim hospital. In Saran there was a decrease in the contribution of the District Board and Municipalities. In Muzaffarpur the decrease occurred under the heads "Government grant," "District Board grant," and "Subscriptions," and in Darbhanga under the latter two heads. No explanation of the decrease has been given.

332. The total numbers of in-and out-patients treated in each district during the past two years are exhibited in the following table:—

District.	Total number treated.					
	In-patients.		Out-patients.		Total.	
	1897.	1898.	1897.	1898.	1897.	1898.
1	2	3	4	5	6	7
Patna ...	3,619	2,561	111,106	109,221	114,725	111,782
Gaya ...	2,699	1,727	56,446	51,784	59,145	53,511
Shahabad ...	1,789	1,418	69,940	60,412	71,729	61,830
Saran ...	1,471	1,256	130,898	123,752	132,369	125,008
Champaran ..	1,375	960	48,353	46,700	49,728	47,660
Muzaffarpur ...	986	745	55,538	56,894	56,524	57,639
Darbhanga ...	2,513	1,990	120,655	105,875	123,168	107,865
Total ...	14,452	10,657	592,936	554,638	607,388	565,295

333. The diminution in the attendance of both in- and out-patients is explained to be partly due to the better general health during the year, and partly to the scares which occurred at the beginning of the year as to plague, poisoning of wells, and so forth; in one or two districts it is said that the floods prevented access to the dispensaries for some weeks. The real and main reason, no doubt, was the extraordinary healthiness of the year.

334. In Patna it is also said that the female patients, living towards the east end of the town, preferred to seek admission into the Duchess of Teck hospital, as reported in the previous year, instead of coming to the Municipal hospitals. From figures supplied to me by the Lady Doctor it appears that during 1898 the number of in-patients was 205, and of out-patients 8,526. The average daily attendance of both in-and out-patients was 32·3; it is gratifying to find that such good progress has been made at this most useful institution.

335. In Gaya the proportion of women and children treated at the dispensaries and hospitals was, on the whole, greater than in the preceding

year. The Lady Elgin Zanana hospital continued under the charge of the lady doctor, Miss Mackenzie, M.D. This institution is growing in popularity and is being more appreciated, so it is said, by the higher classes of women for whom it is intended.

336. As in 1897, no in-door patients were treated at the Nasriganj, Sikraul, and Basawan dispensaries in the district of Shahabad. The lady doctor remained attached to the Arrah dispensary during the year. A lady doctor was also attached to the Dumraon dispensary, which is maintained by the Raj, and managed by Mr. C. Fox under the orders of the Maharani.

337. Of the eleven dispensaries in the district of Saran, three are supported and managed by the Hatwa Raj, and the rest by the District Board and Municipalities. The Raj hospital at Hatwa and the Municipal hospital at Chapra have for years stood very high among the dispensaries of the province in respect of attendance.

338. In Champaran the decrease in the number of patients treated is shared by almost all the dispensaries, and is attributed to the year being freer from fever than usual. There is a European lady doctor attached to the Lady Dufferin hospital at Bettiah, which is maintained by the Bettiah Court of Ward's Estate.

339. In Muzaffarpur, there was a decrease in the number of in-patients in all the dispensaries, which is said to be due to the plague scare and to the floods in September 1898; but these events do not seem to have affected the out-patients who, in this district alone in the whole Division, were more numerous in 1898 than in 1897. Probably the increase of 1,356 persons represents only a reversion to the normal state of things, for it was stated in the report for 1897-98 that many such persons had resorted to the famine dispensaries which were established in 1897.

340. In Darbhanga the large decrease in the number of patients treated is probably due to the same fact, for in 1897 a good many people went to the famine hospitals.

341. There are also a few private dispensaries in this Division, and the statistics of these, so far as furnished by the District Officers, are given in the following statement. These are not included with the other dispensaries in the returns, because they do not submit the statistics required by Government:—

District.	Name of Dispensary.	By whom maintained.	Rank of Medical Officer.	Number of patients treated in 1898.			State of the finances.	
				In-door.	Out-door.	Total.	Receipts.	Expenditure.
1	2	3	4	5	6	7	8	9
							Rs.	Rs.
Gaya ...	Mitter and Bose ...	Rai Bepin Behari Mitter	A third-year scholar of Dacca Medical School, having a practice of 18 years.					
	Rai Shahabans Suri ...	" Pramatho Nath Mittor.		...	136	136	276	256
	Charitable Dispensary	" Pasupati Nath Bose						
Muzaffarpur	Parihar	Maharaja of Darbhanga	Hospital Assistant	..	9,210	9,240	696	696
	Gajraj Hospital, Baghi	Babu Gajraj Sahai ...	Ditto	36	3,4[illegible]6	3,442	2,457	1,464
Darbhanga	Jhanjharpur ...	Maharaja of Darbhanga	Hospital Assistant	...	3,974	3,971	1,031	1,031
	Jalai	Ditto	Ditto	...	16,625	16,625	903	903
	Rohika	Ditto	Ditto	...	12,207	12,207	870	870
	Haya Ghat ...	Ditto	Ditto	...	10,889	10,889	790	790
	Ahins	Ditto	Ditto	...	8,574	8,574	880	880

342. The Magistrate of Darbhanga reports that the Assistant Surgeon in charge of the Darbhanga Raj hospital considers that the figures under the head "Total number of patients treated" shown against Jalai, Rohika, and Naya Ghat dispensaries are not even approximately correct, but no further explanation has been furnished.

343. Endeavours will be made during the current year to obtain more correct statistics from these hospitals: with no wish to interfere with the management, I think it very desirable that Government should know what progress is being made in the slow task of persuading the public to accept European methods of treatment. Bengal is still lamentably behind other provinces of the empire in this respect.

344. In addition to the private institutions mentioned in the above table, there is also a railway dispensary at Samastipur, in the district of Darbhanga, which is managed by the Railway authorities.

* * * * * * *

XXX.—LOCAL SELF-GOVERNMENT INSTITUTIONS.

357. On this subject not much need be said, as it will be fully discussed in the annual reports which deal respectively with municipalities and with District and Local Boards.

* * * * * * *

359. Only three municipalities—Siwan, Bettiah, and Darbhanga—failed to hold the required 12 meetings in the year, but that efficiency does not depend on frequent meetings is shown by the fact that in Bihar, one of the worst managed municipalities in the Division, the Commissioners met on the average once in every 11 days. There appears to have been rather less trouble than formerly in obtaining a quorum, for only 32 meetings were adjourned for that reason against 36 in 1897-98. The best average of attendance is secured by the excellent little township of Jagadispur.

360. The actual receipts and expenditure of the municipalities are set forth in the following table in which opening and closing balances are omitted :—

District.	Name of Municipality.	Receipts.		Expenditure.	
		1897-98.	1898-99.	1897-98.	1898-99.

* Revised figures submitted by the Magistrate.
† The excess expenditure was met from the closing balance of the previous year.

361. The total receipts are greater than those of 1897-98 by Rs. 68,835, and than those of 1896-97 by Rs. 54,423. Out of the 26 municipalities in the table, there has been a falling off of receipts in 13, which is considerable only in Muzaffarpur, where it amounts to Rs. 4,120, and is due to a falling off in dispensary subscriptions and failure to realise the municipal tax on the railway and other buildings. The greatest increase is in Gaya (Rs. 50,422), owing to a loan taken from Government of Rs. 45,000, and to better administration and collections: in Darbhanga the net increase of Rs. 6,383 is due to an increase of assessment in certain wards of the town.

362. Expenditure in the same way has increased with equal steps, having been Rs. 32,529 more than in 1897-98, but less than that of 1896-97 by Rs. 7,350. No less than ten municipalities have spent more than they received, the excess being provided out of the opening balance of the year. Eleven have spent less than in the previous year, the most conspicuous instances being those of Muzaffarpur and Darbhanga, but the cause is not explained in either case. Gaya has surpassed its expenditure in 1897-98 by Rs. 26,310, chiefly owing to the construction of a tramway for the removal of refuse, and Patna has exceeded its expenditure by Rs. 8,096 in introducing a flushing scheme; both towns have also spent considerable sums on measures for the prevention of plague.

363. *Patna.*—In Patna City a paid Secretary, Maulvi Wajid Hossain, Deputy Collector, was appointed in November 1898, with results which have been most satisfactory. A marked improvement in collections and in the general administration of the City has followed his appointment, but much of his success is due to the energetic co-operation of Mr. LeMesurier, the District Magistrate, and of the City Magistrate, Mr. Stephenson: the affairs of the Municipality are now in much better order than they have been for many years, and there is every hope of still further reforms. The Municipal Commissioners of Bihar, on the other hand, have proved obstructive and inefficient, and have given a good deal of trouble.

364. *Gaya.*—In the Sadar Municipality a tramway, the scheme for which was inaugurated by Mr. Savage, the former Magistrate, has been constructed, but the advantage so far is by no means commensurate with the cost, and the scheme is not a success. Little has been done towards the great water-works scheme, and the completion of the project has been postponed till the Greek kalends.

365. *Shahabad.*—The Arrah Municipality is the only Sadar Municipality which is presided over by a non-official Chairman, and so far he has proved himself capable and energetic, but the finances of the town are crippled by the expenses of the water-works, and much that should be done remains undone owing to the demands for the maintenance of that expensive luxury. Bhabhua with small means makes the most of them, and Dumraon, thanks to the liberality of the Maharani, and the well-directed energy of the Chairman, Mr. C. Fox, is being rapidly improved. Sasaram badly requires a uniform system of drainage, but there is little likelihood of this want being supplied at present, though the old town may recover some of its former prosperity when the Moghalserai-Gaya railway, which runs through it, is completed.

366. *Saran.*—The Chapra Municipality has continued to make progress, and though much remains to be done, its condition is not so wretched as it used to be under a non-official Chairman: in Siwan the resources of the Municipality have been carefully husbanded, in order that a main drain may be built; this is a most useful and important work, and will, it is hoped, be carried out in the current year. Revelganj depends greatly on rents from a ferry across the Gogra, and the prosperity of this ferry is seriously threatened by the establishment of a railway ferry some 4 miles up the river at Manjhi.

367. *Champaran.*—In both the municipalities in this district a fillip was given to the conservancy of the town by the fear of plague: it is to be hoped that the effect will be permanent.

368. *Muzaffarpur.*—In the Sadar Municipality Part IX of the Municipal Act was introduced during the year, and the Civil Surgeon, Major H. Brown, is reported to have done specially good service in introducing it. The Vice-Chairmen of the Hajipur and Sitamarhi Municipalities, Maulvi Jawad Hossein and Babu Ambica Pershad, both very useful and efficient officers,

died during the year, and in Muzaffapur the Vice-Chairman, Babu Parmeshwar Narain Mahta, who has long been in bad health, was obliged to take leave. In spite of these drawbacks, the work has, on the whole, been well done everywhere: the collections in Muzaffarpur are always particularly good. In Sitamarhi a series of roadside drains was laid down, which should prove very useful, both in carrying off water and in demarcating the roads: the problem in this Municipality is how to arrange for the conservancy, and control the proceedings of the thousands who attend the great cattle fair every April.

369. *Darbhanga.*—The Sadar Municipality, after years of mismanagement and maladministration, is now in a somewhat better condition: a loan of Rs. 40,000 was taken from Government to provide it with the most ordinary plant and equipment which it entirely lacked, the establishment has been purged by prosecution and dismissal, a Secretary has been appointed, and some order has been introduced. Samastipur, which was established only in 1897-98, is still in its infancy. Madhubani and Roserah are two well-managed little townships: most of the executive work in the latter is done by the Chairman, Mr. C. Robertson, a neighbouring indigo-planter.

* * * * * * *

371. All the District Boards met with sufficient frequency, but some of the Local Boards, *e.g.*, Dinapore, Bihar, Siwan, Patna, Sadar, Aurangabad, and Sitamarhi, held not more than one meeting every two months. However, considering the little work they have to do, I am not prepared to say that these meetings were insufficient. The attendance was nowhere very bad, but the lowest place on the list is taken by the Sadar Local Board, Shahabad. It is a question whether all Sadar Local Boards might not be abolished as has been done in Muzaffarpur.

372. The income and expenditure of all the District Boards during the year 1898-99 and that which preceded it are compared in the following table. The differences in income are not very great, except in Shahabad and in Darbhanga; in the former case, where the increase is Rs. 25,000, no explanation is given, but it was probably due to a contribution from Provincial revenues towards the cost of the Chausa plague camp. The explanation for Darbhanga is given in the margin of the table. Similarly, not much variation from one year to another is found, except in Gaya and Shahabad: in the latter case the cause is the Chausa plague camp, for it will be remembered that this District Board was called on to advance the necessary funds in the first instance, subject to adjustment at a later date In Gaya the excess expenditure was due to the payment during the year of certain outstanding bills which, for particular reasons, had not been paid in the previous year as they should have been:—

Name of District Board.	Income.*		Expenditure.		Remarks.
	1897-98.	1898-99.	1897-98.	1898-99.	
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	
Patna ...	2,59,601	2,54,242	2,57,885	2,47,190	* This does not include the opening balance.
Gaya ...	2,88,721	2,93,243	2,30,922	2,96,510†	† The excess expenditure was met from the closing balance of the previous year.
Shahabad ...	2,45,467	2,70,162	1,98,040	3,02,836†	‡ Includes the amount of refund received from Government on account of famine.
Saran ...	3,18,660	2,62,067	2,57,367	2,54,574	
Champaran ...	1,52,152	1,66,081	1,24,725	1,14,279	
Muzaffarpur ...	2,51,433	2,48,520	1,80,244	3,19,408†	
Darbhanga ...	3,60,994‡	3,14,976	2,69,055	2,67,846	
Total ...	18,77,028	18,09,241	15,18,838	18,02,648	

373. The following statement shows the allotment to, and expenditure by, Local Boards under the heads of Village roads and Sanitation and Medical aid and compares the divisional totals with those in 1897-98. It will be

observed that a considerably larger total was allotted and expended under both heads than was the case in the preceding year: the reason is that during 1897-98 the requirements of the District Boards for famine expenditure compelled them to curtail their allotments to the Local Boards, whereas in the year just past no such necessity existed :—

District.	Name of Local Board.	Village roads.		Sanitation and medical aid.	
		Grant.	Expenditure.	Grant.	Expenditure.
1	2	3	4	5	6
		Rs	Rs.	Rs.	Rs.

	Divisional total for 1898-99.	1,18,387	82,406	41,308	32,352
	Ditto 1897-98	75,337	45,688	26,403	20,766

N.B.—There is no Local Board in Champaran.

* The excess expenditure was met from the surplus balance of the previous year.

374. All District Officers heartily acknowledge the assistance they have received from their District Boards, but they do not find much to say in favour of the Local Boards. Special thanks are given to the planters of North Bihar for their aid in maintaining the communications of the districts in good order.

* * * * * * *

XXXIV.—FAIRS.

388. The most important fair in this Division is the Sonepore fair in Saran, which takes place annually at the full moon of the month of Kartik. As is well known, it is held at the confluence of the Ganges and the Gundak, very close to the Sonepore station on the Bengal and North-Western Railway. Last year the fair was held from the 20th November to the 4th December 1898. As usual the sanitary and the conservancy arrangements were made by the Saran District Board under the supervision of the Magistrate, the District Engineer, the District Superintendent of Police, and the Civil Surgeon. The total expenditure amounted to Rs. 11,861, as compared with Rs. 28,487 in the preceding year. The decrease is chiefly due to the fact that only Rs. 7,000, the balance of the claim, had to be paid on account of compensation for acquiring land near the fair ground, against Rs. 25,243 paid in the previous year. Care was taken to ensure good water-supply, proper sanitation, and the prompt treatment of the sick. There were 11 cases of cholera during the fair: of these, three recovered, three died, and five were discharged. On the whole the health of the fair-goers was good. The number of visitors is said to have been 400,000. I consider this an excessive estimate, although the year was a

prosperous one, and the fair was probably more largely attended than usual. Prizes for cattle were distributed as usual, and a sum of Rs. 132, as against Rs. 145 in 1897-98, was distributed in prizes to 21 persons. There are four other notable fairs in the district of Saran, held at Silhouri, Mehnar, Thaway, and Kochaikote. The usual sanitary and conservancy arrangements were made at these fairs, and there was no outbreak of cholera or of any other epidemic.

389. In Patna the only fair of importance is the Rajgir *méla* held every third year. About 100,000 pilgrims attended last year from many different parts of the province. The assemblage lasted for a month from 15th September to 15th October 1898. Proper sanitary and conservancy arrangements were made, and though there were a few sporadic cases of cholera and diarrhœa, no epidemic occurred.

390. In Gaya the principal fairs are the Chait Sankrant, or Besua *méla* held in April, and the Kartik Purnamashi held in November, at the same time as that of Sonepur. Both these are cattle fairs and are held at Salempur on the eastern bank of the Phalgu river, opposite the town of Gaya. The attendance was larger than in the previous year. Besides these are the Kako fair held at the village of that name in May, the Deokund Falguni and Baisakhi *mélas* held in April and February, the Kartik Chhat and Chait Chhat *mélas* held at Deo in November and March, and the Rafiganj *méla* held in April. The statistics of these fairs are generally the same as furnished last year. The usual sanitary arrangements were made at all these fairs, and the water-supply was adequate. No epidemic disease broke out in any of them.

391. The chief fairs in Shahabad are those held at Barahpur, in the Buxar subdivision, in the months of April 1898 and March 1899. They are essentially cattle and horse fairs, and the number of animals brought for sale at the April fair was 26,289 against 23,343, and at the March fair was 30,293 against 18,700 in the corresponding fairs of the previous year. The Subdivisional Officer states that the cattle, horses and ponies brought to the April fair were not of superior quality, and that the stamp of the cattle at the March fair was not so good as heretofore The attendance at both these fairs was larger that in the preceding year, and the increase is attributed to the increased prosperity of the raiyats following on good harvests. At both these fairs the usual conservancy and police arrangements were made. In connection with the March fair the usual agricultural show organised by the Dumraon Raj was held, at which prizes for live-stock and agricultural produce were awarded. In addition to the above, three other fairs are held for bathing purposes at Buxar, viz., the Khechari, Amawas, and Satuan. In Sasaram the Bhadoni fair was as usual largely attended. In none of these fairs did disease of any kind break out, nor did any sort of disturbance take place.

392. The principal fairs in the district of Champaran are (1) Bettiah, (2) Tribeni, and (3) Arraraj. The Bettiah fair is the most important of the three. It is held on the occasion of the Dusehra festival in October, and lasts for about a fortnight. The average daily attendance during the year was 10,000. The usual sanitary arrangements were made by the Bettiah Municipality. The Tribeni fair is held on the Gundak, where that river issues from Nepal in the month of February, and lasts for four days. The average daily attendance at the fair during the year was 5,000. No special sanitary measures were adopted in this fair, nor were any deemed necessary, as it is held in the bed of the river and amidst jungle. The Arreraj fair is held twice a year, once in February and again in April, and lasts for about a fortnight on each occasion. The average daily gathering at the fair was 5,000 during the year. Orders were issued by the Magistrate to the proprietor to make the requisite sanitary arrangements. There was no outbreak of any disease at these fairs

393. The only important fair in the Muzaffarpur district is the Sri Ram Nanami fair, held at Sitamarhi. This, besides being a large general fair, is also a very important cattle fair. A cattle show was held at this fair and prizes were distributed, but the fair was not largely attended in 1898, owing to the fear of plague regulation. Proper arrangements were, however, made for good water-supply, sanitation, and for the treatment of diseased persons.

394. There are no important fairs in Darbhanga.

* * * * * * *

XXXVII.—STATE OF PUBLIC FEELING AND THE PUBLIC PRESS.

* * * * * * *

401. When the year 1898-99 began, the native mind had already recovered from the disturbance caused by the plague scare, which, rising in Patna about Christmas 1897, spread in a milder form through the remaining districts of the Division. But the effects of that scare and the lessons learned by the people have made a lasting and very marked impression: those who fled in panic fear from Patna, returned after weeks of suffering to find they had been grievously duped and deceived. In the country villages, whither they fled, they suffered great inconvenience and even actual sickness and distress. They were put to much expense; many were robbed; the empty houses of numbers were plundered in their absence, and they gradually awoke to the galling conviction that they had made complete fools of themselves. By this time, too, the conciliatory edicts of Sir Alexander Mackenzie had found their way into the bazars, and it was at last understood that no dragonade was intended.

402. Several District Officers, besides the Magistrate of Patna, have definitely noted the changed demeanour of the people, brought about by the operation of the two causes I have just named. When plague broke out in Calcutta in the summer of 1898, and again towards the end of the year, there was no stampede as there had been at the end of 1897, but on the contrary a a willingness to help, and a confidence and trust in the officials which no one could fail to observe, and which was as encouraging as the previous exhibition of panic and distrust had been dispiriting. Except for a few days in one Muhammadan village of Darbhanga, there has been no opposition to the measures quietly adopted by the local officials, and even there the experience of the people converted suspicion into the most unreserved confidence. In Saran the attitude of the people in the affected villages was beyond praise, and in Patna itself, the centre of all the former fear and distrust, the people co-operated with alacrity and without suspicion. These incidents supply the happiest augury for the future, and it may be hoped that, should plague again appear, it may be met with firmness and constancy.

403. Next to the plague, the incident which roused the greatest feeling, at any rate to the north of the Ganges, was the death of the late Maharaja of Darbhanga, Sir Lachmessar Singh. The news of this sad event was received with genuine sorrow throughout the Division; for the late Maharaja, by the simplicity of his life, by his liberality and by his high position was widely known and as sincerely respected in every district of Bihar.

404. The public press throughout the year has been moderate and sensible, but many of the advertisements are still a disgrace to the management and an insult to the reading public. Only one new newspaper has arisen, viz., a periodical called *Shiksha*, published at Bankipore, which aims at supplying in Bihar the place of the Educational Gazette in Bengal: it deserves and will probably obtain support.

XXXVIII.—CONDUCT OF ZAMINDARS.

405. As a whole for the Division, the relations of landlord and tenant have been harmonious throughout the year: that is to say, there has been little or no outburst of flame, though the eternal dispute smoulders steadily every where, and always will do so as long as both parties, for the pleasure of trying to best each other, love to leave something a little uncertain in their agreements—a prominent feature in native life in Behar.

406. In Patna the magnificent crops of the year, specially in the Ganges *diaras*, tempted the zamindars in places to attempt to get a share of the produce, instead of the cash rents which they are glad enough to take in a bad year, and the natural resistance of the raiyat has caused some friction. In Shahabad matters generally are in a peaceful state. Messrs. Mylne and Burrows, who

hold very large estates, are model zamindars; and for the tenants of the Dumraon estates as well as for the estate, itself the accession of Mr. C. Fox to the management has been an unalloyed blessing. In the Bhabuah subdivision it is said that the petty zamindars are in constant, though not violent, conflict with their tenants, and the result is that most of them are on the verge of ruin. In Saran Mr. Macpherson points out that the relations between landlord and tenant are passing from the patriarchal stage, to the stage of definite contrast and authoritative record. The remark is probably true of every district in the Division, but the process has been accelerated in Saran during the past twelve months by the operations of the cadastral survey, which necessarily brings to a crisis all the humours of the body rural; hence there has been a good deal of soreness and bitterness of feeling, but undoubtedly a better state of health will follow. With regard to particular zamindars nothing need be said here, though they are neatly arranged and labelled in the Collector's report. Only two factories appear in the black list, and in both of these reforms have already begun. In Champaran the great Bettiah Raj is well managed under the Court of Wards, though the conditions of the case make good management a work of exceptional difficulty. Muzaffarpur has no history of oppression to tell, and no serious disputes: it is not unreasonable to claim that this happy condition is largely due to the cadastral survey operations now successfully completed in that district. Of Darbhanga, Mr. Carlyle writes:—

"The death of Maharaja Sir Lachmessar Singh was a great loss to his tenantry: his zamindary is the best managed that I am acquainted with. I hope the present Maharaja will follow in his brother's footsteps."

* * * * *

XXXIX.—GENERAL REMARKS.

407. Little remains to be said that has not been set forth already in previous paragraphs of this report. The year has been one of unusual prosperity with splendid harvests, easy prices, good general health, and an almost unbroken tranquility. Only one cloud—the appearance of plague—hangs in the sky as we look back over the prospect; and even that has its silver lining, for the incidents which arose from the outbreak were wholly encouraging, and augur well for the future. As I write, a nearly monsoon is fertilising the country, while the official forecasts predict a sufficient, though not abundant, rainfall; but with such harvests as have prevailed in 1898-99, and I may add with such low prices, the granaries of Bihar must be filled to repletion, so that under Providence no scarcity need be anticipated in this last year of the 19th century. As regards pestilence, the year has been remarkably healthy so far: plague, it is to be feared, must reappear, but much has been learned during the past year, and it may be hoped that, should it fall upon us, it will be met with fortitude and combated with efficiency.

WEATHER AND CROP REPORT.

For the week ending the 25th December 1899.

Burdwan.—No rain. Weather seasonable. Harvesting of *aman* continues. Sugarcane and *rabi* crops doing well. Fodder and water sufficient. Condition of cattle good. Common rice selling as follows:—

	Srs.	
Sadar	15	per rupee.
Kalna	14	
Katwa	16	
Raniganj	14	

Birbhum.—No rain. Weather very cold. Harvesting of *aman* almost finished. Price of common rice at Sadar and Rampur Hât 15 seers per rupee. Fodder sufficient.

Bankura.—Report not received.

Midnapore.—No rain. Weather seasonable. Prospects of winter rice and *rabi* crops very good. Harvesting of winter rice going on. Cattle-disease reported from Binpur and Garhbeta. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	16	per rupee.
Contai	20	
Tamluk	15	
Ghatal	16	

Hooghly.—No rain. Harvesting of *aman* going on. *Rabi* crops doing well. Common rice sells at 14 seers 6 chitaks per rupee.

Howrah.—No rain. Weather seasonable. Harvesting of *aman* going on. Prospects good. *Rabi* progressing. Fodder and water sufficient. Common rice sells at 13½ seers per rupee.

24-Parganas.—Rainfall nil. Weather seasonable. Prospects of crops good. Harvesting of *aman* continues. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	14	per rupee.
Barasat	17½	
Basirhat	16	
Diamond Harbour	16	

Nadia.—No rain. Weather seasonable. Harvesting of *aman* and *kalai* continues. Prospects of standing crops good. Fodder and water sufficient. Price of common rice stationary.

Murshidabad.—No rain. Weather seasonable. Harvesting of *aman* and *kalai* continues. Pressing of sugarcane going on. Mulberry and indigo doing well. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	15	per rupee.
Jangipur	17	
Kandi	17½	

Jessore.—No rain. Weather seasonable. *Aman* paddy being harvested. *Rabi* crops doing well. No cattle-disease reported. Fodder and water sufficient. Prices of common rice are as follows:—

	Srs. ch.	
Sadar	16	per rupee.
Jhenida	18	
Magura	17	
Narail	$18\frac{3}{16}$	
Bangaon	18	

Khulna.—Rainfall nil. Weather seasonable. Harvesting of early *aman* going on. *Rabi* crops doing well. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	17¾	per rupee.
Bagerhat	16	
Satkhira	18	

Rajshahi.—No rain. Weather seasonable. Prospects of standing crops good. Harvesting of *aman* paddy going on. No cattle-disease reported. Fodder and water available. Common rice sells at 18¾ seers per rupee.

Dinajpur.—Rainfall nil. Weather cold. Standing crops good. No cattle-disease. Fodder and water plentiful. Rice selling at Sadar 17 seers and at Thakurgaon 16 seers per rupee.

Jalpaiguri.—Rainfall nil. Weather cold and hazy. Harvesting of *haimanti* paddy going on. Tobacco doing well. Fodder and water abundant. Common rice sells at 15 seers per rupee.

Darjeeling.—No rain. Weather seasonable. *Hills*—Harvesting of *haimanti* paddy and *kalai* finished; *phophar* and *bara marua* being harvested; wheat, barley, potatoes and *tori* are progressing. *Terai*—*Haimanti* paddy being harvested; potatoes, sugarcane and mustard doing well. Common rice sells as follows:—

	Srs.	
Hills	10	per rupee.
Terai	15	

Bhutta sells at Darjeeling 22 seers and at Kalimpong 24 seers per rupee.

Rangpur.—No rain. Reaping of winter rice and transplantation of tobacco going on. Standing crops progressing well. Common rice selling at 17 seers per rupee. Fodder and water sufficient.

Bogra.—No rain. Harvesting of *aman* going on with full swing. *Rabi* sowings still continuing. Prospects good. Fodder and water sufficient. Common rice selling at 21¼ seers per rupee.

Pabna.—No rain. Weather fine and cool. Harvesting of *aman* nearly finished. Prospects good. Prices unchanged. Fodder and water sufficient.

Dacca.—Rainfall nil. Weather seasonable. Harvesting of *aman* paddy continues. Prospects good. Fodder available. No cattle-disease. Common rice 16 seers per rupee.

Mymensingh.—Rainfall nil. Weather cold. Prospects of crops good. Harvesting of *aman* paddy going on. Common rice sells at 17 to 21 seers per rupee. Fodder and water sufficient.

Faridpur.—No rain. Weather seasonable. State and prospects of crops good. Common rice sells at 16 seers per rupee.

Backergunge.—Rainfall nil. Weather seasonable. Prospects of crops good. Common rice sells at 13½ seers (old) and 16 seers (new) per rupee.

Tippera.—No rain. Weather seasonable. Harvesting of *aman* continues. *Rabi* crops doing well. Average price of common rice 17½ seers per rupee.

Noakhali.—No rain. Prospects of crops good. Lands being ploughed for *rabi* crops. Harvesting of *aman* continues. Cattle-disease reported from Ramganj and Senbag. Fodder and water sufficient. Price of common rice 18 seers per rupee.

Chittagong.—No rain. Prospects of crops good. Sowing of *rabi* crop and reaping of *aman* continue. Water and fodder sufficient. Common rice 16 seers per rupee.

Patna.—Rainfall nil. There was fog on 23rd and 24th. Harvesting of paddy finished. Fodder and water for cattle sufficient. Common rice sells in the Patna Bazar at 18 seers per rupee.

Gaya.—No rain. Paddy harvest continues. *Rabi* and poppy doing well. Common rice selling at 15 seers per rupee.

Shahabad.—No rain. Harvesting of paddy continues. *Rabi* prospering. Sugarcane pressing going on. Weather favourable for poppy. Fodder and water abundant. Rice at Sadar 13 seers per rupee.

Saran.—Rainfall nil. Weather cool. Threshing of paddy going on briskly. Prospects of *rabi* and poppy good. Common rice sells at 15¼ seers and *makai* 15¼ seers per rupee.

Champaran.—Rain now wanted. Prospects continue favourable. Poppy plants promising. Winter rice harvest over. Price of common rice 15½ seers and of maize 17 seers per rupee.

Muzaffarpur.—Rainfall nil. Prospects of crops good. Prices are—Common rice 15 seers, wheat 14 seers, barley 18 seers, *makai* 16½ seers, gram 17½ seers, *rahar* 16½ seers, and *marua* 20 seers per rupee.

Darbhanga.—No rain. Weather cool. Paddy harvesting in progress. *Rabi* doing well. Fodder and water sufficient. Cattle-disease reported from Madhubani. Common rice sells as follows:—

		Srs.	
Sadar	... ...	13½	per rupee.
Samastipur	... ...	17	
Madhubani	... ...	19	

Monghyr.—No rain. Weather cool. Harvesting of winter rice almost finished. Weeding of *rabi* commenced. Prospects hopeful. Rain wanted. Poppy prospects continue fairly good. Common rice sells as follows:—

		Srs.	
Sadar	... ...	14¾	per rupee.
Begusarai	... ...	16	
Jamui	... ...	16	

Bhagalpur.—Report not received.

Purnea.—Rainfall nil Weather seasonable. Harvesting of *aghani* rice still continues. *Rabi* crops promising. Pressing of sugarcane and manufacturing of molasses going on. Agricultural prospects good. Cattle-disease prevails in thana Raniganj. Fodder and water sufficient. Common rice sells as follows:—

		Srs.	
Sadar	... ...	17	per rupee.
Kishanganj	...	18	
Araria	... ...	19	

Malda.—No rain. Weather seasonable. Harvesting and threshing of winter rice going on. *Rabi* crops doing well. Price of rice stationary. Fodder and water sufficient.

Sonthal Parganas.—No rain. Weather seasonable. Harvesting of rice nearly finished. Prospects good. *Rabi* doing well. Cattle-disease in Dumka and Rajmahal. Fodder and water sufficient. Average price of rice 16 seers 10 chitaks and of Indian-corn 20 seers 5 chitaks per rupee.

Cuttack.—Report not received.

Balasore.—Rainfall nil. *Sarad* harvesting and sugarcane pressing continue. *Rabi* crops in flower. Rice sells at 17⅓, 15 and 18 seers per rupee in the interior, Balasore and Bhadrak respectively. Cattle-disease reported from Basudebpur Circle. Fodder and water sufficient.

Angul.—No rain. Weather cold. Harvesting of winter rice over; that of *arhar kulthi*, and sugarcane in progress. Prospects of standing *rabi* and oilseed crop poor. rice selling at 15 and 11 seers per rupee in Angul and Khondmals respectively. and water available. Cattle-disease reported from the interior. [illegible]d.

Puri.—Report not received.

Hazaribagh.—Rainfall nil. Weather seasonable. Prospects of [illegible] *Kulthi* [illegible] 13½ seers Common rice sells at 12½ seers per rupee. [illegible]ficient.

Ranchi.—Rainfall nil. Weather seasonable. Harvesting of *sir* [illegible] *Rabi* crops being reaped; outturn bad. Rice sells at Ranchi 1[illegible] seers and [illegible]. Fodder [illegible] Prices at Sadar per rupee. Cattle-disease reported from several thanas. [illegible] 10 chitaks, and

Palamau.—No rain. Weather seasonable. Sugarcane pr[illegible] need rain. Fodder and water sufficient. Cattle-disease cont[illegible] are—Rice and wheat 12 seers 6 chitaks, barley 13 seers, gram 16 seers 14 chitaks per rupee.

Manbhum.—Rainfall nil. Weather seasonable. Winter rice an average crop. *Rabi* crops promise well. Cattle-disease reported from thanas Purulia, Para, Chandil, and Raghunathpur. Fodder and water sufficient. Average price of common rice at Sadar 14 seers 5 chitaks, and at Gobindpur 13 seers per rupee. Supply sufficient.

Singhbhum.—Rainfall nil. *Rabi* crops need rain. Common rice sells at 15 seers 9 chitaks per rupee.

General Summary.—There was no rain during the week. The harvesting of winter rice is being completed. Sugarcane is being pressed. The prospects of the *rabi* crops are good except in Angul and parts of Chota Nagpur. The poppy crop in Bihar promises well. Cattle are generally in good condition, and fodder is everywhere sufficient.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secretary to the Govt. of Bengal.

REVENUE DEPARTMENT,

The 26th Decembr 1899.

I.

Imports into Calcutta.

	Inches.
The mean pressure of the seven days	30·018
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	30·035
	Hours.
The total number of hours of bright sunshine	46·2
The maximum possible number of hours of sunshine	7·9
The mean temperature of the seven days	62·1
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	67·4
The extreme variation of temperature	28·3
The maximum temperature	78·5
	Miles.
The highest velocity of the wind in one hour	14
	%
The mean relative humidity	70
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	71
	Inches.
The total fall of rain from 17th to 23rd December 1899	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	Nil
The total fall from 1st January to 23rd December 1899	71·95
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65·23

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 8(formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed i the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

△, dew.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,

Calcutta, the 25th December 1899.

G. W. KÜCHLER,

for Meteorological Reporter to the Govt. of India and Director-General of Indian Observatories
